The Raven Bar
Patio Security Plan

The patio is located to the east of the physical structure. The west perimeter of the patio is bounded by the exterior of the physical structure, which is a cinder block wall approximately 25 feet high. The south, west, and north perimeter of the patio is a solid wood fence approximately 7.5 feet high and touches the ground. Above the wooden fence is approx. 1.5 feet vertically above the fence barbed wire or constantine wire. The patio has two wooden gates, one on the north perimeter and one on the south perimeter. These gates are physical locked at all times by padlock and only opened for maintenance reasons and are fully attended by staff at that time. Access to the patio is via the east-building door, which requires entry through the interior of the bar. This door is locked when the business is closed an unoccupied. This door is within visual site path of the bartender on duty. Staff regularly checks the patio while the establishment is open. At no time does anyone have access to the patio unless entering through the bar interior.
