

2021 Annual Report · Alaska Division of Insurance

FROM THE DIRECTOR

The Honorable Mike Dunleavy, Governor of the State of Alaska
Julie Sande, Commissioner of the Department of Commerce, Community, and Economic Development
Members of the Alaska State Legislature

In accordance with Alaska Statute 21.06.110, it gives me great pride to present the 83rd annual report of the Alaska Division of Insurance. This report covers activity from July 1, 2020 to June 30, 2021.

The mission of the Division of Insurance is to regulate the insurance industry to protect Alaskan consumers. We take our charge seriously and strive to provide a state-based regulatory framework that is both protective of our consumers and responsive to national and international trends. The division's experienced and knowledgeable staff enforces the consumer protections provided under Title 21. The staff is also committed to nurturing a strong and competitive market to provide a full spectrum of insurance products in individual and commercial markets.

Fifteen months into the COVID-19 pandemic, the division has settled into the fluidity and constant changes of telework. From sending staff home with laptops, to meeting virtually on a weekly basis, staff have been very adaptable and have learned to utilize the technology available to them. With the efficiencies adopted at the beginning of the pandemic firmly in place, such as transitioning to remote testing for licensure and accepting credit cards and almost all licensing applications electronically, the division continues to fulfill its mission. However, like many employers across the country, the division has experienced high staff turnover as employees grappled with the uncertainty of the pandemic.

The division adapted to changes brought about by passage of two significant pieces of federal legislation which impact the health insurance market. The first is the No Surprises Act (NSA) which passed in December 2020. It establishes new protections for consumers related to surprise billing and transparency in health care. The division is set to assume enforcement authority of specified provisions of the NSA in the coming fiscal year. The second is the American Rescue Plan Act (ARPA) which passed in March 2021. It enhanced premium subsidies and expanded the eligibility for those tax credits in 2021. The division will see additional funding to the reinsurance program as a result.

The Division of Insurance is proud of the positive impact we have had on stabilizing the individual health care market in the state, our consumer protection efforts, and our work to strengthen the competitive insurance market. Though we continue to face many challenges due to Alaska's small population and relative geographic isolation, we are committed to fostering economic growth and improving access to affordable healthcare through a robust insurance market in the state.

We thank the department, the administration, and the legislature for their continued support. We pledge to continue our efforts to make the Alaska insurance market function effectively and to never forget those we serve or our reason for existing: to protect the consumers of Alaska.

Respectfully submitted,

Lori Wing-Heier
Director

Built in 1898 by 35,000 men using only blasting powder and crude tools, the White Pass and Yukon Route linked the port of Skagway with the Klondike region of Yukon Territory for gold-seekers. This 110-mile narrow-gauge railway is an International Historic Civil Engineering Landmark, joining the Statue of Liberty and the Panama Canal in this prestigious honor. Departing from Skagway, the White Pass & Yukon Route is Alaska's most popular shore excursion.

ADVISORY ORGANIZATIONS

Advisory organizations, licensed by the division under AS 21.39.100, are organizations of insurers that assist insurers and rating organizations in rate making by collecting and furnishing loss and loss expense statistics or by submitting recommended rates or loss costs to the division. Advisory organizations include entities referred to elsewhere as statistical agents. Advisory organizations do not make filings on behalf of insurers.

RATING ORGANIZATIONS

Rating organizations, licensed by the division under AS 21.39.060, make filings on behalf of insurers. Rating organizations may file policy forms, manual rules, loss costs, or final rates on behalf of member and subscriber insurers and must allow all insurers that desire to become members to do so. All rating organizations and insurers may cooperate in rate making to the extent permitted under AS 21.39.

JOINT UNDERWRITING ORGANIZATIONS

Joint underwriting organizations are groups of insurers formed to insure a specific risk (e.g. aviation, pollution, or large marine) that would otherwise be too large for one insurer to insure. Each individual insurer assumes a portion of the risk. Joint underwriting organizations are not licensed by the division but are subject to regulation under AS 21.39.110.

ALASKA AUTOMOBILE PLAN

The Alaska Automobile Plan offers insurance for vehicle owners and operators unable to obtain insurance on a voluntary basis. Private passenger auto policy applications are submitted to the Automobile Insurance Plan Service office, a nonprofit management organization for groups administering the residual market, either directly or through an insurance agent, who then assigns the policies to insurers in proportion to each insurer's voluntary market share.

Commercial auto insurance is organized under a servicing carrier program. Currently, all commercial auto assigned risk business is handled by Progressive Casualty Insurance Company and all commercial auto insurers share in the profit or loss of this business based upon each insurer's voluntary market share.

