

# False Pass Activity Report

## Community Overview

Lead RUBA Staff: Elizabeth Manfred, Anchorage Office

2003 Population: 69

Region: Aleutians

Local Government: Second Class City located within the Aleutians East Borough.

City provided services include piped water, electric, refuse collection, landfill, public safety office, volunteer fire, dock, airport (state contract), roads, community hall, youth center, boat haul-out, pet registration, driver's licenses, and voter registration. The city also maintains the buildings housing the Post Office, Library, and Clinic. A small boat harbor is in the planning stage.

Water is derived from a nearby spring and reservoir and is treated and stored in a 60,000-gallon tank. Most homes are connected to the piped water system. Almost 80% of the homes are fully plumbed. Many residents have individual septic tanks; wastewater from seafood processing flows directly into an outfall line. The community is in compliance with DEC water regulations.

## RUBA Activity This Reporting Period

Assistance was provided when the city issued a Declaration of Emergency regarding a fuel shortage. The local cannery, which has been the only grocery store and fuel supplier, notified the city that they will close soon. Arrangements were made for meetings with the Denali Commission and the Alaska Energy Association regarding the city becoming a bulk fuel supplier. The city will receive three new 20,000 gallon tanks by June and will use them for generator fuel and heating fuel. A smaller tank will be purchased for gasoline.

An Anchorage contractor (CCI) has been chosen to do the repair work on the older of the two water tanks. This will involve sandblasting the inside of the tank and applying a polyurethane coating. The project is expected to start in June and be completed in July. The final report for the wastewater system improvement plan has been completed and reviewed. A search for construction funding is underway.

A letter of interest was submitted to the Energy Authority's Wind Resource Assessment Program and False Pass was selected to receive a 100' tower with wind monitoring equipment. A suitable site needs to be identified.

The city is very successful in securing grants for infrastructure projects. A special election is set for the sales tax question of raising it from 2% to 3%.

**Accounting Systems Comments:** The utility continues to actively enforce the collection policy with great success. A utility employee may also work part-time in several city departments; however, the employee time sheet tracks hours worked for each department and the payroll system pays accordingly. QuickBooks Pro is used for billing, accounts payable and receivable. All customer service charges are combined on one invoice to avoid confusion.
