

Notice of Public Hearing
STATE OF ALASKA
ALASKA OIL AND GAS CONSERVATION COMMISSION

RE: Docket Number: AEO-25-002
Hilcorp Alaska, LLC Application for Revision of Aquifer Exemption Order 2, Milne Point Field, Milne Point Unit, North Slope Borough, Alaska

Hilcorp Alaska, LLC (Hilcorp), by application dated July 18, 2025, requests the Alaska Oil and Gas Conservation Commission (AOGCC) issue an order to revise the Affected Area for the Milne Point Unit Area (MPU) Aquifer Exemption Order 2 to align with AOGCC's Area Injection Order 10D only as to that portion which covers the MPU boundary. Hilcorp's proposed revised Affected Area lies across Alaska's northern coastline within the North Slope Borough.

An aquifer is an underground body of water-saturated rock or sediments that can store and/or transmit water. Regulations allow the United States Environmental Protection Agency (EPA) and the State of Alaska to exempt an aquifer or a portion of an aquifer if it does not currently serve as a source of drinking water, if it will not serve as a source of drinking water in the future, or if it meets other criteria such as the natural presence of hydrocarbons, existing contamination, or elevated dissolved solids concentration. An order granting an exemption allows an underground aquifer or a specified portion of an aquifer to be used for oil- or gas-related production, injection, or disposal purposes in compliance with EPA's requirements under the Safe Drinking Water Act and State of Alaska regulations.

This notice does not contain all the information filed by Hilcorp. To obtain more information, contact the AOGCC's Special Assistant, Samantha Coldiron, at (907) 793-1223 or samantha.coldiron@alaska.gov.