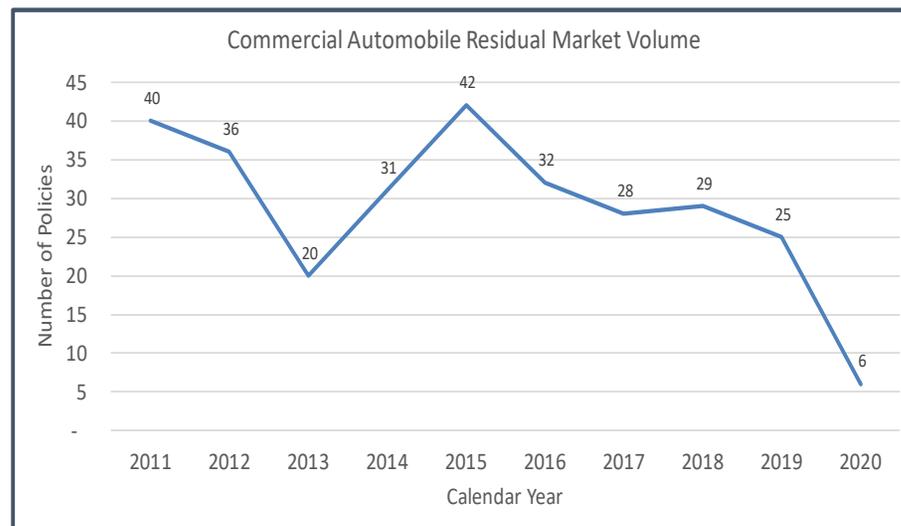

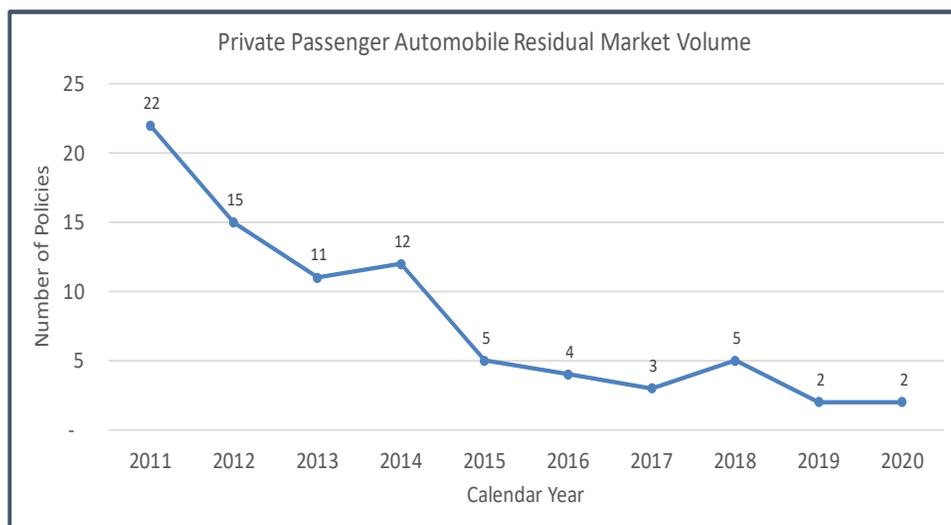

The number of residual market policies in both the Private Passenger and Commercial Auto categories has decreased significantly in the past number of years, from the most

recent peak in 2003, to 2 and 25 respectively in 2019. The long-term depopulation of the residual market is due in large part to insurers' increasing ability to accurately rate potential customers and collect adequate premium for the risk associated with each individual, allowing customers that would previously have been destined for the residual market to now be written in the voluntary market. The long-term downward trend in the Commercial Auto residual market has leveled off in recent years reflecting the reality that certain types of commercial auto risk remain undesirable to insurers due to the hazardous nature of their work.

For 2020, auto categories have decreased significantly in the past number of years, from the most recent peak in 2003, to two and six respectively.

The premiums associated with the 25 Commercial Auto residual market policies represent less than .10% of the total premium for all Commercial Auto policies.

