I Document Overview

This document serves as a training guide and support manual for dispensers of reportable drugs in Alaska who use Bamboo Health's PMP Clearinghouse repository to report their dispensations. It includes such topics as:

- Reporting requirements for dispensers in the State of Alaska
- Data file submission guidelines and methods
- Creating a PMP Clearinghouse account
- Creating a data file
- Uploading or reporting data
- Understanding and correcting errors

This guide is intended for use by all dispensers in the State of Alaska reporting the dispensation of reportable drugs to Alaska's PDMP.

2 Data Collection and Tracking

2.1 Data Collection Requirements

This guide provides information regarding the Alaska Prescription Drug Monitoring Program (PDMP), which is Alaska's solution for monitoring the reportable drugs dispensed in Alaska.

Senate Bill 196 (Alaska Statute(AS) 08.80.030(b)(11)) was signed into law on September 7, 2008, requiring the Alaska Board of Pharmacy to establish and maintain a reportable drugs prescription database, as provided in AS 17.30.200 for the reporting of dispensed prescriptions for all Schedule II–IV reportable drugs under federal law. AS 17.30.200 requires that each dispenser shall submit, by electronic means, information regarding each prescription dispensed for a reportable drug. This program was created to improve patient care; foster the goal of reducing misuse, abuse, and diversion of reportable drugs; and encourage cooperation and coordination among state, local, and federal agencies and other states to reduce the misuse, abuse, and diversion of reportable drugs.

Information about reportable drug dispensing activities is reported daily to the state of Alaska through the authorized data collection vendor. Pharmacies and other dispensers, including mail order pharmacies or dispensers that mail orders into the state, are required by law to provide such reporting to the data collection vendor in approved formats and frequencies.

2.2 Reporting Requirements

A "dispenser" is identified as a practitioner who delivers a reportable drug to an ultimate user by, or pursuant to the lawful order of, a practitioner, including the prescribing and administering of a reportable drug and the packaging, labeling, or compounding necessary to prepare the substance for delivery.

All dispensers of reportable drug prescriptions are required to collect and report their dispensing information. Authorized delegates may also report on a provider's behalf.

If you are a chain pharmacy or dispenser, your data will likely be submitted from your home office. Please verify this with your home office. If you are an independent pharmacy or other entity, please forward the reporting requirements to your software vendor. They will need to create the data file, and they may be able to submit the data on your behalf. If not, follow the instructions provided in the <u>Data Submission</u> chapter to submit the data.

*Effective July I, 2018, the Alaska PDMP requires dispensers to submit reportable drug dispensations to the Alaska PDMP **daily**. Dispensations on weekends or state holidays are required to be reported on the next regular state business day.

Alaska only requires dispensers who are distributing federally scheduled controlled substances in/to Alaska to register and report daily. Dispensers who are not dispensing federally scheduled controlled substances in/to Alaska are **NOT** required to register and only zero report.

A pharmacy that has a change in its status of dispensing or distributing federally scheduled controlled substances in/to Alaska since the date of its last initial or renewal

form, whichever is more recent, must notify the Board by submitting form <u>08-4841</u>. The notification must be provided within 10 days of the change as required by 12 AAC 52.857.

2.3 Exemptions

Per AS 17.30.200(t), a practitioner or a pharmacist is not required to report a dispensation if a reportable drug is

- I. Administered to a patient at
 - a. A health care facility; or,
 - b. A correctional facility.
- 2. Dispensed to a patient for an outpatient supply of 24 hours or less at a hospital
 - a. Inpatient pharmacy; or,
 - b. Emergency department.

3 Accessing Clearinghouse

This chapter describes how to create your PMP Clearinghouse account and how to log in to the PMP Clearinghouse web portal.

3.1 Creating Your Account

Prior to submitting data, you must create an account. If you are currently registered with the Bamboo Health PMP Clearinghouse system, you do not need to register for a new account—you will be able to add Alaska to your existing account for data submissions. If you have an existing PMP Clearinghouse account, please refer to Adding PMPs to Your Upload Account to add PMPs to your account.

Notes:

- Data from multiple pharmacies or dispensaries can be uploaded in the same file. For example, chain pharmacies may send in one file containing reportable drug dispensing information for all their pharmacies licensed in the State of Alaska. Therefore, chains with multiple stores need only to set up one account to upload a file.
- PMP Clearinghouse allows users to submit data through the web portal via manual entry (UCF) or upload of ASAP files. For users who prefer an encrypted transfer method, SFTP access is also available. You may set up your SFTP account during the account creation process.
- If you need to make changes to an existing PMP Clearinghouse upload account, please refer to <u>Managing Your Upload Account</u>.

Perform the following steps to create an account:

1. Open an internet browser window and navigate to the PMP Clearinghouse Account Registration page located at <u>https://pmpclearinghouse.net/registrations/new</u>.

Profile Details			* Indi	cates Required Fie
Email Address				
]			
Password		Password confirm	nation <u>"</u>

First name <u>*</u>	Middle name	ion if found. NPI	Last name "	

2. Complete your Profile Details.

Profile Details	* Indicates Required Field
Email Address "	
Password	Password confirmation

c. Enter your current, valid email address in the Email Address field.

Note: The email address you provide here will act as your username when logging into the PMP Clearinghouse system.

d. Enter a password for your account in the **Password** field, then re-enter it in the **Password Confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.
- 3. Complete your Personal and Employer information, noting the following:
 - Required fields are marked with a red asterisk (*).
 - You may be able to auto-populate your Personal and/or Employer information by entering your (or your employer's) **DEA**, **NPI**, and/or **NCPDP** number,

then clicking the search icon (\bigcirc). If the number you entered is found, your information will automatically be populated.

Note: Alaska requires the reporting of your DEA number for approval. If you are reporting for multiple facilities in Alaska, please list the DEA number associated with each facility. **Your account will not be approved if the DEA number is missing.**

Accessing Clearinghouse

4. If secure file transfer protocol (SFTP) is required, complete the Data Submission section of the page.

Notes:

- If SFTP access is not required, you do not need to complete the Data Submission section, and you may continue to step 5.
- You may add SFTP access to an existing account. Please refer to <u>Adding SFTP Access to</u> an <u>Upload Account</u> for complete instructions.

