

Scammon Bay Activity Report

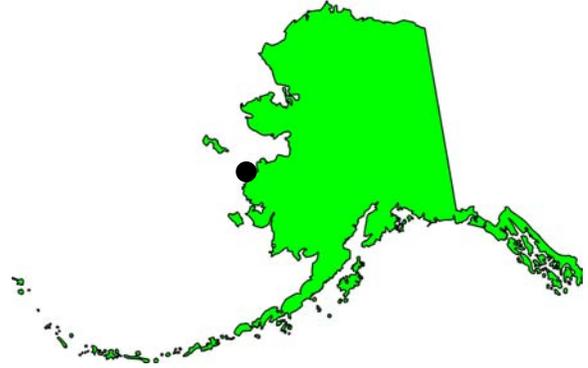

Community Overview

Lead RUBA Staff: Paul Chimiugak, Bethel Office

2001 Population: 394

Region: Lower Yukon

Local Governments: Second Class City, Tribal Council

The City operates the piped water and sewer system. Water is derived from an infiltration gallery located on a small stream south of the City, is treated and stored in a 100,000-gal. tank. The City Council is the policy making body for the utility.

Nearly all homes and the school are connected to the piped water and sewer system and are plumbed. Only a few residents use honeybuckets, typically due to frozen pipe damage. There is no washeteria. A new landfill and access road were recently completed, but funds are needed for equipment. AVEC and the City are interested in developing a small hydroelectric plant.

RUBA Activity This Quarter

The city still has not hired a manager, instead an interim manager was hired and he in turn hired a bookkeeper for the city. A repair of the pipeline in the lower part of the village is still in progress.

VSW has sent them a Grant Offer, which will require RUBA assessment in order to find out the essential indicator deficiencies they may have.

Capacity Indicators