AUTOMOBILE RESIDUAL MARKET VOLUME

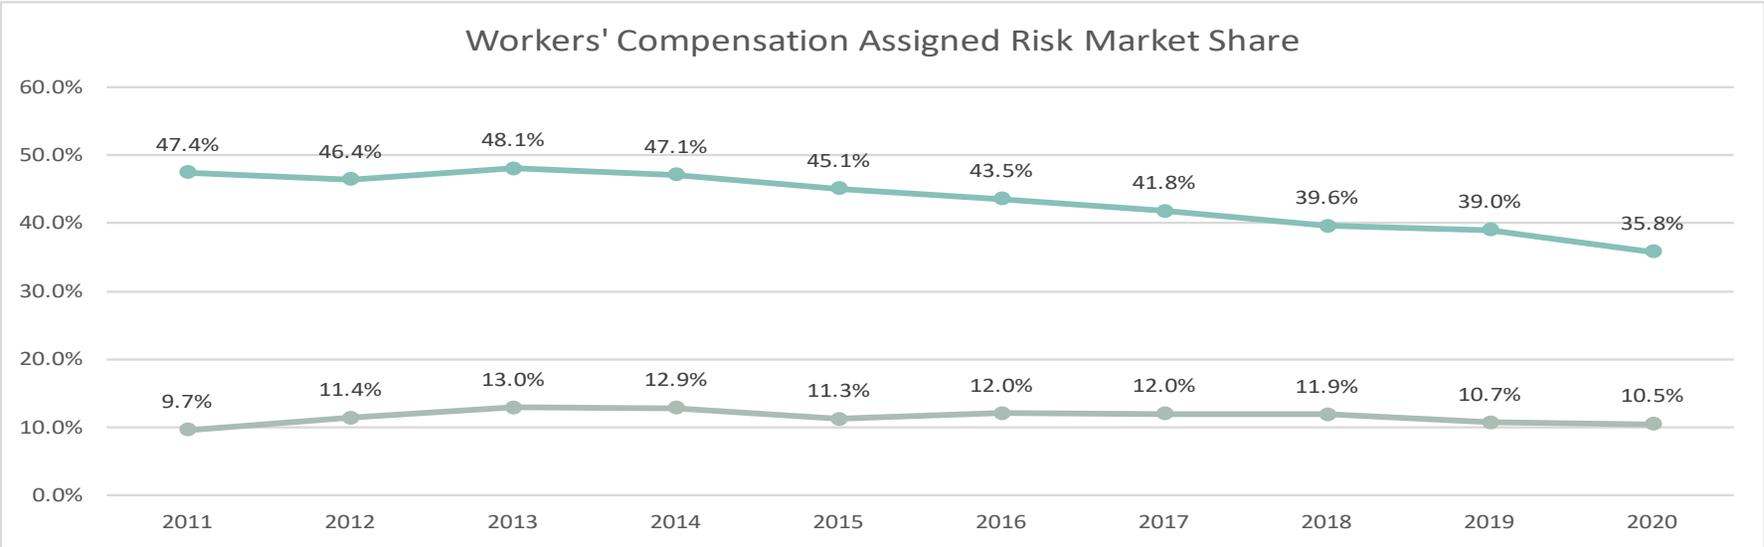

WORKERS' COMPENSATION ASSIGNED RISK PLAN

Employers who are declined coverage by two non-affiliated insurers may obtain insurance through the Workers' Compensation Assigned Risk Plan either by assignment to a servicing carrier or to a direct assignment carrier. From January 1, 2018, through December 31, 2020, the servicing carriers are Alaska National Insurance Company, LM Insurance Corporation, AmGUARD Insurance Company, and Travelers Property Casualty Company of America. American Interstate Insurance Company is a direct assignment carrier. A direct assignment carrier is assigned policies in proportion to its voluntary market share while all other insurers share in the profit or loss of the policies assigned to the servicing carriers based upon each insurer's voluntary market share.

For 2020, the 6,629 assigned risk policies made up 36.0% of all workers' compensation policies. The \$24.3 million in premium was approximately 10.5% of total workers' compensation premium. Of the 6,629 assigned risk policies, 4,691 had premiums less than \$2,500.

The market share of assigned risk policies, by policy count, peaked in 2003, and has generally exhibited a gradual decreasing trend since then. The market share by premium volume has exhibited a somewhat cyclical pattern over that time, reflecting changes in the mix of the size of assigned risk policyholders over time. For example, the decrease from 12.9% premium share in 2014 to 11.3% premium share in 2015 was driven by a decrease in the number of the largest policyholders (by premium size) that are seeking coverage in the assigned risk market. Similarly, the subsequent increases in 2016 were driven by an increase in the number of the largest policyholders.

- The information contained in the Statistical & Financial Data reports is based on calendar year data. It should not be used to make determinations about the adequacy or excessiveness of insurance premiums because:
 - Calendar year data does not match losses with the premiums used to pay the losses. In any calendar year, some of the losses incurred by an insurer in that calendar year will be from policies that were issued in prior years.
 - Incurred loss data includes only amounts that an insurer pays as losses for items such as medical treatment and repairing or replacing damaged property. Loss data in these exhibits does not include other costs associated with settling claims such as attorney fees and adjusting costs. The loss data also does not include an insurer's operating expenses.
- Health business detail and market share are located on pages 44-54.

Basis of Presentation

The Association prepares its financial statements on the modified cash basis of accounting (the accrual basis of accounting was utilized in years prior to 2017).

Under this basis, most revenues are recognized when collected rather than when earned, and expenditures are recognized when paid rather than when incurred. Consequently, some items such as investment income receivable and amounts payable for services to the Association are not presented in the financial statements.
