

# Shishmaref Strategic Management Plan Community Participation Report: Phase I

Prepared by RIM First People

August 24, 2015

## 1. INTRODUCTION

The Shishmaref Strategic Management Plan (SMP) Community Participation and Input Report Phase I, describes the first phase of community participation and input. The information gathered and expressed in this report is for use in HDR’s development of a Background Planning Report and eventually the Strategic Management Plan for Shishmaref.

## 2. COMMUNITY BACKGROUND SURVEY

Administered by the Shishmaref Community Coordination, the Community Background Survey introduced the Strategic Management Plan project to community members, assessed their knowledge of previous planning activities and helps the Project Team understand the needs and concerns of the community. A copy of the Community Background Survey can be found under Attachment A.

Date of Surveying: May 5<sup>th</sup>, 2015 – July 14<sup>th</sup>, 2015

#### **4. ELDER INTERVIEWS**

In order to ensure the input of the community elders in the Strategic Management Plan process, the Shishmaref Community Coordinator interviewed a selection of Elders from the community. The format of the interviews was meant to prompt a conversation to be recorded or noted. An overview of the respondent’s comments is provided as the information is not as easy to metrically record. A copy of Elder interview questions can be found in Attachment A.

Date of Surveying: May 5<sup>th</sup>, 2015 – July 14<sup>th</sup>, 2015

Number of Respondents: 8

Elder Interview Summary:

*8 Elders were interviewed between the ages of 68 and 79 years old. Most of the elders interviewed were born and raised in Shishmaref. They remember a place with less people and more land, with lots of grass, hills, ponds, where people lived a hard working subsistence lifestyle. They remember it being peaceful, that the community raised the children and the children respected their elders. They report large changes in their weather – how late the ice comes and how the density has changed, how mild the storms and wave action once was and how more sea ice was available to them. Many of them fear that the village won’t exist for their grandchildren’s grandchildren to see or experience. They hope that their ancestors live a traditional lifestyle, are well educated and have respect for each other. One elder wrote, “I want them to be like their ancestors and be proud of who they are”.*

#### **5. CLASSROOM EXERCISE**

Because school was out during the community meeting, we were unable to complete the classroom exercise. A classroom exercise will be completed when school is back in session.

#### **6. COMMUNITY GATHERING**

In addition to introductions and a project overview, the Project Team gathering input to identify and prioritize the community’s top issues and values. A copy of the Community Gathering Agenda, the meeting flyer, meeting graphics and Sign-In sheet can be found under Attachment A.

The 161 participants recorded on the sign in sheet include 67 children and 94 adults. Both children and adults were offered the opportunities to identify their top issues and values. Many of the Community Gathering participants completed the Community Background Survey.

Date of Meeting & Time: July 14<sup>th</sup>, 2015, 1pm

Meeting Location: Shishmaref Community Hall

Method of Advertizing: Meeting Flyer Postings and VHF

Number of Meeting Participants: 161

**a. Community Issues:**

In order to confirm the community’s top issues, a portion of the meeting was devoted to establishing and prioritizing community issues. The Project Team presented a list of issues identified through research, the background planning report and community surveys. Meeting participants were asked to first break into small groups and identify ten additional issues. Once they identified additional issues, they reported them back to the whole group and this was recorded at the front of the room on the issues list. After all reporting was complete, the Project Team asked if there were any other issues to record and recorded those as well. With all issues identified, the Project Team asked participants to individually rank their top three most important issues on the list. Adults were given red dots and the youth were given orange dots to distinguish the votes.

*FINDINGS: According to the independent voting at the Community Gathering, the top three issues identified by meeting participants were (1) the need for sewer and water, (2) the need for a recreation center for youth and a tie for third between (a) lack of housing to meet shortage needs, (b)the need to relocate and (c) the need for jobs and economic opportunity.*

The following findings and data have been synthesized to eliminate duplication or group similar ideas together. Note that each participant was given the opportunity to select their three highest ranking issues, however the total votes shown in the tables below reflect that not all meeting participants voted.

**"The three things I would like to see happen to make Shishmaref an even better place to live would be:"**

We need people to put their differences aside and work together for a better community. Especially with our local organizations

A community center for children and adult activities to be held at. Some place they can learn about the importance of preserving our culture and how people used to all work together long ago.

We need to relocate soon so we don't have to leave our children responsible for moving the village. They need some where safe to live, ~~responsible~~ with no worries of falling in to the ocean.

**"The three things I would like to see happen to make Shishmaref an even better place to live would be:"**

I would want more seawalls for our racks area. Also more big rocks on the lagoon side when flood.

I would like to see a community building for our youth like a pool hall or somewhere with lots of games or computers. That way our youth won't get into trouble such as vandalism all year.

