

Upper Kalskag Activity Report

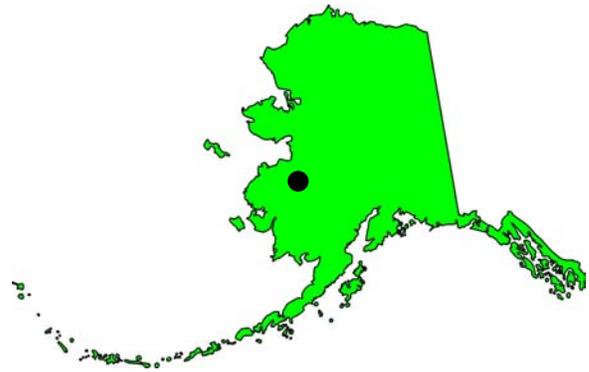

Community Overview

Lead RUBA Staff: Jimmy Smith, Anchorage Office

2002 Population: 248

Region: Lower Kuskokwim

Local Governments: Second Class City

The City of Upper Kalskag operates the piped sewer system. The City Council is the policy making board for the utility.

As of November 1997, nearly all homes, the school and the store have individual wells with potable water and indoor plumbing. A new piped gravity sewage system with lifts stations, force main and lagoon now serves over 60 households and facilities. The school has requested funds for a new septic tank and leachfield, or connection to the community sewer system. The landfill is located between Upper and Lower Kalskag.

RUBA Activity This Reporting Period

The Council members and staff have been unresponsive to recommendations suggested by RUBA Staff. The current city administrator has been on extended leave taking care of his son with medical problems. There have been numerous administrator substitutes.

The current city/utility clerk resigned from her position as a city clerk. She has continued on as the utility clerk. She has increased her efforts to collect outstanding debts from the customers for the utility department.

RUBA staff has been providing assistance over the phone and facsimile this past quarter.

As of December 31, 2003, the utility outstanding receivables were \$5,042.00. Not much of a change from last quarter, but the administrator said the amount had gone down to approximately \$2,000.00 but with the holidays it went back up.
