Comment:

Local government is always the best government. While there are area wide needs, there are also area wide taxes. The taxes collected for local needs should go to local needs. Only those who reside locally can fully understand the needs of the local community. The federal government should concern themselves with national concerns and not with exclusive concerns of Alaska. The state of Alaska should concern themselves with statewide concerns and not the exclusive concerns of the Kenai Peninsula. The Kenai Peninsula borough should concern itself with Peninsula wide concerns and not with the exclusive concerns of Nikiski. Our exclusively local concerns should be decided on by myself and my neighbors.