PMP Clearinghouse users are able to submit data through the web portal via manual entry or upload of ASAP Secure FTP (SFTP) access is available, and Real-Time submissions are also available in select states.
Enable SFTP Access
Enable Real-Time Access

a. Click to select the **Enable SFTP Access** checkbox.

The SFTP access fields are displayed.

ata Submission	
PMP Clearinghouse users are able to submit data through the web portal via manual entry or upload of ASAP files Secure FTP (SFTP) access is available, and Real-Time submissions are also available in select states.	5.
Enable SFTP Access	
SFTP Username	
SFTP Password	
SFTP Password Confirmation	
Password must include at least 8 characters, including 1 capital letter, 1 Iowercase letter, and 1 special character (such as I,@,#,\$)	
Enable Real-Time Access	

- c. Enter a password for your SFTP account in the **SFTP Password** field, then reenter it in the **SFTP Password Confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

This password will be input into the pharmacy or dispenser software so that submissions can be automated.

Notes:

- This password can be the same as the one previously entered under Profile.
- Unlike the Profile password (i.e., your user account password), the SFTP password does not expire.
- The URL to connect via SFTP is <u>submissions.healthcarecoodination.net/</u>.
- Additional details on SFTP configuration can be found in <u>Appendix C: SFTP</u> <u>Configuration</u>.
- 5. In the Submission Destinations section of the page, select the PMP(s) for which you will be submitting data.
- 6. Click Submit.

The request is submitted to the PMP administrator for each of the PMPs you selected for data submission, and the Registration Information Overview page is displayed.

Thank you for registering with PMP Clearinghouse, a service of PMP AWARxE.
A link to verify your email address has been sent. You must confirm your email address before you can login to
PMP Clearinghouse. Your data submission request has been sent to your requested state(s) for processing.
Upon approval, you may begin submitting prescription data.

4 Data Submission

This chapter provides information and instructions for submitting data to the PMP Clearinghouse repository or using Rx Management in AWARxE.

4.1 Timeline and Requirements

- Pharmacies, dispensaries, and software vendors can establish submission accounts upon receipt of this guide. See <u>Creating Your Account</u> for more information.
- You can begin submitting data to PMP Clearinghouse as soon as your account has been created.
- Dispensers must submit their data via Clearinghouse or directly within the AWARxE platform using the Rx Management function. Data should be reported in accordance with the guidelines outlined under <u>Reporting Requirements</u>.
- If a pharmacy or dispenser does not dispense any reportable drugs for the preceding reporting period, it must file a zero report for that reporting period, or it will be considered noncompliant. See <u>Zero Reports</u> for additional details.

4.2 Upload Specifications

Files should be in the ASAP 4.1 format, which was released in September 2009, as defined in <u>Appendix A: ASAP 4.1 Specifications</u>. Files for upload should be named in a unique fashion, with a prefix constructed from the date (YYYYMMDD) and a suffix of ".dat". An example file name would be "20230415.dat". All of your upload files will be kept separate from the files of others.

Reports for multiple pharmacies or dispensaries can be in the same upload file in any order.

5 Data Delivery Methods

This chapter provides information about data delivery methods you can use to upload your reportable data file(s) to PMP Clearinghouse.

For quick reference, you may click the desired hyperlink in the following table to view the stepby-step instructions for your chosen data delivery method:

Delivery Method	Page
Secure FTP	11
Web Portal Upload	11
Manual Entry (UCF)	13
Zero Reports	16

5.1 Secure FTP

If you are submitting data to PMP Clearinghouse using SFTP, you must configure individual sub-folders for each individual PMP system to which you are submitting data. These sub-folders must be created in the *homedir/directory* folder, which is where you are directed once authenticated, and **should be named using the PDMP abbreviation (e.g., AK, KS, MS, DC, GU, PR, etc.).** Data files not submitted to a state sub-folder will be required to have a manual state PMP assignment made on the <u>File Listings</u> page. Please refer to <u>PMP Subfolders</u> for additional details on this process.

 If you do not have a PMP Clearinghouse account, perform the steps in <u>Creating</u> <u>Your Account</u>.

Or

- 2. If you have a PMP Clearinghouse account but have not enabled SFTP access, perform the steps in <u>Adding SFTP Access to an Upload Account</u>.
- 3. Prepare the data file(s) for submission, using the ASAP specifications described in <u>Appendix A: ASAP 4.1 Specifications</u>.
- 4. SFTP the file to http://submissions.healthcarecoordination.net/.
- 5. When prompted, enter the username and password you created when setting up the SFTP account.
- 6. Place the file in the appropriate PMP-abbreviated directory.
- 7. You can view the results of the transfer/upload on the Submissions page in PMP Clearinghouse.

Note: If you place the data file in the root directory and not a PMP subfolder, a ⁶ symbol with a mouse over hint of "**Determine PMP**" is displayed on the **File Status** page, and you will be prompted to select a destination PMP to which the data should be sent.

5.2 Web Portal Upload

- 1. If you do not have an account, perform the steps in Creating Your Account.
- 2. Prepare the data file(s) for submission, using the ASAP specifications described in <u>Appendix A: ASAP 4.1 Specifications</u>.
- 3. Log in to PMP Clearinghouse.

4. From the home page, click the **File Upload** tab.

- 6. Click the **Browse** button, located next to the **File Upload** field, and select the file you created in step 2.
- 7. Click Upload.

A message is displayed prompting you to confirm the submission.

Upload File?	×
You are about to upload this file for file submission. Is this correct?	
Change	Upload

Do not copy or distribute without the express written permission of Bamboo Health.

8. Click **Upload** to continue with the file submission.

Your file is uploaded, and you can view the results of the upload on the File Submissions page.

Note: When uploading a file, the file name must be unique. If the file name is not unique, a message is displayed indicating that the file name has already been taken.

5.3 Manual Entry (UCF)

You can manually enter your prescription information into the PMP Clearinghouse system using the Universal Claim Form (UCF) within the PMP Clearinghouse web portal. This form allows you to enter patient, prescriber, dispenser, and prescription information.

Please refer to **Reporting Requirements** for the complete list of reporting requirements.

- 1. If you do not have an account, perform the steps in Creating Your Account.
- 2. Log in to PMP Clearinghouse.
- 3. Click UCF Submissions.

5.4 Zero Reports

If you have no dispensations to report for the preceding reporting period, you must report this information to the Alaska PDMP.

