INTRODUCTION

Every two months, the Division of Community and Regional Affairs (DCRA) publishes *Lien Watch*, a report of liens held against public service entities in small communities. The purpose of *Lien Watch* is to identify community entities struggling with cash flow or management issues, as indicated by active tax liens or court-related debts. DCRA uses this report to identify communities that may need technical assistance to build local utility management capacity in rural Alaska. All records in this report are in the public domain and may be found at: <http://dnr.alaska.gov/ssd/recoff/searchRO.cfm>.

This report lists unresolved state and federal tax liens and court judgments levied against municipal, tribal, and utility entities in communities with less than 2,500 people. *Lien Watch* includes active lien items within the timeframe of each report period. Information in this report is based on public domain lien data from March 1, 2014 to April 30, 2014, extracted from the records of the Alaska Department of Natural Resources (DNR) Recorder's Office. A single organization may have lien items filed under multiple names. For this report, liens have been standardized under the most representative name. Liens unrelated to public service entities are excluded, as are liens issued to independent subsidiaries of tribal or community entities or for-profit private corporations. To verify the validity of a particular lien, contact the entity listed or the agency that filed the document.

DATA LIMITATIONS

The data collected from the DNR Recorder's Office have specific limitations. Data only represent debts for which liens have been issued, and the recording of claims and releases may not be current due to reporting or recording delays. Such delays may lead to significant differences between the amount of reported and actual lien-related debt load.

The search capacity of the Recorder's Office database is limited. Keyword searches are limited to matches that begin with the term entered, while wildcard searches are prohibited. Consequently, records that include misspellings, have an unexpected word order, or lack information, may be unintentionally omitted from this report. Finally, real property liens are omitted from this report. Since 2010, DCRA has received data of new filings of liens and their releases from the DNR Recorder's Office.

LIENS ISSUED AND RELEASED

The records compiled through April 30, 2014, list 236 individual active lien items connected with 46 city, tribal, and utility entities in 46 communities across Alaska. Current lien totals for an entity range from \$244 to \$2,688,345, with a median entity debt load of \$30,683 and an average of \$158,454. Twenty-five (54 percent) of these 46 lien-holding entities owe more than \$20,000. Eight entities (17 percent) owe more than \$100,000, and three entities (7 percent) owe more than \$1 million.

Figure 1. Number of Active Liens over Time

The number of new lien items recorded in March and April of 2014, is 15, which is 11 more than those that were recorded during the same period in 2013. The number of liens released in March and April of 2014 is 31, which is 27 more than those that were released during the same period in 2013. Figure 1 shows the change in the number of active liens since May 2008. The following three tables list liens issued, liens released, and all outstanding liens as of April 30, 2014.
