### National Petroleum Reserve-Alaska (NPR-A) Map

## NPR-A Impact Mitigation Program History and Overview

As authorized December 12, 1980, by 42 U.S.C. Chapter 78, Sections 6501-6508, the Federal Government, through the Department of Interior, Bureau of Land Management, allows for the exploration and development of oil and gas within the National Petroleum Reserve-Alaska (NPR-A).

Although the federal government manages the NPR-A, Section 6506a, or former 6508, of the federal statute requires that 50 percent of the money received by the federal government from the “sales, rentals, bonuses, and royalties on leases issued...” be paid to the State of Alaska. Leases awarded by the federal government are usually for 10 years and require that each company holding a lease pay a decreasing annual amount.

In accordance with Section 6506a, or former 42 U.S.C. 6508, the monies are to be used by “the State of Alaska for (a) planning, (b) construction, maintenance, and operation of essential public facilities, and (c) other necessary provisions of public service: *Provided further*, that in the allocation of such funds, the State shall give priority to use by subdivisions of the State most directly or severely impacted by development of oil and gas leased under this section.”

The State of Alaska began receiving payments in State fiscal year (FY) 1983. To segregate these monies, in SLA 1984, Chapter 94, the Alaska Legislature enacted AS 37.05.530 (a) and (b). This statute established the National Petroleum Reserve Alaska Special Revenue Fund. Henceforth, NPR-A payments were to be deposited within the NPR-A Fund and used to support:

1. NPR-A Impact Mitigation grants to communities in accordance with AS 37.05.530 (c) through (e) which established the NPR-A Impact Mitigation Program. Under this program, communities may apply for assistance, i.e. grants, to fund projects that fall within federal and state guidelines. As required, priority is given to those communities most directly or severely impacted by oil and gas development.
2. Of the remaining lease payments not needed to fund NPR-A Impact Mitigation grants, 25 percent is transferred to the Alaska Permanent Fund per AS 37.05.530(g).
3. Of the remaining payments not needed to fund NPR-A Impact Mitigation grants, one-half percent is transferred to the Public-School Trust Fund per AS 37.05.530(g).
4. Up to the entire amount of the remaining payments may be appropriated by the Legislature to the Power Cost Equalization and Rural Electric Capitalization Fund per AS 37.05.530(g).
5. Any remaining payments are then transferred to the State’s General Fund per AS 37.05.530(g).

Prior to 1984, half of the total NPR-A funds received by the State were deposited in the Alaska Permanent Fund, one-half percent in the Public-School Trust Fund, and the remainder was deposited in the General Fund and used to fund various legislative appropriations. In 1985, the North Slope Borough, Wainwright, and Barrow filed suit alleging that the State's method of allocating the NPR-A payments conflicted with federal law. The decision in *Barrow v. State*, No. 1JU-85-2634, established that: (1) the State's distribution of NPR-A revenue had been incorrect and it did conflict with federal requirements; (2) the State needed to "reconstitute" the NPR-A Fund in part; and (3) henceforth, the State would allow first priority to the municipalities and/or communities most directly impacted by the NPR-A development.

As a result of the litigation, the NPR-A Fund was reconciled and reconstituted as of October 1987. It was also reconciled and reconstituted again as of September 1990, and again as of June 1992. Multiple reconciliations between actual NPR-A payments received and cash available in the NPR-A Fund were necessary because (1) the NPR-A payments (deposited in the NPR-A Fund) were being used to fund *two* programs. In addition to funding the NPR-A Impact Mitigation Program the payments were also funding grants awarded by the Department of Administration under the Municipal Grants Program; and (2) in FY92, AS 37.05.530 was amended and required a recalculation of available cash in the NPR-A Fund annually back to FY87.

SLA 1985, Chapter 96; SLA 1986, Chapter 128; SLA 1988, Chapter 173; and SLA 1990, Chapter 208 appropriated, repealed, and reappropriated the grants funded from NPR-A payments, but administered under the Municipal Grants Program by the Department of Administration. These projects and their grants are not reflected in this report. This report only addresses the grants that were/are funded from NPR-A payments *and* awarded under the NPR-A Impact Mitigation Program.

FY87 was the first year of the actual NPR-A Impact Mitigation Grant Program. The general procedure remains the same today as in 1987. Periodically, the department is notified by the U.S. Department of Interior, Bureau of Land Management (BLM) that the federal government will be offering tracts of land for lease in the National Petroleum Reserve-Alaska. The department then provides public notice that funding may become available for NPR-A Impact Mitigation grants and requests that communities submit project proposals (grant applications). The department establishes a review committee, makes award recommendations, and if both NPR-A lease revenue and a legislative appropriation is received, the department awards NPR-A Impact Mitigation grants to specific communities for specific projects.

The BLM receives payments from the NPR-A leases in two installments each year. The first installment includes payments received between April 1 and September 30; the second installment includes payments received between October 1 and March 31. BLM forwards fifty percent of the amount received to the State of Alaska in two installments, usually received by December 31 and May 31.

Each year, the department requests a legislative capital appropriation for that year's anticipated 50 percent. The appropriation and subsequent revenue are then used to fund NPR-A grants according to AS 37.05.530.

Aggregate information for the initial years of the NPR-A Impact Mitigation Program is reflected below. Project-specific information is provided beginning on page six of this report.

| <b>SLA and State Fiscal Year (FY)</b> | <b># of Projects and Communities</b> | <b>\$ Awarded</b>   |
|---------------------------------------|--------------------------------------|---------------------|
| FY 87                                 | 12 Projects<br>5 Communities         | \$7,240,237         |
| FY 88                                 | 0                                    | 0                   |
| FY 89                                 | 1 Project<br>1 Community             | \$937,000           |
| FY 90                                 | 8 Projects<br>4 Communities          | \$836,745           |
| FY 91                                 | 7 Projects<br>5 Communities          | \$590,000           |
| FY 92                                 | 7 Projects<br>4 Communities          | \$367,378           |
| FY 93                                 | 4 Projects<br>4 Communities          | \$447,126           |
| FY 94                                 | 4 Projects<br>4 Communities          | \$18,941            |
| FY 95                                 | 4 Projects<br>4 Communities          | \$25,538            |
| FY96 through FY99                     | 0                                    | 0                   |
| <b>Total</b>                          |                                      | <b>\$10,462,965</b> |

By FY96, all existing NPR-A leases had been terminated, relinquished, or had expired. The BLM notified the Department that additional NPR-A payments would not be forthcoming, therefore; the NPR-A Impact Mitigation Program was inactive from FY96 through FY99.

The NPR-A Impact Mitigation Program remained inactive until the early part of calendar year 1999. At that time the Department was notified that BLM would be entering into new 10-year (approximate) leases in May 1999, on tracts of land in the NE planning area of the National Petroleum Reserve–Alaska.

Effective October 16, 2003, the NPR-A program regulations were amended to change the date by which grant applications must be postmarked (for receipt by the department) from September 15 annually to November 15 annually. This was the only change made to the regulations.

In 2006, the provisions of the NPR-A Special Revenue Fund established under AS 37.05.530 were amended to include amounts received by the State under 42 U.S.C. 6506 a (1) (formerly 42 U.S.C. 6508), and not appropriated for grants to impacted municipalities, shall be deposited at the end of each fiscal year as follows:

- 25 percent of the gross amount of receipts to the principal of the Alaska Permanent Fund;
- Five percent of the gross amount of receipts to the Public-School Trust Fund;
- Any remaining dollars after these deposits may be appropriated by the legislature to the Power Cost Equalization and Rural Electric Capitalization Fund;

- Any remaining cash balance shall lapse into the state general fund for use by the state for planning, construction, operation and maintenance of essential public facilities, and other necessary public purposes.

Additionally, the amendment allows for a “catch-up” mechanism which would allow any amounts left over in future years following payment of grants and deposits to the Alaska Permanent Fund and the Public-School Trust Fund to pool into it. Those amounts will be allocated to the Permanent Fund and the Public-School Trust Fund in an amount equal to the deficiencies in past years when the full gross amount could not be deposited.

The amendment also specifies that in making appropriations from the NPR-A Special Revenue Fund, the Legislature shall identify the grants for activities, services, and facilities as capital appropriation items and shall specify amounts for each.

Aggregate information since 1999, is reflected on the page six of this report. Project specific information is provided immediately thereafter.

|--|--|---------------------|---|---------------------|
| Atqasuk<br>00-NPRA-4-16                | Community Center<br>Maintenance & Operations                               | \$90,000            | Maintenance and operation of center related to expected long-term impacts of NPR-A.   | Closed<br>10/01     |
| Atqasuk<br>00-NPRA-4-15                | Basic Local Government<br>Operations                                       | 109,000             | Fund salaries for new positions and increase hours for current positions from part-time to full-time.   | Closed<br>04/02     |
| Barrow<br>00-NPRA-4-11                 | Public Facilities - Maintenance<br>& Operations                            | 650,000             | Fund staff and other expenses to operate city recreation facilities.  | Closed<br>08/02     |
| Barrow<br>00-NPRA-4-12                 | Renovation/Upgrade of<br>Barrow Teen Center and<br>Community Center        | 1,000,000           | The facilities are needed due to increase in NPR-A activities. The City's ability to absorb this impact through existing facilities and services is limited.  | Closed<br>09/02     |
| Barrow<br>00-NPRA-4-13                 | Design, Construct & Purchase<br>Retractable Boat Ramp                      | 1,000,000           | NPR-A uplands development will displace subsistence users from some areas. A boat ramp will provide subsistence hunters better access to the ocean.   | Closed<br>12/07     |
| Barrow<br>00-NPRA-4-14                 | Maintenance Building<br>Construction                                       | 630,000             | Need for warm storage can be linked to mitigation of foreseeable NPR-A impacts.   | Closed<br>09/07     |
| North Slope<br>Borough<br>00-NPRA-4-01 | Village Power Plant/<br>Electrical Distribution & Waste Heat<br>Conversion | 10,069,367          | NPR-A development will impact power generation & distribution. Upgraded power production and distribution mitigates population growth impacts and increasing 'westernization' of local lifestyles.  | Closed<br>9/08      |
| North Slope<br>Borough<br>00-NPRA-4-02 | All Infrastructures Services<br>Study                                      | 1,500,000           | Studies will identify additional and continuing effects of NPR-A development on public facilities and the provision of public services. Impacts known or anticipated can be supplemented with new data and forecasts.   | Closed<br>6/08      |
| North Slope<br>Borough<br>00-NPRA-4-03 | Nuiqsut Above Ground Service<br>Connections                                | 2,100,000           | A total of 124 residential, commercial, and public facilities were connected to water and sewer service.  | Closed<br>03/03     |
| North Slope<br>Borough<br>00-NPRA-4-04 | Nuiqsut Police Officer for 3<br>years                                      | 100,000             | The community is presently impacted by NPR-A development. An additional officer will help the city address NPR-A related impacts.   | Closed<br>09/01     |
| North Slope<br>Borough<br>00-NPRA-4-05 | Wainwright Community Center<br>Renovations                                 | 191,283             | Provides improved facilities for locals who have family members working away from home in NPR-A related employment. Improved opportunity for social and community support.  | Closed<br>06/03     |
| North Slope<br>Borough<br>00-NPRA-4-06 | Fire Department Equipment &<br>Training                                    | 1,114,150           | Provides an essential public service. Current firefighting equipment is old and outdated; existing fire trucks are not equipped to handle the new city water system. Need is linked to anticipated growth in service demand caused by NPR-A development.          | Closed<br>06/03     |
| North Slope<br>Borough<br>00-NPRA-4-07 | Harvest Monitoring:<br>Subsistence Documentation                           | 100,000             | Subsistence hunting is a culturally important activity. The need for harvest monitoring is clearly related to the foreseeable impacts of oil/gas development. Establishment of baseline data will permit more accurate monitoring of oil/gas impacts on wildlife. | Closed<br>04/02     |
| North Slope<br>Borough<br>00-NPRA-4-08 | Survey & Inventory Fish<br>Resources in Lakes & Streams<br>of Eastern NPRA | 150,000             | The need for the inventory is clearly related to the foreseeable impacts of oil/gas development. Establishment of baseline data will permit more accurate monitoring of oil/gas impacts on wildlife.  | Closed<br>01/04     |
| <b>Sub-Total (Page 1)</b>              |  | <b>\$18,803,800</b> |   |                     |

|---|--|---------------------|---|---------------------|
| North Slope<br>Borough<br>00-NPRA-4-09  | Tracking & Analysis of<br>Teshekpuk Lake Caribou<br>Herd | \$150,000           | The need for the analysis is clearly related to the foreseeable impacts of oil/gas development. Establishment of baseline data will permit more accurate monitoring of oil and gas impacts on wildlife.   | Closed<br>12/02     |
| North Slope<br>Borough<br>00-NPRA-4-10  | Waterfowl Surveys  | 150,000             | The need for the survey is clearly related to the foreseeable impacts of oil/gas development. Establishment of baseline data will permit more accurate monitoring of impact on wildlife.  | Closed<br>11/01     |
| North Slope<br>Borough<br>00-NPRA-4-25  | Nuiqsut Natural Gas<br>Piping Distribution               | 3,800,000           | This grant and 00-NPRA-4-26 were originally awarded to Nuiqsut who chose in 10/01 to have the NSB administer both projects on their behalf. NPR-A development will create a higher demand for fuel use. Impacts include larger volumes and more frequent shipping, handling, air pollution, fuel spills and leaks, and expanded fuel storage needs.   | Closed<br>8/10      |
| North Slope<br>Borough<br>00-NPRA-4-26  | Nuiqsut Natural Gas<br>Home/Building<br>Conversion       | 2,200,000           | Same as above.  | Closed<br>8/10      |
| North Slope<br>Borough<br>00-NPRA-27    | Nuiqsut Natural Gas<br>Pipeline                          | 1,580,000           | Provides funds for the final installation and startup of the natural gas system from the processing module at the Alpine oil facility pad to the in-village gas distribution system in Nuiqsut.   | Closed<br>3/11      |
| North Slope<br>Borough<br>00-NPRA-28    | Nuiqsut City Hall/Kisik<br>Center Renovation             | 1,280,548           | Project originally awarded to City of Nuiqsut but was re-negotiated with the NSB. Renovations include mechanical and electrical upgrades to correct code deficiencies and construction of an addition. The addition is planned to include a multi-purpose room of approximately 1,500 SF; restrooms, mechanical room and a combined custodial closet and storage area. In 12/05 grant increased by \$336,795 with funds from two pending grants appropriated in FY02. \$288,000 from 01-NPRA-07 (Nuiqsut Cultural Center O & M); and \$48,795 from 01-NPRA-10 (Nuiqsut Emergency Hunting Shelters). These two grants, previously identified in the FY02 list as pending, are now closed with no expenditures and the funds added to the FY00 grant. | Closed<br>12/07     |
| Nuiqsut<br>00-NPRA-4-17                 | Basic Government<br>Operation and<br>Maintenance         | 200,000             | Funds used to supplement staff salaries for a full-time mayor/administrator, grants administrator, clerk & bookkeeper.  | Closed<br>08/01     |
| Nuiqsut<br>00-NPRA-4-18,<br>19, 20, 23* | See * Below  | 61,078              | In 10/03, the City passed a resolution to transfer the unexpended funds from four grants (\$2,479,121.42) to the NSB to administer two priority projects on their behalf (see * below). Project expenditures on the four grants prior to closure totaled \$61,078.  | Closed *            |
| Nuiqsut<br>00-NPRA-4-24                 | Install Graveyard Fencing                                | 111,369             | Provides mitigation for foreseeable NPR-A impacts through the protection of cultural resources.   | Closed<br>03/04     |
|   | <b>Sub-Total (Page 1)</b>                                | <b>\$18,803,800</b> |   |                     |
|   | <b>Sub-Total (Page 2)</b>                                | <b>\$ 9,196,200</b> | This subtotal does not include the \$336,795 moved from FY02.   |                     |
|   | <b>Total</b>   | <b>\$28,000,000</b> | This total does not include the \$336,795 moved from FY02.  |                     |

\*Grants previously awarded to the City of Nuiqsut for City Hall/Kisik Center Renovation (00-NPRA-4-18 @ \$340,000); Construct Cultural Center (00-NPRA-4-19 @ \$939,800); Day Care Construct/O&M (00-NPRA-4-20 @ \$495,400); and Design/Construct Retractable Boat Ramp (00-NPRA-4-23 @ \$765,000) were closed effective Oct/Nov 2001. Unexpended funds from these grants were transferred to the NSB to administer two priority projects in Nuiqsut: 00-NPRA-27 and 00-NPRA-28. The total FY00 funding for these two grants (\$2,523,752.62) also includes the unexpended balance (\$44,631.20) remaining on 00-NPRA-4-24 (original award \$156,000).

