

Nunapitchuk Activity Report

Community Overview

Lead RUBA Staff: Johnny Evan, Bethel Office
 2003 Population: 498
 Region: Lower Kuskokwim
 Local Governments: Second Class City, IRA Tribal Council

The City of Nunapitchuk operates the washeteria, water treatment plant, garbage collection, landfill/lagoon, and the flush haul system for the community. The utility services provide water deliveries and septic haul-out to residential customers connected to the flush haul system. Those not connected to the flush haul, utilize the container haul system.

Sewage containers are emptied into one of two sewage lagoons (one on each side of the River). The City provides piped water to the school. Teacher's housing, located in the old school, has an independent water and sewer system that still needs improvements. Preliminary plans are underway for a second water treatment plant for the other half of the community located on the other side of the river, and another plan for filling old sewage bunkers and lagoons.

RUBA Activity This Reporting Period

The construction of the flush haul units are complete, the airport road construction is still in process. The contracting agency, CRW, is developing the utility service's business plan.
