An Advisory Opinion adopted by the Alaska Board of Nursing (AKBON) is an interpretation of Alaska law. While an advisory opinion is not law, it is the AKBON's official opinion on whether certain nursing procedures, policies, and other practices comply with the standards of nursing practice in Alaska. Facility policies may restrict practice further in their setting and/or require additional expectations related to competency, validation, training and supervision to assure the safety of their patient population and/or decrease risk. National evidence based standard references are included.
