Subject: PLEASE FORWARD TO ALL ABC BOARD MEMBERS - Seward Alehouse #324

ABC Board Members:

My name is Liz DeMoss. My husband Solomon DeMoss and I own The Seward Alehouse in Seward. Our license is up for renewal today at your board meeting.

As you can see we have a Notice of Violation attached to our renewal application this year.

My husband Solomon DeMoss and I have been working in the bar industry in Alaska for over 20 years each. We both have managed high volume bars and restaurants with a history of ZERO violations. We have owned and operated The Seward Alehouse for 13 years now. We bought it as DJ's Wheelhouse 13 years ago, remodeled and opened it up as a new bar in town with a new way of serving. We were empty for the first year of being open because we refused to serve the way that people in Seward were used to getting served. We were the first bar in town to go non-smoking before it was regulated. We set standards for our bar and our employees that people weren't used to. We are now known for being the bar that is the tightest run and we wouldn't have it any other way. We care deeply about serving responsibly and protecting our customers and our industry.

In the last year we have taken additional steps to improve responsible serving. We have our entire staff trained in the SAFE BARS program. We have added additional signage in the bar stating that you will be asked to leave if you appear to be intoxicated. We have had countless meetings with our staff and they are as disheartened by this as well. They are all on board for even stricter serving procedures from this point forward.

Thank you for your time and consideration. Please feel free to reach out to us if you have any questions.

Sincerely,

Liz and Sol DeMoss  
Seward Alehouse, Owners  
907-491-5035

**Subject:** Re: Concerns about the Creekbend  
**Date:** Wednesday, April 1, 2020 7:39:57 PM

---

AMCO Staff and Board Members,

I listened to your meeting today because of interest in the Creekbend permit(s). First, thank you for all the work (paid employment and volunteer services) that you do for Alaska.

Listening to the call made me realize the dedication you all have to the process.

Second, I was personally offended by the comments made by the legal representative of the Creekbend. She implied that the only reason Board members received lots of emails is because there was push for community members to send them. The reason there was a push, is because there are so many people upset by the way the business is being run and its impact on the community. Comments made were based on observations and experiences, not talking points from an email. Residents have observed drunk driving, underage drinking, people defecating, excessively loud concerts late into the night, and other problems. Residents have also tried to negotiate with the owner and found him to be dishonest and deceitful. This is not just concerns of a handful of families as implied by the attorney.

There are probably some residents and guests that support Creekbend. The business has potential to be an asset to the community, but not the way it is currently being operated.

I appreciate the Board tabling Creekbend's application to gather more information and investigate the situation. Continue to listen to the concerns voiced, please!

Again, thank you!

Regards,

Heather Ireland  
Property owner in downtown Hope

My husband and I listened to the meeting regarding Creek Bend's application for the extended premises permitting. Both my husband and I would like to thank you for listening to the residents of Hope and hopefully Creek Bend will move forward with a different plan, maybe start working with Hope residents. We know this is not resolved as of yet, but this is progress to ensure the small community of Hope has a voice.

Thank you,  
Jim and Pam Skogstad

AMCO Staff and Board Members,

I phoned into the AMCO meeting and listened the past two days, specifically honing in on the Creekbend permit(s).

I just wanted to say thank you 1) for your work, 2) for tabling the Creekbend discussion until more information is gathered and investigated, and 3) for listening to myself and the several dozen Hope residents that are very much opposed and concerned about the nuisance the Creekbend Cafe events/parties/behavior have brought to our town.

Again, thank you.

**Subject:** Fee Cancellation  
**Date:** Wednesday, April 15, 2020 1:01:54 PM

---

To AMCO Board of Directors,

The Governor has waved many fees and regulations to a variety of business sectors in Alaska. However, to date no concessions have been given to the hospitality industry. On April 18 at 5pm, when all restaurants & bars where forced to close for business, 20,800 people lost their jobs. That's over 40% of all Alaskan that are now unemployed. Even once all restaurants & bars are open it could be weeks or months before business returns to normal. With summer tourism basically being cancelled these establishments need real monetary help to stay open and keep employees beyond the eight weeks of the PPP program.

