1 **Sec. 37.05.610. Alaska affordable energy fund.** (a) The Alaska affordable
2 energy fund is created as a special account in the general fund. The fund consists of
3 the amount determined and deposited in the fund under (b) of this section and interest
4 earned on the fund balance. The purpose of the fund is to provide a source from which
5 the legislature may appropriate money to develop infrastructure to deliver energy to
6 areas of the state that are not expected to have or do not have direct access to a North
7 Slope natural gas pipeline.

8 (b) The amount to be deposited in (a) of this section is 20 percent of the
9 revenue received from the state's royalty gas transported in an Alaska liquefied natural
10 gas project that remains after the payment to the Alaska permanent fund under
11 AS 37.13.010.

12 (c) The legislature may make appropriations from the Alaska affordable
13 energy fund for the purpose described in (a) of this section.

26 * **Sec. 26.** AS 38.05 is amended by adding a new section to read:

27 **Sec. 38.05.023. Terms in an agreement or contract related to a North**
28 **Slope natural gas project.** (a) An agreement or contract to which the state or an
29 entity of the state is a party that is negotiated under AS 38.05.020(b)(11) must include
30 a requirement that the state or an entity of the state shall have access to data developed
31 under the agreement or contract in which the state or an entity of the state has directly

1 participated financially. Access by the state or an entity of the state to the data must be
2 on the same or substantially similar terms applicable to any other party in a North
3 Slope natural gas project.

4 (b) A proposed agreement or contract associated with a North Slope natural
5 gas project may not include a provision that changes the property tax on property that
6 was previously taxable under AS 43.56.

7 (c) A proposed agreement or contract associated with a North Slope natural gas
8 project must provide the means for allocating infrastructure costs between the state
9 and other parties in the project. The allocation must take into consideration the extent
10 to which infrastructure is used by the project and used by the public and the difference
11 between the normal expected or actual life-cycle costs for the infrastructure as used by
12 the project and the expected or actual life-cycle costs of the same infrastructure if
13 subject only to general public use. The proposed agreement or contract may not
14 require the state to pay infrastructure costs that are directly related to the project and
15 not designed for general public use in a proportionate amount that is greater than the
16 state's share of participation in the project.

17 (d) An agreement or contract to which the state or an entity of the state is a
18 party that is negotiated under AS 38.05.020(b)(11) must include principles based on
19 commercially reasonable terms for delivering natural gas to public utilities in the state
20 when the demand for natural gas by the utilities exceeds the amount of the state's
21 royalty natural gas and natural gas delivered to the state as payment of tax that is
22 available in a North Slope natural gas project.

23 * **Sec. 27.** AS 38.05.180(i) is amended to read:

24 (i) The commissioner may provide for the establishment of an exploration
25 incentive credit system under which a lessee of state land drilling an exploratory well
26 on that land may earn credits based on [UPON] the footage drilled and the region in
27 which the well is situated. The commissioner may also provide for credits to be earned
28 by persons performing geophysical work on state land, if that work is performed
29 during the two seasons immediately preceding an announced lease sale and on land
30 included within the sale area and the geophysical information is made public
31 following the sale. Credits may not exceed 50 percent of the cost of the drilling or

1 geophysical work. Credits may be used during a limited period established by the
2 commissioner and may be assigned during that period. Credits may be applied against
3 (1) royalty and rental payments for oil and gas or for gas only payable to the state or
4 (2) taxes payable under **AS 43.55.011** [AS 43.55]. A credit may not exceed 50 percent
5 of the payment toward which it is being applied. Amounts due the Alaska permanent
6 fund (AS 37.13.010) shall be calculated before the application of credits under this
7 subsection.

8 * **Sec. 28.** AS 38.05.180 is amended by adding new subsections to read:

9 (hh) Notwithstanding (j) of this section, the commissioner may propose
10 modification to a lease from which a lessee has committed gas from that lease to a
11 North Slope natural gas project. A modification may be made under this subsection
12 only after the commissioner makes the written determination under (ii) of this section
13 that the lease may be modified. If a modification is made, the modification shall be in
14 effect during the initial project term that has acquired the major permits required for
15 the work plan and budget considered by the commissioner in the written determination
16 under (ii) of this section. A modification under this subsection may

17 (1) relate to switching between taking the state's royalty gas in value
18 and in kind to ensure that the lessee, the state, or another person shall bear
19 proportionate costs for treatment, transportation, and liquefaction to the state's royalty
20 gas or gas delivered to the state under AS 43.55.014, and the state's actions do not
21 unreasonably interfere with the long-term marketing of natural gas by the lessee, the
22 state, or another person;

23 (2) provide a method for establishing a fair market value for each
24 component of the state's royalty gas and appropriate adjustments to reflect fair market
25 deductions for reasonable costs for treatment, transportation, and liquefaction for the
26 state's royalty gas from the North Slope to the destination market; in this paragraph,
27 "reasonable costs for treatment, transportation, and liquefaction" may not be greater
28 than actual costs;

29 (3) modify net profit shares for oil and gas and sliding scale royalty
30 rates for gas by establishing fixed royalty rates that yield a value to the state that the
31 commissioner determines to be not less than the value the state would have received

1 under the terms of the lease before a modification under this subsection.

2 (ii) Before making a modification to a lease under (hh) of this section, the
3 commissioner shall make a written determination that the lease may be modified. The
4 determination by the commissioner must be based on a clear and convincing showing
5 by the lessee that

6 (1) the modification

7 (A) is in the best interests of the state; and

8 (B) will materially improve the likelihood of a successful North
9 Slope natural gas project;

10 (2) a North Slope natural gas project has sufficient

11 (A) financial commitment for a work plan and budget
12 necessary to support major permits and regulatory filings required by state and
13 federal agencies; and

14 (B) commitment of gas by lessees;

15 (3) the lease will produce hydrocarbons that will be transported on a
16 North Slope natural gas project during the initial project term; and

17 (4) the lessee or an affiliate of the lessee has offered to purchase,
18 dispose of, or market the state's royalty gas taken in kind and gas delivered to the state
19 under AS 43.55.014 on the same or substantially similar terms as the lessee or an
20 affiliate of the lessee sells, disposes of, or markets the lessee's gas.

