Subject: City of Seldovia Boundary Extension Consideration
Date: Friday, December 20, 2013 10:01:50 AM

Dear Mr. Chrystal,

I am writing this message in support of the possibility of extending the boundaries of the City of Seldovia to include the area encompassed by the proposal put forth by Mr. Kris Lethin. I have been a property owner of 187 Augustine Ave within the current City of Seldovia boundaries since July 1999 and a resident of Alaska since 1961. During this period it has seemed to me that the city has been slowly dying in place with fewer and fewer people, diminished city services, fewer businesses, etc. Everything seems to have a "For Sale" hanging on the property. During this decline, taxes have steadily increased as the city struggles to maintain it's services. It just doesn't seem like the City of Seldovia can continue to survive unless some changes are made. An extension of the boundaries of the city to include the surrounding area depicted in Mr. Lethin's proposal seems like a logical first step in the process to revive the City of Seldovia. All of the residents who live in the area both inside and outside the current boundaries benefit from the uniqueness of Seldovia and it's services. It only seems fair that all local area property owners share in the cost of maintaining and improving the city's ability to thrive.

With the above in mind, I have registered on the State of Alaska Local Boundary Commission's website to receive notices of meetings so that I might observe/participate in the hearing process. Would you please provide me with the date of the first meeting so that I can arrange my schedule to be available for online participation.

Sincerely,

Roger D. Showers
