Mitigation Needs Assessment:

The Mitigation Needs Assessment summarizes the natural threats and hazards in the Municipality of Anchorage, Matanuska-Susitna Borough, and the Kenai Peninsula Borough. HUD identifies these jurisdictions as "most impacted and distressed" (MID) by the 2018 Cook Inlet Earthquake. The Mitigation Needs Assessment informs the use of the State's CDBG-MIT funds totaling \$2,288,000 to build resilience and mitigation measures into recovery programs and projects. This assessment evaluates the risk of any natural hazard likely to impact the MID jurisdictions, including flooding, wildfires, earthquakes, severe weather (winter), tsunamis, volcanoes, cryosphere hazards, and ground failure/landslides. The Mitigation Needs Assessment also considers future threats to assist the State in minimizing impacts from events through its recovery and mitigation projects and programs. This assessment will aid the State in understanding, mitigating, and effectively responding to current and future hazards. This assessment also identifies and presents solutions to address risks to indispensable services including those supporting continuous operation of critical business and government functions and/or critical to human health and safety, and/or economic security.

Proposed Use of Funds:

The CDBG-MIT programs were selected in coordination with the leadership of the three boroughs eligible for CDBG-MIT funding. Funds will be awarded directly to the implementing agency within each borough as follows.

Overall Progress Narrative:

During this reporting period, progress occurred across multiple MIT subrecipient agreements. For the Transition to National Spatial Reference System (19-CDBGMIT-01), DCRA awaited comments on the Grant Agreement and Pre-Negotiation Letter while those documents were under internal review by MOA leadership. Following receipt of comments, DCRA updated the

Scope of Work, budget line items, and project dates within DCRA Grants. The agreement remained pending issuance of the Negotiation Letter to the MOA Mayor and Municipal Manager, as well as Assembly approval. For the Tsunami Alert System (19-CDBGMIT-02) and the Home Flood Mitigation Grant Program (19-CDBGMIT-03), both projects were pending submission of Substantial Amendment #1 to HUD.