## NPR-A Impact Mitigation Grants Awarded – Based on January 2005 Recommendations

## FY06 Appropriation (Page 1 of 6)

| <u>Grantee</u>            | <u>Project</u>                                      | <u>Amount</u>      | <u>Comments</u>  | <u>Grant Status</u> |
|---------------------------|---|--------------------|--|---------------------|
| Atqasuk<br>06-NPRA-01     | Local Government<br>Operations                      | \$336,468          | The purpose of this project is to supplement the maintenance and operations costs necessary to successfully operate the local government and provide continued services to residents including an expanded youth program. The project will provide funding for one year for the following city staff: mayor, city clerk, assistant clerk, janitor, two recreation aides. Grant funds are also requested for insurance, audit, accountant, utilities, equipment, communications, materials, supplies, freight, and travel.  | Closed<br>6/07      |
| Atqasuk<br>06-NPRA-02     | Youth Center Addition<br>to Community Center        | 680,000            | The purpose of this project is to construct a 1600 square foot (SF) one-story addition to the Community Center to create a Youth Center. This will provide Atqasuk youth (ages 10-18) with a safe, drug-free, warm, supervised environment to socialize, play games, study, and take part in other youth activities. There are currently 43 children in Atqasuk who are between the ages of 10 and 18. Grant funds are requested for the design and construction contract.   | Closed<br>6/10      |
| Barrow<br>06-NPRA-03      | Basic Local<br>Government<br>Operations             | 1,385,843          | The purpose of this project is to provide operations for the City of Barrow for a one-year period. Grant funds are requested for labor/benefits for the following full-time positions: mayor, city clerk, assistant clerk, property manager, finance director, bookkeeper, permitting clerk, special projects/polar bear watchman, administrative assistant, webmaster, recreation director, recreation supervisor and two recreation aides. Grant funds are requested for labor, benefits for the following part-time positions: grants administrator), DMV representative, and 13 recreation aides. Grant funds are also requested for contractual, equipment, materials, freight, and training. Administration will be provided as an in-kind contribution. | Closed<br>6/06      |
| Barrow<br>06-NPRA-04      | City Hall Building<br>Addition Feasibility<br>Study | 69,413             | The purpose of this project is to complete a feasibility study to identify the costs and materials needed to construct an addition for city hall so it will continue to function efficiently and adequately. Grant funds are requested for contractual consultant costs.   | Closed<br>12/06     |
| Barrow<br>06-NPRA-05      | City Impound and<br>Disposal Site                   | 174,389            | The purpose of this project is to construct a 120' x 200' gravel pad to provide a safe area for junk vehicles. The pad will be lined to keep vehicle fluids from seeping into the earth. Grant funds are requested for labor/benefits (four laborers), contractual (tractor operator/rental costs), materials and freight.   | Closed<br>9/07      |
| Barrow<br>06-NPRA-06      | Roller Rink Renovation<br>Feasibility Study         | 63,556             | The purpose of this project is to complete a feasibility study to identify the costs and materials needed to renovate the Barrow Roller Rink, which is utilized as a multi-purpose facility. Grant funds are requested for contractual consultant costs.   | Closed<br>12/06     |
| <b>Sub-Total (Page 1)</b> |   | <b>\$2,709,669</b> |  |                     |

**NPR-A Impact Mitigation Grants Awarded – Based on January 2005 Recommendations  
FY06 Appropriation (Page 2 of 6)**

| <u>Grantee</u>                       | <u>Project</u>  | <u>Amount</u>      | <u>Comments</u>   | <u>Grant Status</u> |
|--------------------------------------|---|--------------------|---|---------------------|
| Nuiqsut<br>06-NPRA-07                | Local<br>Government<br>Operations                                       | \$468,000          | The purpose of this project is to provide continued funding for local government operations for one year. Grant funds are requested for labor, benefits (full-time city clerk, maintenance, cultural coordinator, and bookkeeper; full-time night watch during summer months), contractual (city administrator labor, benefits), equipment purchase (copier, fax, printer, computer), office supplies, freight (for equipment, supplies), travel (city council, staff training), other (CPA professional services) and administration (utilities, insurance, council honorarium, vehicle maintenance and repairs). Also includes some equipment purchases for cultural coordinator.   | Closed<br>12/06     |
| North Slope<br>Borough<br>06-NPRA-08 | Allied Health<br>Training Center  | 3,400,000          | The North Slope Allied Health Training Program (NSAHTP) was established to provide a continuum of training and education in paraprofessional fields essential to developing local health care providers on the North Slope. Providers and participants include the Borough, NSB Health Department, Arctic Slope Native Association, Samuel Simmonds Memorial Hospital, and Ilisagvik College. The purpose of this project is to provide funding for the North Slope Allied Health Training Center which will coordinate training that has been identified to address and assuage the impacts of NPR-A oil and gas development. Grant funds are requested for labor, benefits, contractual, equipment, supplies, travel, other and administration. | Closed<br>9/13      |
| North Slope<br>Borough<br>06-NPRA-09 | Continue Studies<br>to Investigate<br>Wildlife                          | 2,461,368          | The purpose of this project is to supplement existing research within the NSB Department of Wildlife Management, which is critical to responding to Inupiat hunter's concerns about oil and gas exploration and development. This project would cover a three-year period to continue the following research: (1) subsistence harvest documentation; (2) waterfowl surveys; (3) key subsistence fish species; (4) hydrocarbons in fish; and (5) satellite tracking of the Teshekpuk caribou herd. Grant funds are requested for labor, benefits, contractual, equipment, materials, supplies, travel, and administration.   | Closed<br>8/13      |
| North Slope<br>Borough<br>06-NPRA-10 | Health, Survival &<br>Sustainability of<br>Key Subsistence<br>Resources | 654,426            | The purpose of this project is to conduct new studies over a 3-year period that address and document independent aspects of wildlife population biology. Each study has been designed to complement each other so the NSB Department of Wildlife Management may better understand the influences of weather and habitat on natural winter survival of caribou; project future population estimates of TCH caribou under different conditions; and assess and document the health of subsistence animal and fish populations. Grant funds are requested for labor, benefits, contractual, equipment, supplies, travel and indirect.  | Closed<br>8/14      |
| <b>Sub-Total (Page 2)</b>            |   | <b>\$6,983,794</b> |   |                     |

| <u>Grantee</u>                    | <u>Project</u>                                 | <u>Amount</u>      | <u>Comments</u>  | <u>Grant Status</u> |
|-----------------------------------|--|--------------------|--|---------------------|
| North Slope Borough<br>06-NPRA-11 | Mayor's Job Program                            | \$2,527,961        | The purpose of this project is to continue the existing Mayor's job program, which provides short-term employment for NSB residents at the Borough offices and other employers such as the Arctic Slope Native Association, Native Village of Barrow, and the City of Barrow. The program provides training for individuals to assist them with acquiring necessary job skills to advance to full-time employment. Grant funds are requested to fund these positions, as well as a part-time coordinator to oversee the participants throughout the affected areas. Funding is also requested for supplies and administration.   | Closed<br>11/10     |
| North Slope Borough<br>06-NPRA-12 | Nuiqsut Design Retractable Boat Ramp           | 200,000            | The purpose of this project is to design and install a retractable boat ramp. Grant funds are requested for contractual and administration.  | Closed<br>12/10     |
| North Slope Borough<br>06-NPRA-13 | Nuiqsut Youth Center Operation and Maintenance | 191,205            | The purpose of this project is to provide funding for the operation and maintenance of the Nuiqsut Youth Center. Grant funds are requested for labor, benefits (three full-time coordinator positions), equipment purchase (TV and DVD), material, supplies (cleaning, janitorial, computer software, games, craft supplies), freight, training (academic, computer), utilities (fuel, electricity, water, sewer, phone, internet) and administration. In December 2005 the City of Nuiqsut and NSB agreed to move funds (total \$41,205) to this grant from two grants appropriated in FY02: 01-NPRA-09 (Nuiqsut Wooden Deck Ball Court at \$11,205) and 01-NPRA-10 (Nuiqsut Emergency Hunting Shelters at \$30,000). | Closed<br>12/07     |
| North Slope Borough<br>06-NPRA-14 | Village Capacity Building                      | 968,182            | The purpose of this project is to provide capacity-building assistance over a 3-year period to NSB villages so they may effectively serve the needs of their communities as they deal with the effects of oil and gas development. This project is planned for three years in order to assist those communities that are affected today by NPR-A oil and gas activity as well as to prepare those communities that will be impacted as NPR-A activity expands. Grant funds are requested for labor, benefits, contractual, travel, materials, supplies and administration.   | Closed<br>6/15      |
| North Slope Borough<br>06-NPRA-15 | Wainwright City Office Renovations             | 38,114             | The purpose of this project is to repair the city office building to provide a safe, warm environment for city business. This includes replacement of damaged floor substrate, floor tiles, ceiling lighting, furnace, hot water heater, fire door and addition of o/s air intake. Grant funds are requested for contractual services and administration.  | Closed<br>12/07     |
| North Slope Borough<br>06-NPRA-16 | Wainwright Lagoon Boat Launch                  | 525,000            | The purpose of this project is to replace or renovate the Wainwright Lagoon boat ramp to provide a safe launch site for subsistence and rescue activities. Grant funds are requested for contractual services and administration.  | Closed<br>12/10     |
| <b>Sub-Total (Page 3)</b>         |  | <b>\$4,450,462</b> |  |                     |

|--------------------------------------|--|---------------|--|---------------------|
| North Slope<br>Borough<br>06-NPRA-17 | Wainwright Local<br>Government<br>Operations | \$311,500     | The purpose of this project is to provide continued funding for a city administrator, program assistant, and city clerk to build the capacity of the City of Wainwright to successfully manage its financial affairs and grant programs, to implement new sources of revenue, and to continue staff training. Grant funds are requested for labor, benefits, contractual services, maintenance, repairs, insurance, utilities, materials, supplies, training/travel, audit, accountant fees and administration.  | Closed<br>6/08      |
| North Slope<br>Borough<br>06-NPRA-18 | Wainwright<br>Softball Field                 | 35,000        | The purpose of this project is to purchase and install a backstop, bleachers and other equipment required to provide a summer softball program for Wainwright youth which will be conducted on the Municipal Reserve recreational area owned by the city. Grant funds are requested for contractual services, materials, supplies and administration.  | Closed<br>4/13      |
| North Slope<br>Borough<br>06-NPRA-19 | Wainwright Youth<br>Program                  | 229,500       | The purpose of this project is to provide funding for the Wainwright Youth Program at the Robert James Community Center which offers an adult-supervised, safe, drug-free environment for Wainwright youth ages 10-18. Grant funds are requested for labor, benefits, contractual, utilities, maintenance, repairs, materials, supplies and administration.  | Closed<br>6/08      |
| North Slope<br>Borough<br>06-NPRA-20 | Workforce<br>Development<br>Program          | 3,729,451     | The purpose of this project is to continue the existing workforce development program, which is designed to provide entry-level training for unemployed residents, apprenticeship training for residents with more advanced job skills and training to enhance the job skills of current NSB employees. Grant funds are requested for labor, benefits for four full-time positions at the Savaat Center: workforce development coordinator; NSB employer liaison; NSB training facilitator; Savaat Center program assistant. Grant funds are also requested for equipment, training, travel, and administration. | Closed<br>12/10     |
| North Slope<br>Borough<br>06-NPRA-21 | Atqasuk Energy<br>Assessment                 | 100,042       | The purpose of this project is to identify the most cost-effective, cleanest, and safest alternative to energy (power, light, and heat) in the community of Atqasuk. Fuel costs in Atqasuk are currently the highest on the Slope and they have need to purchase 500,000 gallons for FY05. Grant funds are requested for contractual engineering, cost analysis and administration.  | Closed<br>12/08     |
| North Slope<br>Borough<br>06-NPRA-22 | Fire Equipment<br>and Training               | 250,000       | The purpose of this project is to allow the NSB Fire Department to acquire a quint firefighting apparatus in Barrow, acquire other training and operational equipment, and provide fire and emergency medical training to fire department employees and volunteer fire fighters in Atqasuk, Anaktuvuk Pass, Barrow, Nuiqsut and Wainwright. Grant funds are requested for equipment, supplies, freight, training, travel, and administration.  | Closed<br>6/08      |
| North Slope<br>Borough<br>06-NPRA-23 | Misdemeanor<br>Probation Officer             | 346,071       | The purpose of this project is to create one full-time Misdemeanor Probation Officer position for three years, which will be tasked with collecting information on misdemeanor offenders and their compliance with court-ordered conditions of probation, release. Grant funds are requested for labor, benefits, contractual, travel, materials, supplies and administration.   | Closed<br>6/09      |

|-----------------------------------|---|--------------------|---|---------------------|
| North Slope Borough<br>06-NPRA-24 | North Slope Borough Science Initiatives | 425,578            | The purpose of this project is to support the Borough's involvement in the North Slope Science Initiative (NSSI). The NSSI was established to develop a science-based program that integrates inventory, monitoring and research activities to support resource management decisions on the North Slope of Alaska. Its mission is to enhance the quality and quantity of the scientific information available for aquatic, terrestrial and marine environments on the North Slope and to make this information available to decision-makers, governmental agencies, industry, and the public. Grant funds are requested for labor, benefits, contractual, supplies, travel, and administration. | Closed<br>8/14      |
| North Slope Borough<br>06-NPRA-25 | NPRA Technical Review Team              | 1,468,508          | The purpose of this project is to provide additional staff to assist the NSB departments responsible for reviewing and commenting on resource development issues, including environmental analyses and permit applications. Grant funds are requested for services from a biologist, permit specialist and an attorney, including travel and support costs related to attending and holding public hearings and other meetings. Funds are also requested for contractual services, materials, and administration.   | Closed<br>8/10      |
| North Slope Borough<br>06-NPRA-26 | Oil Response Team                       | 737,867            | The purpose of this project is to develop a dedicated spill response team with squads located in Atkasuk, Barrow, Nuiqsut and Wainwright. Each team would have primary responsibility for handling spills in and near their respective communities but would also be able to rapidly respond to neighboring communities to assist in large-scale spills. Grant funds are requested for labor, benefits (fuel spill response team coordinator – full-time in year one, part-time in year two), materials, supplies, protective equipment, response gear, travel, training, and administration.   | Closed<br>6/12      |
| North Slope Borough<br>06-NPRA-27 | Police Importation Combat Program       | 1,101,512          | The purpose of this project is to implement an investigative unit comprised of three new full-time police officer positions for a three-year period, dedicated to combating the illegal importation, manufacture and distribution of drugs and alcohol occurring in each of the NPRA impacted communities. Grant funds are requested for labor, benefits, and administration.   | Closed<br>6/09      |
| North Slope Borough<br>06-NPRA-28 | Police Officers for NPRA Villages       | \$1,486,689        | The purpose of this project is to employ a full-time police officer for a three-year period in Atkasuk, Barrow, Nuiqsut and Wainwright. Grant funds are requested for labor, benefits, and administration.  | Closed<br>6/10      |
| <b>Sub-Total (Page 5)</b>         |   | <b>\$5,220,154</b> |   |                     |

| North Slope<br>Borough<br>06-NPRA-29 | Social and Cultural<br>Impact Study<br>Phase 2 | 275,880             | The purpose of this project is to prepare a comprehensive scientific study to identify the key socio-economic impacts of oil and gas development in Atqasuk, Barrow, Nuiqsut and Wainwright. Phase I of the study started in July 2004 and consists of designing the survey instrument and data collection. Phase 2 will analyze data collected in phase 1, focusing on the observations and perceptions of NSB residents regarding historical, current, and potential effects of oil industry activities on onshore and offshore hunting. Grant funds are requested for contractual and administration. | Closed<br>6/09      |
| North Slope<br>Borough<br>06-NPRA-30 | Utility Master<br>Plan/Emergency<br>Plan       | 106,221             | The purpose of this project is to prepare a Borough-wide Utility Master Plan and Emergency Utility Plan to assess the future requirements of power, water, sewer, waste collection and landfill functions across the North Slope and develop a tool for the borough to use to prepare communities for the changes ahead. Grant funds are requested for contractual engineering and administration.   | Closed<br>6/08      |

FY07 Appropriation (Page 1 of 3)**

| <u>Grantee</u>                       | <u>Project</u>                                      | <u>Amount</u>       | <u>Comments</u>  | <u>Grant Status</u> |
|--------------------------------------|---|---------------------|--|---------------------|
| Atqasuk<br>07-NPRA-01                | Local Government<br>Operations and<br>Youth Program | \$345,867           | The purpose of this project is to supplement the maintenance and operation costs necessary to successfully operate the local government of Atqasuk and provide continued services to residents including an expanded youth program. The project will provide funding for one year for the following city staff: mayor, city clerk, assistant clerk, janitor, youth program coordinator, and two recreation coordinators. Operation costs for the city office, community center and youth program are also included. Grant funds are requested for labor, benefits, insurance, audit, accountant, utilities, communications, materials, supplies, equipment, freight, and travel.   | Closed<br>8/08      |
| Barrow<br>07-NPRA-02                 | Public Facilities<br>Operation and<br>Maintenance   | 744,073             | The purpose of this project is to provide operations and maintenance of essential public facilities for one year: City Hall, Piuuragvik Gym, Piuuragvik Softball Park, Barrow Community Center, roller rink, Browerville Teen Center, Boys & Girls Club, Tupikpak Ice Rink, Distribution Center, maintenance building, cemeteries, boardwalk trails, boat ramps, shop garage, blue shed, Fisher Field Shed, and Visitor's Center. Grant funds are requested for labor, benefits for a maintenance supervisor, two maintenance technicians and a projects manager, insurance, materials, supplies, contractual, freight, utilities, and labor, materials and supplies for the Summer Youth Program.   | Closed<br>11/07     |
| North Slope<br>Borough<br>07-NPRA-05 | Barrow Digital<br>Repeater Upgrades                 | 507,064             | The purpose of this project is to provide a reliable communications system so NSB services can be delivered effectively and efficiently and provide a financially feasible plan to transition to a digital/standards-based communication system. The NSB communication system is a borough-wide service that is operated out of the NSB Police Department. This phased project will use FY07 NPR-A funds to update and install a new Barrow site controller. The controller will permit the full use of E911 Dispatch Center upgrade. Grant funds will be utilized for contractual, equipment, supplies, travel, and administration costs.   | Closed<br>6/18      |
| North Slope<br>Borough<br>07-NPRA-10 | Health Assessment<br>and Contaminants               | 24,200              | The purpose of this project is to conduct a supplemental study to the 2005 NPRA General Health Assessment of Wildlife Populations project. The health assessment project does not include specific funding for contaminants analysis, which is a common concern for subsistence hunters. The study of contaminants (or toxicology) involves the assessment of essential and non-essential elements in blood and tissue, as well as the more routinely recognized pollutants, such as PCBs (organochlorine), pesticides, and heavy metals. This study will expand on NPRA impacted community subsistence resource assessment datasets for local wildlife resources (particularly caribou, fish, fox, and birds). Grant funds are requested for contractual (data analysis on collected samples) and indirect. | Closed<br>8/14      |
| North Slope<br>Borough<br>07-NPRA-13 | Vegetation<br>Monitoring in the<br>NPRA             | \$147,688           | The purpose of this project is to initiate a study that evaluates the importance of habitat used by geese that breed and rear their young in the Teshekpuk region on northeastern NPR-A to gain a better understanding of the impacts oil and gas activity may have on snow geese colonies. Grant funds are requested for labor, benefits for a wildlife biologist and biologist, contractual (helicopter support), supplies, travel and indirect.   | Closed<br>8/14      |
| <b>Sub-Total (Page 1)</b>            |   | <b>\$ 1,768,892</b> |  |                     |