Please consider waving all liquor licence renewal fees for 2020 & 2021.

Best Regards,  
Grant Gratrix

**Subject:** Agenda Item for April 22 meeting  
**Date:** Friday, April 17, 2020 10:27:12 AM

---

Dear Sir/Madam,

I am asking that this item be considered for the agenda for the upcoming April 22, 2020 meeting.

In the midst of COVID-19, many emergency regulations are being considered and implemented for the health and safety of patrons and employees, I would like to ask that either:

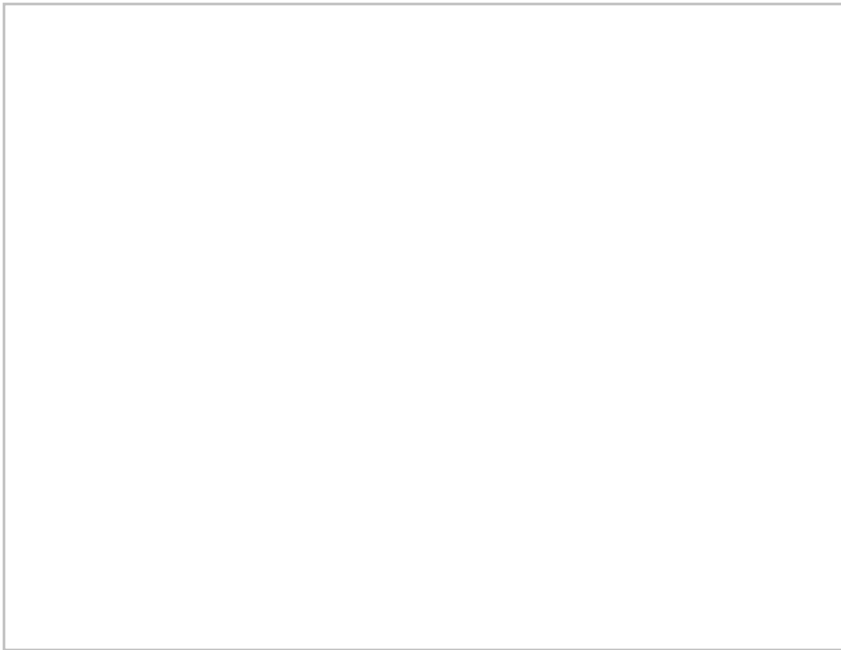

**AMCO Form AB-14: Licensed Premises Diagram Change to be suspended** for Restaurant or Bars who can safely expand to outdoor seating **or an Addendum be added** (if possible) to the suspended statutes in Title 4 to include:

- Allow establishments to expand seating area to the outdoors (where space is adequate) for the health and safety of patrons and employees.
- Allow establishments to apply for an emergency application (in alignment with current email emergency application for curbside/home delivery) to expand seating and forgo completing Form AB-14 for board review for summer 2020.
- Example - My bar is located on an 11 acre lodge property outside city limits in the Matanuska-Susitna borough. I have grassy areas all around the property that provide social distancing where I keep picnic tables/umbrellas for patrons to eat. I would like to serve drinks outdoors to protect the health and safety of those patrons and employees serving them. Behind the bar location is a campground where people can park RV or tent camp, again - another option for people to have food/drinks outside the designated bar area.

**If** the recent suspension of statutes in Title 4 (AS 04.11.090, AS 04.11.100, AS 04.11.130(b)(1), AS 04.11.135(a)(3), AS 04.11.135(d)(3)(C)&(e), AS 04.11.140(b)(1)(A), AS 04.11.150, 04.11.170) Curbside/Home Delivery options encompasses this idea, please confirm it would be okay for me to expand delivery to outdoor seating under the above mentioned statutes in Title 4 vs. delivering to a car and the people in the car getting out and eating under picnic table.

Your consideration or clarification is appreciated.

*Cheers!*  
*Colleen*

Feedback Category: Health and Social Services COVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To Go  
Specific Topic: to-go and curbside alcohol sales  
Position: Positive

Dear Governor Dunleavy,

My name is Jeremy Holan I am a lifelong Alaskan that currently resides in North Pole. I am a Business Representative for Teamsters Local 959 and represent many employees in the beer, liquor and wine industry.

