This is to inform you of an Alaska Prescription Drug Monitoring Program change that will be taking place on Thursday, January 21, 2016.

The Alaska Prescription Drug Monitoring Program will be using a new vendor to provide prescription monitoring services for Alaska. We have chosen to use the [PMP AWAxRxE](#) prescription monitoring program software, maintained by Appriss. **There is no action to take TODAY**, however, registration to submit data to the new program will be available beginning Monday, January 11, 2016. If you are currently registered with Appriss as a Data Submitter for another state, you WILL NOT need to re-register.

*****You will receive additional information on 1/11/16 with instructions on how to register and/or request approval to submit data to Alaska's new PDMP.*****

You must begin reporting to the new system as of Thursday, January 21, 2016. The last day you will be able to send data to the RxSentry system is Wednesday, January 20, 2016.

Thank you for your assistance in making this a smooth transition and making the Alaska PDMP program successful.

Best Regards,

Brian Howes