21 * **Sec. 29.** AS 38.05.183(a) is amended to read:

22 (a) The sale, exchange, or other disposal of a mineral obtained by the state as a
23 royalty under AS 38.05.182, [OR] the sale, exchange, or other disposal in whole or in
24 part of a right to receive future mineral production under a state lease under this
25 chapter, **or the sale, exchange, or other disposal of gas delivered to the state under**
26 **AS 43.55.014(b)** shall be by competitive bid and the sale, exchange, or other disposal
27 made to the highest responsible bidder, except that competitive bidding is not required
28 when the commissioner, after prior written notice to the Alaska Royalty Oil and Gas
29 Development Advisory Board under AS 38.06.050, determines that the best interest of
30 the state does not require it or that no competition exists.

31 * **Sec. 30.** AS 38.05.183(c) is amended to read:

1 (c) If the commissioner determines that a sale, exchange, or other disposal of a
2 mineral obtained by the state as a royalty under AS 38.05.182, [OR] of a right to
3 receive future mineral production under a state lease under this chapter, **or of gas**
4 **delivered to the state under AS 43.55.014(b)** shall be made otherwise than by
5 competitive bid, and the Alaska Royalty Oil and Gas Development Advisory Board
6 has been notified in writing of that determination, the commissioner shall make public
7 in writing the specific findings and conclusions **on** [UPON] which that determination
8 is based.

9 * **Sec. 31.** AS 38.05.183(d) is amended to read:

10 (d) Oil or gas taken in kind by the state as its royalty share **or gas delivered to**
11 **the state under AS 43.55.014(b)** may not be sold or otherwise disposed of for export
12 from the state until the commissioner determines that the [ROYALTY-IN-KIND] oil
13 or gas is surplus to the present and projected intrastate domestic and industrial needs.
14 The commissioner shall make public, in writing, the specific findings and reasons on
15 which the determination is based.

16 * **Sec. 32.** AS 38.05.183(e) is amended to read:

17 (e) When a sale, exchange, or other disposal of oil or gas taken in kind by the
18 state as its royalty share, or a sale, exchange, or other disposal in whole or in part of a
19 right to receive future royalty oil or gas, under a state lease under this chapter is made
20 other than by competitive bid, **or when a sale, exchange, or other disposal of gas**
21 **delivered to the state under AS 43.55.014(b) is made other than by competitive**
22 **bid**, the sale, exchange, or other disposal shall be awarded by the commissioner to the
23 prospective buyer whose proposal offers the maximum benefits to citizens of the state.
24 The commissioner shall consider

25 (1) the cash value offered;

26 (2) the projected effects of the sale, exchange, or other disposal on the
27 economy of the state;

28 (3) the projected benefits of refining or processing the oil or gas in the
29 state;

30 (4) the ability of the prospective buyer to provide refined products or
31 by-products for distribution and sale in the state with price or supply benefits to the

1 citizens of the state; and

2 (5) the criteria listed in AS 38.06.070(a).

3 * **Sec. 33.** AS 38.05.965 is amended by adding new paragraphs to read:

4 (26) "initial project term" means the duration sufficient to support an
5 investment decision by the sponsors of a North Slope natural gas project to permit
6 realization of a competitive economic return, to enable necessary financing, and to
7 support agreements for the sale of hydrocarbons transported on a North Slope natural
8 gas project;

9 (27) "North Slope natural gas project" means a project to produce or
10 transport natural gas from state oil and gas and gas only leases that include land north
11 of 68 degrees North latitude for transport in a gaseous state from the North Slope;

12 (28) "project services" means services provided by a gas treatment
13 plant, pipeline, liquefaction facility, or marine terminal, marine transportation
14 services, or other services necessary to transport natural gas to market.

15 * **Sec. 34.** AS 38.34.020(a) is amended to read:

16 (a) A state agency or entity conducting a review or taking action relating to **a**
17 **project under AS 31.25 (Alaska Gasline Development Corporation)** [THE IN-
18 STATE NATURAL GAS PIPELINE PROJECT UNDER THIS CHAPTER] shall
19 expedite the review or action in a manner consistent with the timely completion of the
20 project.

21 * **Sec. 35.** AS 38.34.020(b) is amended to read:

22 (b) Notwithstanding any contrary provision of law, a state agency or entity
23 may not include in any project certificate, right-of-way, permit, or other authorization
24 a term or condition that is not required by law if the in-state gasline project
25 coordinator determines that the term or condition would prevent or impair, in any
26 significant respect, the expeditious construction and operation or expansion of **a**
27 **project under AS 31.25 (Alaska Gasline Development Corporation)** [THE IN-
28 STATE NATURAL GAS PIPELINE PROJECT].

29 * **Sec. 36.** AS 38.34.020(c) is amended to read:

30 (c) Unless required by law, a state agency or entity may not add to, amend, or
31 abrogate any certificate, right-of-way, permit, or other authorization if the in-state

1 gasline project coordinator determines that the action would prevent or impair, in any
2 significant respect, the expeditious construction, operation, or expansion of **a project**
3 **under AS 31.25 (Alaska Gasline Development Corporation)** [THE IN-STATE
4 NATURAL GAS PIPELINE PROJECT].

5 * **Sec. 37.** AS 40.25.100(a) is amended to read:

6 (a) Information in the possession of the Department of Revenue that discloses

25 (e) There is levied on the producer of oil or gas a tax for all oil and gas

21 to (o) of this section, may not be less than

22 **(A) [(1)]** four percent of the gross value at the point of

1 crude oil for sale on the United States West Coast during the calendar
2 year for which the tax is due is \$15 or less.

3 * **Sec. 47.** AS 43.55 is amended by adding a new section to read:

4 **Sec. 43.55.014. Payment in gas of tax for gas.** (a) For gas produced on and
5 after January 1, 2022, other than gas described in (e) of this section, the department
6 shall allow a producer to make an election, under regulations adopted by the
7 department, to pay in gas the production tax levied by this section in lieu of the tax
8 otherwise levied for the gas by AS 43.55.011(e). An election under this subsection
9 applies only to gas produced from oil and gas leases modified under AS 38.05.180(hh)
10 from which the commissioner of natural resources has determined to take royalty gas
11 in kind under AS 38.05.182.

12 (b) A production tax levied by this section is equal to 13 percent of the gas
13 otherwise taxable under AS 43.55.011(e)(3) produced from each oil and gas lease to
14 which an effective election under (a) of this section applies, when and as that gas is
15 produced. The producer shall pay the tax in gas by delivering that 13 percent of the
16 gas to the state at the point of production.

