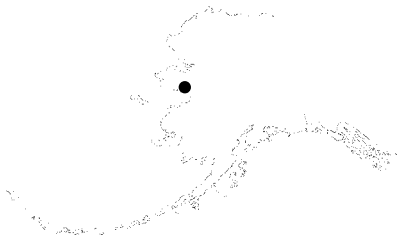
Koyuk Activity Report

Community Overview



Lead RUBA Staff: Josie Morrow, Nome Office

2000 Census Population: 297

Region: Bering Straits

Local Governments: Second Class City

The City of Koyuk operates the water and sewer system and maintains a central watering point for residents to haul their own water. There a honeybucket pits but no sewage lagoon. The City Council is the policy making body for the utility.

A piped water and sewer system was recently completed for the west side of town, serving 51 households. The east loop system is under construction. The school has requested funding to connect to the new sewer system, since its septic effluent is posing a health hazard. DEC has approved the landfill for use, although it is not permitted. Funds have been requested to construct a new water plant and small washeteria.

General Information

Due to staff turnover there is no information available for this community this quarter.

Anticipated Activity

Leroy Seppilu, LGS/RUBA in the Anchorage office, will be moving to the Nome Regional Office September 1, 2001, and will continue to work with the City.
