General Information

APPLICATION PROCESSING

The average time to process a paper application varies by program, but can take several weeks from the date it is received in this office, complete with all correct forms, supporting documents and appropriate fees paid. If the application is incomplete, the applicant will be notified of the incomplete and/or incorrect documents and fees. When the application is complete and correct, and all supporting documents have been received and all fees have been paid the license will be issued and sent to you. Start the process far enough in advance to allow for processing time. Applications are reviewed in order of receipt in our office, and walk-in customers should not expect immediate review.

“YES” RESPONSES

A “Yes” response in the application does not mean your application will be denied. If you have responded “Yes” to any professional fitness questions in the application, be sure to submit a signed and dated explanation, and the charging document and judgement.

DENIAL OF APPLICATION

Please be aware that the denial of an application of licensure may be reported to any person, professional licensing board, federal, state, or local governmental agency, or other entity making a relevant inquiry or as may be required by law.

An abandoned application is denied without prejudice. At the time of abandonment, the division will send notification to the last known address of the applicant, who has 30 days to submit a written request for a refund of biennial license and other fees paid. The application fee will not be refunded. If no request for refund is received within that timeframe, no refund will be issued, and all fees will be forfeited.

CPE Monitor

CPE Monitor & You

Have you setup your NABP e-Profile for the CPE Monitor™ service to ensure your ACPE-accredited CPE units are properly tracked for licensure? Visit MyCPEmonitor.net and create a profile.

What is CPE Monitor?

A national collaborative effort between the National Association of Boards of Pharmacy® (NABP®), the Accreditation Council for Pharmacy Education (ACPE), and accredited CPE providers, the CPE Monitor service will allow you to easily track your ACPE-accredited continuing pharmacy education (CPE) units electronically.

Many ACPE-accredited CPE providers are now requiring pharmacists and technicians to submit their NABP e-Profile ID, plus their birth date (mmd), to receive credit for completed CPE. Participation data will be sent electronically from the provider to ACPE, then to NABP for recording into the matching e-Profile. See CPE Monitor FAQs on the reverse side of this flyer for additional information.

What are the benefits of CPE Monitor?

- Streamlines the reporting and compliance verification process.
- In 2013, the service will make available the CPE data to boards of pharmacy who request information on licensee CPE as part of their compliance activities.
- Eliminates paper forms and the need to submit paper copies of CPE statements of credit for ACPE-accredited activities in most jurisdictions.
- NABP e-Profile will store a comprehensive list of your CPE activities completed and will allow you to verify compliance with CPE requirements. To accomplish this, each e-Profile must contain complete and accurate information. Any errors in the e-Profile may result in unrecorded or mis-recorded CPE, with possible adverse consequences for licensees when renewing their licenses. Using the SSN as the unique national identifier for each individual will help NABP to ensure the required level of accuracy for your e-Profile.
- All information is maintained in a highly secure environment.

Please note: Initially, CPE Monitor will not track CPE from non-ACPE-accredited providers. Until this feature is added in Phase 2, non-ACPE-accredited CPE will need to be submitted directly to the board of pharmacy.

CPE Monitor FAQs

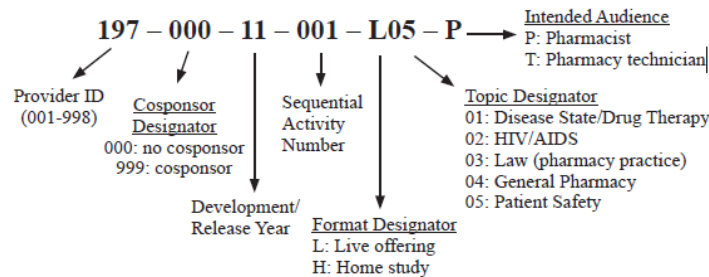

Launched in early 2011, CPE Monitor is a national online continuing pharmacy education (CPE) tracking service that will authenticate and store data for completed CPE units received by pharmacists and pharmacy technicians from ACPE-accredited providers. The service is beginning to store CPE data and is expected to be fully operational by early 2012. All ACPE-accredited CPE providers are anticipated to have transitioned their systems to CPE Monitor by the end of 2012.

Frequently Asked Questions

Q: What information will be contained in a continuing pharmacy education record in CPE Monitor?

A: Similar to statements of credit, information for a given CPE activity will include:

- Name of the learner
- Date of completion
- CPE activity title
- CPE activity type [ie, Knowledge (K), Application (A), or Practice (P)]
- Contact hours or CEUs awarded
- Universal Activity Number (UAN), which contains the following components:

Q: How will pharmacist and pharmacy technician CPE credit be differentiated in CPE Monitor?

A: For CPE activities developed and offered to meet the educational needs of pharmacists, the designation “P” will be used in the UAN (eg, 197-000-11-001-H01-P).

For CPE activities developed and offered to meet the educational needs of pharmacy technicians, the designation “T” will be used in the UAN (eg, 197-000-11-001-H01-T).

Note: If a pharmacy technician participates in a CPE activity designated for pharmacists, the technician’s CPE record will display the “P” designation. It will be for the individual boards of pharmacy to determine if pharmacist-designated CPE activities meet the CPE requirements for pharmacy technicians.

NABP (National Association of Boards of Pharmacy) is an impartial professional organization that supports the state boards of pharmacy in creating uniform regulations to protect public health.

ACPE (Accreditation Council for Pharmacy Education) is the national agency for the accreditation of professional degree programs in pharmacy and providers of continuing pharmacy education with the mission to assure and advance excellence in education for the profession of pharmacy.
