Community Decision-Making Continuum

Community Understanding of Risk
- Hazard Identification
- Science/Engineering Studies + Local Observation
- Integration of Local/Indigenous Knowledge with Western Science
- Risk Assessments
- Recommendations

Planning: Local Decisions + Actions to Reduce Risk
- Strategic Community Planning
- Village Inter-Agency Planning Groups
- Identification + Prioritization of Strategic Actions
- Identification of Resources

Implementation: Working toward Resilience
- Implementation of Strategic Actions (Protect-in-Place, Migrate Infrastructure, Relocation)
- Continuation of Village Inter-Agency Planning Groups to support implementation
