Re: New Winery License#5744

The exterior of the facility will comprise of a 1777 SF beer garden that is secured by a rock wall with steel and wood gate that allows entrance into the outdoor seating area as well as the main entrance of the tasting room. This area will be gated shut outside of normal operating hours of the tasting room. Employee entrance will be located on the South wall of the facility into the main production facility. This door will have an electronic lock system that will prevent anyone not employed at the facility from entering.

The Main entrance into the tasting room will be unlocked during normal business hours and during operating hours the beer garden entrance and main tasting room entrance will be constantly monitored by greeter/security staff. Managers will also always be on premise to make sure that no unaccompanied minors do not gain access to the premises and no off-premise Alcohol is brought onto the premises.

On certain summer days the upper west facing deck may be open. The main way to access this deck would be through the tasting room to a set of stairs leading to a catwalk that would be above the production facility leading to an outdoor covered deck. The deck has an emergency exit only door stair way that is alarmed leading down a west facing staircase to ground level. The only entrance to this 2nd level deck will be through the main tasting room so when the main tasting room is closed there is no access to the 2nd level deck.

All employees and staff will be trained and utilize TAP professional trade practices to make sure that all Alaskan Statutes are complied with and that the licensed premise is secure from any illegal access.