17 (c) The Department of Natural Resources shall manage under
18 AS 38.05.020(b)(14) the custody and disposition of gas delivered to the state under (b)
19 of this section.

20 (d) An assessment under AS 43.05.245 against a producer for an
21 underpayment of a tax levied by this section may be made in terms of an amount of
22 gas or an amount of money, as determined under regulations adopted by the
23 department. If the assessment is made in terms of money, the amount for a month of
24 production for an oil and gas lease subject to an effective election under (a) of this
25 section is the product of the number of units of gas by which the producer's delivery to
26 the state was less than the amount required by (b) of this section, multiplied by the
27 average gross value at the point of production for each unit of the gas produced by the
28 producer from the lease during the month other than gas that was not subject to tax or
29 gas that was delivered to the state under (b) of this section. The department may allow
30 a credit or refund under AS 43.05.275 for an overpayment of a tax levied by this
31 section that may be issued in the form of gas or money, as determined under

1 regulations adopted by the department. If the credit or refund is allowed in terms of
2 money, the amount of the credit or refund for a month of production for an oil and gas
3 lease subject to an effective election under (a) of this section is the product of the
4 number of units of gas by which the producer's delivery to the state was more than the
5 amount required under (b) of this section, multiplied by the average gross value at the
6 point of production for each unit of the gas produced by the producer from the lease
7 during the month other than gas that was not subject to tax or gas that was delivered to
8 the state under (b) of this section. Interest that is determined as a percentage of the
9 amount of a tax underpayment or overpayment and a penalty that is a percentage of
10 the amount of a tax underpayment are calculated as a percentage of the amount of
11 money determined in this subsection. An amount of gas that was less than the amount
12 required to be delivered to the state under (b) of this section or an amount of gas that
13 was more than the amount required to be delivered to the state under (b) of this section
14 that is adjusted as provided by a gas balancing agreement to which the state is a party
15 under AS 38.05.020(b)(11) is not subject to assessment under AS 43.05.245 or a credit
16 or refund under AS 43.05.275. In this subsection, "unit" means a unit of measurement
17 for gas identified by the department under regulations adopted by the department and
18 may be expressed as 1,000 cubic feet, 1,000,000 British thermal units, or another
19 appropriate unit of measurement specified by the department under regulations
20 adopted by the department.

21 (e) This section does not apply to gas that, under AS 43.55.020(e), is
22 considered as gas produced from a lease or property for the purpose of AS 43.55.011 -
23 43.55.180.

24 * **Sec. 48.** AS 43.55.019(a) is amended to read:

19 FSSLA 2011, sec. 17, ch. 74, SLA 2012, and sec. 48 of this Act, is amended to read:

20 (a) A producer of oil or gas is allowed a credit against the tax **levied by**
21 **AS 43.55.011(e)** for cash contributions accepted

11 * **Sec. 54.** AS 43.55.020(l) is amended to read:

12 (l) **For oil and gas produced on** [ON] and after January 1, 2014, **and before**
13 **January 1, 2022,** in making settlement with the royalty owner for oil and gas that is
14 taxable under AS 43.55.011, the producer may deduct the amount of the tax paid on
15 taxable royalty oil and gas, or may deduct taxable royalty oil or gas equivalent in
16 value at the time the tax becomes due to the amount of the tax paid. If the total
17 deductions of installment payments of estimated tax for a calendar year exceed the
18 actual tax for that calendar year, the producer shall, before April 1 of the following
19 year, refund the excess to the royalty owner. Unless otherwise agreed between the
20 producer and the royalty owner, the amount of the tax paid under AS 43.55.011(e) on
21 taxable royalty oil and gas for a calendar year, other than oil and gas the ownership or
22 right to which constitutes a landowner's royalty interest, is considered to be the gross
23 value at the point of production of the taxable royalty oil and gas produced during the
24 calendar year multiplied by a figure that is a quotient, in which

25 (1) the numerator is the producer's total tax liability under
26 **AS 43.55.011(e)(2)** [AS 43.55.011(e)] for the calendar year of production; and

27 (2) the denominator is the total gross value at the point of production
28 of the oil and gas taxable under AS 43.55.011(e) produced by the producer from all
29 leases and properties in the state during the calendar year.

30 * **Sec. 55.** AS 43.55.020 is amended by adding a new subsection to read:

31 (m) For oil and gas produced on and after January 1, 2022, in making

1 settlement with the royalty owner for oil and gas that is taxable under AS 43.55.011,
2 the producer may deduct the amount of the tax paid on taxable royalty oil and gas, or
3 may deduct taxable royalty oil or gas equivalent in value at the time the tax becomes
4 due to the amount of the tax paid. If the total deductions of installment payments of
5 estimated tax for a calendar year exceed the actual tax for that calendar year, the
6 producer shall, before April 1 of the following year, refund the excess to the royalty
7 owner. In making settlement with the royalty owner for gas that is taxable under
8 AS 43.55.014, the producer may deduct the amount of the gas paid as in-kind tax on
9 taxable royalty gas or may deduct the gross value at the point of production of the gas
10 paid as in-kind tax on taxable royalty gas. Unless otherwise agreed between the
11 producer and the royalty owner, the amount of the tax paid under AS 43.55.011(e) on
12 taxable royalty oil for a calendar year, other than oil the ownership or right to which
13 constitutes a landowner's royalty interest, is considered to be the gross value at the
14 point of production of the taxable royalty oil produced during the calendar year
15 multiplied by a figure that is a quotient, in which

16 (1) the numerator is the producer's total tax liability under
17 AS 43.55.011(e)(3)(A) for the calendar year of production; and

18 (2) the denominator is the total gross value at the point of production
19 of the oil taxable under AS 43.55.011(e) produced by the producer from all leases and
20 properties in the state during the calendar year.

