### Disasters:

#### Declaration Number

FEMA-4413-AK

### Narratives

#### Disaster Damage:

Since January 2011, FEMA Region X has partnered with the State of Alaska to deploy Risk Mapping, Assessment, and Planning, (Risk MAP) projects with the goal of accurately and comprehensively depicting natural hazard risks throughout Alaska, including the Municipality of Anchorage, the Matanuska-Susitna Borough, and the Kenai Peninsula Borough.

The following information was extracted and summarized from Governor Michael L. Dunleavy, "Request for Major Disaster Declaration, January 3, 2019. On November 30, 2018, at 8:29 am, Alaska Standard Time, a 7.1 magnitude earthquake located seven miles north of Anchorage near Point MacKenzie produced very strong seismic shaking that caused widespread and severe damage primarily within the Municipality of Anchorage, the Matanuska-Susitna Borough, and the Kenai Peninsula Borough. The earthquake, and the subsequent aftershocks, caused damage to major highways and important public roads, bridges, and other transportation infrastructure; undermining of road embankments and railroad tracks, and loss of track base; widespread power, water, and communication disruption; structural collapse and resulting fires to several buildings; and severe damage to private homes, personal property, and businesses.

There were no fatalities during the 2018 Cook Inlet Earthquake and thus far, there have been no earthquake-related fatalities during the recovery. However, there is an ongoing need to respond to the residents still living in a privately-owned mobile home park, where the community water well and potable water distribution system was further damaged during the 2018 Cook Inlet Earthquake. The concentration of the shaking was primarily limited to three jurisdictions; the Municipality of Anchorage, the Matanuska-Susitna Borough, and the Kenai Peninsula Borough. During the following two years, there have been over 12,000 aftershocks recorded by the United States Geological Survey (USGS).

All affected communities are located around the Cook Inlet in Southcentral Alaska. The Municipality of Anchorage is the largest metropolitan area in the State of Alaska with a 2018 population of 295,265. The Matanuska-Susitna Borough is located approximately 30 miles north of Anchorage, encompasses 24,682 square miles (slightly larger than the State of West Virginia) and in 2018 had a population of 105,743. The Kenai Peninsula Borough is located across the Turnagain Arm, about 40 miles south of Anchorage and in 2018 had a population of 58,471.

All affected communities are located around Cook Inlet in Southcentral Alaska. The three contiguous jurisdictions affected by the earthquake comprise over 60 percent of the State's total population and a substantial portion of Alaska's economic base.

The National Weather Service (NWS) National Tsunami Warning Center (NTWC) issued a tsunami warning for the Cook Inlet, including the Municipality of Anchorage, the Matanuska-Susitna Borough, and the southern Kenai Peninsula Borough within minutes of the earthquake.

The cost and scope of the disaster was sufficient to warrant immediate federal disaster assistance;

thus, in consultation with the Federal Emergency Management Agency (FEMA), Governor Walker requested and received an Emergency Declaration (EM-3410-AK) for direct federal assistance on November 30, 2018.

On January 3, 2019, under the provisions of Section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. 5121-5207 (Stafford Act) and implemented by 44 CFR 206.36, Governor Dunleavy requested a Declaration of Major Disaster for the State of Alaska. The Presidential declaration of a major disaster for the State of Alaska (FEMA-4413-DR) was issued by President Trump on January 31, 2019.

**Recovery Needs:**

The State of Alaska/Department of Commerce, Community, and Economic Development (DCCED) has completed the following Impact and Needs Assessment to evaluate the three core areas of recovery - housing, infrastructure, and economic revitalization and to plan disaster relief, recovery, and mitigation activities within the three CDBG-DR eligible jurisdictions; the Municipality of Anchorage, the Matanuska-Susitna Borough, and the Kenai Peninsula Borough.

Due to the severity of the Unmet (Affordable) Housing Needs within the Municipality of Anchorage and the Matanuska-Susitna Borough, the Public Infrastructure and Economic Revitalization Programs have been deleted.

As stated above, there is an ongoing need to respond to the 35 households still living in a privately-owned mobile home park, where the community water well and potable water distribution system was further damaged during the 2018 Cook Inlet Earthquake. The Forest Park Optional Relocation Program was approved by the U.S. Department of Housing and Urban Development on November 1, 2021. This program is being implemented by NeighborWorks Alaska.

Immediately after the 2018 Cook Inlet Earthquake, the State of Alaska provided interim housing assistance. Currently, there is no need for additional interim housing assistance.

According to the Alaska Housing Finance Corporation, Alaska's sole public housing authority, there is no remaining earthquake damage to public housing.

According to the Cook Inlet Housing Authority, there is no remaining earthquake damage to Indian (Alaska Native) Housing.

According to FEMA, as of May 8, 2019, there is no remaining earthquake damage to affordable and market-rate rental housing.

According to the revised FEMA Individual Assistance Program, there were 4,572 owner-occupied housing units with \$12,823,651 in unmet housing need for all types of housing.

There remains an unmet housing need for the 1,000+ pre-earthquake persons experiencing homelessness (the majority are in protected classes) and a severe shortage of affordable housing (5,000+) within the Municipality of Anchorage.

During the needs assessment, within the Municipality of Anchorage, DCCED determined there are several housing units located in areas with overlapping natural hazards, i.e. Seismic Hazard Zone 4, High Ground Failure Susceptibility; the Bootlegger Cove Special Landslide Hazard Area or the Lower Fire Lake Dam Inundation Area, and Special Flood Hazard Areas. There are also four HUD-Assisted housing projects in Seismic Hazard Zone 4, High Ground Failure Susceptibility and the Bootlegger Cove Special Landslide Hazard Area.

During the needs assessment, within the Kenai Peninsula Borough, DCCED determined there are several housing units located in areas with overlapping natural hazards i.e. Unspecified Seismic Hazard Zones, Coastal Erosion, Tsunami Flood Inundation Areas, and Special Flood Hazard Areas.

During the needs assessment, DCCED determined there are numerous housing units requiring additional repair within the Matanuska-Susitna Borough and the Kenai Peninsula Borough.

Activity Description:

DCCED has established a program for the Integration of the Municipality of Anchorage (MOA) Hazard Mitigation Plan and the Comprehensive Land Use Plan, as recommended by FEMA Region X and as required by HUD in the CDBG-MIT program using the FEMA publication "Plan Integration: Linking Local Planning Efforts, July 2015", the FEMA Region X publication "Integrating the Local Natural Hazard Plan into a Community's Comprehensive Plan, a Guidebook for Local Governments", and the HUD publication "Community Resilience Toolkit". This program provides funding to the MOA for salaries and benefits for a Hazard Mitigation Planner and a Land Use Planner. This program also allows for additional engineering studies to be completed. The initial emphasis will be in the low-moderate income neighborhoods of Downtown Anchorage (Census Tract: 1100), North Fairview (Census Tract: 1000), West Mountain View (Census Tract: 600), North Star (Census Tract: 1400) and Government Hill (Census Tract 500). These areas all have overlapping natural hazards, (i.e. Seismic Hazard Zones 4 and 5, High Ground Failure Susceptibility and Very High Gound Failure Susceptibility; Bootlegger Cove Special Landslide Hazard Area; and FEMA designated Special Flood Hazard Areas.)

Location Description:

DCCED/MOA Staff are located in Anchorage, AK 99501.