|-----------------------------------|---|--------------------|--|---------------------|
| North Slope Borough<br>07-NPRA-04 | Nuiqsut Youth Center Operations & Maintenance | \$150,000          | The purpose of this project is to provide continued funding for the operation and maintenance of the Youth Center and expand upon a recreational program that started in 2004. Grant funds are requested for labor, benefits, equipment, material, supplies (recreational and office), utilities (fuel, electricity and water, sewer) and administration (includes telephone, internet).   | Closed<br>6/08      |
| North Slope Borough<br>07-NPRA-15 | Wainwright Youth Center Program               | 243,000            | The purpose of this project is to provide funding for the continuation of the Wainwright Youth Program, which provides an adult-supervised safe, drug-free environment for Wainwright's young people aged 10-18 at the Robert James Community Center. Grant funds are requested for labor, benefits for a youth program director and six recreation aides, training, field trips, utilities, materials, supplies, telephone, internet, maintenance, repairs, and indirect.   | Closed<br>1/10      |
| North Slope Borough<br>07-NPRA-12 | Understanding Predators (Gulls)               | 341,812            | The purpose of this project is to conduct a study of gull movement and food habits to determine whether there is an increase of predation of waterfowl due to oil and gas activities. This project will study Glaucous Gulls within the boundaries of the NPR-A. Grant funds are requested for labor, benefits for a Wildlife Biologist and two Subsistence Research Specialists, contractual (helicopter charter, services to capture, tag, track & analyze gull movement), materials, supplies, travel, equipment and indirect.  | Closed<br>6/11      |
| North Slope Borough<br>07-NPRA-11 | Nuiqsut & Barrow School Counselors            | 253,115            | The purpose of this project is to provide full-time school counselors (one at each school) at Trapper School (elementary) in Nuiqsut and Hopson Middle School in Barrow. The goals of the NPR-A School Counselor Program are (1) to make mental health services easily accessible for students; (2) to provide referral services as well as individual and small group counseling services; and (3) to provide students of all ages access to age-appropriate career assessment and guidance activities. Grant funds are requested for contractual (salary, benefits, professional development training, travel) and indirect. | Closed<br>12/07     |
| North Slope Borough<br>07-NPRA-09 | Cabin and Campsite Locations Mapping          | 61,710             | The purpose of this project is to clearly identify and record cabin and campsite locations, and to incorporate the data into a standardized GIS system that will be utilized by the NSB and subsistence hunters. This will enable hunters to travel safely to cabin and campsites for hunting subsistence resources. Grant funds are requested for contractual (helicopter support) and indirect.  | Closed<br>9/10      |
| North Slope Borough<br>07-NPRA-06 | Barrow E 911 System                           | 511,878            | The purpose of this project is to prevent failure of the current Enhanced 9-1-1 (E911) system in Barrow and create a communications system that will make the borough's first responders more effective and keep them and those they serve safer. The Barrow dispatch center dispatches all emergency services for the entire North Slope Borough, including ambulance crews, fire, police, and search and rescue. Grant funds are requested for contractual (installation services, training, equipment, dispatch center upgrades), travel, and indirect.   | Closed<br>6/15      |
| <b>Sub-Total (Page 2)</b>         |   | <b>\$1,561,515</b> |  |                     |

|--------------------------------------|---|---------------------|---|---------------------|
| North Slope<br>Borough<br>07-NPRA-08 | Bowhead<br>Workshop                               | \$60,095            | The purpose of this project is to host a three-day workshop in either Fairbanks or Anchorage to develop a study plan for determining the impacts from multiple anthropogenic sound sources to bowhead whales in the Beaufort Sea. Various experts in the field of sound, whale behavior and management, and statistical analyses, and scientists from federal agencies and the industry will be invited to the workshop. The purpose of the workshop will be to develop a feasibility study plan for documenting cumulative impacts of noise on bowhead whales. Grant funds are requested for labor, benefits for a wildlife biologist, honoraria for workshop participants (\$500/day for 4 days), communication (report distribution), contractual (report preparation), travel, materials, supplies, and indirect. | Closed<br>6/11      |
| North Slope<br>Borough<br>07-NPRA-07 | Barrow School<br>Resource Officer                 | 125,000             | The purpose of this project is to provide two school resource officers (SRO) who will rotate between the three Barrow schools to provide drug and alcohol reduction education to students. The officers will also travel to the NPR-A impacted villages of Wainwright, Atkasuk, Nuiqsut and Anaktuvuk Pass. Officers assigned to the positions will be certified instructors in the Drug Abuse Resistance Education (DARE) program. Grant funds are requested for SRO labor, benefits, supplies and indirect.   | Closed<br>8/13      |
| North Slope<br>Borough<br>07-NPRA-14 | Wainwright Local<br>Government<br>Operations      | 325,000             | The purpose of this project is to provide continued funding for a city administrator, city clerk, assistant clerk, and part-time custodian to build the capacity of the City of Wainwright to successfully manage its financial affairs and grant programs, to implement new sources of revenue, and to continue staff training. Grant funds are requested for labor, benefits, contractual services, communications, maintenance, repairs, insurance, utilities, materials, supplies, equipment, training, travel, audit, accountant fees, and indirect.   | Closed<br>11/08     |
| Nuiqsut<br>07-NPRA-03                | Local Government<br>Operations and<br>Maintenance | \$438,000           | The purpose of this project is to provide continued funding for local government operations and maintenance for one year. Grant funds are requested for labor, benefits (full-time city clerk and bookkeeper positions, part-time maintenance, janitor, and recreation positions), contractual (labor, benefits for city administrator and cultural coordinator positions, housing allowance for city administrator, equipment (recreational), office supplies, freight, travel, training (city council/staff training), utilities, insurance, maintenance, repairs, council stipends, and administration.  | Closed<br>3/08      |

| Atqasuk<br>08-NPRA-01     | Local Government<br>Operations and<br>Youth Program      | \$203,576           | The purpose of this project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Atqasuk and provide continued services to residents, and to operate the community youth center. This project will provide funding for a city clerk, assistant clerk, two recreation coordinators, one youth program coordinator, one youth program assistant, the mayor, a janitor and operation costs for the city office, community center and youth program. Grant funds are requested for labor, fringe benefits, insurance, audit, utilities, communications, materials, supplies, equipment, freight, and travel.  | Closed<br>3/09      |
| Barrow<br>08-NPRA-02      | Basic Local<br>Government<br>Operations and<br>Equipment | 1,500,000           | The purpose of this project is to continue to provide the following public services and facilities to Barrow residents: cemeteries; recreation facilities and activities; business licensing; alcohol registration services; taxicab regulation services; boat ramps; multi-use facilities and gathering places; Department of Motor Vehicles (DMV) services; passport services; removal of abandoned vehicles; and municipal monitoring of laws and regulations pertaining to aboriginal Inupiat lands. The project will also foster and protect Inupiat cultural traditions; and increase the city's capacity and administrative capability. Grant funds are requested for labor, fringe benefits, contractual services (audit, computer support, legal, equipment maintenance), equipment rental, purchase, materials, supplies, freight, travel, and training. | Closed<br>7/08      |
| Barrow<br>08-NPRA-03      | Equipment<br>Operations &<br>Maintenance                 | 395,584             | The purpose of this project is to obtain equipment necessary to the daily functioning of the city. This request includes three automobiles to be used by city recreation, administration, distribution, and maintenance departments; a front-end loader to be used to maneuver boat ramps, pick up abandoned vehicles for removal to the dump, provide cemetery burial assistance, snow removal, gravel haul to fill in stagnant water build up at city facilities, and to relocate equipment and outbuildings; two man-lifts, one for indoor maintenance and one for outdoor maintenance. Replacing broken-down, aging equipment will free repair funds and improve fuel efficiency. Grant funds are requested for the equipment purchases identified above, freight, and administration.   | Closed<br>12/07     |
| Barrow<br>08-NPRA-04      | Playground<br>Improvement<br>Project                     | 342,000             | The purpose of this project is to provide renovated equipment, adequate fencing, and improved safety at the city's four playgrounds, primarily used by children ages 2-12. The result will be safer, more appealing playgrounds with clearly defined age-appropriate play areas including informational signage. Grant funds are requested for labor, fringe benefits for six laborers, equipment purchase, materials, supplies, freight, and administration.  | Closed<br>1/11      |
| <b>Sub-Total (Page 1)</b> |  | <b>\$ 2,441,160</b> |  |                     |

|--------------------------------------|---|--------------------|---|---------------------|
| Barrow<br>08-NPRA-05                 | Tuzzy Consortium<br>Library Children's<br>Program                 | \$74,930           | The purpose of this project is to increase children's programs at Tuzzy Library for a one-year period. This includes supervised and culturally appropriate activities; reference services; reading groups; story hour; summer reading program; book fairs; individualized instruction in using library resources, computer resources and homework tutoring. Grant funds are requested for labor, fringe for a library technician, materials, supplies, and annual training (Alaska Libraries Association).  | Closed<br>5/12      |
| North Slope<br>Borough<br>08-NPRA-06 | Fire Department<br>Ambulance,<br>Equipment &<br>Facility Upgrades | 930,381            | The purpose of this project is to assist the NSB Fire Department in providing better services to the residents of the communities benefiting and to the crews working in the NPR-A oil fields. This project will improve fire stations located in Atqasuk, Nuiqsut and Wainwright, providing the following in each location: an ambulance; switches for emergency generators, including training for personnel on their proper operation and maintenance; furnishings, fixtures, and supplies. Grant funds are requested for contractual, equipment purchase, materials, supplies, freight, travel, per diem, and administration.   | Closed<br>9/14      |
| North Slope<br>Borough<br>08-NPRA-07 | Fire Department<br>Technical Aids &<br>Training                   | 800,000            | This project will assist the NSB Fire Department in providing better services to the residents of the communities benefiting and to the crews working in the NPR-A oil fields. The goals of this project are to (1) increase emergency response personnel by funding a paramedic position and two emergency medical technicians (EMTs) through 6/30/09 ; (2) purchase emergency response equipment such as self-contained breathing apparatus (SCBA), firefighter bunker gear, ventilation fans, rescue saws, airbags, power packs for "jaws of life" tools, and Salvage Master vacuum systems for all engines and (3) increase training opportunities for fire department personnel by providing the following OSHA mandated training: Luminar Distance Learning (computerized learning program), Paperless Pilot Project in Barrow (enables mobile EMS report creation), and Paramedic Training Program. Grant funds are requested for labor, fringe benefits, contractual, equipment purchase, materials, supplies, travel, training, and administration.          | Closed<br>7/15      |
| North Slope<br>Borough<br>08-NPRA-08 | Geographic<br>Information<br>Systems &<br>Mapping                 | 612,060            | The purpose of this project is to establish an objective baseline through which to assess environmental impacts on the ground cover and tundra as a result of oil and gas exploration and development. The project includes adding capacity to handle this data consisting of an additional GIS programmer; upgraded hardware and software and training to use the software; and to gather historic ground condition data and follow-up aerial/satellite data. This project represents an additional means of monitoring industry activities within the NPR-A and will help ensure industry compliance with permit stipulations. It will provide clear evidence of a cause-and-effect relationship between oil and gas activities and environmental damage. The majority of costs will be incurred the first three years of the project. Afterward, data will need to be maintained or upgraded on an annual basis. Grant funds are requested for labor, fringe benefits, contractual, equipment purchase, materials, supplies, travel, training, and administration. | Closed<br>8/14      |

|--------------------------------------|---|--------------------|---|---------------------|
| North Slope<br>Borough<br>08-NPRA-09 | Land Management<br>Permitting &<br>Enforcement      | \$1,078,283        | This project will increase the NSB Planning Department's capacity by providing the essential tools to issue land-use permits and monitor compliance with land management regulations. Two full-time and one part-time field inspectors will be hired to monitor the activities near the NPR-A villages of Atkasuk, Nuiqsut, and Wainwright. Expert consultants will assist NSBPD land management staff with reviewing and commenting on the numerous proposals, environmental impact statements and exploration plans. A program manager will be hired in Barrow to facilitate the planning departments' grant programs to assure the scopes of work are completed according to the grant timelines and budgets. Enforcement tools such as a vehicle for tundra use, cold weather gear and satellite phones are included in the proposal. Grant funds are requested for labor, fringe benefits, contractual, equipment purchase, materials, supplies, training, travel, and administration. | Closed<br>8/11      |
| North Slope<br>Borough<br>08-NPRA-10 | NPRA School<br>Counselors                           | 299,850            | The purposes of this project are: (1) to make mental health services easily accessible to students; (2) to provide referral services, as well as individual and small group counseling services; and (3) to provide students of all ages access to age-appropriate career assessment and guidance activities. This grant will provide funding for a school counselor at Trapper School in Nuiqsut and also at Hopson Middle School in Barrow for one year. Grant funds are requested for contractual (professional services through a Memorandum of Agreement with the NSB School District, which includes salaries and professional development training, travel), and administration.   | Closed<br>6/09      |
| North Slope<br>Borough<br>08-NPRA-11 | Nuiqsut<br>Community<br>Center Expansion            | 1,223,151          | The purpose of this project is to expand the existing Nuiqsut Community Facility by twenty-five percent and permit most of the budgeted recreational activities to occur in a central location; sharing the cost of heating and utilities. This addition to the community center will include the construction of a multi-purpose room of approximately 1,500 square feet, with an outside deck. In addition, a sprinkler system will be installed in the entire building to meet code requirements. This addition will provide space for general recreational and meeting needs, serving both adults and teens. Grant funds are requested for professional services (architectural, engineering design), contractual, and administration for project management by the NSB CIPM Division, staff travel and related expenses.   | Closed<br>12/11     |
| North Slope<br>Borough<br>08-NPRA-12 | Nuiqsut Youth<br>Center Operations<br>& Maintenance | 108,900            | The purpose of this project is to maintain and improve the existing youth center activities with additional computer equipment, plus supervision of both outdoor ballfields and playground facilities, and utilization of new equipment in the newly renovated community center for older teens. Grant funds are requested for labor, fringe benefits (four full-time and one part-time position), equipment purchase, materials, supplies, travel, training, and utilities.  | Closed<br>11/09     |
| <b>Sub-Total (Page 3)</b>            |   | <b>\$2,710,184</b> |   |                     |

| North Slope<br>Borough<br>08-NPRA-13 | Wainwright<br>Community<br>Building Project<br>Analysis/Design      | \$445,000          | The purpose of this project is to plan and design a new building estimated at 10,000 square feet to accommodate all the community needs for meetings, traditional and recreational activities. The city offices would be housed in this building, as would 5-6 other offices which could be leased by other entities to help defray operational costs. The project analysis will include multiple community meetings with residents and other government, tribal and commercial entities to identify and reach consensus on the community's needs. Through this process, the design engineers will be able to provide input and guidance regarding site selection, permitting and other issues. Grant funds are requested for professional services and administration to cover NSB CIPM Division staff travel to Wainwright for planning meetings and to work with design engineers.  | Closed<br>6/15      |
| North Slope<br>Borough<br>08-NPRA-14 | Wainwright Local<br>Government<br>Operations/Cultural<br>Activities | 255,072            | The purpose of this project is to provide continued training and financial support to the City of Wainwright to enable it to successfully manage its financial affairs and grant programs and to fulfill its municipal responsibilities. A new position, cultural activities coordinator, will be hired to plan and implement activities and programs that focus on traditional subsistence skills and knowledge. This position will also begin to collect and catalogue local historical documents and artifacts. Grant funds are requested for labor, fringe benefits for the city administrator, city clerk, assistant clerk, office assistant, recreation director, cultural activities coordinator, maintenance, and custodian, contractual, training, travel, insurance, professional services (accountant, legal, computer, other), cultural, recreational events, communications, maintenance, repairs, equipment, furniture, materials, supplies, and administration.           | Closed<br>12/09     |
| North Slope<br>Borough<br>08-NPRA-16 | Health Impact<br>Assessment   | 1,167,500          | The Teshekpuk Lake Health Impact Assessment (HIA) has found that "...human health impacts of oil development have not been emphasized in the environmental impact statement (EIS) process for North Slope Oil Development." The HIA is a relatively new method which has become increasingly common in the evaluation of large-scale industrial projects worldwide. This has been criticized by the National Research Council of the National Academy of Sciences as one of the most important deficits in the current North Slope oil and gas planning and regulatory process. With this project the borough proposes to adopt HIA methodology as a means to include public health in its response to industrial development. The project will be contracted out. Screening, scoping, assessing, and reporting will be completed over a three-year period. Grant funds are requested for labor, fringe benefits, contractual, materials, supplies, travel, tuition, and administration. | Closed<br>10/14     |

| North Slope<br>Borough<br>08-NPRA-18 | Data Management,<br>Dissemination &<br>NPRA Wildlife<br>Studies | \$800,000            | The purpose of this project is to allow the borough to continue and enhance its mission in monitoring and mitigating impacts within NPR-A from oil and gas activity by supporting biological research within the Division of Wildlife Management (DWM), specifically in regards to (1) monitoring the health and sustainability of caribou populations by examining stress and hydrocarbon (HC) levels; (2) improving the management and analysis of data from multiple NPR-A projects to quantify cumulative impacts; (3) identifying and protecting subsistence-use areas; (4) implementing an outreach program to educate and inform North Slope residents about NPR-A related activities, issues, and scientific results; and (5) assessing impacts from increased predator populations, such as the Arctic Fox. Grant funds are requested for labor, fringe benefits, contractual, travel, materials, supplies, and administration (excluding equipment cost). | Closed<br>6/08      |
| Nuiqsut<br>08-NPRA-15                | Local Government<br>Operations &<br>Maintenance                 | 221,774              | The purpose of this project is to continue to fulfill the local demand for Title 29 governance in the city of Nuiqsut. Emphasis for this grant will be placed upon maintaining and improving the local capacity to perform required governance tasks, interaction with oil and gas industry representatives; interagency state and federal compliance; maintaining cultural identity; expanding recreational opportunities; and seeking additional funding for identified governance projects that have the technical back-up to permit funding. Grant funds are requested for labor, fringe benefits for the city administrator, city clerk, bookkeeper, janitor, maintenance watchman, outside maintenance, recreational coordinator, and cultural coordinator, materials, supplies, travel, training, and administration (utilities, insurance, communication, legal, audit).  | Closed<br>10/08     |