21 * **Sec. 56.** AS 43.55.030(a) is amended to read:

23 during a calendar year, whether or not any tax payment is due under AS 43.55.020(a)
24 for that oil or gas, shall file with the department on March 31 of the following year a
25 statement, under oath, in a form prescribed by the department, giving, with other
26 information required, the following:

27 (1) a description of each lease or property from which oil or gas was
28 produced, by name, legal description, lease number, or accounting codes assigned by
29 the department;

30 (2) the names of the producer and, if different, the person paying the
31 tax, if any;

1 (3) the gross amount of oil and the gross amount of gas produced from
2 each lease or property, **separately identifying the gross amount of gas produced**
3 **from each oil and gas lease to which an effective election under AS 43.55.014(a)**

10 for the gas, unless relieved from this requirement in whole or in part by the
11 department;

12 (6) the producer's qualified capital expenditures, as defined in
13 AS 43.55.023, other lease expenditures under AS 43.55.165, and adjustments or other
14 payments or credits under AS 43.55.170;

15 (7) the production tax values of the oil and gas under **AS 43.55.160(a)**
16 **or of the oil under AS 43.55.160(h), as applicable** [AS 43.55.160];

17 (8) any claims for tax credits to be applied; and

18 (9) calculations showing the amounts, if any, that were or are due
19 under AS 43.55.020(a) and interest on any underpayment or overpayment.

20 * **Sec. 57.** AS 43.55.160(a) is amended to read:

13 lease or property, less 1/12 of the producer's lease expenditures under
14 AS 43.55.165 for the calendar year applicable to the oil produced by the
15 producer from that lease or property, as adjusted under AS 43.55.170;

16 (D) gas produced during a month from a lease or property in
17 the Cook Inlet sedimentary basin is the gross value at the point of production
18 of the gas taxable under AS 43.55.011(e) and produced by the producer from
19 that lease or property, less 1/12 of the producer's lease expenditures under
20 AS 43.55.165 for the calendar year applicable to the gas produced by the
21 producer from that lease or property, as adjusted under AS 43.55.170;

22 (E) gas produced during a month from a lease or property
23 outside the Cook Inlet sedimentary basin and used in the state is the gross
24 value at the point of production of that gas taxable under AS 43.55.011(e) and
25 produced by the producer from that lease or property, less 1/12 of the
26 producer's lease expenditures under AS 43.55.165 for the calendar year
27 applicable to that gas produced by the producer from that lease or property, as
28 adjusted under AS 43.55.170.

29 * **Sec. 58.** AS 43.55.160(e) is amended to read:

30 (e) Any adjusted lease expenditures under AS 43.55.165 and 43.55.170 that
31 would otherwise be deductible by a producer in a calendar year but whose deduction

1 would cause an annual production tax value calculated under (a)(1) or (h) of this
2 section of taxable oil or gas produced during the calendar year to be less than zero
3 may be used to establish a carried-forward annual loss under AS 43.55.023(b).
4 However, the department shall provide by regulation a method to ensure that, for a
5 period for which a producer's tax liability is limited by AS 43.55.011(j), (k), (o), or
6 (p), any adjusted lease expenditures under AS 43.55.165 and 43.55.170 that would
7 otherwise be deductible by a producer for that period but whose deduction would
8 cause a production tax value calculated under (a)(1)(C), (D), (E), or (F), or (h)(3) of
9 this section to be less than zero are accounted for as though the adjusted lease
10 expenditures had first been used as deductions in calculating the production tax values
11 of oil or gas subject to any of the limitations under AS 43.55.011(j), (k), (o), or (p) that
12 have positive production tax values so as to reduce the tax liability calculated without
13 regard to the limitation to the maximum amount provided for under the applicable
14 provision of AS 43.55.011(j), (k), (o), or (p). Only the amount of those adjusted lease
15 expenditures remaining after the accounting provided for under this subsection may be
16 used to establish a carried-forward annual loss under AS 43.55.023(b). In this
17 subsection, "producer" includes "explorer."

18 * **Sec. 59.** AS 43.55.160(f) is amended to read:

19 (f) On and after January 1, 2014, in the calculation of an annual production tax
20 value of a producer under (a)(1)(A) or (h)(1) [(a)(1)] of this section, the gross value at
21 the point of production of oil or gas produced from a lease or property north of 68
22 degrees North latitude meeting one or more of the following criteria is reduced by 20
23 percent: (1) the oil or gas is produced from a lease or property that does not contain a
24 lease that was within a unit on January 1, 2003; (2) the oil or gas is produced from a
25 participating area established after December 31, 2011, that is within a unit formed
26 under AS 38.05.180(p) before January 1, 2003, if the participating area does not
27 contain a reservoir that had previously been in a participating area established before
28 December 31, 2011; (3) the oil or gas is produced from acreage that was added to an
29 existing participating area by the Department of Natural Resources on and after
30 January 1, 2014, and the producer demonstrates to the department that the volume of
31 oil or gas produced is from acreage added to an existing participating area. This

1 subsection does not apply to gas produced before 2022 that is used in the state **or to**
2 **gas produced on and after January 1, 2022.** A reduction under this subsection may
3 not reduce the gross value at the point of production below zero. In this subsection,
4 "participating area" means a reservoir or portion of a reservoir producing or
5 contributing to production as approved by the Department of Natural Resources.

6 * **Sec. 60.** AS 43.55.160(g) is amended to read:

7 (g) On and after January 1, 2014, in addition to the reduction under (f) of this
8 section, in the calculation of an annual production tax value of a producer under
9 **(a)(1)(A) or (h)(1)** [(a)(1)] of this section, the gross value at the point of production of
10 oil or gas produced from a lease or property **north of 68 degrees North latitude** that
11 does not contain a lease that was within a unit on January 1, 2003, is reduced by 10
12 percent if the oil or gas is produced from a unit made up solely of leases that have a
13 royalty share of more than 12.5 percent in amount or value of the production removed
14 or sold from the lease as determined under AS 38.05.180(f). This subsection does not
15 apply if the royalty obligation for one or more of the leases in the unit has been
16 reduced to 12.5 percent or less under AS 38.05.180(j) for all or part of the calendar
17 year for which the annual production tax value is calculated. This subsection does not
18 apply to gas produced before 2022 that is used in the state **or to gas produced on and**
19 **after January 1, 2022.** A reduction under this subsection may not reduce the gross
20 value at the point of production below zero.

