RE: FY 2016 Population Determination

Dear Mayor Abrahamson, Jr.,

The Division of Community and Regional Affairs reviewed the City of Nunam Iqua's Head Count Census documentation as received on April 7, 2015. You requested that the population count be adjusted to 210 based on the census you conducted in March 2015. The July 1, 2014 population estimate as determined by the Department of Labor was 181.

We have determined that the census was conducted in accordance with DCRA procedures and agree with your March count of 210 persons. However, your count must be adjusted to align with July 1, 2014, as outlined on page 2 of the January 2015 Head Count Census Method Manual. The resulting resident population count as of July 1, 2014, is also 210 persons, which has been calculated as follows:

Adjusted new head count as of March 31, 2015	210	Residents
DCCED certified population level as of July 1, 2013	211	Residents
Growth between July 1, 2013 and March 31, 2015	(1)	Residents
Number of periods between counts (July 1, 2013 to March 31, 2015)	21	# Periods
Resulting population adjustment per month	(.05)	Persons
Adjusted time periods from July 1, 2013 to July 1, 2014	12	# Periods
Population Adjustment (growth)	(.57)	Between 7/1/2013 and 7/1/2014
DCCED certified population level as of July 1, 2013	211	Residents
Final Accepted Population Level per July 1, 2014	210	Residents

Therefore, Department of Commerce, Community, and Economic Development will use the population figure of **210** for the City of Nunam Iqua in FY 2016 financial assistance programs. If you have any questions about procedures used in making this determination, please contact Manjula Boyina, Research Analyst IV, at (907)269-7959.

Sincerely,

Katherine Eldemar
