I am writing to you in opposition to the City Of Soldotna Annexation, The City's Water and Sewer Systems are maxed out at this time, so the City will not be providing these Services to me. When I'm Annexed the only thing I will get is Police Service, Which I have now by the State Police. The City will have to hire more police to cover the Annexed area which will probably cost more than the few taxes they will receive from the few businesses they will get in the Annexation. I have been told that once I am Annexed that the City can pass a ordinance that you can't live in your place of Business and I will be grandfathered in ,but when I go to sell my Business the House above it will be worthless. That will Devalue my place by 150,000.00 dollars. Does this sound like a Government for the people. Please stop this action until the City can get the people's support and provide the services they should .
Thanks for your time on this.
