2. AO360 Regulatory Reduction Plan

Licensing Examiner Sheri Ryan presented an overview of the MID AO360 Reform Plan and Decisional Excel Document compiled from previous regulations projects (MID 02/27/2025 and MID 11-18-2025) and explained the affect this would have on regulations (increases/decreases). AO360 requires board to make 15% reduction for 2026 and cumulative reduction of 25% by 2027. The baseline number of requirements for MID is 1,158. 197 of these requirements are from the regulations, and 961 requirements are from documents adopted by reference in the regulations. The 25% target is against the 1,158 number. A minimum reduction of 290 is required.

Compiled results so far have an impact of -913 reductions in regulations and items adopted by reference for a total of -78.84% which greatly exceeds the mandate. See the AO360 - Midwives Regulations - DRAFT.pdf for recommended language included in public packet for January 7, 2026.

The board members chose to continue their endeavor of regulatory reductions by a thorough line by line evaluation of the regulations in search of obsolete, redundant, or items in need of update.

Regulation changes discussed to be added to AO360 Reform plan:
