My name is Crystal Clark. I am a resident from
Etivak, Alaska

I am opposed to the city of Dillingham's annexation petition of the waters of Nushagak Bay.

I am strongly opposed to the short comment period ending July 15, 2016. Many are too busy subsistence harvesting and gathering for winter to take time away to make informed comments.

The fish tax should be shared by all communities in the area and not benefit only one community.