You may submit your zero report through the PMP Clearinghouse web portal by following the steps below or via SFTP using the ASAP Standard for Zero Reports. For additional details on submitting via SFTP, please refer to <u>Appendix B: ASAP Zero Report</u> <u>Specifications</u>.

You may submit zero reports through the PMP Clearinghouse web portal using one of the following methods:

- <u>Submit a single-click zero report</u>
- <u>Create a new zero report</u>

5.4.1 Submit a Single-Click Zero Report

Single-click zero reporting allows you to create a profile for the pharmacy or dispenser that includes its identifiers (e.g., DEA, NPI, NCPDP), so you do not have to enter it each time you submit a zero report.

To create a pharmacy profile and begin submitting single-click zero reports:

- 1. If you do not have an account, perform the steps in Creating Your Account.
- 2. Log in to PMP Clearinghouse.
- 3. Click Zero Reports.

- 12. Click **Yesterday** to submit a zero report for the previous date.

Once the report is submitted, the submission is indicated on the screen, and the zero report is displayed on the **Zero Report Listings** tab.

	Pharmacy	License Number	NCPDP	DEA Number	NPI	Actions	Submit Zero Repo	rts for:
Demo								
	Another Test Pharmacy			INTERNET		Edit Delete	Today 12/22/2021	Yesterday 12/21/2021
	Bamboo Health Test Pharmacy			HIMMING		Edit Delete	 Submitted 	Yesterday 12/21/2021

Note: You may edit or delete a pharmacy or dispensary from this page.

- To edit a pharmacy, click Edit to display the Edit Pharmacy page and make any necessary changes. Refer to steps 6–9 for guidance on entering pharmacy information.
- To delete a pharmacy, click **Delete**. You will be prompted to confirm the deletion. Once you confirm the deletion, the pharmacy configuration will be removed.

5.4.2 Create a New Zero Report

- 1. If you do not have an account, perform the steps in Creating Your Account.
- 2. Log in to PMP Clearinghouse.
- 3. Click Zero Reports.

8. Enter your NCPDP, DEA, and/or NPI numbers, if required by the PMP.

Note: If any of these fields are required by the PMP, they will be marked with a red asterisk (*).

9. Click Submit.

Your zero report is submitted to PMP Clearinghouse and will be displayed on the **Zero Report Listings** tab.

6 Data Compliance

This chapter describes how to view the status of your submitted data files and how to correct errors.

6.1 File Listings

The **File Listings** page displays information extracted from the data files submitted to PMP Clearinghouse, including the file name, number of records identified within the data file, number of records that contain warnings, number of records that contain errors, and the date and time of submission. Click **File Submissions** to access this page.

File Listings	Error Files File Upload

- The **Status** column, located at the end of each row, displays the file status via color-coded icon. Hovering over the icon will display the status message.
- The Status Report column, located next to the Status column, contains a link to the status report for that file. Please refer to <u>File Status Report</u> for more information on how to read and interpret this report.

If a file contains errors, it will have a [•] symbol with a mouse over hint of "**Pending Dispensation Error**" within the status column. You can click the error icon in the **Status** column to display the Error Correction page, which allows you to view the records containing errors (see <u>View Records</u> for more information). Please refer to <u>Error Correction</u> for instructions on how to correct errors.

If a file is unable to be parsed into the PMP Clearinghouse application, it will have an symbol with a mouse over hint of "ASAP Errors." Clicking the icon will display the detailed error, which indicates what element was missing or malformed. To correct these errors, a new file must be submitted to PMP Clearinghouse. It is not necessary to void a file that failed parsing since it was not successfully submitted to PMP Clearinghouse.

If you submitted a file via SFTP without using a PMP-specific sub-folder, the file will be

displayed, and $\stackrel{\Theta}{}$ symbol will be displayed in the status column with a mouse over hint of "**Determine PMP.**" Clicking the icon will prompt you to select a destination PMP to which the data file will be transferred.

S	et Dest	inati	on PMP:			×			
			m determining de estination pmp ir		.:

	0						06/21/2021 07	:41PM	Determine PMP
	1						06/21/2021 07	:37PM	0

If you submitted a zero report via file upload or SFTP that is malformed or missing information, the file will be displayed, and an exclamation mark icon inside a red triangle will be displayed in the status column. Hovering over the icon will display the "Invalid Zero Report" error. Clicking on the icon will display the detailed error message. To correct these errors, a new zero report must be submitted. Error example:

6.2 UCF Listings

The **UCF Listings** page displays information about the UCFs submitted to PMP Clearinghouse, including the number of warnings and errors. Click **UCF Submissions** to access this page.

UCF Listings									
Show 10 e entries Search:									
Created at	ţ↑	State 11	Warnings 11	Errors 11	Status				
01/28/2019 03:51 PM		CR	0	0	~				
01/28/2019 04:04 PM		CR	0	0	✓				
01/28/2019 04:07 PM		CR	0	0	✓				
01/28/2019 04:11 PM		CR	0	0	~				

The **Status** column, located at the end of each row, displays the UCF's status. Data entered into the UCF is validated upon submission; therefore, successfully submitted UCFs should not contain errors. However, if you have attempted to submit a UCF with errors and did not immediately correct those errors and submit the record, you have up to one (1) year to make updates to these records in Clearinghouse.

I. To view pending or incomplete submissions, click the Manage Claim Forms tab.

Note: If there are no errors, you are returned to the UCF Listings page, and your report is listed there.

- 5. Correct the indicated errors, then repeat steps 3-4.
- 6. Once your data has been successfully submitted, your report is listed on the UCF Listings page.

6.3 Error Correction Page

6.3.1 View Records with Errors

The **Error Correction** page displays more information about the records within a selected data file that need correcting, including **Prescription Number, Segment Type, Warning Count**, and **Error Count**. To access this page, click the "**Pending Dispensation Error**" message in the **Status** column of the <u>File Listings</u> page.

rror Correct	ION Manage And Re	solve Submission Issues						
Show 10 🕈 entries Search:								
DEA Number ț	NCPDP Identifier $^{\uparrow\downarrow}$	Prescription Number $\uparrow\downarrow$	Name 11	Filled At 斗	Segment Type 斗	Warning Count $\uparrow\downarrow$	Error Count $\uparrow\downarrow$	Action
	-	2104AB	RED CROSS	2021-01-10	Dispensation	0	2	Correct Voi
		2104AB	RED CROSS	2021-01-10	Patient	0	1	Correct Voi

The **Correct** button, located at the end of each row, allows you to make corrections to the record.