The youth center is open six days a week and has computers and other recreational equipment and activities available. The center is located in half of the Robert James Community Center and has a small office and snack bar as well. Grant funds are requested for labor, fringe benefits, training, utilities, communications, maintenance, repairs, materials, supplies, cultural activities, and insurance.   | Closed<br>12/09     |

| North Slope<br>Borough<br>09-NPRA-01 | NPR-A<br>Village Fire<br>Departments<br>Communications<br>Upgrades | \$317,000           | This project will include upgrading communications in Emergency Operations Centers (EO) capability, purchasing tools, equipment, supplies and personal protective equipment. The project will involve purchasing and installing, in each of the five NPR-A village fire stations a functional multi-line telephone system sized to the need of the village; a basic communication console; emergency power supply backup batteries; plus, antenna and wiring needed for connections to enable adequate communications. Grant funds will be used towards contractual, equipment purchase, materials/supplies, freight, and administration. | Closed<br>12/15     |
| North Slope<br>Borough<br>09-NPRA-02 | Equipment and<br>Supplies for Search<br>& Rescue                   | 500,000             | This project is to fund "Learn to Return" training, dry suit systems, a life raft, 8 snow machines, five rescue sleds, three "A Model" buildings, helicopter floats, oxygen generating system, miscellaneous equipment and parts, a truck, and Max-Vix Infrared Aircraft Enhanced Vision System. Grant funds are requested for contractual, equipment rental, purchase, materials, supplies, freight, travel, and administration.   | Closed<br>2/12      |
| North Slope<br>Borough<br>09-NPRA-03 | Arctic Fox<br>Continuing Study                                     | 348,473             | This project is a continuation of a previously closed grant, the goal of this study is to document den-site densities and diet and movement of the arctic fox within NE NPE near Teshekpuk Lake. The objectives will be to trap and collar fox during the field season and evaluate the movement; collect, examine, and analyze the diet of collared fox and collected prey tissue samples, utilizing the isotopic technique. Grant funds will be used toward labor, fringe benefits, contractual, travel, material, supplies, and administration.  | Closed<br>8/13      |
| North Slope<br>Borough<br>09-NPRA-04 | Police Officers for<br>NPR-A Impacted<br>Communities               | 274,000             | This project is for the continued employment of four police officers for the communities of Barrow, Atqasuk, Wainwright, and Nuiqsut to maintain a law enforcement, public safety presence in these communities. Grant funds are requested for labor, fringe benefits and administration.   | Closed<br>12/10     |
| North Slope<br>Borough<br>09-NPRA-05 | NPR-A School<br>Counselors   | 300,000             | This project is to provide two full time counselors: one at Hopson Middle School in Barrow and one at Trapper School in Nuiqsut for two years. Both counselors would attend Crisis Intervention Consultation Workshops in FY09 and State of Alaska Gatekeeper Suicide Prevention Programs in FY09 and FY10. Grant funds will be used for labor, fringe benefits, travel, and training.  | Closed<br>6/10      |
| North Slope<br>Borough<br>09-NPRA-06 | Water Tender   | 300,000             | This project is to purchase a water tender for fire prevention for the community of Barrow. Grant funds are strictly equipment with no administration.  | Closed<br>10/11     |
| <b>Sub-Total (Page 1)</b>            |  | <b>\$ 2,039,473</b> |   |                     |

| Barrow<br>09-NPRA-07      | Piuraagvik<br>Recreational Center<br>Facility Addition<br>Design | \$1,300,000         | This project is to prepare architectural and engineering data for an addition to the city's Piuraagvik Recreation Facility, including site development and construction escalation. This will provide Barrow residents with an expanded recreation facility. Grant funds are requested for contractual services and administrative costs which include advertising, printing, supplies, postage, and wages, fringe benefits for director of operations and maintenance, grants administrator, mayor, project manager, and recreation director.   | Closed<br>10/09     |
| Barrow<br>09-NPRA-08      | Public Facilities<br>Operations and<br>Maintenance               | 985,000             | This project is: 1) to provide the city's facilities with utilities as well as routine and contingency maintenance and upkeep; 2) staff transportation; 3) continuation of the summer youth program; 4) summer childcare; and 5) reinforcement of the maintenance building shop floor. This project is vital to the city of Barrow's sound functioning as a municipality and provider of varied public services to the people of Barrow. Grant funds are requested for utility expenses of all city facilities, vehicle fuel, supplies and freight, wages and materials and supplies for the summer youth program, and administrative expenses.  | Closed<br>12/09     |
| Atqasuk<br>09-NPRA-09     | Local Government<br>Operations and<br>Youth Center               | 238,000             | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Atqasuk and provide continued services to residents, and to operate the community youth center. This project will provide funding for a city clerk, assistant clerk, two recreation coordinators, one youth program coordinator, two youth program assistants, the mayor, a janitor and operation costs for the city office, community center and youth program. Grant funds are requested for labor, fringe benefits, insurance, audit, utilities, communications, materials, supplies, and maintenance and repairs.   | Closed<br>5/09      |
| Nuiqsut<br>09-NPRA-10     | Local Government<br>Operations and<br>Maintenance                | 285,000             | This project is to continue to fulfill the local demand for Title 29 governance in the City of Nuiqsut. Emphasis for this grant will be placed upon maintaining and improving the local capacity to perform required governance tasks; interaction with oil and gas industry representatives; interagency state and federal compliance; maintaining cultural identity; expanding recreational opportunities; fulfilling identified cemetery tasks; and seeking additional funding for identified governance projects that have the technical back-up to permit funding. Grant funds are requested for labor, fringe benefits (city administrator, city clerk, bookkeeper, office assistant, janitor, maintenance watchman, recreational, and cultural coordinator), materials, supplies, travel, training, and administration. | Closed<br>8/09      |
| Nuiqsut<br>09-NPRA-11     | Youth Recreation   | 50,000              | This project is to maintain and improve the existing youth center activities with additional computer equipment and crafts, plus supervision of both outdoor ballfields and playground facilities, and hiking and/or cook-out activities. Grant funds are requested for labor, fringe benefits, equipment purchase, materials, supplies, travel, training, and utilities.  | Closed<br>5/10      |

| Atqasuk<br>10-NPRA-01     | Local Government<br>Operations and<br>Youth Program | \$226,500           | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Atqasuk and provide continued services to residents, and to operate the community youth center. This project will provide funding for a city clerk, assistant clerk, two recreation coordinators, one youth program coordinator, two youth program assistants, the mayor, a janitor and operation costs for the city office, community center and youth program. Grant funds are requested for labor, fringe benefits, insurance, audit, utilities, communications, materials, supplies, and maintenance, repairs.  | Closed<br>2/11      |
| Barrow<br>10-NPRA-02      | New Boat Ramp                                       | 2,000,000           | This project entails constructing a concrete driving ramp that extends below the surface of the water level; far enough for a boat to float off the trailer without the trailer driving off the end of the ramp. The water will be excavated to ensure enough depth for easy launch. Flanking the ramp will be a floating dock, which will enable the boat to be tied up before/after launch and to keep the operator from having to walk in the water. The dock will be removed during the winter to avoid ice damage. The dock is anchored with steel piles that are designed to withstand ice forces found in the lagoon. Grant funds are requested for contractual and administration.   | Closed<br>9/15      |
| Barrow<br>10-NPRA-03      | Local Government<br>Operations and<br>Maintenance   | 1,800,000           | The goal of this project is to continue providing the following public services and facilities to Barrow residents: cemeteries, recreation facilities and activities, business licensing, alcohol registration services, taxicab regulation services, boat ramps, multi-use facilities and gathering places, Department of Motor Vehicles (DMV) services, passport services, removal of abandoned vehicles, and municipal monitoring of laws and regulations pertaining to aboriginal Inupiat lands. This project will also foster and protect Inupiat cultural traditions and increase the city's capacity and administrative capability. Grant funds are requested for labor, fringe benefits, contractual services (audit, computer support, legal, equipment maintenance), equipment rental, purchase, materials, supplies, freight, travel, and training. | Closed<br>11/10     |
| Nuiqsut<br>10-NPRA-04     | Youth Center<br>Operations and<br>Maintenance       | 188,847             | This project is to maintain and improve the existing youth center activities with migrating to be more programs-based instead of equipment-based. Because of the success of the Boys and Girls Clubs in other cities, it is hopeful that the same success can happen in Nuiqsut. Grant funds are requested for labor, fringe benefits, travel, training, maintenance and repairs to the facility, utilities, communications, and fuel.   | Closed<br>8/11      |

| Nuiqsut<br>10-NPRA-05                | Local Government<br>Operations and<br>Maintenance                        | \$420,000          | This project is to continue to fulfill the local demand for Title 29 governance and maintain the administrative staff needed to perform the various governance tasks required of a second-class city. Emphasis for the city will be placed upon maintaining and improving their ability to perform required governance task, interaction with the oil and gas industry representatives, interagency state, and federal compliance, maintaining cultural identity, expanding recreational opportunities, and seeking additional funding for identified governance projects. Grant funds are requested for labor, fringe benefits (city administrator, city clerk, bookkeeper, custodian, maintenance, night watchman, maintenance, and cultural coordinator), materials, supplies, travel, training, insurance, communication, legal expense, fuel, and equipment. | Closed<br>11/10     |
| Wainwright<br>10-NPRA-06             | Operations and<br>Maintenance<br>Equipment                               | 49,269             | This project is to obtain equipment necessary to the daily functioning of the city. This request includes an automobile to be used by administration, recreation, and maintenance. The vehicle will be used to transport visitors to the city office, transporting of freight and equipment, provide burial assistance, haul gravel for stagnant water build-up in various city locations, and transport homemaker to elders homes who live more than one mile from the city office. Grant funds are requested for automobile purchase, extra parts, freight, and administration.   | Closed<br>4/13      |
| Wainwright<br>10-NPRA-07             | Wainwright Youth<br>Recreation Program                                   | 240,000            | This project is to continue the youth program operated at the Robert James Community Center since 2005 and expand the program to include a strong intergenerational cultural component. The center is open six days a week and has computers and other recreational equipment and activities for the community's youth. Demonstrations and classes in traditional subsistence arts and skills taught by local elders and other skilled individuals will be offered weekly and will include such activities as sled making, native food preparation, drum making, harpoon making, and skin sewing. Grant funds are requested for labor, fringe benefits, training, travel, insurance, communications, utilities, maintenance & repairs, materials, supplies, postage, freight, and professional services.  | Closed<br>2/13      |
| North Slope<br>Borough<br>10-NPRA-08 | North Slope<br>Borough Workforce<br>Development<br>Three-Year<br>Program | 2,500,620          | This project is to provide continued support of the Workforce Development Program, which, in conjunction with local governments, state government and private employers will continue to provide entry-level training for unemployed residents, apprenticeship training for residents with more advanced job skills, and training to enhance the job skills of current NSB employees. Grant funds are requested for four full-time positions at the Savaat Center: workforce development coordinator; NSB employer liaison, NSB training facilitator, and senior office specialist. Grant funds are also requested for training, travel, and administration.  | Closed<br>6/15      |
| <b>Sub-Total (Page 2)</b>            |  | <b>\$3,209,889</b> |   |                     |

|--------------------------------------|---|--------------------|---|---------------------|
| North Slope<br>Borough<br>10-NPRA-09 | Arctic Fox<br>Supplemental<br>Studies to include<br>the Prevalence and<br>Incidence of Rabies<br>and other Related<br>Diseases in NPR-A | \$409,262          | This project is partially a continuation of a grant awarded at a reduced amount in FY09. One of the goals of this study is to continue to document den-site densities, diet, and movement of the arctic fox within NE NPR-A near Teshekpuk Lake. The objectives will be to continue to trap and collar fox during the field season and evaluate the movement, collect, examine, and analyze the diet of collared fox and collected prey tissue samples utilizing the isotopic technique. The project also provides for the investigation of infectious diseases in arctic fox with special focus on life-threatening rabies; data obtained will serve as the basis for potential control and management measures. Grant funds will be used towards labor, fringe benefits, contractual, travel, materials, supplies and administration. | Closed<br>6/16      |
| North Slope<br>Borough<br>10-NPRA-10 | Continuing<br>Waterfowl Survey in<br>NPR-A  | 900,000            | This purpose of this project is to provide a better understanding of the biology of waterfowl to help evaluate impacts due to climate change and oil and gas activities. An adverse impact to waterfowl would also impact hunters who depend upon waterfowl for subsistence. The data this project will generate is essential for developing appropriate and effective mitigation measures. Grant funds will be used for labor, fringe benefits, contractual, travel, materials, supplies, and administration.  | Closed<br>6/15      |
| North Slope<br>Borough<br>10-NPRA-11 | Police Officers for<br>NPR-A Impacted<br>Communities  | 1,354,712          | This project is to provide employment of three new police officers to work in NPR-A communities on a rotation schedule which will allow positioning officers within communities with the greatest need for additional coverage at any time. The ability to maintain a law enforcement/public safety presence in these communities based on changes in seasonal population and/or activities such as oilfield exploration and construction, alterations in hunting patterns, or surges in criminal behavior will allow the department to address issues more quickly. Grant funds are requested for labor, fringe benefits, travel, and administration.  | Closed<br>6/16      |
| North Slope<br>Borough<br>10-NPRA-12 | Meade River School<br>Counselor   | 243,598            | This purpose of this project is to provide funding for one full time school counselor at Meade River School in Atkasuk. School district counselors serve the children in the schools as well as the community. The professional counselor will provide counseling in areas of coping skills, grieving, anger management, decision-making, and career counseling. They provide support to teachers in developing behavior management plans, crisis intervention, and are trained to identify children and youth at-risk of suicide or in need of referral for multiple treatment options. Grant funds will be used for salary fringe benefits, professional development, travel, and administration.   | Closed<br>8/11      |
| <b>Sub-Total (Page 3)</b>            |   | <b>\$2,907,572</b> |   |                     |

| North Slope<br>Borough<br>10-NPRA-13 | Communications<br>System Upgrade   | \$5,000,000         | This project will upgrade /replace the radio equipment currently in use in all the NPR-A villages. The NSB through its police department provides dispatch services for all emergency response departments on the North Slope. The project will provide an effective communication link between the NSB villages which is vital to borough governance and management. Much of the existing communications infrastructure is more than 20 years old. Grant funds will be used for contractual costs, equipment, materials, supplies, and administration.    | Closed<br>9/21      |
| North Slope<br>Borough<br>10-NPRA-14 | Emerging Disease<br>Surveillance:<br>Continuation of<br>Wildlife Population<br>Health Assessment<br>in NPR-A | 335,032             | This project will be designed to proactively monitor infectious disease in multiple species in multiple villages across the NPR-A region of the North Slope, with special focus on zoonotic diseases (diseases that can be transferred between animals and humans) of high public health significance to the residents of the North Slope Borough. This program will lead to more rapid detection, reporting, and response to these entities. Funds are requested for labor, fringe benefits, contractual, travel, materials, supplies and administration. | Closed<br>9/16      |
| Wainwright<br>10-NPRA-15             | Wainwright Local<br>Government<br>Operations   | 300,000             | This project is continued training and financial support for the City of Wainwright to enable it to successfully manage its financial affairs and grant programs and fulfilling its municipal responsibilities. Grant funds are requested for labor, fringe benefits, training, travel, insurance, professional services, communications, utilities, maintenance, repairs, materials, supplies, and equipment.   | Closed<br>12/11     |

|---------------------------|---|--------------------|---|---------------------|
| Atqasuk<br>11-NPRA-01     | Local Government<br>Operations and<br>Youth Program | \$403,474          | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Atqasuk as they provide continued services to residents, provide staff support and meeting space for industry and town meetings, organize and support cultural and recreational activities, and operate the community youth center. This project will provide funding for a city clerk, assistant clerk, two recreation coordinators, one youth program coordinator, two youth program assistants, the mayor, a janitor, and operation costs for the city office, community center, and youth program. Grant funds are requested for labor, fringe benefits, insurance, audit, utilities, communications, materials, supplies, and maintenance, repairs.   | Closed<br>1/12      |
| Barrow<br>11-NPRA-02      | Local Government<br>Operations and<br>Maintenance   | 1,600,000          | The goal of this project is to continue providing the following public services and facilities to Barrow residents: cemeteries, recreation facilities and activities, business licensing, alcohol registration services, taxicab regulation services, boat ramps, multi-use facilities and gathering places, Department of Motor Vehicles (DMV) services, passport services, removal of abandoned vehicles, and municipal monitoring of laws and regulations pertaining to aboriginal Inupiat lands. This project will also foster and protect Inupiat cultural traditions and increase the city's capacity and administrative capability. Grant funds are requested for labor, fringe benefits, contractual services (audit, computer support, legal, equipment maintenance), equipment rental, purchase, materials, supplies, freight, travel, and training.  | Closed<br>10/11     |
| Nuiqsut<br>11-NPRA-03     | Local Government<br>Operations and<br>Maintenance   | 545,737            | This project is to continue to fulfill the local demand for Title 29 governance and maintain the administrative staff needed to perform the various governance tasks required of second-class city. Emphasis for the city will be placed upon maintaining and improving their ability to perform required governance task, interaction with the oil and gas industry representatives, interagency state, and federal compliance, maintaining cultural identity, expanding recreational opportunities, and seeking additional funding for identified governance projects. Grant funds are requested for labor, fringe benefits (city administrator, city clerk, bookkeeper, custodian, maintenance, night watchman, maintenance, and cultural coordinator), materials, supplies, travel, training, insurance, communication, legal expense, fuel, and equipment. | Closed<br>11/11     |
| Nuiqsut<br>11-NPRA-04     | Youth Center<br>Operations and<br>Maintenance       | 289,000            | This project is to continue operations and maintenance of the existing youth center, currently operated by the Boys and Girls Club (of Nuiqsut). This project is intended to continue managing the expanding Youth Center with its recreation opportunities and cultural experiences for 6-20-year-olds. Grant funds are requested for labor, fringe benefits, maintenance and repairs to the facility, utilities, communications, fuel, cultural activities, cultural camps, and training.   | Closed<br>8/12      |
| <b>Sub-Total (Page 1)</b> |   | <b>\$2,838,211</b> |   |                     |