7

I am emailing you today to show support on the following items:

1. Alaska should relax its alcohol laws and allow restaurants to sell to-go beer and wine that is factory sealed for pick-up and delivery. This will help many struggling restaurants to keep employees working and will also help people from making that extra stop at the store on their way home from picking up dinner.
2. Alaska should also allow for curbside pickup of products from liquor stores and other manufactures, such as breweries.

I am asking you to also support these two items because it may help keep many Alaskans employed during this time of uncertainty. It will keep Alaskans working in the restaurants, grocery stores, warehouses, in the trucks, and at the breweries. Both these items will also help make things a little bit easier for people and help them make the right decision when it comes to social distancing and following the safe methods our elected officials are recommending and mandating.

Thank you for your consideration on this matter,

Jeremy Holan

Feedback Category: CommerceCOVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To Go

Specific Topic: Sale of Wine/Beer/Spirits off premise

Position: Positive

I would like to encourage you to please honor the recent decision by the Alcohol Control Board, to allow delivery and/or take-out of wine/beer or spirits. It is a measure that has been tried in other states, prior to Covid crisis and seems to work very well.

It is much appreciated, the concern of you and your administration for the difficulties the industry is having at this time, but even after this is 'over' there will still be the added burden of getting through the impact oil prices will have on the economy as a whole.

Inventive strategy is needed statewide to keep us all rolling. Thank you.

Feedback Category: Health and Social Services COVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To Go  
Specific Topic: Suggestion: Improving seating in bars with outdoor space surrounding as travel bans lift  
Position: Positive

Hi Mike,  
I hope this finds you and your family healthy & doing well in the midst of this COVID-19 disaster. It was a pleasure to meet you at Tom Anderson's home a few years back. Thank you for taking care of us during this crisis and reporting daily via FB.

As an owner (and nurse) of an off-grid lodge/bar/gas station, I have many concerns. I will keep this email down to one concern. I have a suggestion, but would need to have support of AMCO with less red tape involved with the current process to change square footage of serving areas.

I am hopeful as the travel ban is lifted within the State and into the State, our guests will return. Right now, I only have cancellations and refunds going out the door.

With the concern of personal space at bars (or lack of). Could you ask/intervene with AMCO officials to create an easy way for those of us who are surrounded by acres of land at our lodges/bar to be allowed to serve alcohol at tables outdoors during the summer season, thus increasing our serving area?

My lodge is on the Denali Highway. Nearest town is Cantwell 52 miles to the west and Paxson 82 miles to the east. There is nothing between but a few other lodges. I'd feel safer for myself and my staff (and I'd think guests/tourists would too) to have customers/guests sitting at tables with their food and drinks in the vicinity of the bar/lodge area vs. elbow to elbow at the bar. I have nice picnic tables with umbrellas that each family could sit at or small groups of friends.

This would help many bars appear safer in keeping social distancing as we move forward with COVID-19 after-effects.

Thank you for your consideration and interaction if possible.  
Warm regards,  
Colleen Kelley, RN, PhD

Feedback Category: CommerceCOVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To Go

Specific Topic: Alcohol served curbside

Position: Negative

With the amount of domestic violence in Alaska it would be unconscionable to serve liquor curbside. In addition, delivery to a home is an incredibly bad idea. I understand the need to earn a living, however, you can't tell me that liquor stores will ever go out of business. Please do not consider this.

Specific Topic: Alcohol sales

Position: Positive

Hi Governor Dunleavy,

Thank you for the service and leadership to Alaskans during the COVID-19 crisis. I'm writing in support of allowing alcohol curbside pickups during this crisis. A friend who owns a wine store mentioned that customers are required to come inside to purchase wine, and curbside pickups are not allowed. During this time, requiring people to go inside to buy their wine/alcohol is a safety concern. Allowing curbside pickups would alleviate this concern, and potentially slow the spread of COVID-19.