6.3.2 Error Correction via PMP Clearinghouse

Once you click **Correct** on the **Error Correction** page, the **Errors** page is displayed. This page displays detailed information about the records within a selected data file that need correcting, including all the fields contained within the record and the originally submitted value, and allows you to correct those records.

File Listings File Errors Dispensary Errors			
Dispensary Errors Manage And Resolve Prescription Number: 0100755 DEA Number: BE94		led At: 2019-02-13	
Field	Submitted Value	Corrected Value	Messages
National provider identifier	1104923507	1104923507	×
NCPDP identifier	0068568	0068568	✓
DEA number	BE9432042	BE9432042	Warnings: DEA number warning: DEA number not found in registry.
			✓
Name			Errors: Name value must be present.
Phone number	4017704455	4017704455	

- The **Corrected Value** column allows you to enter a new value to correct the error.
- The **Message** column displays the relevant error message explaining why the value entered in that field did not pass the validation rules.

For files that failed to parse, the error identified is "best effort" and any information we could not parse is listed as "unparseable" in the file. In this case, you must submit a corrected file.

To correct records:

- 1. Identify the fields that require corrections. Fields containing errors are highlighted in red, as shown in the screenshot above.
- 2. Enter the corrected value in the **Corrected Value** column.
- 3. Click Submit.

The error is processed through the validation rules.

- a. If the changes pass the validation rules, the record is valid, and a message is displayed indicating that the errors have been corrected. The <u>File Listings</u> and <u>Error Correction</u> pages are also updated.
- b. If the changes fail the validation rules, a message is displayed indicating that there was a problem correcting the errors, and the **Message** column is updated with any new error message. Repeat steps 2–3 until the errors have been corrected and the file can be successfully submitted.

6.3.3 Error Correction via File Submission

The ASAP 4.1 standard requires a pharmacy or dispenser to select an indicator in the **DSP01** (Reporting Status) field. These indicators allow you to submit new records, revise and resubmit records, and void (delete) erroneous records.

These actions are indicated by supplying one of the following values in the **DSP01** field:

- 00 New Record indicates a new record
- **01 Revise** indicates that one or more data elements in a previouslysubmitted record have been revised

To revise a record:

- a. Create a record with the value "01" in the DSP01 field.
- b. Populate the following fields with the same information originally submitted in the record that is being revised:
 - PHA03 (DEA Number)
 - **DSP02** (Prescription Number)
 - **DSP05** (Date Filled)
- c. Fill in all other data fields with the correct information. This information will override the original data linked to the fields referenced in step 2.
- d. Submit the record.

Important Note: When submitting revisions for the Prescription Number (DSP02), Pharmacy DEA (PHA03), Date Filled (DSP05), Quantity Filled (DSP09), and/or Refill Number (DSP06) fields, a Void submission (02) on the original record should be processed before re-submitting a New Record (00). Submitting Revise (01) for one of these five fields will process as a new prescription and both submissions will appear. All other field revisions may be processed as 01.

02 Void – indicates that the original record should be removed

To void a record:

- a. Create a record with the value "02" in the DSP01 field.
- b. Fill in all other data identical to the original record.
- c. Submit the record. This will void the original record.

7 Email Reports

Email status reports are automatically sent to all users associated with a specific data submitter account. These reports are used to identify errors in files that have been submitted and to confirm zero report submissions. This chapter describes the status reports you may receive via email.

7.1 File Failed Report

You will receive the *File Failed Report* if a submitted file was not able to be parsed and was not processed into PMP Clearinghouse. The report contains a description of the error encountered within the file. In the event of a failed file, a new file should be submitted with the necessary corrections.

Note: Failed files are not parsed into Clearinghouse and do not require a voided ASAP file to remove it from the system.

An example File Failed Report is provided below.

SUBJ: Alaska ASAP file: fake-test3.txt - Parse Failure

BODY:

Error Message

Failed to decode the value '04' for the bean id 'transactionControlType'.

Summary:

* File Name: fake-test3.txt

* ASAP Version: 4.1

- * Transaction Control Number: unparseable
- * Transaction Control Type: unparseable
- * Date of Submission: January 30, 2016

NOTE: This file could not be received into the system because the system could not recognize its content as a valid ASAP format. Action is required to resolve the issues and a subsequent file should be submitted. As such the information provided in this report is "best effort" and any information we could not parse is listed as "unparseable" in the fields above.

7.2 File Status Report

The *File Status Report* serves as notification that a data file is currently being parsed by the PMP system.

This report identifies specific records in the submitted data file and returns identifying information about the record, including specific errors identified during the validation process. It uses fixed-width columns and contains a summary section after the error listings. Each column contains a blank two-digit pad at the end of the data.

The columns are set to the following lengths:

Column	Length
DEA	II (9 + pad)
NCPDP	9 (7 + pad)
NPI	12 (10 + pad)
Prescription	27 (25 + pad)
Filled	10 (8 + pad)
Segment	18 (16 + pad)
Field	18 (16 + pad)
Туре	9 (7 + pad)
Message	Arbitrary

The File Status Report notifies you of the following scenarios:

- **Total records**: The total number of records contained in the submitted data file.
- **Duplicate records**: The number of records that were identified as already existing within the PMP system. Duplicate records are not imported to prevent improper patient information.
- **Records in process**: The number of records remaining to be processed into the system (usually only displays a number if the file has not finished loading at the time the report is sent out).

Note: Records remaining to be processed will continue to be processed even after the status report is sent.

- **Records with errors**: The number of records that contain errors. These errors must be corrected for the record to be imported into the system. If a zero (0) is displayed, there are no errors in the data. Please refer to <u>Error Correction</u> for instructions on correcting errors.
- **Records with warnings**: The number of records that contain warnings. These warnings do not need to be corrected for the record to be imported into the system. If a zero (0) is displayed, there are no warnings in the data.
- **Records imported with warnings**: The number of records with warnings that were imported. If a record contains both warnings and errors, the errors must be corrected to be submitted to the system. Please refer to <u>Error Correction</u> for instructions on correcting errors.
- **Records imported without warnings**: The number of records without warnings that were imported.

Note: The initial File Status Report is sent out two (2) hours after the file has been submitted to the system. Additional reports will be sent out every 24 hours if errors continue to be identified within a submitted data file.

