

Seldovia Bay Activity Report

Community Overview

Lead RUBA Staff: Greg Gould, Anchorage Office
 2003 Population: 300
 Region: Kenai Peninsula
 Local Governments: 1st Class City

Water is derived from the Fish Creek Reservoir, is treated, stored in a tank, and distributed via water mains. Sewage is piped to a community septic tank for primary treatment, then discharges to an ocean outfall. 175 homes and facilities are served by the system; all homes are completely plumbed. Individual wells have been unable to produce potable water. Funds have been requested to provide water and on-site septic tanks to the households with wells, and to protect the community ground water quality. Funds have also been requested to expand the system to areas for new development. A Borough-operated landfill is available.

RUBA Activity This Quarter

RUBA staff did not make a trip to the community this quarter. Phone and fax advice has been provided this quarter. The City Manager position became vacant this quarter with the former manager not renewing his contract. The council has initiated a personnel search and plans to hire a new manager early in the next quarter.

Capacity Indicators

Finances