21 * **Sec. 61.** AS 43.55.160 is amended by adding a new subsection to read:

22 (h) For oil produced on and after January 1, 2022, except as provided in (b),
23 (f), and (g) of this section, for the purposes of AS 43.55.011(e)(3), the annual
24 production tax value of oil taxable under AS 43.55.011(e) produced by a producer
25 during a calendar year

26 (1) from leases or properties in the state that include land north of 68
27 degrees North latitude is the gross value at the point of production of that oil, less the
28 producer's lease expenditures under AS 43.55.165 for the calendar year incurred to
29 explore for, develop, or produce oil and gas deposits located in the state north of 68
30 degrees North latitude or located in leases or properties in the state that include land
31 north of 68 degrees North latitude, as adjusted under AS 43.55.170;

1 (2) before or during the last calendar year under AS 43.55.024(b) for
2 which the producer could take a tax credit under AS 43.55.024(a), from leases or
3 properties in the state outside the Cook Inlet sedimentary basin, no part of which is
4 north of 68 degrees North latitude, other than leases or properties subject to
5 AS 43.55.011(p), is the gross value at the point of production of that oil, less the
6 producer's lease expenditures under AS 43.55.165 for the calendar year incurred to
7 explore for, develop, or produce oil and gas deposits located in the state outside the
8 Cook Inlet sedimentary basin and south of 68 degrees North latitude, other than oil
9 and gas deposits located in a lease or property that includes land north of 68 degrees
10 North latitude or that is subject to AS 43.55.011(p) or, before January 1, 2027, from
11 which commercial production has not begun, as adjusted under AS 43.55.170;

12 (3) from leases or properties subject to AS 43.55.011(p) is the gross
13 value at the point of production of that oil, less the producer's lease expenditures under
14 AS 43.55.165 for the calendar year incurred to explore for, develop, or produce oil and
15 gas deposits located in leases or properties subject to AS 43.55.011(p) or, before
16 January 1, 2027, located in leases or properties in the state outside the Cook Inlet
17 sedimentary basin, no part of which is north of 68 degrees North latitude from which
18 commercial production has not begun, as adjusted under AS 43.55.170;

19 (4) from leases or properties in the state no part of which is north of 68
20 degrees North latitude, other than leases or properties subject to (2) or (3) of this
21 subsection, is the gross value at the point of production of that oil less the producer's
22 lease expenditures under AS 43.55.165 for the calendar year incurred to explore for,
23 develop, or produce oil and gas deposits located in the state south of 68 degrees North
24 latitude, other than oil and gas deposits located in a lease or property in the state that
25 includes land north of 68 degrees North latitude, and excluding lease expenditures that
26 are deductible under (2) or (3) of this subsection or would be deductible under (2) or
27 (3) of this subsection if not prohibited by (b) of this section, as adjusted under
28 AS 43.55.170.

29 * **Sec. 62.** AS 43.55.165(e) is amended to read:

30 (e) For purposes of this section, lease expenditures do not include

31 (1) depreciation, depletion, or amortization;

1 (2) oil or gas royalty payments, production payments, lease profit
2 shares, or other payments or distributions of a share of oil or gas production, profit, or
3 revenue, except that a producer's lease expenditures applicable to oil and gas produced
4 from a lease issued under AS 38.05.180(f)(3)(B), (D), or (E) include the share of net
5 profit paid to the state under that lease;

6 (3) taxes based on or measured by net income;

7 (4) interest or other financing charges or costs of raising equity or debt
8 capital;

9 (5) acquisition costs for a lease or property or exploration license;

10 (6) costs arising from fraud, wilful misconduct, gross negligence,
11 violation of law, or failure to comply with an obligation under a lease, permit, or
12 license issued by the state or federal government;

13 (7) fines or penalties imposed by law;

14 (8) costs of arbitration, litigation, or other dispute resolution activities
15 that involve the state or concern the rights or obligations among owners of interests in,
16 or rights to production from, one or more leases or properties or a unit;

17 (9) costs incurred in organizing a partnership, joint venture, or other
18 business entity or arrangement;

19 (10) amounts paid to indemnify the state; the exclusion provided by
20 this paragraph does not apply to the costs of obtaining insurance or a surety bond from
21 a third-party insurer or surety;

22 (11) surcharges levied under AS 43.55.201 or 43.55.300;

23 (12) an expenditure otherwise deductible under (b) of this section that
24 is a result of an internal transfer, a transaction with an affiliate, or a transaction
25 between related parties, or is otherwise not an arm's length transaction, unless the
26 producer establishes to the satisfaction of the department that the amount of the
27 expenditure does not exceed the fair market value of the expenditure;

28 (13) an expenditure incurred to purchase an interest in any corporation,
29 partnership, limited liability company, business trust, or any other business entity,
30 whether or not the transaction is treated as an asset sale for federal income tax
31 purposes;

1 (14) a tax levied under AS 43.55.011 **or 43.55.014**;

2 (15) costs incurred for dismantlement, removal, surrender, or
3 abandonment of a facility, pipeline, well pad, platform, or other structure, or for the
4 restoration of a lease, field, unit, area, tract of land, body of water, or right-of-way in
5 conjunction with dismantlement, removal, surrender, or abandonment; a cost is not
6 excluded under this paragraph if the dismantlement, removal, surrender, or
7 abandonment for which the cost is incurred is undertaken for the purpose of replacing,
8 renovating, or improving the facility, pipeline, well pad, platform, or other structure;

9 (16) costs incurred for containment, control, cleanup, or removal in
10 connection with any unpermitted release of oil or a hazardous substance and any
11 liability for damages imposed on the producer or explorer for that unpermitted release;
12 this paragraph does not apply to the cost of developing and maintaining an oil
13 discharge prevention and contingency plan under AS 46.04.030;

14 (17) costs incurred to satisfy a work commitment under an exploration
15 license under AS 38.05.132;

16 (18) that portion of expenditures, that would otherwise be qualified
17 capital expenditures, as defined in AS 43.55.023, incurred during a calendar year that
18 are less than the product of \$0.30 multiplied by the total taxable production from each
19 lease or property, in BTU equivalent barrels, during that calendar year, except that,
20 when a portion of a calendar year is subject to this provision, the expenditures and
21 volumes shall be prorated within that calendar year;