Sincerely, Daniel Crumpacker

Feedback Category: CommerceCOVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To Go  
Specific Topic: Temporary Home Delivery of Alcoholic Beverages during Covid-19  
Position: Positive

Dear Governor Dunleavy,

My name is Carey Fristoe. I am an owner of Black Spruce Brewing Company, a brewery in Fairbanks, Alaska. As you know, Fairbanks is a hot spot of covid-19 activity. I have two goals during this pandemic: to minimize the amount of exposure the community has to help flatten the curve and to ensure that my business, and the businesses of my peers, are in stable positions once we, as a community, are through this crisis. From my perspective, the fewer people out and about the lower the chances of spreading the virus further. It is with these two goals in mind, minimizing the spread of the virus, and preserving my small, family run business and the businesses of my peers, I suggest that the Governor temporarily allow for the home delivery of alcoholic beverages. This is not a new or novel idea. Title 4 Statutes already include provisions for delivery of alcoholic beverages by package stores (sec. 04.11.150). Numerous States have enacted emergency orders to help support the service industry during these difficult times and encourage people to stay home. A draft regulation has been written up to make the change to temporarily allow home delivery of alcoholic beverages to occur during the Covid-19 pandemic and save small businesses.

I implore the Governor to help small businesses succeed during these trying times. Allow the home delivery of alcoholic beverages. Allow people to shelter-in-place and minimize the spread of Covid-19. Allow my small business, and everyone's small business, to have a fighting chance of making it through this crisis. The safety of our community and the financial well-being of our industry relies on the quick adaptation of the Government to make a sensible change such as this.

I greatly appreciate your urgency in making this temporary change to help flatten the curve and help small businesses remain in business during these times.

Cheers,  
Carey Fristoe  
Black Spruce Brewing Company

Specific Topic: Curbside Pick-Up and Delivery of Alcohol  
Position: Positive

Hello Governor Dunleavy,

Thank you for all the work you have done during the recent COVID crisis. It is great to see Alaskans coming together under your leadership.

While we have all recently faced struggles, this hospitality industry was hit hard and fast. We are asking that you temporarily allow curbside pick-up and home delivery of sealed alcoholic beverages for restaurants, bars, and manufacturers until the COVID health mandates have lifted.

Girdwood Brewing Company relies on sales from on-premise consumption. Without people coming into our taproom, our sales have taken a significant dive, and we've have to lay off a number of employees. Pivoting to to-go sales only has been extremely challenging. While we are still open, numerous restaurants and bars in our community have closed their doors. These are our neighbors and friends. Curbside pick-up and delivery would be an innovative way of increasing sales and putting people back to work.

Additionally, this would be good for the health our communities by eliminating touch points and promoting social distancing. All transactions would be done responsibly by a trained a server.

Thanks for your consideration,

Josh Hegna  
Co-Founder  
Girdwood Brewing Company

Specific Topic:  
Position: Positive

Good evening,

I am one of the owners of Black Spruce Brewing Company in Fairbanks. I am writing to encourage you to adopt emergency measures that would allow breweries, distilleries, wineries/cideries, liquor stores and restaurants to offer curbside pick-up and home delivery of beer, wine, cider and spirits. Alaska's manufacturers, restaurants and retailers are in desperate need of cash-flow, and we are all doing our best to create and maintain safe and sanitary stores for customers to visit when they purchase to-go items from our businesses. By offering curbside pick-up, customers would be relieved from having to enter an establishment and risk inadvertent exposure to the Coronavirus. Home delivery would make obtaining our products even safer by allowing customers to remain in the comfort of their own homes. In both cases, TAPS card-holding staff would be able to ensure that alcohol is not being sold to or received by persons that are not able to legally purchase or obtain alcohol. As of last week, all but six states in the US, Alaska included, were allowing and do allow the measures that I have proposed (statistics obtained from Alaska CHARR). I hope that your office will act swiftly to allow businesses in the service and hospitality to offer curb-side pick-up and home delivery so that we may have an additional avenue to bring in revenue and provide employment for community members.