| Wainwright<br>11-NPRA-05             | Local Government<br>Operations                        | \$455,776          | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Wainwright and provide continued service to Wainwright residents. Grant funds are requested for labor, fringe benefits, training, travel, insurance, professional services, communications, utilities, fuel, maintenance and repairs, materials, supplies, and equipment.   | Closed<br>4/13      |
| Wainwright<br>11-NPRA-06             | Wainwright Youth<br>Program                           | 327,935            | This project is to continue the youth program operated at the Robert James Community Center since 2005 and expand the program to include a strong intergenerational cultural component. The center is open six days a week and has computers and other recreational equipment and activities for the community's youth. Demonstrations and classes in traditional subsistence arts and skills taught by local elders and other skilled individuals will be offered weekly and will include such activities as sled making, native food preparation, drum making, harpoon making, and skin sewing. Grant funds are requested for labor, fringe benefits, training, travel, insurance, communications, utilities, maintenance and repairs, materials, supplies, and contractual.   | Closed<br>8/14      |
| North Slope<br>Borough<br>11-NPRA-07 | North Slope<br>Borough Internship<br>Two Year Program | 391,000            | This project is to align and employ NPR-A residents that are enrolled students, and or recent graduates, in long term relations with local employers in fields closely associated with their majors. The goal of the internship is intended to not only link academic pursuits with relevant work experience, but to provide a model for future leader roles across the North Slope Borough. The program will accommodate up to eight full time interns during their practicum. This internship program will complement the established Mayor's Job Program as well as the current Workforce Development training program, with the overall objective of helping residents to be more part of and contributing members to their communities. Grant funds are requested to fund labor and fringe benefits for intern positions, the internship program coordinator, and the training development manager as well as training and travel expenses. | Closed<br>6/15      |
| North Slope<br>Borough<br>11-NPRA-08 | North Slope<br>Borough Mayor's<br>Job Program         | 333,000            | This project is to continue the existing Mayor's job program, which provides short-term employment for NSB residents at the borough offices and other employers such as the Arctic Slope Native Association, Native Village of Barrow, and the City of Barrow. The program provides training for individuals to assist them with acquiring necessary job skills to advance to full-time employment. Grant funds are requested to fund these positions. Funding is also requested for supplies and administration.  | Closed<br>2/13      |
| <b>Sub-Total (Page 2)</b>            |   | <b>\$1,507,711</b> |  |                     |

| North Slope<br>Borough<br>11-NPRA-09 | School Counselor<br>Grant Application                 | \$251,243          | This purpose of this project is to provide funding for one full time school counselor at Eben Hopson Middle School in Barrow and Trapper School located in Nuiqsut. School district counselors serve the children in the schools as well as the community. The professional counselor will provide counseling in areas of coping skills, grieving, anger management, decision-making, and career counseling. They provide support to teachers in developing behavior management plans, crisis intervention, and are trained to identify children and youth at-risk of suicide or in need of referral for multiple treatment options. Grant funds will be used for salary, fringe benefits, professional development, travel, and administration. | Closed<br>8/11      |
| North Slope<br>Borough<br>11-NPRA-10 | North Slope<br>Borough Volunteer<br>Search and Rescue | 250,000            | This project is to provide the North Slope Borough Search and Rescue the funding to fulfill its' mission in providing critical services to the NPR-A communities of the North Slope Borough. Volunteers operate standard vehicles, snow machines, all-terrain vehicles (ATV's), and/or boats in response to the emergency. Funds are requested for travel and lodging, "Learn to Return" training, rescue sleds, boats and motors, ATVs, snow machines, cold weather clothing, miscellaneous equipment, parts, and administration.   | Closed<br>12/15     |

|---------------------------|---|--------------------|---|---------------------|
| Barrow<br>11-NPRA-11      | Continuation of<br>New Boat Ramp  | \$600,000          | This project is to provide the additional funding necessary for the construction of a new boat ramp that will afford the people of Barrow a place to safely launch and land their boats. Funding was received in an FY10 NPR-A grant for this project, however, in response to an RFP, construction firms returned a bid figure of approximately \$600,000 higher than the original project analysis report had projected. The additional funding for this project will ensure completion of the project.   | Closed<br>9/15      |
| Barrow<br>11-NPRA-12      | Construction of<br>Piuraagvik<br>Recreation Center<br>Facility Addition | 4,341,120          | This project is to renovate the existing structure that includes mechanical system infrastructure to support Phase II of the addition to the center adding more program space and a new spectator gym. This project, (Phase I) will include locker room upgrades and expansion, replacement, and expansion of existing HVAC, including capacity for the Phase II heating requirements, sprinkler system installation sized for Phase II, replacement and upgrading of electrical panels, replacement of communications equipment, and water service upgrades to support the sprinkler system.   | Closed<br>10/13     |
| Nuiqsut<br>11-NPRA-13     | Boat Ramp   | 461,547            | This project is to construct a seasonal removable boat ramp on the Nigliq Channel of the Colville River within the city limits of Nuiqsut. The area is currently used as a boat launching area and is accessed by a dirt access road located inside the city boundary. The area is muddy and difficult to access for the people of Nuiqsut who use this access for subsistence hunting and fishing, general transportation, and summer search and rescue operations. The design for this boat ramp is complete and applicable permits have been obtained. This boat ramp will provide: 1) better summer and autumn access to subsistence hunting and fishing grounds 2) better ability to launch a number of first response Search and Rescue marine vehicles from Nuiqsut; and 3) improved first response capability to mitigate potential oil spills. | Closed<br>11/14     |
| Wainwright<br>11-NPRA-14  | Standby Emergency<br>Equipment  | 11,913             | This purpose of this project is to provide funding for the purchase of standby emergency generators and equipment necessary when power shutdowns occur due to wind, snow, and ice and water storms. The generators will provide temporary electricity for the main essential buildings to operate; kerosene heaters for heat to warm the buildings, and kerosene lanterns for lights.   | Closed<br>11/11     |
| Wainwright<br>11-NPRA-15  | Maintenance/<br>Custodian Position                                      | 19,849             | The purpose of this project is to provide funding for a half-time maintenance/custodian position. Currently there is not sufficient manpower to complete the daily work. The current budget does not provide funding to hire a part-time employee to do the maintenance and custodial work when the full-time maintenance and custodian employee is on leave. Continued funding for this new half-time position will be incorporated into the annual Local Government Operations grant application.   | Closed<br>5/13      |
| <b>Sub-Total (Page 1)</b> |   | <b>\$5,434,429</b> |   |                     |

|--------------------------------------|---|--------------------|--|---------------------|
| Wainwright<br>11-NPRA-16             | Cemetery Fencing                                | \$102,446          | This project is to provide fencing in the three cemeteries that are the responsibility of the city. Fencing the cemeteries will prohibit access by animals and people who travel on snow-machines and four-wheelers. This project will prevent the spread of disease that could occur when animals dig in the cemeteries.  | Closed<br>4/13      |
| Wainwright<br>11-NPRA-17             | City Park                                       | 598,785            | This project is to expand the recreation program by adding a new outdoor recreation area to the community for the citizens of Wainwright. Sixty percent of the current population of Wainwright is under the age of 18 with a need for outdoor recreation facilities. Grant funds are requested for a contractor, equipment purchase, freight, and project administration costs.   | Closed<br>8/14      |
| North Slope<br>Borough<br>11-NPRA-18 | Cabins and<br>Campsites Mapping<br>Continuation | 121,000            | The purpose of this project is to continue the process of clearly identifying, photographing, and recording all cabin and campsite locations that are within the NPR-A. The continuation of this project will allow the NSB to access the remote areas such as, south of Wainwright, and southwest between Point Lay and Wainwright. The data acquired will then be incorporated into a Geographic Information System (GIS) that will be utilized by the North Slope Borough departments, BLM, as well as local and non-local residents and rotational workers. This project involves flying a helicopter to each cabin and campsite location to accurately note locations and obtain Global Positioning System (GPS) coordinates of each cabin and campsite. Grant funds are requested for travel, helicopter fuel, professional services, and administration.  | Closed<br>6/15      |
| North Slope<br>Borough<br>11-NPRA-19 | Aerial Photography                              | 197,868            | The goal of this project is to acquire new images of each of the NPR-A villages and the surrounding areas to assess the environmental impact caused by oil and gas exploration and to lay a baseline on ground conditions in and around the oil and gas exploration villages. The NSB will contract to acquire new vertical stereo aerial photography of the four North Slope Borough NPR-A villages of Atkasuk, Wainwright, Barrow and Nuiqsut.   | Closed<br>6/15      |
| North Slope<br>Borough<br>11-NPRA-20 | Wildlife Outreach                               | 225,000            | The purpose of this project is to provide outreach through plain language reports and summaries of scientific studies conducted by the North Slope Borough and possibly other entities to the NPR-A village residents. The NSB Department of Wildlife Management would hire local residents as wildlife interns who understand first-hand subsistence hunting lifestyles and are familiar with the local wildlife. Enhanced communication between biologists and local residents will promote a better understanding of the issues and concerns surrounding oil and gas development in the NPR-A. This project will also provide support for young people interested in understanding these scientific activities within the NPR-A and provide encouragement to those interested in pursuing science as a career. The previous NPR-A grant (08-NPRA-18) has allowed the NSB Department of Wildlife Management to begin some of these outreach tasks. | Closed<br>6/17      |
| <b>Sub-Total (Page 2)</b>            |   | <b>\$1,245,099</b> |  |                     |

|--------------------------------------|---|---------------------|---|---------------------|
| North Slope<br>Borough<br>11-NPRA-21 | NPR-A Technical<br>Review Team                    | \$1,500,000         | The goal of this project is to ensure the North Slope Borough can continue to adequately stay abreast of and respond to increasingly complex environmental impact statements, environmental analyses, and permit applications, as well as make decisions and provide reports related to NPR-A activities. This project will support additional staff to assist the NSB departments responsible for the reviewing and commenting on resource development issues. Three of the NSB departments will receive funding for staff through this grant: Law Department, Department of Wildlife Management, and the Department of Planning and Community Services. The range of this team's abilities will allow the North Slope Borough to respond to widely diverse proposed and actual oil and gas operations, while, at the same time, working together as a group and focusing on objectives that will help alleviate impacts of oil and gas activities on the North Slope. | Closed<br>5/14      |
| North Slope<br>Borough<br>11-NPRA-22 | NSB – Nuiqsut<br>Power Plant<br>Generator Upgrade | 1,386,000           | This project would fund replacement of an older diesel generator in the Nuiqsut Power Plant with an energy efficient natural gas unit to provide essential public service and address the NPR-A related impacts. Installation of the new generator will enable the utility to meet current demands for increased power generation during the winter. Prevention of a failure will aid in protection of community residents and the public services essential to community health and wellbeing.   | Closed<br>8/13      |
| North Slope<br>Borough<br>11-NPRA-23 | Colville River Road<br>– Gravel<br>Acquisition    | 2,318,988           | This project is to acquire the gravel that would extend the existing road constructed and maintained by the North Slope Borough which connects the City of Nuiqsut to Freshwater Lake. The Coleville River Road project would extend the road approximately four miles to the Coleville River. The most critical factor in construction of this road is availability of gravel at the time of construction. The large amount of gravel for this road is not stockpiled and will have to be mined and the excess moisture must be allowed to drain.  | Closed<br>6/15      |
| North Slope<br>Borough<br>11-NPRA-24 | NARL Road   | 2,750,000           | This project involves relocation of a portion of Stevenson Road which provides access from the core Barrow area to the Naval Arctic Research Laboratory (NARL) area complexes, including Illisagvik College and subsistence sites beyond. Current access via Stevenson Road, which is adjacent to the Chukchi Sea (Arctic Ocean) is damaged frequently by wind driven sea waves and storm surges. Construction will relocate the road to follow the south shore of Middle Salt Lagoon from a newly constructed extension of Laura Madison Road. Construction of a new inland access (Uivaqsaagiaq Road) to NARL will result in an overall cost savings compared to attempts to keep the existing Stevenson Road passable.   | Closed<br>6/18      |

School District Counselors serve the children in the schools and the community as a whole. The professional counselor will provide counseling in areas of coping skills, grieving, anger management, and decision-making and career counseling. They provide support to teachers in developing behavior management plans, crisis intervention, and are trained to identify children and youth at-risk of suicide or in need of referral for multiple treatment options. Grant funds will be used for salary, fringe benefits, professional development, travel, and administration.  | Closed<br>5/12      |
| North Slope<br>Borough<br>12-NPRA-08 | School Counselor<br>Program                        | 194,972             | This purpose of this project is to provide partial funding for one full time school counselor at Eben Hopson Middle School in Barrow and Trapper School located in Nuiqsut. School district counselors serve the children in the schools and the community as a whole. The professional counselor will provide counseling in areas of coping skills, grieving, anger management, decision-making, and career counseling. They provide support to teachers in developing behavior management plans, crisis intervention, and are trained to identify children and youth at-risk of suicide or in need of referral for multiple treatment options. Grant funds will be used for salary, fringe benefits, professional development, travel, and administration.   | Closed<br>5/12      |

| Nuiqsut<br>12-NPRA-12     | Local Government<br>Operations and<br>Maintenance | \$595,000           | This project is to continue to fund operations so the city government may continue providing Title 29 governance. Funding will be used to maintain administrative staff performing the various tasks needed to ensure Nuiqsut will function adequately as a second-class city. Nuiqsut is already overwhelmed by a rapidly expanding oil and gas industrial infrastructure within its community. Should the CD-5 bridge project be approved, the pressure on city government will increase exponentially with time. The project goal is to retain the administrative staff and improve the capacity for city operations. Grant funds are requested for labor, fringe for city employees: (city administrator, city clerk, bookkeeper, custodian, night watchman, maintenance, cultural coordinator), materials, supplies, maintenance and repair, utilities, travel/training, insurance, communication, fuel, and equipment expenses. | Closed<br>7/13      |
| Wainwright<br>12-NPRA-13  | Wainwright Local<br>Government<br>Operations      | 245,000             | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Wainwright and provide continued service to Wainwright residents. Grant funds are requested for labor, fringe benefits, training, travel, insurance, professional services, communications, utilities, fuel, maintenance and repairs, and materials, supplies, equipment.  | Closed<br>1/14      |

| Atqasuk<br>13-NPRA-01     | Local Government<br>Operations and<br>Youth Program | \$493,940          | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Atqasuk and provide continued services to residents, to provide staff support and meeting space for industry and town meetings, to organize and support cultural and recreation activities and to operate the community Youth Center. This project will provide funding for a city administrator, city clerk, assistant clerk, the mayor, two recreation coordinators, one youth program coordinator, one youth program assistant, temporary instructors and chaperone for Youth Program Cultural Activities, a janitor, temporary maintenance worker, and operations costs for the city office, community center and youth program. Grant funds are requested for labor, fringe benefits, insurance, audit, utilities, communications, materials, supplies, and funding for community center upgrades and repair.                              | Closed<br>3/14      |
| Barrow<br>13-NPRA-02      | Local Government<br>Operations and<br>Maintenance   | 1,600,000          | The goal of this project is to continue providing the following public services and facilities to Barrow residents: cemeteries, recreation facilities and activities, business licensing, alcohol registration services, taxicab regulation services, community boat ramps, multi-use facilities and gathering places, Department of Motor Vehicles (DMV) services, passport services, removal of abandoned vehicles, and municipal monitoring of laws and regulations pertaining to aboriginal Inupiat lands. This project will also foster and protect Inupiat cultural traditions and increase the city's capacity and administrative capability. Grant funds are requested for labor, fringe benefits, contractual services (audit, computer support, legal, equipment maintenance), equipment rental, purchase, materials, supplies, freight, travel, and training.   | Closed<br>4/14      |
| Nuiqsut<br>13-NPRA-03     | Local Government<br>Operations and<br>Maintenance   | 718,163            | This project is to continue to fulfill the local demand for Title 29 governance in the 2 <sup>nd</sup> class city of Nuiqsut. Emphases for this grant will be placed upon maintaining and improving the local capacity to perform required governance tasks; interaction with the oil and gas industry representatives, interagency state, and federal compliance, maintaining cultural identity, expanding recreational opportunities, fulfilling identified cemetery tasks; and seeking additional funding for identified governance projects that have the technical back-up to permit funding. Grant funds are requested for labor, fringe benefits (city administrator, mayor, city clerk, bookkeeper, office assistant, custodian, maintenance, night watchman, animal control officer, cultural coordinator, and search and rescue night surveillance), materials, supplies, travel, training, and administration, utilities, insurance, communication, legal, audit. | Closed<br>9/14      |
| Nuiqsut<br>13-NPRA-04     | Youth Center<br>Operations and<br>Maintenance       | 258,018            | This project will continue to improve and strengthen management of our expanding Youth Center programs and activities for that segment of the Nuiqsut population between 6-20 years old. Grant funds are requested for labor, fringe benefits (one teen center supervisor, one assistant supervisor, three coordinators, and one custodian), maintenance and repairs to the facility, utilities, communications, fuel and travel, training.  | Closed<br>6/14      |