22 (19) costs incurred for repair, replacement, or deferred maintenance of
23 a facility, a pipeline, a structure, or equipment, other than a well, that results in or is
24 undertaken in response to a failure, problem, or event that results in an unscheduled
25 interruption of, or reduction in the rate of, oil or gas production; or costs incurred for
26 repair, replacement, or deferred maintenance of a facility, a pipeline, a structure, or
27 equipment, other than a well, that is undertaken in response to, or is otherwise
28 associated with, an unpermitted release of a hazardous substance or of gas; however,
29 costs under this paragraph that would otherwise constitute lease expenditures under (a)
30 and (b) of this section may be treated as lease expenditures if the department
31 determines that the repair or replacement is solely necessitated by an act of war, by an

1 unanticipated grave natural disaster or other natural phenomenon of an exceptional,
2 inevitable, and irresistible character, the effects of which could not have been
3 prevented or avoided by the exercise of due care or foresight, or by an intentional or
4 negligent act or omission of a third party, other than a party or its agents in privity of
5 contract with, or employed by, the producer or an operator acting for the producer, but
6 only if the producer or operator, as applicable, exercised due care in operating and
7 maintaining the facility, pipeline, structure, or equipment, and took reasonable
8 precautions against the act or omission of the third party and against the consequences
9 of the act or omission; in this paragraph,

10 (A) "costs incurred for repair, replacement, or deferred
11 maintenance of a facility, a pipeline, a structure, or equipment" includes costs
12 to dismantle and remove the facility, pipeline, structure, or equipment that is
13 being replaced;

14 (B) "hazardous substance" has the meaning given in
15 AS 46.03.826;

16 (C) "replacement" includes renovation or improvement;

17 (20) costs incurred to construct, acquire, or operate a refinery or crude
18 oil topping plant, regardless of whether the products of the refinery or topping plant
19 are used in oil or gas exploration, development, or production operations; however, if
20 a producer owns a refinery or crude oil topping plant that is located on or near the
21 premises of the producer's lease or property in the state and that processes the
22 producer's oil produced from that lease or property into a product that the producer
23 uses in the operation of the lease or property in drilling for or producing oil or gas, the
24 producer's lease expenditures include the amount calculated by subtracting from the
25 fair market value of the product used the prevailing value, as determined under
26 AS 43.55.020(f), of the oil that is processed;

27 (21) costs of lobbying, public relations, public relations advertising, or
28 policy advocacy.

29 * **Sec. 63.** AS 43.55.900(10) is amended to read:

30 (10) "gas processing plant" means a facility that

31 (A) extracts and recovers liquid hydrocarbons from a gaseous

1 mixture of hydrocarbons by gas processing; and

2 (B) is located upstream of **the inlet of any pipeline**
3 **transporting gas to a gas treatment plant** and upstream of the inlet of any gas
4 pipeline system transporting gas to a market;

5 * **Sec. 64.** AS 43.55.900(20) is amended to read:

6 (20) "point of production" means

7 (A) for oil, the automatic custody transfer meter or device
8 through which the oil enters into the facilities of a carrier pipeline or other
9 transportation carrier in a condition of pipeline quality; in the absence of an
10 automatic custody transfer meter or device, "point of production" means the
11 mechanism or device to measure the quantity of oil that has been approved by
12 the department for that purpose, through which the oil is tendered and accepted
13 in a condition of pipeline quality into the facilities of a carrier pipeline or other
14 transportation carrier or into a field topping plant;

15 (B) for gas [, OTHER THAN GAS DESCRIBED IN (C) OF
16 THIS PARAGRAPH,] that is

17 (i) not subjected to or recovered by mechanical
18 separation or run through a gas processing plant, the **farthest upstream**
19 **of the following locations: the first point where the gas is accurately**
20 **metered, the inlet of any pipeline transporting the gas to a gas**
21 **treatment plant, or the inlet of any gas pipeline system**
22 **transporting the gas to a market;**

23 (ii) subjected to or recovered by mechanical separation
24 but not run through a gas processing plant, the **farthest upstream of**
25 **the following locations: the first point where the gas is accurately**
26 **metered after completion of mechanical separation, the inlet of any**
27 **pipeline transporting the gas after completion of mechanical**

29 **system transporting the gas after completion of mechanical**
30 **separation to a market;**

31 (iii) run through a gas processing plant, the **farthest**

1 **upstream of the following locations: the** first point where the gas is
2 accurately metered downstream of the **gas processing plant, the inlet**
3 **of any pipeline downstream of the gas processing plant**
4 **transporting the gas to a gas treatment plant, or the inlet of any gas**
5 **pipeline system downstream of the gas processing plant**
6 **transporting the gas to a market** [;

7 (C) FOR GAS RUN THROUGH AN INTEGRATED GAS
8 PROCESSING PLANT AND GAS TREATMENT FACILITY THAT DOES
9 NOT ACCURATELY METER THE GAS AFTER THE GAS PROCESSING
10 AND BEFORE THE GAS TREATMENT, THE FIRST POINT WHERE GAS
11 PROCESSING IS COMPLETED OR WHERE GAS TREATMENT BEGINS,
12 WHICHEVER IS FURTHER UPSTREAM];

13 * **Sec. 65.** AS 43.55.900 is amended by adding a new paragraph to read:

14 (25) "gas treatment plant" means a facility that performs gas treatment,
15 regardless of whether the facility also performs gas processing.

16 * **Sec. 66.** AS 43.56.010(c) is amended to read:

17 (c) If the total value of assessed property of a municipality taxing under
18 AS 29.45.080(c) exceeds the product of **the percentage, as determined in**
19 **AS 29.45.080(f)**, [225 PERCENT] of the average per capita assessed full and true
20 value of property in the state, to be determined by the department and reported to each
21 municipality by January 15 of each year, multiplied by the number of residents of the
22 taxing municipality, the department shall designate the portion of the tax base against
23 which the local tax may be applied.

24 * **Sec. 67.** AS 43.90.900(18) is amended to read:

25 (18) "point of production" has the meaning given in AS 43.55.900 **as**
26 **that section read on June 8, 2007;**

27 * **Sec. 68.** AS 43.98.030(c) is amended to read:

28 (c) A taxpayer acquiring a transferable tax credit certificate may use the credit
29 or a portion of the credit to offset taxes imposed under AS 21.09.210, AS 21.66.110,
30 AS 43.20, **AS 43.55.011** [AS 43.55], AS 43.56, AS 43.65, AS 43.75, and AS 43.77.
31 Except as provided in (e) of this section, any portion of the credit not used may be

1 used at a later period or transferred under (b) of this section.

