

Scammon Bay Activity Report

Community Overview

Lead RUBA Staff: Paul Chimiugak, Bethel Office

2003 Population: 470

Region: Lower Yukon

Local Governments: Second Class City, Tribal Council

The City operates the piped water and sewer system. Water is derived from an infiltration gallery located on a small stream south of the City, is treated and stored in a 100,000-gal. tank. The City Council is the policy making body for the utility.

Nearly all homes and the school are connected to the piped water and sewer system and are plumbed. Only a few residents use honeybuckets, typically due to frozen pipe damage. There is no washeteria. A new landfill and access road were recently completed, but funds are needed for equipment. AVEC and the City are interested in developing a small hydroelectric plant.

RUBA Activity This Quarter

Victor Wilson is now the full-time city manager starting in December 2003, and Selma Kaganak was hired in September 2003 as the city clerk. The city operates the piped water and sewer in the community. There is communication between the city and the tribal entity concerning an MOA for some of the services that the city provides. The RUBA staff out of Bethel have been invited to attend a meeting in April 2004 to discuss the MOA process and procedure.
