

Annual Report

Fiscal Year 2020

ALASKA BOARD OF DENTAL EXAMINERS

**Department of Commerce, Community
and Economic Development**

**Division of Corporations, Business
and Professional Licensing**

This annual performance report is presented in accordance with
Alaska statute AS 08.01.070(10).

Its purpose is to report the accomplishments, activities, and the
past and present needs of the licensing program.

ALASKA BOARD OF DENTAL EXAMINERS
Fiscal Year 2020 Annual Report

Budget Recommendations for FY 2021

The Budget Recommendations section anticipates the board’s fiscal priorities for the upcoming year. Please complete all parts of this section with details about anticipated meetings, conferences, memberships, supplies, equipment, to other board requests. Meeting expenses that are being funded through third-party reimbursement or direct booking must be identified separately from expenses paid through license fees (receipt supported services or RSS). Be sure to explain any items listed as “other” so they may be tracked appropriately.

ALASKA BOARD OF DENTAL EXAMINERS
Fiscal Year 2020 Annual Report

Legislation Recommendations Proposed Legislation for FY 2021

No Recommendations

The Board has no recommendations for proposed legislation at this time.

Recommendations

The Board has the following recommendations for proposed legislation:

- 1) The Board of Dental Examiners has found it next to impossible to find a qualified Radiological Health Specialist I who is willing and able to carry out radiologic inspections as required under AS 08.36.075 even though all mention of requiring a Specialist I was removed from AS 08.36.075 in 2012. Therefore, the inspection process has come to a grinding halt for about 5-6 years because the previous inspector retired. Due to the frustration brought on by not having the statutory authority to change the inspector application form in order to attract a larger pool of inspectors, the Dental Board has asked to give the duty of inspecting dental x-ray tube heads back to the State. This was addressed with the introduction of Senate Bill No. 157 & House Bill No. 216. The Board would like to continue working towards that goal.
- 2) Dental Boards around the country have lost law suits brought by groups of dentists represented by special areas of dentistry wanting specialty status. The reason they have lost the suits is because their prespective states have not given them the authority to determine what qualifications should be required for specialty status. When the Board of Dental Examiners is mandated to help protect the public from false or misleading advertizing with regard to specialty training, we need that authority re-established. Therefore, the Board will be looking to introduce legislation that would bring back dental specialty licenses and qulification requirements with something similar to AS 08.36.244 and 08.36.246 which were both repealed in 2012 for unknown reasons.
- 3) Members of the military who have licenses to practice dentistry in another state, are stationed in Alaska and are current "residents" of Alaska are not allowed to get a courtesy license per AS 08.01.062. Therefore, they can not help with pro bono dental events in their communities where underserved civilians are treated. The Board of Dental Examiners is interested in changing that by allowing for military dentists who are licensed in another state and are current residents of Alaska to qualify for a courtesy license either by new statute in chapter 36 or a change to chapter 1 (AS 08.01.062) so that all applicable licensing boards can have a mechanism to allow for resident members of the military to help with charitable events. Senate Bill No. 157 & House Bill No. 216 introduced earlier this year adressed this issue but in a way the Board felt gave to much sweeping authority to the Division. We are willing to continue work on this with the State.

ALASKA BOARD OF DENTAL EXAMINERS
Fiscal Year 2020 Annual Report

Regulation Recommendations Proposed Legislation for FY 2021

No Recommendations

The Board has no recommendations for proposed regulations at this time.

Recommendations

The Board has the following recommendations for proposed regulations:

- 1) Possible further “clean up” regulations to clarify unintended issues or unforeseen consequences of the new sedation regulation sections that recently became active or other regulations that may need to be addressed due to the Covid-19 emergency.
- 2) Regulations will be needed to clarify and help regulate the prescribing practices of licensees with a DEA number once the Department and the PDMP activate their prescribing module or introduce further requirements into statute. Some regulations may be necessary to deal with “habitual” offenders who routinely prescribe opiates over and above their commended levels, fail to consult the data base or give verbal consultation or list alternative options for pain control. A regulation project has been introduced and is out for comment at this time.
- 3) Possible companion regulations for any specialty license section(s) added into the dental practice act.
- 4) If we determine that an issue where resident military members are unable to qualify for a courtesy license can be handled by regulation instead of by statute change, we will pursue that method instead.