2 * **Sec. 69.** AS 43.98.050 is amended to read:

3 **Sec. 43.98.050. Duties.** The duties of the board include the following:

4 (1) establish and maintain a salient collection of information related to
5 oil and gas exploration, development, and production in the state and related to tax

25 permitting structure that would be conducive to encouraging increased
26 investment while protecting the interests of the people of the state and
27 the environment;

28 (ii) the status of the oil and gas industry labor pool in
29 the state and the effectiveness of workforce development efforts by the
30 state;

23 and gas resources; and

24 (iii) a review of the current effectiveness and future
25 value of any provisions of the state's oil and gas tax laws that are
26 expiring in the next five years.

27 * **Sec. 70.** Section 1(b), ch. 11, SLA 2013, is amended to read:

28 (b) It is the intent of the legislature that

29 (1) the Alaska Gasline Development Corporation, in its new placement
30 as an independent public corporation of the state, shall be treated for all purposes as
31 the transfer of a corporation within the state and not as the creation of a new entity by

1 the State of Alaska;

2 (2) the Board of Directors of the Alaska Gasline Development
3 Corporation commit to governing the Alaska Gasline Development Corporation so as
4 to affect positively as many Alaskans as possible, including those in rural and coastal
5 communities, and to extend opportunities for all Alaskans to benefit from the natural
6 gas resources of the state, including propane and associated gas-related hydrocarbons
7 other than oil;

8 (3) to the maximum extent permitted by law, in developing a natural
9 gas pipeline, the Alaska Gasline Development Corporation shall procure services,
10 labor, products, and natural resources from qualified businesses located in the state,
11 including organizations owned by Alaska Natives and municipal organizations directly
12 affected by the project, if those persons are competitive;

13 (4) the Alaska Gasline Development Corporation **in its participation**
14 **in an Alaska liquefied natural gas project as defined in AS 31.25.390 or a natural**
15 **gas pipeline** shall, to the maximum extent permitted by law,

16 (A) hire qualified residents from throughout the state for
17 management, engineering, construction, operations, maintenance, and other
18 positions for a natural gas pipeline project;

19 (B) establish hiring facilities in the state or use existing hiring
20 facilities in the state; and

21 (C) use, as far as practicable, the job centers and associated
22 services operated by the Department of Labor and Workforce Development
23 and an Internet-based labor exchange system operated by the state; and

24 (5) the Alaska Gasline Development Corporation and its subsidiaries
25 shall wind up and dissolve when no bonds, notes, or other obligations are outstanding
26 and the Alaska Gasline Development Corporation or a subsidiary of the Alaska
27 Gasline Development Corporation is no longer engaged in the development, financing,
28 construction, or operation of an in-state natural gas pipeline.

29 * **Sec. 71.** AS 31.25.080(f) is repealed.

30 * **Sec. 72.** The uncodified law of the State of Alaska is amended by adding a new section to
31 read:

1 INFRASTRUCTURE. (a) The Department of Transportation and Public Facilities
2 shall, in consultation with the Alaska Gasline Development Corporation, evaluate the design
3 and construction of a new, separate bridge across the Yukon River that would accommodate
4 both vehicular traffic and a gas pipeline resulting from an Alaska liquefied natural gas project.

5 (b) The Department of Transportation and Public Facilities shall, in consultation with
6 the Alaska Gasline Development Corporation and the Department of Natural Resources,
7 evaluate existing bridges and infrastructure and bridges and infrastructure constructed to
8 accommodate a gas pipeline resulting from an Alaska liquefied natural gas project and
9 determine whether the bridge or infrastructure could also be constructed for transportation
10 uses, including vehicular traffic.

11 * **Sec. 73.** The uncodified law of the State of Alaska is amended by adding a new section to
12 read:

13 REPORT AND RECOMMENDATIONS BY THE COMMISSIONER OF
14 NATURAL RESOURCES ON THE DELIVERY AND AVAILABILITY OF NORTH
15 SLOPE NATURAL GAS IN THE STATE; IDENTIFICATION OF RISKS AND
16 RECOMMENDATIONS FOR MITIGATION. (a) The commissioner of natural resources in
17 consultation with the Alaska Gasline Development Corporation shall prepare and make
18 available to the legislature a report on a plan and alternatives to make North Slope natural gas
19 available for delivery and use in the state. The report must address

20 (1) the means by which North Slope natural gas may be delivered for use in
21 the state;

22 (2) the anticipated benefits, risks, and liabilities to the state associated with the
23 sale by the state to utilities and other customers in the state of natural gas received by the state
24 as royalty in kind or as payment of tax;

25 (3) the effect and consequences, including the fiscal effect and liability to third
26 parties, of the state's transport of a reduced amount of natural gas south of an in-state delivery
27 point or underutilizing capacity in a liquefied natural gas plant;

28 (4) the costs, benefits, and risks associated with building a pipeline with a
29 mainline diameter larger than 42 inches, including the effect of the increased diameter on

26 other persons expected to be directly involved in the development of a North Slope natural
27 gas project.

28 (b) The advisory planning group shall review available information, hold public
29 meetings, and provide annual reports by December 15 of each year to the governor that
30 include

31 (1) the potential impact and benefits of new infrastructure for North Slope

1 natural gas development, whether designed to provide natural gas for in-state sale or for
2 export, or both, on communities in the state, including consideration of tax structure under

4 infrastructure associated with North Slope natural gas development;

5 (2) recommendations for changes to the oil and gas exploration, production,
6 and pipeline transportation property taxes under AS 43.56 related to infrastructure for

9 Slope natural gas project;

10 (3) recommendations for changes to AS 29.45.080 related to the
11 commercialization of natural gas that would facilitate development of a North Slope natural
12 gas project and mitigate financial impacts to communities affected by a North Slope natural
13 gas project;

14 (4) recommendations for legislative or other options to minimize the financial
15 impact to communities in proximity to North Slope natural gas project infrastructure during
16 construction of a natural gas pipeline and associated infrastructure; and

