

Chuathbaluk Activity Report

Community Overview

Lead RUBA Staff: Jimmy Smith, Anchorage Office
 2003 Population: 98
 Region: Yukon-Kuskokwim Delta
 Local Governments: 2nd Class City

Water is pumped from a 105-foot well into a storage tank, then treated and hauled from this point by residents. A washeteria is available. The school has its own watering point, and some homes have individual wells, but none have complete plumbing. Honeybuckets and privies are used by most residents for waste disposal; a few homes have septic tanks. The school and clinic have a septic tank/leachfield system, as do several homes. The septic systems are failing due to clay and silt. A water and sewer Master Plan has been completed. Repairs to the pump house, water treatment, washeteria, school sewage lagoon and other components have been funded. Refuse is collected weekly. The Middle Kuskokwim Electric Co-op provides power from Chuathbaluk to Stony River. Electricity is provided by Middle Kuskokwim Electric Cooperative.

RUBA Activity This Reporting Period

The city manager continues to work with the RUBA staff and Summit Consulting staff via phone and facsimile to implement recommendations made by RUBA staff for the city. The city manager provides RUBA staff and Summit Consulting staff monthly financial reports, manager reports, bank statements and other necessary reports regarding activities of the city. The city manager has made significant changes for the community using the skills she has been taught by the RUBA staff and Summit Consulting staff.