| Wainwright<br>13-NPRA-05             | Wainwright Local<br>Government<br>Operations                                       | \$228,000         | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Wainwright and provide continued municipal services to Wainwright residents, to provide staff support and meeting space for industry and town meetings, and to organize and support cultural and recreation activities. Grant funds are requested for labor, fringe benefits, training, travel, insurance, contractual services, communications, utilities, fuel, maintenance and repairs, and materials, supplies, equipment, and freight.  | Closed<br>6/14      |
| North Slope<br>Borough<br>13-NPRA-06 | Permit Tracking<br>System  | 242,000           | This project is to purchase a Geographic Information System. Permit-tracking system is an essential management tool to help mitigate the impacts stemming from NPR-A development. This tool assists in measuring the impact and in allocating staff resource in an effective and efficient manner. The GIS permit tracking system is designed to keep all documents and information related to development on the North Slope within a single database to provide greater consistency and better service for those seeking development permits and the communities that development affects; facilitate easy retrieval and permitting and related information and determine the possible impacts of development and mitigate them as best as possible. Grant funds are requested for automobile purchase, extra parts, freight, and administration. | Closed<br>6/20      |
| North Slope<br>Borough<br>13-NPRA-07 | Mayors Job<br>Program  | 219,018           | This project is to continue the existing Mayor's job program, which provides short-term employment for NSB residents at the borough offices and other employers such as the Arctic Slope Native Association, Native Village of Barrow, and the City of Barrow. The program provides training for individuals to assist them with acquiring necessary job skills to advance to full-time employment. Grant funds are requested to fund these positions. Funding is also requested for supplies and administration.   | Closed<br>11/13     |
| North Slope<br>Borough<br>13-NPRA-08 | Monitoring the<br>Subsistence<br>Fisheries in the<br>Elson Lagoon and<br>Kuk Inlet | 109,000           | This study will be a continuation of the current monitoring of the Elson Lagoon fishery and will also supplement a current study being conducted in the Kuk Inlet fishery, which is adjacent to the village of Wainwright. This will be done by collaborating with subsistence fishers as it has been done successfully in Barrow in the past. Along with using information provided by fishers, department staff and contractors will collect data on subsistence fishing efforts using net surveys. Information on species composition will also be collected using live trap fish nets in Elson Lagoon and the Kuk Inlet. The study will also capture information on inadvertent catch of non-target species such as Yellow-billed Loons.  | Closed<br>6/19      |

| North Slope<br>Borough<br>13-NPRA-09 | Meade River School<br>Counselor                    | \$243,819           | This project is to provide funding for one full time school counselor at Meade River School in Atkasuk for two years. School District Counselors serve the children in the schools, as well as the community. The professional counselor will make mental health services easily accessible for students at all grade levels or in need for referral services, as well as individual and small group counseling services. Additionally, the program is designed to provide students access to age-appropriate career guidance activities within the school and to facilitate access to career exploration within the community. Grant funds will used for salary, fringe benefits, professional development, travel, and administration.  | Closed<br>3/15      |
| North Slope<br>Borough<br>13-NPRA-10 | School Counselor<br>Program                        | 287,296             | This purpose of this project is to provide funding for a school counselor for one year at Eben Hopson Middle School in Barrow and a school counselor for one year at Nuiqsut Trapper School located in Nuiqsut. School District Counselors serve the children in the schools and the community. The professional counselor will make mental health services easily accessible for students at all grade levels or in need for referral services, as well individual and small group counseling services. Additionally, the program is designed to provide students access to age-appropriate career guidance activities within the school and to facilitate access to career exploration within the community. | Anaktuvuk Pass<br>14-NPRA-01         | General Operations                                  | \$257,703           | This project is to supplement the general operations to enable the city to continue to build capacity for effective and efficient local government operation during a period of increased NPR-A related oil and gas development. The city provides services and recreation activities to the community. This includes management of the sole community center building, utilized by the city and other entities for community events, meetings with state, federal and other organizations. Activities related to opening access to the southwest NPR-A has resulted in an influx of governmental agencies, researchers, and environmentalists all with an eye on trying to accomplish their own goals. Grant funds are requested for labor and fringe benefits. | Closed<br>9/14      |
| Barrow<br>14-NPRA-02                 | Public Facilities<br>Operations and<br>Maintenance  | 906,142             | The goal of this project is to continue providing the following public services and facilities to Barrow residents: cemeteries, recreation facilities and activities, business licensing, alcohol registration services, taxicab regulation services, community boat ramps, multi-use facilities and gathering places, Department of Motor Vehicles (DMV) services, passport services, removal of abandoned vehicles, and special events with Cultural Significance to the Inupiat way of life. Grant funds are requested for labor, fringe benefits, contractual services, equipment purchase, materials, supplies, and freight.  | Closed<br>9/14      |
| North Slope<br>Borough<br>14-NPRA-03 | NPR-A Village<br>Comprehensive<br>Land Use Plans    | 400,000             | The purpose of this project is to create a comprehensive plan that serves as a guide to the local governments when they are making decision on budgets, ordinances, capital improvements, zoning, and subdivision matters related to the community. Grant funds are requested for contractual services and administration.   | Closed<br>6/21      |

| Nuiqsut<br>14-NPRA-06     | Local Government<br>Operations and<br>Maintenance | \$375,000           | This project is to continue to fulfill the local demand for Title 29 governance in the 2 <sup>nd</sup> class city of Nuiqsut. Emphases for this grant will be placed upon maintaining and improving the local capacity to perform required governance tasks; interaction with the oil and gas industry representatives, interagency state, and federal compliance, maintaining cultural identity, expanding recreational opportunities, fulfilling identified cemetery tasks; and seeking additional funding for identified governance projects that have the technical back-up to permit funding. Grant funds are requested for labor, fringe benefits (city administrator, mayor, city clerk, bookkeeper, office assistant, custodian, maintenance, night watchman, animal control officer, cultural coordinator, and search and rescue night surveillance), materials, supplies, travel, training, and administration, utilities, insurance, communication, legal, audit. | Closed<br>10/14     |
| Nuiqsut<br>14-NPRA-07     | Youth Center<br>Operations and<br>Maintenance     | 200,000             | This project will continue to improve and strengthen management of our expanding Youth Center programs and activities for that segment of the Nuiqsut population between 6-20 years old. Grant funds are requested for labor, fringe benefits, supplies, freight, maintenance, repairs, utilities, communications, fuel, travel, training, equipment, cultural camps, and special events.  | Closed<br>5/15      |
| Wainwright<br>14-NPRA-08  | Wainwright Local<br>Government<br>Operations      | 325,000             | The purpose of this project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Wainwright; to provide continued municipal services to Wainwright residents, to provide staff support and meeting space for industry and town meetings, and to organize and support cultural and recreational activities and to operate a Youth Center for the community youth. Grant funds are requested for labor, fringe benefits, travel, insurance, contractual services, communications, utilities, maintenance, repairs, materials, supplies, freight, fuel, equipment rental, and equipment purchase.  | Closed<br>1/15      |
| Wainwright<br>14-NPRA-09  | Wainwright Youth<br>Program                       | 323,119             | This project is to continue the Youth Program operated at the Robert James Community Center and expand the program to include a strong intergenerational cultural component. Demonstrations and classes in traditional subsistence arts and skills taught by local elders and other skilled individuals will be offered weekly and will include such activities as sled making, native food preparation, drum making, harpoon making, and skin sewing. In 2009 the City entered into a memorandum of agreement with the Boys and Girls club of Southeast Alaska to establish and manage the Wainwright Youth Center as a Boys and Girls Club. Grant funds are requested for labor, fringe benefits, training, travel, insurance, communications, utilities, maintenance, repairs, materials, supplies, and contractual services.   | Closed<br>5/16      |

| Anaktuvuk<br>Pass<br>15-NPRA-01 | General Operations<br>and Renovations                              | \$536,985           | This project is to support the general operations and renovation activities of the city of Anaktuvuk Pass, enabling the city to continue to build capacity for effective and efficient local government operation during a period of increased NPR-A related oil and gas development. Because the city provides services and recreation activities to the community, grant funds are requested for labor, fringe benefits, and contractual services to renovate the community center and city-owned house, equipment rental, materials, supplies, fuel, insurance, utilities, communications, and travel.  | Closed<br>11/15     |
| Atkasuk<br>15-NPRA-02           | Local Government<br>Operations and<br>Youth Program                | 150,000             | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Atkasuk and provide continued services to residents, to provide staff support and meeting space for industry and town meetings, to organize and support cultural and recreational activities, and to operate the community Youth Center. Grant funds are requested for labor, fringe benefits, insurance, professional services, travel, utilities, communications, maintenance and repairs, and materials and supplies.  | Closed<br>11/15     |
| Barrow<br>15-NPRA-03            | Archival   | 168,636             | This project is intended to benefit the past, present and future population of Barrow by providing access to information about oil and gas issues, land issues, historical issues, and municipal/governmental issues for all who request it. The goal of the Archival project is to reduce the hard copy and electronic record holdings by developing and implementing a Records Management Program to help control, mitigate, and manage the growth of hard copy and electronic records. This project will improve the efficiency of city services by providing an accessible, categorized archive and digital database of city documents. Grant funds are requested for wages and fringe benefits for an Archivist.                                    | Closed<br>5/20      |

| Atqasuk<br>22-NPRA-02                | Local Government<br>Operations and<br>Youth Program  | \$478,796          | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Atqasuk and provide continued services to residents including the youth program. Grant funds will be for labor, fringe benefits, insurance, professional services, travel, utilities, communications, maintenance and repairs, materials, and supplies. | Closed<br>5/23      |
| North Slope<br>Borough<br>22-NPRA-03 | Baseline update on<br>health and<br>persistent organic<br>pollutant exposure<br>of important<br>subsistence fish<br>species in the<br>Colville River | 175,000            | This project is to build and expand on previous fish health and contaminant work within the NPR-A and analysis of relevant baseline information on health and petroleum/heavy metal exposure in fish resources. Grant funds will be for labor and fringe benefits, contractual, materials/supplies, travel, and administration.  | Active              |
| North Slope<br>Borough<br>22-NPRA-05 | Improve our<br>understanding of<br>polar bear<br>movements and<br>population size near<br>NPR-A  | 250,000            | This project is to focus on monitoring a population of polar bears for their long-term sustainable management through development of a non-invasive genetic based approach to count DNA left behind in their paw prints. Grant funds will be for labor and fringe benefits, contractual, materials/supplies, and administration.   | Active              |
| North Slope<br>Borough<br>22-NPRA-06 | Monitoring Bearded<br>Seals in the NPR-A<br>through tagging and<br>acoustics   | 190,000            | This project is to tag and complete an acoustic study of the critical bearded seal marine mammal population of the NPR-A region. Grant funds will be for labor and fringe benefits, contractual, equipment, materials/supplies, and administration.  | Active              |
| North Slope<br>Borough<br>22-NPRA-07 | Road Network for<br>Utqiagvik, Atqasuk<br>and Wainwright<br>villages in the<br>NPR-A   | 500,000            | This project is to provide an all-season gravel road network connecting Utqiagvik, Atqasuk, and Wainwright. Grant funds will be for contractual and administration.  | Active              |
| North Slope<br>Borough<br>22-NPRA-08 | Vocational Training<br>Career Center in the<br>Service Area that<br>serves the NPR-A   | 600,000            | This project is to create a Vocational Training Center in Deadhorse, Alaska to serve the NPR-A region. Grant funds will be for labor and fringe benefits, contractual, equipment, materials/supplies, freight, travel, and administration.   | Active              |
| Nuiqsut<br>22-NPRA-12                | Kisik Community<br>Center Maintenance<br>Phase II  | 1,395,735          | This project is to provide a 'one-time' comprehensive HVAC system repair to the city's Kisik Community Center, which is an essential building for the community. Grant funds will be for contractual, materials/freight, and travel.   | Active              |
| Nuiqsut<br>22-NPRA-13                | Land Ownership<br>Study  | 39,620             | This project is to document the land that is city-owned or is in the process of being fully adjudicated or conveyed to the city. Grant funds will be for contractual.  | Active              |
| Utqiagvik<br>22-NPRA-16              | Installation of New<br>LED Lights for<br>Roller Rink   | 39,300             | This project will be used to purchase and install new LED lights at the roller rink. Grant funds will be for contractual services  | Active              |
| <b>Sub-Total (Page 1)</b>            |  | <b>\$3,668,451</b> |  |                     |

|---------------------------------------|--|--------------------|--|---------------------|
| Anaktuvuk Pass<br>22-NPRA-236         | Local Operation  | \$1,187,789        | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Anaktuvuk Pass. Grant funds will be for labor, fringe benefits, insurance, professional services, travel, utilities, communications, maintenance and repairs, materials, and supplies.  | Active              |
| Atqasuk<br>22-NPRA-237                | Local Government<br>Operations and<br>Youth Program  | 516,134            | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Atqasuk and provide continued services to residents including the youth program. Grant funds will be for labor, fringe benefits, insurance, professional services, travel, utilities, communications, maintenance and repairs, materials, and supplies.   | Active              |
| North Slope<br>Borough<br>22-NPRA-226 | Effects of ship<br>traffic on beluga<br>whales near NPR-A<br>sites   | 300,000            | The purpose of this project is to support the North Slope Borough Department of Wildlife Management in assessing the impact of ship traffic associated with activities within the NPR-A on the movements and behavior of beluga whales near existing and proposed access sites, including dock sites and Module Transfer Islands. Grant funds will be for labor and fringe benefits, equipment purchase, materials/supplies, travel, and administration. | Active              |
| North Slope<br>Borough<br>22-NPRA-227 | Under Ice<br>Monitoring of<br>Fishes and their<br>Habitat in NPR-A   | 230,000            | The purpose of this project is to collect information on the under-ice distribution of fishes in the NPR-A region and their association to changes in their habitat, specifically in the nearshore/lagoon habitat near Wainwright and Utqiagvik. Grant funds will be for contractual, equipment purchase, materials/supplies, freight, travel, and administration.   | Active              |
| North Slope<br>Borough<br>22-NPRA-230 | Monitoring<br>Teshekpuk Caribou<br>Movements within<br>the NPR-A   | 460,000            | The purpose of this project is to provide support to the North Slope Borough Department of Wildlife Management to continue the collection of Teshekpuk caribou movement data using GPS collars. Grant funds will be for labor and fringe benefits, contractual, materials/supplies, freight, travel, and administration.   | Active              |
| North Slope<br>Borough<br>22-NPRA-231 | Occurrence of the<br>opportunistic<br>pathogen<br>Saprolegnia<br>parasitica in North<br>Slope watersheds<br>and characterization<br>of host infection in<br>subsistence fish in<br>this region | 170,000            | The purpose of this project is to monitor and collect data on the presence of mold in NPR-A waterbodies where subsistence fishing occurs. Grant funds will be for labor and fringe benefits, materials/supplies, freight, travel, and administration.  | Active              |
| North Slope<br>Borough<br>22-NPRA-232 | Technical Training<br>and Professional<br>Development  | 500,000            | The purpose of this project is to provide training to maintain professional certification and licenses for responders in their unique requirements of working in NPR-A impacted communities. Grant funds will be for contractual, materials/supplies, travel, and administration.  | Active              |
| <b>Sub-Total (Page 1)</b>             |  | <b>\$3,363,923</b> |  |                     |

| North Slope<br>Borough<br>22-NPRA-233 | NPR-A Search and<br>Rescue Personnel<br>and Training for<br>NPR-A<br>Communities | \$750,000           | The purpose of this project is to create a North Slope Borough (NSB) Search and Rescue (SAR) Assistant Coordinator position and to provide training for North Slope Volunteer Search and Rescue organizations located in the NPR-A communities. This project will also cover necessary training for NSB SAR pilots to keep up with constant training needed for specific aircraft and equipment. Grant funds will be for labor and fringe benefits, contractual, equipment purchase, materials/supplies, travel, and administration. | Active              |
| North Slope<br>Borough<br>22-NPRA-234 | CWAT- Anaktuvuk<br>Pass  | 2,000,000           | The purpose of this project is a continuation of the CWAT 2020 program. This project supports staffing, maintenance, monitoring, and contractual services necessary to provide a winter access trail into the community of Anaktuvuk Pass and to Galbraith Lake. Grant funds will be for labor and fringe benefits, contractual, equipment parts, materials/supplies, travel, and administration.  | Active              |
| Utqiagvik<br>22-NPRA-235              | All City Facilities<br>Fire Alarm System<br>Upgrades                             | 430,209             | This project will be used to install fire alarms and fire extinguishers in all indoor city facilities, in addition to a sprinkler system in the city hall. Grant funds will be for contractual services and 10% administrative costs.  | Active              |
| Utqiagvik<br>22-NPRA-238              | Local Government<br>Operations   | 3,000,000           | This project is for operations including city council, administration cost, recreation, maintenance department, cemetery oversight, business licensing, Department of Motor Vehicles (DMV), taxicab administration and taxicab commission, distribution center, concessions, summer youth program, scholarship expenses, little dribblers, and ice rink. Grant funds will be for labor, fringe benefits, insurance, contractual services, utilities, materials, and supplies.  | Active              |
| Wainwright<br>22-NPRA-228             | Wainwright Youth<br>Program  | 547,259             | This project is to continue the Youth Program operated at the Robert James Community Center. The youth program established in 2005 provides a safe and drug free environment with adult supervision for young people from 6-18 years old. Grant funds will be for labor, fringe benefits, insurance, contractual services, travel/training, recreational materials, supplies, equipment, utilities, communication, building maintenance and repairs.   | Active              |
| Wainwright<br>22-NPRA-229             | City Vehicles  | 108,165             | The purpose of this project is to provide transportation necessary for the city staff to perform their responsibilities in a safe and efficient manner by purchasing a SUV, UTV and a 4-Wheeler ATV. Grant funds will be for equipment purchase and freight.   | Active              |
|                                       | <b>Sub-Total (Page 1)</b>  | <b>\$3,363,923</b>  |  |                     |
|                                       | <b>Sub-Total (Page 2)</b>  | <b>\$6,835,633</b>  |  |                     |
|                                       | <b>Total</b>   | <b>\$10,199,556</b> |  |                     |