23 PLAN AND RECOMMENDATIONS TO THE LEGISLATURE ON
24 INFRASTRUCTURE NEEDED TO DELIVER AFFORDABLE ENERGY TO AREAS IN
25 THE STATE THAT DO NOT HAVE DIRECT ACCESS TO A NORTH SLOPE NATURAL
26 GAS PIPELINE. (a) The Alaska Energy Authority, in consultation with the Alaska Gasline
27 Development Corporation, the Alaska Industrial Development and Export Authority, and the
28 Department of Revenue, shall, after considering the state energy policy under AS 44.99.115
29 and sec. 1, ch. 82, SLA 2010, develop a plan for developing infrastructure to deliver more
30 affordable energy to areas of the state that are not expected to have direct access to a North
31 Slope natural gas pipeline. The plan must identify ownership options, different energy

1 sources, including fossil fuels, hydro projects, tidal, and other alternative energy sources, and
2 describe and recommend the means for generating, delivering, receiving, and storing energy
3 in the most cost-efficient manner. For those citizens for whom there is no economically viable
4 infrastructure available, the plan must recommend the means for directly underwriting the
5 energy costs of the citizens to make their energy costs more affordable. The Alaska Energy
6 Authority may consider the development of regional energy systems that can receive and store
7 bulk fuel in quantity and distribute that fuel as needed within the region.

8 (b) The Alaska Energy Authority, in consultation with the Department of Revenue,
9 shall recommend a plan for funding the design, development, and construction of the required
10 infrastructure and may identify a source of rent, royalty, income, or tax received by the state
11 that may be appropriated by the legislature to implement the plan.

12 (c) The Alaska Energy Authority shall provide the plan and suggested legislation for
13 the design, development, construction, and financing of the required infrastructure to the
14 legislature before January 1, 2017.

15 * **Sec. 76.** The uncodified law of the State of Alaska is amended by adding a new section to
16 read:

17 DEVELOPMENT OF A PLAN FOR MUNICIPALITIES, REGIONAL
18 CORPORATIONS, AND RESIDENTS TO PARTICIPATE IN THE OWNERSHIP OF A
19 NORTH SLOPE NATURAL GAS PIPELINE; IDENTIFICATION OF AND REPORT ON
20 FINANCING OPTIONS FOR STATE OWNERSHIP AND PARTICIPATION IN A
21 NORTH SLOPE NATURAL GAS PROJECT. (a) The commissioner of revenue shall identify
22 and report to the legislature on a range of financing options for state acquisition of an
23 ownership interest and participation in a North Slope natural gas project. The report must
24 include a description of the risk associated with each option and the effect of each option on
25 the bonding capacity and bond rating of the state. In this subsection, "North Slope natural gas
26 project" has the meaning given in AS 38.05.965, as amended by sec. 33 of this Act.

27 (b) The commissioner shall make an interim draft of the report described in (a) of this
28 section available to the legislature on the first day of the First Regular Session of the Twenty-
29 Ninth Alaska State Legislature, and a final report at the time the commissioner of natural
30 resources submits the first agreement or contract to the legislature for approval under
31 AS 38.05.020(b)(11), enacted by sec. 24 of this Act.

1 (c) At the time the commissioner of natural resources submits the first agreement or
2 contract to the legislature for approval under AS 38.05.020(b)(11), enacted by sec. 24 of this
3 Act, the commissioner of revenue shall present a plan and suggested legislation to allow a
4 municipality, regional corporation, or resident of the state to participate as a co-owner in a
5 North Slope natural gas pipeline. The plan must include the recommendations and analysis by
6 the commissioner as to

7 (1) the means by which a municipality, regional corporation, or resident may
8 invest in the North Slope natural gas pipeline; for a resident, the means may include providing
9 an option to designate an amount of a permanent fund dividend to be deducted for the
10 investment;

11 (2) whether the ownership interest in a North Slope natural gas pipeline should
12 be acquired from the portion of a North Slope natural gas pipeline acquired by the state,
13 through the purchase of stock in a publicly traded corporation that invests in a North Slope
14 natural gas pipeline, or some other means;

15 (3) the means for providing notice to a municipality, regional corporation, or
16 resident receiving an ownership interest that explains the type of ownership interest and the
17 rights and obligations related to that ownership interest;

18 (4) whether the ownership interest received by a municipality, regional
19 corporation, or resident may be transferred or assigned to another person and the means for
20 transferring the interest;

21 (5) the means by which the proportional share of a dividend or other income
22 may be distributed to a municipality, regional corporation, resident, or transferee of an interest
23 if the municipality, regional corporation, or resident receives an ownership interest acquired
24 by the state in a North Slope natural gas pipeline and the state receives a dividend or other
25 income from its ownership interest, and whether the payment should be subject to interest if
26 not timely distributed;

27 (6) the means by which the commissioner may identify a publicly traded
28 corporation that has an ownership interest in a North Slope natural gas pipeline that is subject
29 to investment by a municipality, regional corporation, or resident under the proposed plan;

30 (7) the means by which an individual may qualify as a resident for purposes of
31 investing in an ownership interest;

1 (8) whether the ownership interest held by a municipality, regional
2 corporation, or resident would be subject to project assessments;

3 (9) how cash calls for the project and the expansion of the project would be
4 managed;

5 (10) the income tax consequences to the holder of an ownership interest,
6 including the timing and recognition of income related to the ownership interest, including
7 differentiating income related to the ownership interest from the receipt of dividends or other
8 distributions;

9 (11) the risk that the receipt of a benefit from the project by a person other
10 than the state would make income received from the project by the state subject to federal
11 income tax; and

12 (12) constitutional issues that may be implicated by restricting ownership
13 interests under the plan to residents and municipalities in the state.

14 (d) In this section,

15 (1) "municipality" has the meaning given in AS 01.10.060;

16 (2) "North Slope natural gas pipeline" means a natural gas pipeline project that
17 transports natural gas produced in the state north of 68 degrees North latitude to a market in
18 the state or to tidewater for export from the state including a facility in the state for liquefying
19 natural gas for transport;

20 (3) "regional corporation" means a regional corporation organized under 43
21 U.S.C. 1606(a), as amended.

25 project developed under the authority of this Act, the parties to the project shall, at least once
26 every four months, provide briefings to interested legislators, legislative staff, and legislative
27 consultants on the progress of a North Slope natural gas project developed under the authority
28 of this Act. A briefing under this section must be accompanied by a written report provided by
29 the Department of Natural Resources of the amount of money the state may be obligated to
30 pay a third party under an agreement or contract under AS 38.05.020(b)(10) or (11) if a North
31 Slope natural gas project is terminated before the first flow of gas in the project.