I would like more communication with the elders all year and let them talk to them more frequently like in the school. Also try to get rid of the drugs like marijuana. Turn in all of the drug dealers and the people who always import alcohol for profit.

3. If you grew up in Shishmaref, what was it like here when you were a child?

Shishmaref use to be big island, lots of sand dune hills lots of big hill up and down the coast, now its no more hills, got big hill by Sheltons house slide down long ways it start eroding little bit at a time starting in the 40's when we camp in lagoon side somebody shout Traymay

4. If you were not born in Shishmaref, why did you come here?

that mean ship out there we can't see it from up there so we have to come down here to see it, because of lots of hill you know, all gone now.

5. What was Shishmaref like when you came to live here?

We are lucky we still have that man made pond over there not salty yet, were lucky right now we have water. If the weather holds like right now we will be OK for now for few more years I don't know well see.

6. What did you love about the Shishmaref you remember?

Big nice village lots of grass and big ponds for potable water, long beach and no landing field planes always land on the beach, no good to have north west and southwest winds the bring storms

7. Tell me a story about what you want Shishmaref to be for your great, great grandchildren.

well its pretty hard to say, I don't know for our grand children they might not see the village, the erosion it eat up the land we have. it pretty hard ah to tell the future its so different now we can't even go camping now, ice is different now, we never stay in the village we use to camp all the time. seawall are helping all right but we need more all the way to dump, no storm after the put in rocks

## Elder Interview Questions

### Shishmaref Strategic Management Plan

Interviewer: Below is a list of interview questions for Elders interviews. Please interview at least 3 Elders in the community. We expect that each interview will take about an hour. It would be best if these interviews can be recorded by video or at least voice recorded. Please make sure the Elder is comfortable with being recorded. If interviews are not recorded, please take ample notes.

Elder Age: 80

#### Interview Questions

1. Where were you born? Shishmaref
2. Did you grow up in Shishmaref? eyuk
3. If you grew up in Shishmaref, what was it like here when you were a child?  
real good, sometimes they let us play out when it was little stormy. Just so we don't go no where, just so I can see you, they don't worry about us, just so we listen, now a day kids don't listen, they told us that respect is the first
4. ~~If you were not born in Shishmaref, why did you come here?~~  
thing in our main life, respect the elders, those who are older than you. The greatest respect is for your grandmother because they know more than you, that I found out in life
5. ~~What was Shishmaref like when you came to live here?~~  
Long ago my parents say Shishmaref is just floating they think there is sea water under Shishmaref. We had to make sure shishmaref is still here a few more year or maybe hundred more years. every thing should stay here my mind body and soul
6. What did you love about the Shishmaref you remember? peaceful life No one don't worry seems like, they work work work (subsistence way of life) they look after each other. From both ends it start to sink getting smaller and smaller
7. Tell me a story about what you want Shishmaref to be for your great, great grandchildren.  
I want them to be like ak their ancestors and be proud of who they are, that who we are, we are ineupiak I don't know why our ancestors say we are real people maybe thats the way they see us, they see us as peaceful people from way back

Community Input

Community Gathering

**Strategic Management Plan**  
June 2016

# Shishmaref Community Issues

---

## Lack of Capital Funding

- community requires large investment of money
- limited state and federal funding
- increased competition for funding

# Shishmaref Community Issues

---

## **Lack of Community Infrastructure**

- Lack of Agency Investment in Communities facing Erosion
- Sanitation – water, sewer and landfill
- Water tank is rusting and needs insulation
- Erosion at the landfill
- Landfill is too close to the airport – doesn't meet FAA standards
- Water tanks too small for community needs.
- Existing Seawall needs improvement
- No student transportation
- Population outgrowing school
- City Hall building needs to be replaced.
- Health Clinic needs expansion
- Fire and Rescue building needs to be replaced.

# Shishmaref Community Issues

---

## **Community Morale**

- Community threats (erosion, storm surge, thawing permafrost) are mentally wearing.
- Not enough progress
- Need positive action

# Shishmaref Community Issues

---

## **Lack of Housing/Overcrowding**

- Not enough housing to meet the need – housing shortage
- Homes in need of repair
- No permanent housing for many professionals
- No room for expansion

# Shishmaref Community Issues

## **Jobs and Economic Development**

- Shortage of jobs and economic opportunity
- Need e-commerce opportunities for arts and crafts
- Need expansion of technical training for adults.

# Shishmaref Community Issues

---

## **Lack of Refuge**

- No safe place to be during storms
- Potential evacuation road deemed impractical and expensive
- School is not large enough to protect all residents

# Shishmaref Community Issues

---

## **Other**

- Substance abuse
- More activities for kids and adults
- Need Inuqiaq tradition and language class
- Retaining youth in Shishmeraf
- Alternative energy
- Meals programs for elders
- Elders protect all residents
