### Helping Newtok with the Relocation to Mertarvik

Hello,

This summer, the military Innovative Readiness Training Program (IRTP) will set up a base camp at Mertarvik. The IRTP are going to help Newtok with the relocation to Mertarvik by helping to build roads, an evacuation shelter, and an airport. They will come back each summer for the next five years to help.

The week of June 20, a very large boat will come up the Ninglick River with the materials the IRTP needs to set up their base camp. This is a picture of what the boat looks like.

The IRT will be working on the base camp from August 1-30, 2009 this summer.

The IRTP can provide training to the Newtok community on topics such as small engine repair. If you can think of other things you would like to be trained on, please let Stanley Tom know.

Because some equipment will be used to set up the base camp, please don't get too close while work is being done. We don't want anyone to get hurt.

We look forward to meeting the Village of Newtok and being your partner during the relocation process!

Thank you!