An example File Status Report is provided on the following page.

SUBJ: Alaska	a ASAP file	e: fake-test3.t>	kt - Status Report				
BODY: DEA	NCPD	NPI	Prescription	Filled	Segment	Field Type	Message
			123486379596-0 357199504833-345		Dispensation Dispensation	refill_number days_supply	WARNING message example ERROR message example

7.3 Zero Report Confirmation

You will receive a Zero Report Confirmation after successfully submitting a zero report to PMP Clearinghouse. This report displays the PMP to which the zero report was submitted, date range for the zero report, date the zero report was submitted to PMP Clearinghouse, and date the report was originally created.

An example Zero Report Confirmation is provided below.

SUBJ: ASAP Zero Report: zero_reports_20230301KSMCPS.DAT

BODY:

Summary:

* File Name: zero_reports_20230301KSMCPS.DAT

* PMP Name: Alaska

- * Date Range: 2023-03-06 2023-03-06
- * Submission Date: 2023-08-23
- * ASAP Creation Date: 2023-03-06

8 Managing Your Upload Account

The **Account** menu option allows you to manage the information associated with your organization's upload account, including adding users, PMPs, and SFTP access to your account as well as editing your organization's account information.

Note: This chapter contains information for managing the upload account with which your user account is associated. For information about editing and managing your individual user account, including how to change your password, please refer to Managing Your User Profile.

Adding Users to Your Upload Account **8**.

PMP Clearinghouse allows data submitters to add new users to the system who have the same rights and access to submitting data and viewing file status. This practice allows you to create an account to be used for a backup individual.

- I. Log in to PMP Clearinghouse.
- 👖 Account 👻 💄 My Profile 👻 😨 Help Advanced Options

4. Click the **Edit** button, located to the right of the user's information. The **Edit Data Submitter User** page is displayed.

Account Information				
<u>*</u> Email	Manual and a statistic state State and a south			
* First name	Testy			
* Last name	McTesterton			
Password				
Password confirmation	leave it blank if you don't want to change it			

5. Enter a new password for the user in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

Passwords must contain:

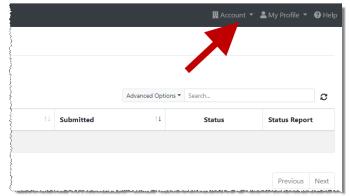

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.
- 6. Click Submit.

The password is changed.

8.2 Adding PMPs to Your Upload Account

If your organization needs to submit data files to an additional PMP that uses PMP AWARxE, you can submit the request through PMP Clearinghouse.

- I. Log in to PMP Clearinghouse.
- 2. Click **Account**.

3. Select **Multi State Approval** from the *Account* drop-down menu.

The **Multi State Approval** page is displayed. This page displays all PMPs currently using the PMP AWARxE system as well as your data sharing status with each one.

Please selec	t state P	MPs that will receive of	data from this account.	
	Abb	v State	Status	Participating States Your Approval Status
	AL	Alabama	Pending	8
	AK	Alaska	Approved	A The A
	D AZ	Arizona		LIMH OR JU
	AR	Arkansas		
	□ co	Colorado		
	🖂 СТ	Connecticut	Approved	V V V
	D0	Demo	Approved	NO LATO
	DC	District of Columbia		A TILL
	GA	Georgia		is a first
	пн	Hawaii		in the second se
	v ID	Idaho	Approved	

4. To request to submit data to another PMP, click to select the checkbox next to that PMP.

PMP Clearinghouse automatically saves your changes, and your request is submitted to the PMP administrator for review and approval. Once the request has been approved, the status for that PMP will change from "Pending" to "Approved," and you may begin submitting data to that PMP.

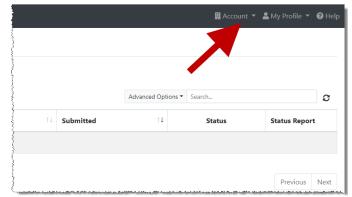

Notes:

- If you are submitting data via SFTP, the file must be located in the proper subfolder to ensure delivery to the desired PMP.
- To cancel data submission to a PMP, uncheck the box for that state. Note: if you
 need to submit data to that state again in the future, you will have to go through the
 approval process again.

8.3 Adding SFTP Access to an Upload Account

If a registered upload account did not request an SFTP account during the account creation process, you can request one at any time using the **Account** menu option.

- I. Log in to PMP Clearinghouse.
- 2. Click **Account**.

3. Select SFTP Details.

The **SFTP Account** page is displayed.

There is no SFTP user associated with your account at this time You can create an SFTP user and submit files by clicking the create button below.	e.
Create	

Note: If an SFTP account already exists for the upload account, the username is displayed on the **SFTP Account** page.

SFTP Account VIEW SFTP ACCOUNT DETAILS	
Username: sftptester	
Edit	

You cannot change the SFTP account username; however, you can update the password by clicking **Edit**.

4. Click Create.

SFTP Account CREATE A NEW SFTP ACCOUNT			
Name	Username of the SFTP account.		
Password			
Password confirmation			
	Create Cancel		

The Create a New SFTP Account page is displayed.

5. Enter a username for the account in the **Name** field.

Notes:

- The username must contain a minimum of eight (8) characters.
- Once the SFTP account has been created, you cannot change the username.
- 6. Enter a password for the account in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

Once the account has been successfully created, this password will be input into the pharmacy software so that submissions can be automated.

Notes:

- This password can be the same as the one used when the upload account was created.
- Unlike your Profile password (i.e., your user account password), the SFTP password does not expire.
- The URL to connect via SFTP is <u>submissions.healthcarecoordination.net/</u>.
- Additional details on SFTP configuration can be found in <u>Appendix C: SFTP</u> <u>Configuration</u>.
- 7. Click Create.

The account is created, and the username is displayed.

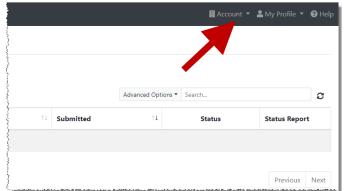

8.4 Editing Your Upload Account

Note: This function only allows you to edit your organization's upload account. If you need to edit your individual profile information, please refer to <u>Editing Your Profile</u>.

I. Log in to PMP Clearinghouse.

3. Select Account Details.

The **Account** page is displayed as shown on the following page.

