

Tuluksak Activity Report

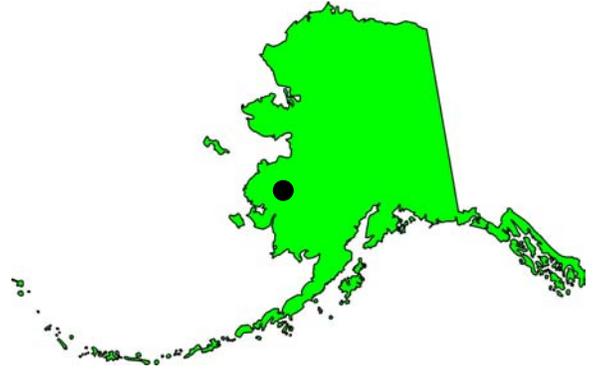

Community Overview

Lead RUBA Staff: Johnny Evan, Bethel Office

2001 Population: 428

Region: Lower Kuskokwim

Local Governments: Tribal Council

The Tribal Council operates the washeteria, water treatment plant, and the honey-bucket haul system. The Tribal Council is the policy making board for the utility services.

Only one watering point, with storage capacity of less than 7,000 gallons, serves the entire community, washeteria, clinic, and the school. Residents haul honey-buckets to 21 bins located sparingly throughout the community. A feasibility study was completed to implement a piped water and sewer system in the future. A larger water storage tank, completion of a new lagoon, and water system improvements are the community’s priority.

RUBA Activity This Reporting Period

RUBA staff worked with the new tribal administrator in modifying their financial statement, and ensure an escrow account was opened.
