# LIEN WATCH: A Review of Small Community Liens

NOVEMBER-DECEMBER 2011

---

## INTRODUCTION

---

Every two months, the Division of Community and Regional Affairs' (DCRA) Rural Utility Business Advisor (RUBA) program publishes *Lien Watch*, a report of liens held against public service entities in small communities. The purpose of *Lien Watch* is to identify community entities struggling with cash flow or management issues, as indicated by active tax liens or court-related debts. DCRA uses this report to identify communities that may need technical assistance to build local utility management capacity in rural Alaska. All records in this report are in the public domain and may be found at: <http://dnr.alaska.gov/ssd/recoff/search.cfm>.

This report lists unresolved state and federal tax liens and court judgments levied against municipal, tribal, and utility entities in communities with less than 2,500 persons, within the timeframe of the report period. The information in this report is based on public domain lien data dating from November 1, 2011, to December 31, 2011, extracted from the records of the Alaska Department of Natural Resources (DNR) Recorder's Office. A single organization may have lien items filed under multiple names. For this report, liens have been standardized under the most representative name. Liens unrelated to public-service entities are excluded. Liens issued to independent subsidiaries of tribal or community entities or for-profit private corporations are also excluded. To verify the validity of a particular lien, contact the entity listed or the agency that filed the document.

---

## DATA LIMITATIONS

---

The Recorder's Office data have specific lien-related limitations. Data only represent debts for which liens have been issued. The recording of liens or their release may not be current due to reporting or recording delays. These delays can lead to significant differences between the amount of reported and actual lien-related debt.

The search feature of the Recorder's Office database is limited. Keyword searches find only matches that begin with the term entered. Wildcard searches are prohibited. Consequently, records that include

misspellings, have an unexpected word order, or lack information may be unintentionally omitted from this report. Finally, real property liens are not included within this report. Since 2010, DCRA has received data of new filings of liens and their releases from DNR Recorder’s Office.

## LIENS CLAIMED AND RELEASED

The records compiled through December 31, 2011, list 308 individual active lien items that were connected with 43 city, tribal and utility entities in 43 communities across Alaska. Liens range from \$112 to \$2,694,671 with a median debt load of \$29,876 and an average of \$169,227. The majority (58%) of these lien-holding entities owed at least \$20,000. Twelve of the 43 entities (28%) owed more than \$100,000, and three owed more than \$1 million.

The number of new lien items recorded in November and December of 2011 was 14, comparable to the same period in 2010, in which 13 new lien items were recorded. The number of lien item releases recorded in November/December of 2011 was 12, compared with 11 liens released in November/December of 2010. Figure 1 shows the change in the number of active liens since 2008. The following three tables list all of the liens issued and released in the November/December 2011 period and the comprehensive summary of outstanding liens.

- **Hospital's, Physician's, and Nurse's Lien** - An operator of a hospital in the state, a licensed special nurse in a hospital, or a physician who furnishes service to a person who has a traumatic injury has a lien upon any sum awarded to the injured person by judgment, settlement, or compromise.
