Activities

During fiscal year 2025, 4 meetings were held by teleconference: September 5, 2024, October 9, 2024, November 13, 2024 and April 3, 2025.

The trust of the public and the protection of Alaskans is the primary mission of the board and that mission was represented as the focus of our meetings and ongoing regulatory projects. License applications were carefully reviewed throughout the year using OnBoard, Board Secure Board Portal Software. This platform with online voting allowed for expedient decisions when appropriate. Some applications required full board discussions which took place during our teleconferenced meetings. In addition the board reviewed continuing education health exemption requests.

The board proposed new draft regulations and regulation updates and planned future regulation projects.

An annual report prepared by Dr. Kathleen Rice was presented to the Alaska Optometric Association Annual CE Conference held May 1-4, 2025 by former Board Chair Dr. Damien Delzer. (No current board members were present.)

An annual report has been compiled and delivered to the Association of Regulatory Board of Optometry (ARBO).