Name: Bamboo Health Phone Number: 5555555555 Fax Number:

we need your current password to confirm your changes	Password confirmation
Password	
Update Cancel	

- 4. Enter your current password in the **Current Password** field.
- Enter your new password in the **Password** field, then re-enter it in the **Password** confirmation field. The password requirements are provided below.
 Passwords must contain:
 - At least eight (8) characters
 - One (1) uppercase letter
 - One (1) lowercase letter

- One (1) number
- One (1) special character, such as !, @, #, \$, etc.
- 6. Click Update.

Your password is updated, and you will use it the next time you log in to PMP Clearinghouse.

9.3 Resetting Your Password

If you have forgotten your password or your password has expired, perform the following steps to reset it.

1. Open an internet browser window and navigate to the PMP Clearinghouse Login page located at <u>https://pmpclearinghouse.net/users/sign_in</u>.

5. Enter your new password in the **New password** field, then re-enter it in the **Confirm your new password** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.
- 6. Click Change my password.

Your password is changed, and you can now use it to log in to PMP Clearinghouse.

10 Assistance and Support

10.1 Technical Assistance

If you need additional help with any of the procedures outlined in this guide, you can:

- Contact Bamboo Health at I-855-5AK-4PMP (I-855-525-4767);
 OR
- Create a support request at the following URL: <u>https://pmpclearinghouse.zendesk.com/hc/en-us/</u>.

Technical assistance is available 24 hours per day, 7 days per week, 365 days per year.

10.2 Administrative Assistance

If you have non-technical questions regarding the Alaska PDMP, please contact:

Alaska Prescription Drug Monitoring Program P.O. Box 110806 Juneau, AK 99811-0806

Phone: (907) 465-1039 Fax: (907) 465-2974 Email: <u>akpdmp@alaska.gov</u>

II Document Information

11.1 Disclaimer

Bamboo Health has made every effort to ensure the accuracy of the information in this document at the time of printing; however, information is subject to change.

11.2 Change Log

Version	Date	Chapter/Section	Change Made
1.0	12/01/2015	N/A	Initial publication
1.1	01/27/2016	Appendix A	DSP14 and PRE01 no longer required
1.2	02/10/2016	Appendix A	DSP13 updated accordingly for 4.1 specifications
1.3	06/26/2017	Reporting Requirements	Reporting change from monthly to weekly
			No longer requiring submission of Schedule V drugs
1.4	02/12/2018		Removed Certification of No Controlled Substance Dispensed Form, as reporting is now mandatory
1.5	06/12/2018	Reporting Requirements	Changed reporting requirement to daily
2.0	05/15/2019	Global	Updated to current document template
2.1	01/22/2020	5.4/Zero Reports	Separated into two sections (Submit a Single-Click Zero Report and Create a New Zero Report) to reflect the addition of the single-click zero report submission functionality
		5.4.1/Submit a Single- Click Zero Report	Added new section with instructions for submitting a single-click zero report
		6.3.3/ Error Correction via File Submission	Added clarification on correcting errors by submitting a revision file using 01 (revise) in the DSP01 field
2.2	04/30/2021	10.2/Administrative Assistance	Updated AK PDMP contact information
2.3	1/04/2022	Global	Rebranded the guide with Bamboo Health branding
3.0	12/03/2024	Global	Updated guide to current branding standards
		Global	Updated sFTP hostname information
		6.2/UCF Listings	Updated time to edit/delete UCF submissions

		2/Data Collection and Tracking	Updated reporting regulations per state's request
3.1	04/10/2025	6.3.3/Error Correction via File Submissions	Added additional guidance on revising and voiding records
		Appendix A/ASAP Reporting Requirements	 Updated the following fields: PAT20 – Changed from S to R AIR09 – Changed from N to R AIR10 – Changed from N to R

Appendix A: ASAP 4.1 Specifications

The information on the following pages contains the definitions for the specific contents required of uploaded records in the American Society for Automation in Pharmacy (ASAP) format to comply with the Alaska PDMP requirements. The definitions contain a mix of fields required by ASAP and additional requirements established by the Alaska PDMP.

The following elements are used in each upload file:

- Segment Identifier indicates the beginning of a new segment, for example, PHA.
- **Data Delimiter** character used to separate segments and the data elements within a segment, for example, an asterisk (*).

Each completed field should be followed by an asterisk, and each blank field should contain a single asterisk.

If the last field in the segment is blank, it should contain an asterisk and a tilde (~).

• Segment Terminator – character used to mark the end of a segment, for example, the tilde (~).

Note: Field TH09 in the Transaction Header segment contains a built-in segment terminator. Since TH09 also signifies the end of the segment, it should contain two tildes ($\sim\sim$).

- Requirement
 - R = Required by Alaska
 - N = Not required but accepted if submitted
 - S = Situational

Note: For more information, contact the American Society for Automation in Pharmacy for the full Implementation Guide for the ASAP Standard for Prescription-Monitoring Programs. This guide includes field lengths, acceptable attributes, and examples.

Segment	Element	Element Name	Requirement
	ID		
		r (required) f a transaction. It also assigns the data element separator, segment	terminator, and
	TH01	Version/Release Number	R
		Code uniquely identifying the transaction.	
		Format = x.xx	
	TH02	Transaction Control Number	R
		Sender assigned code uniquely identifying a transaction.	
	TH03	Transaction Type	N
		Identifies the purpose of initiating the transaction.	
		01 Send/Request Transaction	
		02 Acknowledgement (used in Response only)	
		03 Error Receiving (used in Response only)	
		• 04 Void (used to void a specific Rx in a real-time transmission or an entire batch that has been transmitted)	
	TH04	Response ID	N
		Contains the Transaction Control Number of a transaction that initiated the transaction. Required in response transaction only.	
	TH05	Creation Date	R
		Date the transaction was created. Format: CCYYMMDD.	
	ТН06	Creation Time	R
		Time the transaction was created. Format: HHMMSS or HHMM.	
	TH07	File Type	R
		• P = Production	
		• T = Test	
	TH08	Routing Number	N
		Reserved for real-time transmissions that go through a network switch to indicate, if necessary, the specific PMP the transaction should be routed to.	
	TH09	Segment Terminator Character	R
		This terminates the TH segment and sets the actual value of the data segment terminator for the entire transaction.	
	tion Source (vey the name a	required) nd identification numbers of the entity supplying the information.	
	, IS01	Unique Information Source ID	R
		Reference number or identification number.	
		(Example: phone number)	
	IS02	Information Source Entity Name	R
		Entity name of the Information Source.	
	IS03	Message	N
		Free-form text message.	