Thank you for your consideration and support,

Stephanie Haskins  
Owner/Head of Hospitality & Sales  
Black Spruce Brewing Company

Feedback Category: CommerceCOVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To Go

Specific Topic: Curbside at Package Stores

Position: Positive

To whom it may concern,

My wife and I own a package store that specializes in wine in south Anchorage. We are requesting that the approved AMCO guidelines regarding curbside pick up of alcohol at package stores be passed with an emergency order. This will help enforce more social distancing as well as offer more protection for our clients as well as our family and our employees.

As a life long Alaskans and having been in business for over 12 years now, my wife and I love and support our community. We also think the to go wine and beer for restaurants and bars will go a long way in keeping more of our community employed and more locally owned and operated companies a float during these hard times.

We understand these special rules would only be during this crisis and can easily be retracted after but do think these simple requests would add a lot to community safety and commerce.

Be well, be safe and thank you for your time,  
Ryan & Desiree Hittle - Owners WineStyles

Sell Alcohol To Go  
Specific Topic: Corona Virus Relief Allowing restaurants to sell alcoholic beverages  
Position: Positive

Dear Governor Dunleavy,

I am the owner of La Mex restaurant in Anchorage. We are struggling to the point of closing our doors and desperately need something to help keep us open. I am trying to keep a few of my employees employed but the cost to stay open is far more than it would be to just simply close our doors.

Recently, The AMCO Board sent you a request to allow restaurants to temporarily sell alcoholic beverages "to go". I urge you to please sign this waiver and allow us to try to keep our doors open. Yesterday, Thursday April 9th, I came within hours of shutting down. I decided to write this letter instead, and see if there was a chance you would see this letter and approve the waiver. We have been in business for over 50 years now and have never seen the challenges we are facing today... right now.. at this very moment.

Please give us a little relief and hope, that we possibly may survive this terrible pandemic.

thank you

Feedback Category: CommerceCOVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To Go  
Specific Topic: Brewery Curbside and Delivery Options During COVID-19  
Position: Positive

Hello -

I am an owner of Onsite Brewing Company in Anchorage. We are one of the newest and smallest breweries in the state. We had been officially open for barely 6 weeks when we were forced to close our taproom sales due to the COVID pandemic. Our business model was specifically focused on taproom sales, so this was extremely crushing, especially with how new our business was.

Since then, we have adapted as much as possible to focus on to-go sales but each week, as the public concern and reaction to Covid increases, we have seen noticeable drops in customers. In 8 hours last weekend, we have less than 10 people come into the brewery. Breweries in the lower 48 have been able to do curbside and deliveries, which has provided more sales for their businesses, compared to only sales in their breweries.

I ask that you approved curbside and delivery sales for alcohol manufacturers during this unprecedented event. It will allow these businesses more of a chance to survive this economically crushing time.

Thank you for your time.

Cheers,  
Amber Jackson  
Co-Owner, Onsite Brewing Co.

Feedback Category: CommerceCOVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To Go  
Specific Topic: To-go alcohol sales/curbside pick-up during COVID  
Position: Positive

Mr. Dunleavy;

Our local restaurants and bars are suffering severe financial impacts due to the restrictions on dine-in mandated by the State's COVID health mandates. While I understand and agree with these mandates, it would be a very helpful financial boost to these establishments if they could offer to-go sales and curbside pickup of alcohol for the duration of the dine-in ban. I would happily give these establishments more money when ordering take-out food orders if I could get alcohol included in my order. This would also allow me to skip trips into retail establishments such as grocery stores and/or liquor stores where it is difficult to maintain 6 feet social distancing, as I could have alcohol delivered with my food delivery, making it easier to follow the social distancing mandate. As 14% of establishments surveyed by CHARR have already stated they plan to close permanently as a result of the loss of business related to the COVID mandates, I think this is a reasonable step to take to allow Alaska's residents to support our remaining local bars and restaurants. Thank you for your consideration.

Specific Topic: Breweries & Brewpubs

Position: Positive

Governor Dunleavy.

First let me say thank you for all you are doing for our state and especially at this time of COVID-19 which is devastating many different industries. I wish you the best of luck and hope for our state you are successful.