|------------------------------------|--|------------------------|--|---------------------|
| North Slope Borough<br>23-NPRA-211 | Support of an Ice-Based Visual Survey of Bowhead Whale Abundance | \$1,535,969.00         | This project is to support the North Slope Borough Department of Wildlife Management in estimating the abundance of the Bering-Chukchi-Beaufort stock of Bowhead Whales through an ice based visual survey. This information is necessary for the planning of port access sites, harvest management, and resource development within the NPR-A. Grant funds will be used for labor, fringe benefits, contractual, and indirect.  | Active              |
| North Slope Borough<br>23-NPRA-212 | Support of Aerial Surveys of Bowhead Whale Abundance             | \$717,002.00           | The purpose of this project is to support the North Slope Borough Department of Wildlife Management in collaboration with the National Atmospheric and Oceanic Administration (NOAA), Alaska Fisheries Science Center (AFSC), in estimating the abundance and distribution of the Bering-Chukchi-Beaufort stock population) of Bowhead Whales using aerial surveys. Grant funds will be used for labor, fringe benefits, contractual, and indirect.  | Active              |
| North Slope Borough<br>23-NPRA-213 | Search and Rescue Safety and Equipment                           | \$580,000.00           | The purpose of this project is to support North Slope Borough's Search and Rescue Department by providing funding to purchase and repair necessary equipment, and to provide training on the remote underwater vehicle used for underwater recovery. Grant funds will be used for contractual, equipment, material and supplies, freight, travel, and administration.  | Pending             |
| North Slope Borough<br>23-NPRA-215 | Astar Test Roads Project   | \$1,714,092.80         | The purpose of this project is to provide the North Slope Borough in collaboration with the Alaska Department of Natural Resources (ADNR) and Alaska Department of Transportation and Public Facilities (DOT&PF) with funding to develop a proposal to construct an approximately 2 mile test section road on the outskirts of Utqiagvik. In support of the Arctic Strategic and Resources (ASTAR) program, testing potential local materials in combination with design elements appropriate for the local construction methodologies that will assist in designing and building resilient Arctic roads. Grant funds will be used for contractual and administration. | Pending             |
| Utqiagvik<br>23-NPRA-216           | (3) New Playground   | \$807,500.00           | The purpose of this project is to provide the City of Utqiagvik with 3 new playgrounds. Grant funds will be used to purchase playground equipment and freight.   | Pending             |
| City of Wainwright<br>23-NPRA-214  | Whalers' Shop Site Analysis & Preliminary Design                 | \$294,000.00           | The purpose of this project is to provide the City of Wainwright funding for professional engineering and architectural design for a Whalers shop. This project will generate a 35% design that can be utilized to seek funding for a design/build construction contract. Funds will be used for contractual and administration.   | Active              |

| Atqasuk<br>24-NPRA-12                | Local Government<br>Operations and<br>Youth Programs   | \$543,206.00          | This project is to supplement the operations and maintenance costs necessary to successfully operate the local government of Atqasuk and provide continued services to residents including the youth program. Grant funds will be for labor, fringe benefits, insurance, professional services, travel, utilities, communications, maintenance and repairs, materials, and supplies.                          | Active              |
| North Slope<br>Borough<br>24-NPRA-01 | Monitoring<br>Fisheries in North<br>Salt Lagoon  | \$331,490.00          | This project is to support the North Slope Borough's Dept of Wildlife Management by providing funding to test whether there are current oil and gas impacts on fish rates in Nort Salt Lagoon, an area used for subsistence. Grant funds will be for labor, fringe, contractual, equipment, materials, supplies, freight, travel and administration.  | Active              |
| North Slope<br>Borough<br>24-NPRA-02 | North Slope<br>Borough Land<br>Management<br>Enforcement   | \$350,000.00          | This project is to provide North Slope Borough funding to provide essential inspections of village development and subsistence resources throughout the NPR-A region. Grant funds will be for labor, fringe, materials, supplies, travel and administration   | Active              |
| North Slope<br>Borough<br>24-NPRA-03 | Caribou Health and<br>Disease Guide for<br>North Slope<br>Communities                                | \$98,618.00           | This project is to provide a pictorial guide on caribou diseases and parasites which have been reported on the North Slope. The guide will also provide recommendations for safe preparation of caribou within the context of traditional customary practices and food preparation methods for people and dogs. Grant funds will be used for labor, fringe, contractual, freight, travel, and administration. | Active              |
| North Slope<br>Borough<br>24-NPRA-04 | Estimating<br>reproductive<br>parameters for the<br>Eastern Chukchi<br>Sea stock of Beluga<br>Whales | \$240,686.00          | This project will collect reproductive data for the Eastern Chukchi Sea stock of beluga whales. NSB will collect data using ovaries and compare them to older samples collected between 2006 and 2023. Grant funds will be used for labor, fringe, contractual, equipment, materials, supplies, freight, travel, administration.  | Active              |
| North Slope<br>Borough<br>24-NPRA-05 | Window<br>Replacement<br>Program   | \$1,892,646.00        | This project will assist the NSB Housing Department preform window replacements to residents, protecting them from the harsh arctic weather, and improve air quality in homes. Grant funds will be used for labor, fringe, materials, supplies, freight, travel, administration.  | Active              |
| North Slope<br>Borough<br>24-NPRA-06 | Community Winter<br>Access Trail<br>(CWAT)   | \$5,000,000.00        | This project provides continued maintenance of the Community Winter Access trails providing access to travel between the communities of Utqiagvik, Atqasuk, Wainwright, and Anaktuvuk Pass to the Alaska state road system. Grant funding will be used for labor, fringe, contractual, materials, supplies, travel, administration.   | Active              |
| North Slope<br>Borough<br>24-NPRA-07 | Enhanced Mobility<br>and Infrastructure<br>Revamp for PD   | \$835,524.00          | This project will provide for seven new side-by-side vehicles, loaded with emergency equipment, as well as three vehicles, and freight to the communities the vehicles will be earmarked to. Grant funds will be used for equipment, materials, supplies, freight, and administration.  | Active              |
| <b>Sub-Total (Page 1)</b>            |  | <b>\$9,292,170.00</b> |   |                     |

**Federal Statutes (42 USC Chapter 78)**

**Alaska Statutes (AS 37.05.530)**

**Alaska Regulations (03 AAC 150)**

**UNITED STATES CODE**  
**Title 42 - The Public Health and Welfare**  
**Chapter 78 - National Petroleum Reserve in Alaska**

**Sec. 6501. - “Petroleum” defined**

As used in this chapter, the term "petroleum" includes crude oil, gases (including natural gas), natural gasoline, and other related hydrocarbons, oil shale, and the products of any of such resources.

**Sec. 6502. - Designation of National Petroleum Reserve in Alaska; reservation of lands; disposition and conveyance of mineral materials, lands, etc., preexisting property rights**

The area known as Naval Petroleum Reserve Numbered 4, Alaska, established by Executive order of the President, dated February 27, 1923, except for tract Numbered 1 as described in Public Land Order 2344, dated April 24, 1961, shall be transferred to and administered by the Secretary of the Interior in accordance with the provisions of this Act. Effective on the date of transfer all lands within such area shall be redesignated as the “National Petroleum Reserve in Alaska” (hereinafter in this chapter referred to as the “reserve”). Subject to valid existing rights, all lands within the exterior boundaries of such reserve are hereby reserved and withdrawn from all forms of entry and disposition under the public land laws, including the mining and mineral leasing laws, and all other Acts; but the Secretary is authorized to

- (1) make dispositions of mineral materials pursuant to the Act of July 31, 1947 (61 Stat. 681), as amended [30 U.S.C. 601 et seq.], for appropriate use by Alaska Natives and the North Slope Borough,
- (2) make such dispositions of mineral materials and grant such rights-of-way, licenses, and permits as may be necessary to carry out his responsibilities under this Act,
- (3) convey the surface of lands properly selected on or before December 18, 1975, by Native village corporations pursuant to the Alaska Native Claims Settlement Act [43 U.S.C. 1601 et seq.], and
- (4) grant such rights-of-way to the North Slope Borough, under the provisions of title V of the Federal Land Policy and Management Act of 1976 [43 U.S.C. 1761 et seq.] or section 28 of the Mineral Leasing Act, as amended [30 U.S.C. 185], as may be necessary to permit the North Slope Borough to provide energy supplies to villages on the North Slope. All other provisions of law heretofore enacted and actions heretofore taken reserving such lands as a Naval Petroleum Reserve shall remain in full force and effect to the extent not inconsistent with this Act.

**Sec. 6503. - Transfer of jurisdiction, duties, property, etc., to Secretary of the Interior from Secretary of Navy**

**(a) Transfer of jurisdiction over reserve; date of transfer**

Jurisdiction over the reserve shall be transferred by the Secretary of the Navy to the Secretary of the Interior on June 1, 1977.

**(b) Protection of environmental, fish and wildlife, and historical or scenic values; promulgation of rules and regulations**

With respect to any activities related to the protection of environmental, fish and wildlife, and historical or scenic values, the Secretary of the Interior shall assume all responsibilities as of April 5, 1976. As soon as possible, but not later than the effective date of transfer, the Secretary of the Interior may promulgate such rules and regulations as he deems necessary and appropriate for the protection of such values within the reserve.

**(c) Contract responsibilities and functions**

The Secretary of the Interior shall, upon the effective date of the transfer of the reserve, assume the responsibilities and functions of the Secretary of the Navy under any contracts which may be in effect with respect to activities within the reserve.

**(d) Equipment, facilities, and other properties used in connection with operation of reserve; transfer without reimbursement**

On the date of transfer of jurisdiction of the reserve, all equipment, facilities, and other property of the Department of the Navy used in connection with the operation of the reserve, including all records, maps, exhibits, and other informational data held by the Secretary of the Navy in connection with the reserve, shall be transferred without reimbursement from the Secretary of the Navy to the Secretary of the Interior who shall thereafter be authorized to use them to carry out the provisions of this chapter.

**(e) Unexpended funds previously appropriated for use in connection with reserve and civilian personnel ceilings assigned to management and operation of reserve**

On the date of transfer of jurisdiction of the reserve, the Secretary of the Navy shall transfer to the Secretary of the Interior all unexpended funds previously appropriated for use in connection with the reserve and all civilian personnel ceilings assigned by the Secretary of the Navy to the management and operation of the reserve as of January 1, 1976.

**Sec. 6504. - Administration of reserve**

**(a) Conduct of exploration within designated areas to protect surface values**

Any exploration within the Utukok River, the Teshekpuk Lake areas, and other areas designated by the Secretary of the Interior containing any significant subsistence, recreational, fish and wildlife, or historical or scenic value, shall be conducted in a manner which will assure the maximum protection of such surface values to the extent consistent with the requirements of this Act for the exploration of the reserve.

**(b) Continuation of ongoing petroleum exploration program by Secretary of Navy prior to date of transfer of jurisdiction; duties of Secretary of Navy prior to transfer date**

The Secretary of the Navy shall continue the ongoing petroleum exploration program within the reserve until the date of the transfer of jurisdiction specified in section 6503 (a) of this title. Prior to the date of such transfer of jurisdiction the Secretary of the Navy shall—

- (1) cooperate fully with the Secretary of the Interior providing him access to such facilities and such information as he may request to facilitate the transfer of jurisdiction;

- (2) provide to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives copies of any reports, plans, or contracts pertaining to the reserve that are required to be submitted to the Committees on Armed Services of the Senate and the House of Representatives; and
- (3) cooperate and consult with the Secretary of the Interior before executing any new contract or amendment to any existing contract pertaining to the reserve and allow him a reasonable opportunity to comment on such contract or amendment, as the case may be.

**(c) Commencement of petroleum exploration by Secretary of the Interior as of date of transfer of jurisdiction; powers and duties of Secretary of the Interior in conduct of exploration**

The Secretary of the Interior shall commence further petroleum exploration of the reserve as of the date of transfer of jurisdiction specified in section 6503 (a) of this title. In conducting this exploration effort, the Secretary of the Interior—

- (1) is authorized to enter into contracts for the exploration of the reserve, except that no such contract may be entered into until at least thirty days after the Secretary of the Interior has provided the Attorney General with a copy of the proposed contract and such other information as may be appropriate to determine legal sufficiency and possible violations under, or inconsistencies with, the antitrust laws. If, within such thirty day period, the Attorney General advises the Secretary of the Interior that any such contract would unduly restrict competition or be inconsistent with the antitrust laws, then the Secretary of the Interior may not execute that contract;
- (2) shall submit to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives any new plans or substantial amendments to ongoing plans for the exploration of the reserve. All such plans or amendments submitted to such committees pursuant to this section shall contain a report by the Attorney General of the United States with respect to the anticipated effects of such plans or amendments on competition. Such plans or amendments shall not be implemented until sixty days after they have been submitted to such committees; and
- (3) shall report annually to the Committee on Energy and Natural Resources of the Senate and the Committee on Natural Resources of the House of Representatives on the progress of, and future plans for, exploration of the reserve.

**Sec. 6505. - Executive department responsibility for studies to determine procedures used in development, production, transportation, and distribution of petroleum resources in reserve; reports to Congress by President; establishment of task force by Secretary of the Interior; purposes; membership; report and recommendations to Congress by Secretary; contents**

- (a) Omitted

(b)

- (1) The President shall direct such Executive departments and/or agencies as he may deem appropriate to conduct a study, in consultation with representatives of the State of Alaska, to determine the best overall procedures to be used in the development, production, transportation, and distribution of petroleum resources in the reserve. Such study shall include, but shall not be limited to, a consideration of—
  - (A) The alternative procedures for accomplishing the development, production, transportation, and distribution of the petroleum resources from the reserve, and
  - (B) the economic and environmental consequences of such alternative procedures.
- (2) The President shall make semiannual progress reports on the implementation of this subsection to the Committees on Interior and Insular Affairs of the Senate and the House of Representatives beginning not later than six months after April 5, 1976, and shall, not later than one year after the transfer of jurisdiction of the reserve, and annually thereafter, report any findings or conclusions developed as a result of such study together with appropriate supporting data and such recommendations as he deems desirable. The study shall be completed and submitted to such committees, together with recommended procedures and any proposed legislation necessary to implement such procedures not later than January 1, 1980.

(c)

- (1) The Secretary of the Interior shall establish a task force to conduct a study to determine the values of, and best uses for, the lands contained in the reserve, taking into consideration
  - (A) the natives who live or depend upon such lands,
  - (B) the scenic, historical, recreational, fish and wildlife, and wilderness values,
  - (C) mineral potential, and
  - (D) other values of such lands.
- (2) Such task force shall be composed of representatives from the government of Alaska, the Arctic slope native community, and such offices and bureaus of the Department of the Interior as the Secretary of the Interior deems appropriate, including, but not limited to, the Bureau of Land Management, the United States Fish and Wildlife Service, the United States Geological Survey, and the United States Bureau of Mines.
- (3) The Secretary of the Interior shall submit a report, together with the concurring or dissenting views, if any, of any non-Federal representatives of the task force, of the results of such study to the Committees on Interior and Insular Affairs of the Senate and the House of Representatives within three years after April 5, 1976, and shall include in such report his recommendations with respect to the value, best use, and appropriate designation of the lands referred to in paragraph (1).

**Sec. 6506. - Applicability of antitrust provisions; plans and proposals submitted to Congress to contain report by Attorney General on impact of plans and proposals on competition**

Unless otherwise provided by Act of Congress, whenever development leading to production of petroleum is authorized, the provisions of subsections (g), (h), and (i) of section 7430 of title 10 shall be deemed applicable to the Secretary of the Interior with respect to rules and regulations, plans of development and amendments thereto, and contracts and operating agreements. All plans and proposals submitted to the Congress under this chapter or pursuant to legislation authorizing development leading to production shall contain a report by the Attorney General of the United States on the anticipated effects upon competition of such plans and proposals.

**Sec. 6506a. – Competitive leasing of oil and gas**

**(a) In general**

The Secretary shall conduct an expeditious program of competitive leasing of oil and gas in the Reserve in accordance with this Act.

**(b) Mitigation of adverse effects**

Activities undertaken pursuant to this Act shall include or provide for such conditions, restrictions, and prohibitions as the Secretary deems necessary or appropriate to mitigate reasonably foreseeable and significantly adverse effects on the surface resources of the National Petroleum Reserve in Alaska.

**(c) Land use planning; BLM wilderness study**

The provisions of section 1712 and section 1782 of title 43 shall not be applicable to the Reserve.

**(d) First lease sale**

The first lease sale shall be conducted within twenty months of December 12, 1980: Provided, That the first lease sale shall be conducted only after publication of a final environmental impact statement if such is deemed necessary under the provisions of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

**(e) Withdrawals**

The withdrawals established by section 6502 of this title are rescinded for the purposes of the oil and gas leasing program authorized under this section.

**(f) Bidding systems**

Bidding systems used in lease sales shall be based on bidding systems included in section 205(a)(1)(A) through (H) of the Outer Continental Shelf Lands Act Amendments of 1978 (92 Stat. 629).

**(g) Geological structures**

Lease tracts may encompass identified geological structures.

**(h) Size of lease tracts**

The size of lease tracts may be up to sixty thousand acres, as determined by the Secretary.

**(i) Terms**

**(1) In general**

Each lease shall be issued for an initial period of not more than 10 years, and shall be extended for so long thereafter as oil or gas is produced from the lease in paying quantities, oil or gas is capable of being produced in paying quantities, or drilling or reworking operations, as approved by the Secretary, are conducted on the leased land.

**(2) Renewal of leases with discoveries**

At the end of the primary term of a lease the Secretary shall renew for an additional 10-year term a lease that does not meet the requirements of paragraph (1) if the lessee submits to the Secretary an application for renewal not later than 60 days before the expiration of the primary lease and the lessee certifies, and the Secretary agrees, that hydrocarbon resources were discovered on one or more wells drilled on the leased land in such quantities that a prudent operator would hold the lease for potential future development.

**(3) Renewal of leases without discoveries**

At the end of the primary term of a lease the Secretary shall renew for an additional 10-year term a lease that does not meet the requirements of paragraph (1) if the lessee submits to the Secretary an application for renewal not later than 60 days before the expiration of the primary lease and pays the Secretary a renewal fee of \$100 per acre of leased land, and—

- (A)** the lessee provides evidence, and the Secretary agrees that, the lessee has diligently pursued exploration that warrants continuation with the intent of continued exploration or future potential development of the leased land; or
- (B)** all or part of the lease—
  - (i)** is part of a unit agreement covering a lease described in subparagraph (A); and
  - (ii)** has not been previously contracted out of the unit.

**(4) Applicability**

This subsection applies to a lease that is in effect on or after August 8, 2005.

**(5) Expiration for failure to produce**

Notwithstanding any other provision of this Act, if no oil or gas is produced from a lease within 30 years after the date of the issuance of the lease the lease shall expire.

**(6) Termination**

No lease issued under this section covering lands capable of producing oil or gas in paying quantities shall expire because the lessee fails to produce the same due to circumstances beyond the control of the lessee.

