

MEMORANDUM

TO: Robert Klein, Chair, and
Members of the ABC Board

DATE: September 13, 2017

FROM: Erika McConnell
Director, ABC Board

RE: Request for Informal Conference with
ABC Board by The Porterhouse Grill
#5569 Restaurant or Eating Place –
Public Convenience

At the July 11, 2017, board meeting, the applicant appealed the director's decision that his restaurant or eating place – public convenience license application was incomplete. The board voted 2-1 on a motion to deem the application complete and approve the license. The motion failed pursuant to AS 04.06.060. The applicant has requested an informal conference with the board.

Timeline of Application

- Sometime last summer or fall, Mr. Steve Drolet moved his restaurant, The Porterhouse Grill, from Sterling to Soldotna. He could not transfer his REPL (#5417) to Soldotna, due to population limits.
- Mr. Drolet applied for a restaurant or eating place – public convenience license under 3 AAC 304.115 and .335.
- Based on calculations by the Director of Economic Development and Planning at the City of Soldotna, the required number of valid signatures for the petition required by 3 AAC 304.335 is 702.
- The applicant began collecting signatures for the petition in December of 2016.
- The application was first submitted on March 28, 2017. It was returned on March 30 as significantly incomplete. A second application was submitted on April 10; an incomplete letter was sent on April 20 (email failure) and April 27 and corrections to the application were still being made in mid-June.
- On May 22, 2017, an email was sent from the AMCO licensing examiner to the applicant stating that 626 signatures were received and only 78 more signatures were needed to reach 702. The latest signature collected is dated April 30. No signatures were submitted after May 22.
- On June 5, the applicant was informed that he had until June 9 to provide all documents needed for a complete application or else the application would be returned.
- A closer look (in mid-June) at the signatures provided to date revealed that a large percentage of the signers did not live within a mile of the proposed licensed premises.
- Mr. Drolet and I met on June 19 and reviewed the situation.

- Ultimately 702 signatures of residents within one mile of the proposed licensed premises, collected within a 90 day window, were not submitted.
- Mr. Drolet appealed my decision of an incomplete application pursuant to AS 04.11.560.
- As noted above, the board denied the license on July 11.

After the July meeting:

- Mr. Drolet contacted the Governor's Office who made inquiries to me about the situation.
- A thorough search of all correspondence between AMCO and the applicant found that the licensing examiner threw away some petition pages that were outside the 90 day window, so the board was not made aware of the total number of signatures turned in to the office.
- The missing signature pages were discovered attached to an email sent to Mr. Drolet in late April.
- Ultimately 975 signatures were collected over a **149** day period (December 2, 2016, to April 30, 2017).
- Of those 975 signatures, **138** have a listed address within one mile of the proposed licensed premises, as required by 3 AAC 304.335.
- I discovered that in April, Mr. Drolet resubmitted five petition pages in which he falsified the dates of pages submitted in March, presumably in order to keep within the 90 day window.
- The Governor's Office advised Mr. Drolet to contact the City of Soldotna to discuss the required number of signatures, to start the signature collection process over from the beginning, and to validate all signatures before sending them to AMCO.
- On August 30, Mr. Drolet submitted 27 new petition pages. If each page contains 20 signatures (the max per page), the total number submitted would be 540.
- I have informed Mr. Drolet that at such time as he submits the required number of signatures (still 702 to my knowledge), AMCO will begin a review to see whether the signatures are valid (3 AAC 304.115).

Recommendation: Do not reconsider the board's July decision to deny the license.

Attachment: Five duplicate pages with falsified dates
