- A. Telehealth MAT for OUD without in-person visit - the board will consider an amendment to regulation 12 AAC 40.943(b) to align its language with new legislation signed by the Governor which allows the Commissioner of Health and Social Services to declare a public health emergency and to extend the ability for practitioners to prescribe buprenorphine for Opioid Use Disorder within a telehealth platform without the requirement of a licensed practitioner being physically present with the patient.
- B. Collaborative Agreement flexibility for itinerant Physician Assistants – this request is to allow Physician Assistants to temporarily suspend collaborative agreements with a supervising physician while working outside of the designated practice community or region of the supervising physician.
- C. Pharmacist Cooperative Agreements – this request will strike language from regulation to require the Board of Pharmacy to require approval of Physician-Pharmacy Cooperative Agreements.
