

Eek Activity Report

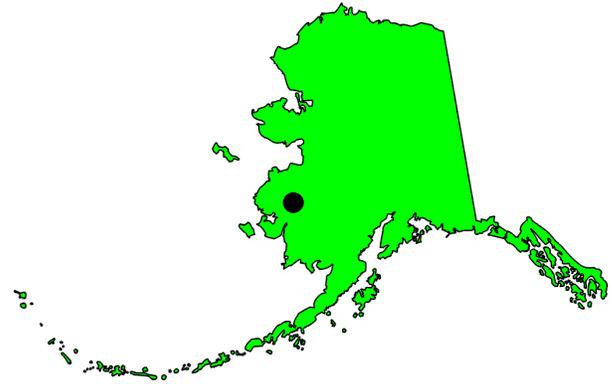

Community Overview

Lead RUBA Staff: Johnny Evan, Bethel Office

2002 Population: 291

Region: Lower Kuskokwim

Local Governments: Second Class City, Traditional Council

The City of Eek, Public Works Department, operates the washeteria, water treatment plant, and provides honey-bucket services to the community. The City Council is the policy making body for the utility services.

Water is derived from the Eek River; is filtered, treated, and stored in a holding tank at the water treatment plant/washeteria. A new water treatment plant, with new water tanks is still under construction and should be complete by August 2003. The only major item is the electrical hook-up. The City of Eek, with Village Safe Water, is still, formulating and developing the Sanitation Master Plan. The water sewer system still is 100% subsidized through gaming operations.

RUBA Activity This Reporting Period

The community is working with ANTHC on their water sewer project, and has not requested assistance. The current utility, honey-bucket system, is run only seasonally, April through November. The sanitation-planning meeting scheduled with ANTHC was cancelled the second time. The community rarely requests RUBA Assistance, therefore, I am requesting that they be removed from any future RUBA Assistance.