Segment	Element ID	Element Name	Requirement
PHA: Phar	rmacy Header	r (required)	•
Used to ide	ntify the pharm	acy.	
Note: It is i PHA03.	required that in	formation be provided in at least one of the following fields: PHA0	I, PHA02, or
	PHA01	National Provider Identifier (NPI)	N
		Identifier assigned to the pharmacy by CMS.	
	PHA02	NCPDP/NABP Provider ID	N
		Identifier assigned to pharmacy by the National Council for Prescription Drug Programs.	
	PHA03	DEA Number	R
		Identifier assigned to the pharmacy by the Drug Enforcement Administration.	
	PHA04	Pharmacy Name	R
		Free-form name of the pharmacy.	
	PHA05	Address Information – I	R
		Free-form text for address information.	
	PHA06	Address Information – 2	N
		Free-form text for address information.	
	PHA07	City Address	R
		Free-form text for city name.	
	PHA08	State Address	R
		U.S. Postal Service state code.	
	PHA09	ZIP Code Address	R
		U.S. Postal Service ZIP Code.	
	PHA10	Phone Number	N
		Complete phone number including area code. Do not include hyphens.	
	PHAII	Contact Name	N
		Free-form name.	
	PHA12	Chain Site ID	N
		Store number assigned by the chain to the pharmacy location. Used when the PMP needs to identify the specific pharmacy from which information is required.	
	ent Information	on (required) s name and basic information as contained in the pharmacy record	
	PATOI	ID Qualifier of Patient Identifier	N
		Code identifying the jurisdiction that issues the ID in PAT03.	

Segment	Element	Element Name	Requirement
	ID		
	PAT02	ID Qualifier	N
		Code to identify the type of ID in PAT03. If PAT02 is used, PAT03 is required.	
		OI Military ID	
		02 State Issued ID	
		02 State Issued ID 03 Unique System ID	
		 05 Onique system iD 05 Passport ID 	
		06 Driver's License ID	
		07 Social Security Number	
		08 Tribal ID	
		 99 Other (agreed upon ID) 	
	DATO		N
	PAT03	ID of Patient	N
		Identification number for the patient as indicated in PAT02. An example would be the driver's license number.	
	DATO/		
	PAT04	ID Qualifier of Additional Patient Identifier	N
		Code identifying the jurisdiction that issues the ID in PAT06.	
		Used if the PMP requires such identification.	
	PAT05	Additional Patient ID Qualifier	N
		Code to identify the type of ID in PAT06 if the PMP requires a second identifier. If PAT05 is used, PAT06 is required.	
		01 Military ID	
		02 State Issued ID	
		03 Unique System ID	
		• 05 Passport ID	
		06 Driver's License ID	
		07 Social Security Number	
		• 08 Tribal ID	
		• 99 Other (agreed upon ID)	
	PAT06	Additional ID	N
		Identification that might be required by the PMP to further identify the individual. An example might be that in PAT03 driver's license is required and in PAT06 Social Security number is also required.	
	PAT07	Last Name	R
		Patient's last name.	
	PAT08	First Name	R
		Patient's first name.	
	PAT09	Middle Name	N
		Patient's middle name or initial if available.	
	PAT10	Name Prefix	N
		Patient's name prefix such as Mr. or Dr.	
	DATII	Name Suffix	N
	PATII		N
L		Patient's name suffix such as Jr. or the III.	

Segment	Element ID	Element Name	Requirement
	PAT12	Address Information – I	R
		Free-form text for street address information.	
	PAT13	Address Information – 2	N
		Free-form text for additional address information.	
	PAT14	City Address	R
		Free-form text for city name.	
	PAT15	State Address	R
		U.S. Postal Service state code	
		Note: Field has been sized to handle international patients not residing in the U.S.	
	PAT16	ZIP Code Address	R
		U.S. Postal Service ZIP code.	
		Populate with zeros if patient address is outside the U.S.	
	PATI7	Phone Number	N
		Complete phone number including area code. Do not include hyphens.	
	PAT18	Date of Birth	R
		Date patient was born.	
		Format: CCYYMMDD	
	PAT19	Gender Code	R
		Code indicating the sex of the patient.	
		F Female	
		M Male	
		U Unknown	
	PAT20	Species Code	R
		Used if required by the PMP to differentiate a prescription for an individual from one prescribed for an animal.	
		• 01 Human	
		02 Veterinary Patient	

	Element ID	Element Name	Requirement
	PAT21	Patient Location Code	N
		Code indicating where patient is located when receiving	
		pharmacy services.	
		01 Home	
		02 Intermediary Care	
		03 Nursing Home	
		 04 Long-Term/Extended Care 	
		• 05 Rest Home	
		06 Boarding Home	
		07 Skilled-Care Facility	
		08 Sub-Acute Care Facility	
		09 Acute Care Facility	
		I0 Outpatient	
		II Hospice	
		98 Unknown	
		• 99 Other	
	PAT22	Country of Non-U.S. Resident	N
		Used when the patient's address is a foreign country and PAT12 through PAT16 are left blank.	
	PAT23	Name of Animal	S
		Used if required by the PMP for prescriptions written by a	
		veterinarian and the pharmacist has access to this information at the time of dispensing the prescription.

TP: Pharma	acy Trailer (re	equired)	
	•	ata for a given pharmacy and provide the count of the total numb harmacy, including the PHA and TP segment.	er of detail
	TP01	Detail Segment Count	R
		Number of detail segments included for the pharmacy including the pharmacy header (PHA) and the pharmacy trailer (TP) segments.	
TT: Transa	ction Trailer ((required)	
Used to indic the transaction		he transaction and provide the count of the total number of segn	nents included in
	ттоі	Transaction Control Number	R
		Identifying control number that must be unique.	
		Assigned by the originator of the transaction.	
		Must match the number in TH02.	
	ТТ02	Segment Count	R
		Total number of segments included in the transaction including the header and trailer segments.	

Appendix B: ASAP Zero Report Specifications

The following table contains the required definitions for submitting zero reports via SFTP or manual upload to the Alaska PDMP. It lists the **Segment** and **Element ID** with pre-populated data to be used as an example for constructing a zero report. For more details regarding these Segment or Elements IDs, or for details on reporting actual dispensations, please refer to <u>Appendix A: ASAP 4.1 Specifications</u>.

