# Made in Alaska – Buy the Bear!

Whether you are a visitor, a gift shop buyer, or a local or out-of-state consumer, be sure to **Buy the Bear!** You know you're buying a real Alaska product when you see the Made in Alaska emblem featuring a mother bear with a cub. From artwork to necklaces, craft brew to body care products, if it bears the label it's a certified Alaska product!

Use this directory to connect with local Alaska businesses offering body care products that have been handcrafted or manufactured in Alaska using local materials whenever possible. The information provided in this directory is organized by Alaska Region and then alphabetical by business name. It is current as of February 15, 2018. Additional information about the body care product producers must be verified and obtained by contacting the permit holder directly. Learn more about the Made in Alaska program at **MadeinAlaska.org**.
