

Hooper Bay Activity Report

Community Overview

Lead RUBA Staff: Marita Hansen, Bethel Office

2003 Population: 1,115

Region: Yukon-Kuskokwim Delta

Local Governments: 2nd Class City

The City of Hooper Bay operates multiple watering points, operates a honeybucket haul service and sewage lagoon. The City Council is the policy making body for the utility. Residents currently haul treated water from the washeteria or other watering points. Three new wells were drilled in 1997, 3 miles northeast of town. The school uses its own water system. Honeybuckets are dumped at collection points, then hauled by a 4-wheeler and trailer. Access roads and construction pads are completed. The landfill was expanded in 1997, and includes a new sewage lagoon; the combined site is nearly 20 acres in size. The new water/sewer project construction was underway and the shell of the building itself was completed. Project continues as long as the community meets the grant condition showing capability of financially supporting this project through a sanitation tariff.

RUBA Activity This Reporting Period

As in the past, this quarter RUBA has been kept updated with the City of Hooper Bay on the indicators through documents received keeping current with financial reports, administrator's reports, phone calls and faxed documents. This community continues in meeting the special grant condition of maintaining a 75% collection rate and submits user fee reports faxed to RUBA. After the Holidays, the City gaming has experienced revenue dips. This causes payroll shortfalls, debt pile up and sometimes late payments to IRS. The administrator reports that this puts a lot of stress on the administrator and bookkeeper. He is hoping the council takes action in expense reduction especially in payroll or the City will continue to experience the above mentioned consequences. Surveys for road construction is on-going. Road damages and debris from the fall storm and flood have been taken care of. Other damages for residents are being handled by the Division of Emergency services. The playground, youth/elder building was shut down due to the cold weather and lack of construction funds. The small dock repair and construction has halted due to the building materials that the City was expecting did not make the last barge run. The Water/Sewer project is on-going. AVEC and CE2 continue to work with the City on reduction of operating costs for the new water/sewer facility. AVEC has funding of 1.3 million to begin development of wind generation in this community. Lease of land is in the works where the old tank farm was located is the site for the wind mills. The sub-regional clinic construction currently is still waiting for funding. As for the new school construction, this continues to be on-going. The City is in the process of applying for a grant through Denali Commission to get a burn box for the dump site. They are also including a bull dozer for this site. The City is no longer paying for the old head-start building and library expenses. The electricity and fuel costs are higher than the set lease rate. This step is to help reduce expenses the City is experiencing.

Essentials continue to be met. The operator had attended a Level II training in Fairbanks but did not pass. He will retake this once it is planned after the holidays. Again RUBA informed the City that the sustainable indicators for the utility have not been addressed. Mr. Cowart will again inform the operator to start compiling the inventory control and critical spare parts lists. RUBA explained the importance of having these completed once again.

RUBA Activities For The Coming Quarter

Continue monitoring collection of on-going monthly financial and sanitation user fee reports to make sure they continue to meet the 75% special grant condition. Provide assistance as needed or as requested.