Second item is an urgent request:

I built the original Snow Goose Restaurant and Brewpub in Anchorage over twenty years ago and about 3 years ago I sold it to two young guys that have continued it as the 49th State Restaurant and Pub in downtown Anchorage along with their other operations up in Denali National Park and in Healy. Last year they employed over 700 people. We just built a brand new production brewery on railroad land on 1st Avenue in Anchorage and started spin up operations in December (not the best timing due to COVID-19). The 49th restaurant had to lay off 146 people two weeks ago due to closing sit down restaurants. They were however able to quickly switch to take out and delivery (although this is 1/6 the business) and keep some of their staff. As a brewpub, they were able to sell meals and their packaged beer for delivery with the contingent "curbside" approval of the ABC BOD. This was working well with all the added precautions of checking ID's both on the order and also on the delivery (it had to be the same person). Now, however, we just received this letter from the ABC that states No More Delivery. This will cut their business by over half and will lead to more people being laid off. I do not see the rational behind this. Can you please explain where the major problem is? The mayor and I assume you would like to see people staying home to restrict this spread and yet you are saying if you want to have a pizza and a craft beer you must get in your car and go get it yourself instead of our delivery people making 10-15 stops with one car. Most states that have wine making like California and others allow home delivery to encourage their industries. I can get beer and wine delivered through the internet using UPS or FedEx. Why can't breweries in this state be able to do the same thing?

As one of the earliest developers of the craft industry in our state, I can honestly say, our industry has done more than any other industry except oil to develop new or revamp old structures and hire more people (by now in the thousands) and paid more taxes than any other industry in the last 24 years. If you do nothing to help keep these breweries and brewpubs stay open during this crisis most of them will not make it through and once again we will fall behind in diversification of our economy and will continue be more dependent on oil. I am able and willing to discuss this situation at any time.

Thank you for your time.

Sincerely;  
Gary J Klopfer

Feedback Category: CommerceCOVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To Go

Specific Topic: Alcohol to go orders

Position: Positive

I think they should pass the law that allows alcohol to go and have delivery, and curbside ordering. I know when i use to go out to a restaurant before this pandemic,I would have a few beers and possible a cocktail. I then would order appetizers and other food. I think in having to go orders, it will enable business to make more money, since there is a high profit margin on alcohol. It will lead to added food sales. It will keep people at home during this pandemic and the delivery aspect would keep people from drinking and driving . I usually don't write on these subjects, but I am 100 percent for the restrictions to be lifted during this hard time, so these restaurants can have added revenue and stay afloat . I would love to be able to get my favorite beer on tap at any brewery, poured in a growler , or mixed drinks delivered to me via door dash or curbside. The delivery would keep me quarantined at home, and allows me to enjoy my favorite beer safely . I really thank you for your time,I hope you let someone important read this,this is coming from someone who is not Highly political, and someone who loves Alaska,supports the Alaska economy and local businesses,band wishes to see the restaurant industry strive during this pandemic. Thank you .

Specific Topic: Please allow restaurants to sell alcohol to-go  
Position: Positive

Hello Governor Dunleavy,

I would like to respectfully ask you to approve AMCO's proposal to allow restaurants to sell alcohol to-go and to allow for alcohol delivery. Nearly every other state in our nation has adopted temporary lifting of alcohol restrictions during this unprecedented time. This change would serve both the public interest as well as small businesses who are struggling to remain open and keep their employees on payroll. Restaurants make a huge investment when purchasing a liquor license, and must operate responsibly to maintain that license. All restaurants serving beer, wine and/or liquor are currently sitting on an inventory that they cannot legally sell to help themselves stay afloat. Beer in particular is in danger of going out of code by the time restaurants can conceivably re-open, so by allowing restaurants to sell now, it will help keep them from having to throw away inventory. Lastly, currently an individual looking to buy wine, beer or spirits is obligated to go to a brick and mortar store, putting themselves and others at risk. I implore you to support local restaurants and to encourage social distancing by passing this proposal. Thank you.

Feedback Category: CommerceCOVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To  
Go  
Specific Topic: Delivery of products  
Position: Positive

Please allow liquor stores, distilleries, etc. to deliver their products to consumers via home delivery during this pandemic in order to help keep their businesses from closing forever.

