

## Motions

I, \_\_\_\_\_, move that the Local Boundary Commission determine that a petition to incorporate a borough formed with boundaries comparable to those of the Southwest Region School District or the Dillingham Census Area will likely promote the standards established under the Constitution of the State of Alaska, [AS 29.04](#), [AS 29.05](#), [AS 29.06](#), or chapter 3 AAC 110. Filing such a petition is in the best interests of the state because it would give the LBC a fuller array of information and options, given the complex history of petitions to the LBC from this region over the years, the numerous feasibility studies undertaken, and the competing petitions now before the commission. I further move that the Local Boundary Commission designate and direct the Division of Community and Regional Affairs to prepare a petition to incorporate a borough formed with boundaries comparable to the Southwest Region School District or the Dillingham Census Area.

DRAFT

## Petition Consolidation

I, \_\_\_\_\_, move that as provided under 3 AAC [110.430](#), the commission postpone proceedings on the Dillingham annexation petition that was accepted for filing on June 12, 2015 to allow concurrent consideration and action on the Manokotak annexation petition. The Manokotak annexation petition pertains to some or all the same boundaries. The Manokotak annexation petition was received on September 1, 2015, within 90 days of the date of the first publication of notice of the earlier Dillingham annexation petition.

DRAFT

*If the commission directs the Division of Community and Regional Affairs to prepare a petition to incorporate a borough formed by boundaries comparable to those of the Southwest Region School District or the Dillingham Census Area:*

I, \_\_\_\_\_, move that as provided under 3 AAC [110.430](#), the commission postpone proceedings on the Dillingham annexation petition that was accepted for filing on June 12, 2015 to allow concurrent consideration and action on a petition incorporate a borough roughly comprising the borders of the Southwest Region School District or the Dillingham Census Area. That borough incorporation petition pertains to some or all the same boundaries as the Dillingham annexation petition. The borough incorporation petition was received on September 14, 2015, within 90 days of the date of the first publication of notice of the earlier Dillingham annexation petition. If this motion is approved, and the motion to consolidate the Manokotak petition is approved, that means that the Dillingham annexation petition, the Manokotak annexation petition, and the borough incorporation petition would be consolidated and have the same schedule, in order to have a fuller array of information and options before the Local Boundary Commission. The Dillingham annexation petition proceedings would be postponed to allow concurrent consideration of all three petitions.