ALASKA BOARD OF DENTAL EXAMINERS
Fiscal Year 2020 Annual Report

Goals and Objectives

Part I

FY 2020's goals and objectives, and how they were met:

- 1)** Be involved in the implementation of prescription the prescription drug monitoring program(PDMP). The Board has passed regulations that require signing up for the PDMP and hasdrafted a letter of support and contributed to the Joint Statement and has regulations giving a timeline to sign up for PDMP and maximum dossage limits are out for public comment.
- 2)** Evaluate clinical examination options available to dental and dental hygiene candidates.Board met with ADEX, SRТА, CRDTS and WREB. New regulations have been implimented toallow for ALL generally equivelant regional licensing exams to be accepted for intial licensureas of the 2019 exam season. Also, new regulations are out for comment that wil allow for initial licensure during the Covid-19 crisis.
- 3)** Hold licensees accountable to practice ownership statutes and the guidelines of the ADA code of Ethics regarding advertising. Working with department to find ways for the board tocommunicate concerns with licensee. Expolring bringing back the Specialty License. Beginningto explore Specialty Licenses now.
- 4)** Finalized sedation regulations. New regulations are complete and in effect. Implementing onsite inspections will be coming soon as a regulation project is waiting signature by the governors office.
- 5)** Continue communications with the Department of Law and work closely with the AttorneyGeneral's office to improve procedures for investigations, disciplinary actions, and licensing.The board works with the division at all meetings to work toward efficient investigations.Currently we are working on a spreadsheet to establish consistency amongst variousdisciplinary actions (A penalty matrix)
- 6)** Continue to pursue a better relationship with the legislative branch of the state governmentfor the purpose of improving communications on issues affecting the health of the public.Board actively reviews proposed legislations and communicates with the legislators involved.
- 7)** Inform dental professionals in our state of current issues before the board that impactpractice and public safety. Public comment is encouraged during the regulation process. Including multiple emergency Coid-19 meetings where public comment was taken.
- 8)** Continue to work with the State to address the Board's frustration with not having the statutory authority to change the radiologic inspector form to increase the applicant pool of inspectors. The Board continues to request this duty be turned back over to the State.
- 9)** Establish a processing fee to hold a contract between a dentist and a CRNA. We believe this still needs to be addressed.
- 10)** Establish a penalty/violation matrix for board members to reference. The matrix will helpboard members be more consistent making decisions on discipline/penalties. This goal is anongoing project.
- 11)** Utilize the Dental Exchange Continuing Education Tracker when performing audits of dentaland dental hygiene licensees at renewal. This goal seemed to have dropped off the radar asthe Board has undergone numerous changes in members and examiners.
- 12)** Utilize the NPDB Continuous Query to monitor adverse reports or action taken on a licenseein Alaska or other states. This has been implimented.

**ALASKA BOARD OF DENTAL EXAMINERS
Fiscal Year 2020 Annual Report**

Goals and Objectives

Part II

FY 2021's goals and objectives, and proposed methods to achieve them.

Describe any strengths, weaknesses, opportunities, threats and required resources:

Please refer to the Legislative and regulation goals.

The only threats the Dental Board seems to have would be a continuous turn over in the Licensing Examiner position making continuity challenging and member turnover prior to their term dates. The Dental Board may be getting to the point where an executive position may be in order.

Fiscal Year 2020 Annual Report

Sunset Audit Recommendations

Date of Last Legislative Audit: April 26, 2018
Board Sunset Date: June 30, 2027

| | |
|------------------------------|--|
| Audit Recommendation: | The board president should take steps to correct a regulation error regarding who is authorized to conduct inspections on dental radiological equipment. |
| Action Taken: | The board has discussed this at several board meetings, including special guests from DHSS for their input. |
| Next Steps: | The board along with the division and DHSS are working to propose legislation that would move the inspections back to DHSS, who are better equipped to manage these. |
| Date Completed: | Requires legislation to complete. |

| | |
|------------------------------|---|
| Audit Recommendation: | DCBPL’s chief investigator, in consultation with the board, implement controls to ensure the appropriate entities are notified when a licensee’s prescription authority is suspended or revoked. |
| Action Taken: | The board was informed by the Executive Director of the Pharmacy Board they are not required to notify the Board of Pharmacy of DEA revocations or suspensions. The PDMP program has a DEA Status Change Form DEA holders should use when there is a DEA status change. |
| Next Steps: | N/A |
| Date Completed: | FY 2020 |
