

Chuathbaluk Activity Report

Community Overview

Lead RUBA Staff: Jimmy Smith, Anchorage Office

2003 Population: 98

Region: Yukon-Kuskokwim Delta

Local Governments: 2nd Class City

Water is pumped from a 105-foot well into a storage tank, then treated and hauled from this point by residents. A washeteria is available. The school has its own watering point, and some homes have individual wells, but none have complete plumbing. Honeybuckets and privies are used by most residents for waste disposal; a few homes have septic tanks. The school and clinic have a septic tank/leachfield system, as do several homes. The septic systems are failing due to clay and silt. A water and sewer Master Plan has been completed. Repairs to the pump house, water treatment, washeteria, school sewage lagoon and other components have been funded. Refuse is collected weekly. The Middle Kuskokwim Electric Co-op provides power from Chuathbaluk to Stony River. Electricity is provided by Middle Kuskokwim Electric Cooperative.

RUBA Activity This Reporting Period

RUBA staff and the consultants from Summit Consulting continue to provide assistance to the city manager with QuickBooks, formatting monthly finance reports, and obtaining a bingo license to provide extra local revenue source. The assistance has been over the phone and fax to the community. The manager has been implementing the recommendations from the consultant and RUBA staff.