Specific Topic: Home alcohol deliveries and to-go orders  
Position: Positive

I understand the legislative bill is with the Governor for decision this week (week of Apr 13). I definitely support. Thanks for your consideration.

[Also: I enjoy the daily COVID briefings - great job to Dunleavy; Crum and especially Dr Zink].

Feedback Category: CommerceCOVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To Go

Specific Topic:

Position: Positive

Please allow for roadside pick up of premade drinks specifically and alcohol in general from local distilleries and breweries. Also allowing a delivery service would help during this stay at home time

Feedback Category: CommerceCOVID-19 - Allow Restaurants, Lodges, Bars to Sell Alcohol To Go

Specific Topic: Allow curbside pickup and delivery of alcohol until this is over

Position: Positive

In order to more safely practice social distancing we need an emergency order allowing home delivery of alcohol. We also need the ability to do curbside pickup of alcohol and alcoholic beverages. This is no different than food or prepared fast food. Let's keep people out of the stores. Thanks for your consideration. You are doing a great job in difficult times. I have been home for 3 weeks.

---

Mr. Ross,

I understand your request and there are two options that I am currently aware of. The ABC Board and the AMCO office do not have the power to change any of the current Governor's Mandates, which currently are very specific when it comes to bar (BDLs) not being open. That being said, the Governor may do a couple of things. He may choose to suspend the Alaska Law (statutes) using a DHSS Health Mandate as he did for other establishments and THEN the ABC board can modify regulations to fit the mandate (The board or my office do NOT have the power to change Alaska statutes, only regulations). Or, and there are rumors, the Governor may be considering lifting the current moratorium on bars in the very near future.

Either option will likely allow you to move forward with being open and serving your clientele. The Alcohol Beverage Control Board simply does not have the ability to grant your request.

Regards,

*Glen Klinkhart*

**Subject:** From Jeff Ross- Floaters #3895

Hello. I've been in contact with Todd Smolden with Governor Dunleavy's office in Wasilla. He suggested I contact you both directly.

I own Floater's, Big Lake's only "bar." One of the few in the Valley that is only a "bar," but my venue sits on a 1.25 acre lot with a 6000 sq. ft., ABC approved, outdoor beer garden.

I have requested that Floater's be allowed to re-open OUTDOORS ONLY, with service through the "beer garden service window" following all other State and ABC mandates.

At this time, I am told by the ABC that the DHSS needs to give the ABC the mandate to consider this request and the DHSS says the mandate needs to come from the ABC.

All I am asking is for the consideration to be allowed to open outdoors, in a previously ABC

approved beer garden, following all existing State mandates.

I included an as-built of my property, a map of the new service area and a brief description of service procedures.

I know you are busy, but could you please help me with this issue?

Thank you,

Jeff Ross

---

Amanda,

Thank you for being willing to bring us into the conversation. Both the ABC board and I are very supportive of trying to find ways of assisting all of the parties during these times and balancing the needs of our licensees with the safety of the public. The Alcohol and Beverage Control Board has been working on a framework either under emergency health mandates, or through existing premises diagram changes to allow for some flexibility in premises diagram changes. The ABC board has already had one emergency meeting regarding this specific ask and it is going to be discussed again at their June Meeting. I will forward your message below for their review as part of their conversation and consideration.

Thanks,

Glen

**Subject:** Downtown Road Closures to Support Economic Activity

Glen -

My name is Amanda Moser and I am the Executive Director of Anchorage Downtown Partnership, Ltd.(ADP) We are a non-profit committed to a Clean, Safe, and Vital downtown.

ADP has been exploring long term road closures to stimulate economic activity, encourage physical distancing, and provide opportunities for community connection. As we navigate through these uncertain times it's more important than ever to provide support to our local business and allow for sustainable social distancing.

We are starting with a pilot project on G Street between 3rd Avenue and 4th Avenue. We hope to expand to other streets in the downtown area as we build support from the local businesses.

**A critical component of success is allowing bars and restaurants to temporarily expand their licenses premises for outdoor service. I understand the ABC Board discussed this at their last meeting - is there a process for licensees to apply for an expansion? We would love to be able to support businesses through this process.**
