

Larsen Bay Activity Report

Community Overview

Lead RUBA Staff: Elizabeth Manfred, Anchorage Office

2003 Population: 96

Region: Kodiak Island

Local Government: Second Class City located within the Kodiak Island Borough, Tribal Council

Water is supplied from two groundwater sources- gravity feed from the hydro plant and a well as backup – and stored in a 200,000 gallon tank. A water supply line is connected to the penstock of the hydroelectric plant and used a majority of the time to reduce utility expenses to both the service plant and the customer. All 40 homes are connected to the piped water system. A community septic tank with an outfall line serves these homes, and the majority are fully plumbed. Weekly refuse collection services are provided. The community incinerator is currently unusable and all refuse is deposited at the landfill site.

The city is seeking funding for a water treatment plant upgrade. The city began adding fluoride to the water in October.

RUBA Activity This Reporting Period

An on-site visit was made in January to begin a utility rate analysis. A presentation was made to the council and follow-up meetings were held with the clerk and mayor. The council will schedule a work session to continue the study and invite public discussion.

The council also held public hearings and passed the first four titles of their city code. The clerk had requested assistance in codifying the city code so that a copy could be provided to each council member for reference. RUBA staff drafted the ordinances for amending and adopting each title. The clerk the presented them to the council for comments and adoption.

Larsen Bay started the community planning process this quarter. RUBA staff met with Roberta Townsend Vennel who is the contractor facilitating the plan. She has held public meetings in the community and is working directly with the school for input from the children. Larsen Bay City Council stresses the importance of including the children’s future needs in any community plan. RUBA staff will attend a planning meeting next quarter.

Capacity Indicators

Finances
