

Stebbins Activity Report

Community Overview

Lead RUBA Staff: Leroy Seppilu, Nome Office

2001 Population: 547

Region: Bering Straits

Local Governments: Second Class City

The City of Stebbins operates the washeteria and a central watering point where residents can come and haul their own water. The City also provides a honeybucket haul service. The City Council is the policy making board for the utility.

Major improvements are under construction to enable a piped water and vacuum sewer system, with household plumbing. Residents currently haul water and deposit honeybuckets in bunkers. Water is derived during the summer from Big Clear Creek, is treated and stored in a 1,000,000-gallon steel water tank. In the summer there are several watering points in the village, distributed from the tank via plastic pipelines. A reservoir at Clear Lake and a new water storage tank are under construction to alleviate winter water shortages.

RUBA Activity This Reporting Period

There was very little contact with Stebbins this Quarter. It was limited to a few follow-up calls regarding QuickBooks training issues. Stebbins meets most of the capacity indicators, and assistance is provided on an as requested basis. We expect that more assistance will be requested as the new system is put in place and begins operations.

RUBA Activities for the Coming Quarter

The City will be providing RUBA staff monthly financial statements as agreed to for their participation in the QuickBooks Pro training. It has been difficult to get anything from them for various reasons.
