CONSUMER ALERT

COVID-19 Vaccine and Life Insurance

Alaska Division of Insurance Director Lori Wing-Heier urges Alaska consumers to be wary of misinformation spreading online regarding the COVID-19 vaccination and life insurance policies.

In recent days, social media posts have falsely indicated that receiving a COVID-19 vaccine would void a policyholder's life insurance coverage due to the rapid development of these vaccines.

"The three COVID-19 vaccines authorized for use were rigorously tested for safety and were authorized by the FDA," said Director Wing-Heier. "Getting vaccinated is an important part of keeping our communities safe and every Alaskan can be confident that getting their shot will not impact their life insurance benefits."

Policyholders are encouraged to contact their insurer if they have any questions or concerns about the details of their policies. Alaska consumers with concerns about their insurance coverage can contact the division of insurance at insurance@alaska.gov.