**(j) Unit agreements**

**(1) In general**

For the purpose of conservation of the natural resources of all or part of any oil or gas pool, field, reservoir, or like area, lessees (including representatives) of the pool, field, reservoir, or like area may unite with each other, or jointly or separately with others, in collectively adopting and operating under a unit agreement for all or part of the pool, field, reservoir, or like area (whether or not any other part of the oil or gas pool, field, reservoir, or like area is already subject to any cooperative or unit plan of development or operation), if the Secretary determines the action to be necessary or

advisable in the public interest. In determining the public interest, the Secretary should consider, among other things, the extent to which the unit agreement will minimize the impact to surface resources of the leases and will facilitate consolidation of facilities.

**(2) Consultation**

In making a determination under paragraph (1), the Secretary shall consult with and provide opportunities for participation by the State of Alaska or a Regional Corporation (as defined in section 1602 of title 43) with respect to the creation or expansion of units that include acreage in which the State of Alaska or the Regional Corporation has an interest in the mineral estate.

**(3) Production allocation methodology**

**(A)** The Secretary may use a production allocation methodology for each participating area within a unit that includes solely Federal land in the Reserve.

**(B)** The Secretary shall use a production allocation methodology for each participating area within a unit that includes Federal land in the Reserve and non-Federal land based on the characteristics of each specific oil or gas pool, field, reservoir, or like area to take into account reservoir heterogeneity and area variation in reservoir producibility across diverse leasehold interests. The implementation of the foregoing production allocation methodology shall be controlled by agreement among the affected lessors and lessees.

**(4) Benefit of operations**

Drilling, production, and well reworking operations performed in accordance with a unit agreement shall be deemed to be performed for the benefit of all leases that are subject in whole or in part to such unit agreement.

**(5) Pooling**

If separate tracts cannot be independently developed and operated in conformity with an established well spacing or development program, any lease, or a portion thereof, may be pooled with other lands, whether or not owned by the United States, under a communitization or drilling agreement providing for an apportionment of production or royalties among the separate tracts of land comprising the drilling or spacing unit when determined by the Secretary of the Interior (in consultation with the owners of the other land) to be in the public interest, and operations or production pursuant to such an agreement shall be deemed to be operations or production as to each such lease committed to the agreement.

**(k) Exploration incentives**

**(1) In general**

**(A) Waiver, suspension, or reduction**

To encourage the greatest ultimate recovery of oil or gas or in the interest of conservation, the Secretary may waive, suspend, or reduce the rental fees or minimum royalty, or reduce the royalty on an entire leasehold (including on any lease operated pursuant to a unit agreement), whenever (after consultation with the State of Alaska and the North Slope Borough of Alaska and the concurrence of any Regional Corporation for leases that include land that was made available for acquisition by the Regional Corporation under the provisions of section 1431(o) of the Alaska National Interest Lands

Conservation Act) in the judgment of the Secretary it is necessary to do so to promote development, or whenever in the judgment of the Secretary the leases cannot be successfully operated under the terms provided therein.

**(B) Applicability**

This paragraph applies to a lease that is in effect on or after August 8, 2005.

**(2) Suspension of operations and production**

The Secretary may direct or assent to the suspension of operations and production on any lease or unit.

**(3) Suspension of payments**

If the Secretary, in the interest of conservation, shall direct or assent to the suspension of operations and production on any lease or unit, any payment of acreage rental or minimum royalty prescribed by such lease or unit likewise shall be suspended during the period of suspension of operations and production, and the term of such lease shall be extended by adding any such suspension period to the lease.

**(l) Receipts**

All receipts from sales, rentals, bonuses, and royalties on leases issued pursuant to this section shall be paid into the Treasury of the United States: Provided, That 50 percent thereof shall be paid by the Secretary of the Treasury semiannually, as soon thereafter as practicable after March 30 and September 30 each year, to the State of Alaska for:

- (1) planning;
- (2) construction, maintenance, and operation of essential public facilities; and
- (3) other necessary provisions of public service: Provided further, that in the allocation of such funds, the State shall give priority to use by subdivisions of the State most directly or severely impacted by development of oil and gas leased under this Act.

**(m) Explorations**

Any agency of the United States and any person authorized by the Secretary may conduct geological and geophysical explorations in the National Petroleum Reserve in Alaska which do not interfere with operations under any contract maintained or granted previously. Any information acquired in such explorations shall be subject to the conditions of 43 U.S.C. 1352 (a)(1)(A).

**(n) Environmental impact statements**

**(1) Judicial review**

Any action seeking judicial review of the adequacy of any program or site-specific environmental impact statement under section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332) concerning oil and gas leasing in the National Petroleum Reserve-Alaska shall be barred unless brought in the appropriate District Court within 60 days after notice of the availability of such statement is published in the Federal Register.

**(2) Initial lease sales**

The detailed environmental studies and assessments that have been conducted on the exploration program and the comprehensive land-use studies carried out in

response to sections 6505(b) and (c) of this title shall be deemed to have fulfilled the requirements of section 102(2)(c) of the National Environmental Policy Act (Public Law 91-190) [42 U.S.C. 4332 (2)(C)], with regard to the first two oil and gas lease sales in the National Petroleum Reserve-Alaska: Provided, That not more than a total of 2,000,000 acres may be leased in these two sales: Provided further, That any exploration or production undertaken pursuant to this section shall be in accordance with section 6504 (a) of this title.

**(o) Regulations**

As soon as practicable after August 8, 2005, the Secretary shall issue regulations to implement this section.

**(p) Waiver of administration for conveyed lands**

**(1) In general**

Notwithstanding section 1613 (g) of title 43—

**(A)** the Secretary of the Interior shall waive administration of any oil and gas lease to the extent that the lease covers any land in the Reserve in which all of the subsurface estate is conveyed to the Arctic Slope Regional Corporation (referred to in this subsection as the “Corporation”);

**(B)**

**(i)** in a case in which a conveyance of a subsurface estate described in subparagraph (A) does not include all of the land covered by the oil and gas lease, the person that owns the subsurface estate in any particular portion of the land covered by the lease shall be entitled to all of the revenues reserved under the lease as to that portion, including, without limitation, all the royalty payable with respect to oil or gas produced from or allocated to that portion;

**(ii)** in a case described in clause (i), the Secretary of the Interior shall—

**(I)** segregate the lease into 2 leases, 1 of which shall cover only the subsurface estate conveyed to the Corporation; and

**(II)** waive administration of the lease that covers the subsurface estate conveyed to the Corporation; and

**(iii)** the segregation of the lease described in clause (ii)(I) has no effect on the obligations of the lessee under either of the resulting leases, including obligations relating to operations, production, or other circumstances (other than payment of rentals or royalties); and

**(C)** nothing in this subsection limits the authority of the Secretary of the Interior to manage the federally-owned surface estate within the Reserve.

**Sec. 6507. - Authorization of appropriations; Federal financial assistance for increased municipal services and facilities in communities located on or near reserve resulting from authorized exploration and study activities**

(a) There are authorized to be appropriated to the Department of the Interior such sums as may be necessary to carry out the provisions of this chapter.

(b) If the Secretary of the Interior determines that there is an immediate and substantial increase in the need for municipal services and facilities in communities located on or near the reserve as a direct result of the exploration and study activities authorized by this chapter and that an unfair and excessive financial burden will be incurred by such communities as a result of the increased need for such services and facilities, then he is authorized to assist such communities in meeting the costs of providing increased municipal services and facilities. The Secretary of the Interior shall carry out the provisions of this section through existing Federal programs and he shall consult with the heads of the departments or agencies of the Federal Government concerned with the type of services and facilities for which financial assistance is being made available.

**Sec. 6508. – Transferred**

## ALASKA STATUTES

### Title 37. Public Finance

#### Chapter 5. Fiscal Procedures Act

#### Section 530. National Petroleum Reserve - Alaska Special Revenue Fund

(a) The National Petroleum Reserve - Alaska special revenue fund is established. The fund consists of all money disbursed to the state by the federal government under 42 U.S.C. 6506a or former 42 U.S.C. 6506a(j) or former 42 U.S.C. 6508 (P.L. 96-514) since December 12, 1980, less the amount deposited in the general fund and expended by the state by general fund appropriations before June 9, 1984.

(b) The commissioner of revenue shall manage the National Petroleum Reserve - Alaska special revenue fund.

(c) The Department of Commerce, Community, and Economic Development shall adopt regulations under which municipalities impacted by National Petroleum Reserve - Alaska oil and gas development under 42 U.S.C. 6506a or former 42 U.S.C. 6508 may apply for and be eligible to receive grants to alleviate the impact. The department shall give priority in the allocation of grants to municipalities that are experiencing or will experience the most direct or severe impact from oil and gas development under 42 U.S.C. 6506a or former 42 U.S.C. 6508 within the National Petroleum Reserve - Alaska. The department shall fund all meritorious grant applications out of the money appropriated to it each year. Within 10 days after the convening of each regular session of the legislature, the department shall submit to the legislature a list of all municipalities that have received grants, a list of all municipalities determined by the department to be eligible for further grants, a recommendation of the amount of money to be granted for those additional applications, and written justification of each past and potential grant.

(d) It is the intent of the legislature that each year all of the money in the National Petroleum Reserve - Alaska special revenue fund be made available for appropriation by the legislature to municipalities that demonstrate under (c) of this section present impact, or the need to determine or plan for future impact, from oil and gas development under 42 U.S.C. 6506a or former 42 U.S.C. 6508. It is the intent of the legislature that an initial appropriation be made to the Department of Commerce, Community, and Economic Development to cover anticipated impact grants, and that additional funds be made available through supplemental appropriations if the impact is greater than anticipated and the legislature considers the additional grants proposed by the department to be meritorious.

(e) A municipality may use the funds received under (d) of this section only for the following activities and services to alleviate the impact of the oil and gas development under 42 U.S.C. 6506a or former 42 U.S.C. 6508 within the National Petroleum Reserve - Alaska:

(1) planning;

(2) construction, maintenance, and operation of essential public facilities by the municipality; and

(3) other necessary public services provided by the municipality.

(f) Funds appropriated under (d) of this section may not be used for the retirement of municipal debt.

(g) The provisions of this subsection apply to amounts received by the state under 42 U.S.C. 6506a(j) or former 42 U.S.C. 6508, as follows:

(1) amounts received and not appropriated for grants to municipalities under (d) of this section shall be deposited at the end of each fiscal year as follows:

(A) 25 percent of amounts received by the state during that fiscal year under 42 U.S.C. 6506a(j) or former 42 U.S.C. 6508 to the principal of the Alaska permanent fund; and

(B) .5 percent of amounts received by the state during that fiscal year under 42 U.S.C. 6506a(j) or former 42 U.S.C. 6508 to the public school trust fund (AS 37.14.110);

(2) if, after making the grants under (d) of this section, the amounts remaining are insufficient to make payment in full of the deposits required by (1) (A) and (B) of this subsection, the deposits shall be allocated pro rata between the fund deposits;

(3) the amounts remaining after the making of payment of the deposits in full to the Alaska permanent fund and the public school trust fund under (2) of this subsection may be appropriated

(A) first, to each of the funds described in (1)(A) and (B) of this subsection to recover amounts not paid to those funds on or after September 1, 2006, because of deficiencies in making the payments required by (2) of this subsection; and

(B) after appropriations authorized by (A) of this paragraph, to the power cost equalization and rural electric capitalization fund (AS 42.45.100);

(4) the amounts remaining after any appropriation to the power cost equalization and rural electric capitalization fund shall lapse into the general fund for use by the state for the following facilities and services: planning; construction, maintenance, and operation of essential public facilities; and other necessary public services.

(h) In making appropriations from the National Petroleum Reserve - Alaska special revenue fund, the legislature shall identify the grants for activities, services, and facilities as capital appropriation items and shall specify the amounts for each item. Notwithstanding other provisions of law and unless expressly provided by the legislature in the appropriation item making the appropriation, an appropriation from the National Petroleum Reserve - Alaska special revenue fund shall, for the purposes of determining the funding sources for the appropriation be treated as though the appropriation takes effect in the fiscal year in which the appropriation passes the legislature. The authorization to expend funds appropriated from the fund shall take effect as otherwise provided by law.

## **Chapter 150 National Petroleum Reserve - Alaska Impact Program**

### **3 AAC 150.010. General objectives**

The primary objective of the National Petroleum Reserve-Alaska (NPR-A) Impact Program is to provide municipalities with financial assistance to help mitigate significantly adverse impacts related to oil or gas leasing within the NPR-A, including exploration, production, and oil or gas transportation activities, conducted under the authority of 42 U.S.C. 6508. Financial assistance may be available for

- (1) planning;
- (2) construction, maintenance, and operation of essential public facilities; and
- (3) other necessary public services.

### **3 AAC 150.020. Administration of NPR-A impact program**

Under sec. 2, ch. 53, SLA 1986, the legislature will appropriate each year the balance remaining in the National Petroleum Reserve-Alaska special revenue fund to the Department of Community and Economic Development. The department will, in accordance with this chapter, receive, review, and evaluate applications from eligible municipalities each year, and will fund qualified grant requests up to the amount of the appropriation. Money not allocated to eligible municipalities each year lapses in accordance with sec. 3, ch. 53, SLA 1986. If the total amount of money requested by eligible municipalities in a year exceeds the appropriation for that year, the department will allocate the available grant money in accordance with the criteria for priority set out in 3 AAC [150.060](#) - 3 AAC [150.080](#). Additional money might be made available through supplemental appropriations if the impact is greater than anticipated and the legislature considers the additional grants proposed by the department to be meritorious.

### **3 AAC 150.030. Eligibility in General**

Eligibility for NPR-A impact assistance has two main components: applicant eligibility and project eligibility.

### **3 AAC 150.040. Applicant eligibility**

To be eligible to receive assistance under the NPR-A Impact program, the applicant

- (1) must be a municipality under state law; and
- (2) must demonstrate present impact, regardless of date of initial occurrence, or foreseeable future impact, on the applicant or the applicant's residents from oil or gas exploration, production, or transportation activities in the NPR-A under 42 U.S.C. 6508.

### **3 AAC 150.050. Project eligibility**

(a) To be eligible for funding under the NPR-A impact program, a project must be related to present, continuing, or reasonably foreseeable impact on the applicant or the applicant's residents from oil or gas exploration, production, or transportation activities in the NPR-A under 42 U.S.C. 6508.

- (b) To be eligible for funding, a project also must be for the purpose of
- (1) planning;
  - (2) construction, maintenance, and operation of essential public facilities; or
  - (3) other necessary public services.

(c) In this section, "impact" means an effect reasonably attributable to NPR-A oil and gas activities under 42 U.S.C. 6508 on

- (1) population;
- (2) employment;
- (3) finances;
- (4) social and cultural values;
- (5) air and water quality;
- (6) fish and wildlife habitats;
- (7) the ability to provide essential public services, including health care, public safety, education, transportation, utilities, and government administration; and
- (8) other things of demonstrable importance to the applicant or the applicant's residents.

(d) Examples of needs that eligible projects may address include the following:

- (1) resource protection to ensure the continued viability of fish, wildlife, and other natural resources on which the applicant's residents rely for subsistence needs;
- (2) alleviation or mitigation of adverse social or cultural impacts;
- (3) health needs, including hospitals, clinics, emergency medical facilities, alcohol and drug abuse facilities, mental health facilities, waste disposal systems, and water quality improvement systems;
- (4) public safety needs, including police protection, search and rescue, and fire protection;
- (5) utility needs, including electric generating plants and distribution systems, water supply systems, telephone systems, and other fuel distribution systems;
- (6) housing needs;
- (7) recreational needs.

### **3 AAC 150.060. Project criteria**

(a) If the total amount of money requested by eligible applicants for eligible projects in meritorious applications exceeds the amount appropriated for grants that year, the department will rank applications for the purpose of establishing priority for funding.

(b) In determining the merit of an application, the department will consider

- (1) the degree to which the project proposed in the grant application alleviates the impact caused by development in the NPR-A under 42 U.S.C. 6506a or former 42 U.S.C. 6508;
- (2) the ability of the applicant to accommodate or absorb the impacts through existing facilities or programs; and
- (3) other criteria the department identifies as critical to determination of the merit of the application.

(c) In ranking the applications, the department will consider

- (1) the severity of the impact caused by the development in the NPR-A under 42 U.S.C. 6506a or former 42 U.S.C. 6508 on the municipality; and
- (2) the degree to which the impact on the municipality is directly caused by development in the NPR-A under 42 U.S.C. 6506a or former 42 U.S.C. 6508.

### **3 AAC 150.070. Submission of applications**

- (a) Application must be made on forms provided by the department. The forms will be such that they may be easily filled out by small communities without technical staff. The department will, upon request, provide assistance to applicants to the extent possible based upon the availability of financial and human resources.
- (b) In a year when NPR-A impact assistance money is available under [AS 37.05.530](#) , a grant application for impact assistance under (a) of this section must be postmarked no later than November 15 of that year. If November 15 is a Saturday, Sunday, or state holiday, the deadline for postmark is the department's next regular business day.

### **3 AAC 150.080. Review of applications and award of grants**

- (a) The department will review applications for eligibility for NPR-A impact assistance and place applications in order of priority in accordance with 3 AAC [150.060](#).
- (b) The department will review each application determined to be eligible for NPR-A impact assistance to determine whether the amount requested for a project is reasonably necessary for the project to alleviate impacts from oil and gas development in the NPR-A under 42 U.S.C. 6506a or former 42 U.S.C. 6508, the department will deduct from the amount requested any amounts that are not reasonably necessary for that purpose.
- (c) If, after making necessary adjustments to grant requests under (b) of this section, the department determines that the total amount for eligible projects requested by all eligible applicants that year is equal to or less than the amount appropriated for that year, the department will fund all meritorious requests. If the total amounts requested are greater than the amount appropriated, the department will fund requests in accordance with the priorities established in 3 AAC [150.060](#) until the appropriation is spent. The department will, in its discretion, recommend to the legislature that additional money be made available through supplemental appropriations.

### **3 AAC 150.090. Reconsideration and judicial review**

A municipality aggrieved by a decision made under this chapter may request reconsideration by the commissioner of community and economic development and must seek such reconsideration before seeking judicial review. A final decision of the department is subject to judicial review in accordance with Rule 602 of the Alaska Rules of Appellate Procedure.