Segment	Element ID	Element Name	Requirement				
TH: Transa	TH: Transaction Header (required)						
	TH01	4.1	R				
	TH02	123456	R				
	ТН05	20150101	R				
	TH06	223000	R				
	TH07	Р	R				
	ТН09	11	R				
IS: Informa	tion Source (red	quired)	·				
	ISOI	7705555555	R				
	IS02	PHARMACY NAME	R				
	IS03	Date Range of Report #YYYYMMDD#-#YYYYMMDD#	R				
PHA: Phar	macy Header (re	equired)					
	PHA03	ZZ1234567	R				
PAT: Patie	nt Information (required)					
	PAT07	REPORT	R				
	PAT08	ZERO	R				
DSP: Dispe	DSP: Dispensing Record (required)						
	DSP05	20150101	R				
PRE: Presc	riber Informatio	n (required; can be null as follows: PRE******\)					
CDI: Comp	ound Drug Ingr	edient Detail					
AIR: Additi	ional Informatio	n Reporting					
TP: Pharm	acy Trailer (req	uired)					
	ТРОІ	7	R				
TT: Transa	ction Trailer (re	equired)					
	ттоі	123456	R				
	ТТ02	10	R				

Sample Zero Report

The following example illustrates a zero report using the above values.

TH*4.1*123456*01**20150108*223000*P**\\ I\$*7705555555*PHARMACY NAME*#20150101#-#20150107#\ PHA*** ZZ1234567\ PAT******REPORT*ZERO********\ DSP****20150108*****\ PRE*\ CDI*\ AIR*\ TP*7\ TT*123456*10\

Appendix C: SFTP Configuration

This appendix describes the SFTP configurations required to upload your data to PMP Clearinghouse.

Note: Submitting data via SFTP requires that you have an existing PMP Clearinghouse account with SFTP access.

- If you need to create a PMP Clearinghouse account, please refer to <u>Creating Your Account</u>. You will
 be able to set up your SFTP account during the account creation process.
- If you have an existing PMP Clearinghouse account but do not have SFTP access, please refer to Adding SFTP Access to an Upload Account.

SFTP Connection Details

Hostname: submissions.healthcarecoordination.net

Bamboo Health recommends that you use the hostname when configuring the connection rather than the IP address, as the IP address is subject to change.

Port: 22

Note: The port will always be 22.

- Credentials: Your SFTP account credentials (username and password) can be found within the PMP Clearinghouse website. To locate your credentials, <u>log in to PMP Clearinghouse</u>, then click Account > SFTP Details > Edit.
- Your username cannot be modified; however, you can update your password.

Note: Your current SFTP password cannot be seen or recovered. If you have forgotten or lost it, you will need to create a new one. For more information on changing the SFTP password, please refer to <u>Adding SFTP Access to an Upload Account</u>.

• Once you have established SFTP access, you can test the SFTP connection, but you will not be able to submit data to a PMP until your account has been approved by the PMP administrator.

PMP Subfolders

PMP Clearinghouse is the data repository for numerous PMPs. As such, data submitted via SFTP must be placed in the appropriate folder for the PMP for which you are submitting data so that it can be properly imported. The creation of subfolders must be done outside of the PMP Clearinghouse website using third-party software, such as an SSH client or a command line utility. Files placed in the root/home directory of the SFTP server will not be imported, as this will cause the dispensing entity to appear as noncompliant/delinquent.

Your pharmacy software will need to be configured to place files in the appropriate PMP folder when submitting. You may need to contact your software vendor for additional assistance with this process.

NOTE: Capitalization of the abbreviated PMP folders' names has no bearing on whether or not Clearinghouse processes the files; however, some pharmacy systems, especially *nix-based systems, will require that the exact case is used when specifying the target folder.

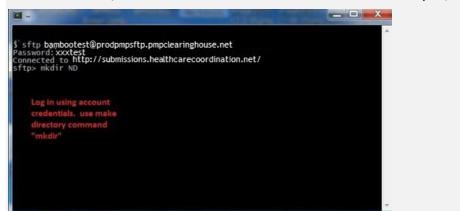

There are two methods by which to create PMP subfolders for SFTP submissions:

- 1. Via SSH client (e.g., WinSCP, FileZilla, etc.)
 - a. Log in to your SFTP account.
 - b. Create the required directories under /homedir.

	Username:	Password:	Port:	Quickconne	d •

10 directories Server/Local fil	e Direction						

2. Via command prompt

- a. Log in to your SFTP account using command prompt.
- b. Type "**mkdir**" followed by a space and then the state abbreviation you are using (e.g., *mkdir PR*).

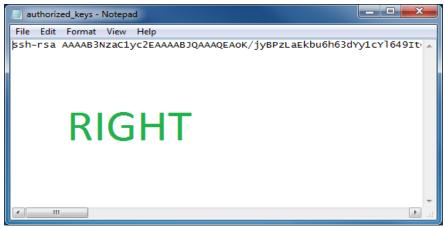

NOTE: The PMP folder must be titled with the two-letter abbreviation as specified above.

Public (SSH/RSA) Key Authentication

PMP Clearinghouse supports SSH key authentication. The generation of the key is outside the scope of this document; however, general guidelines about the key, along with how to import/load it, are provided below.

Note: PGP Encryption is not supported.

- Supported Key Types:
 - SSH-2 RSA 2048 bit length
- Unsupported Key Types:
 - SSH-I RSA
 - SSH-2 DSA
- **Correct Public Key Format:** If opened in a text editor, the key should look like the screenshot below.

• Incorrect Public Key Format: If opened in a text editor, the key SHOULD NOT look like the screenshot below.

diftp - Notepad	- D X			
File Edit Format View Help				
BEGIN SSH2 PUBLIC KEY Comment: "rsa-key-20130904"	*

END SSH2 PUBLIC KEY				
WRONG				
	-			

• Once the key has been generated, it should be named "*authorized_keys*".

Notes:

- There is no file extension.
- There is an underscore between the words **authorized** and **keys**.
- A .ssh subfolder needs to be created in the SFTP account's home directory. The "authorized_keys" file must be placed in the .ssh folder. The creation of this folder follows the same process as creating a PMP subfolder. Please refer to <u>PMP Subfolders</u> for steps on creating subfolders.
