## GALLEY

The Galley was constructed in two stages; the original, front gabled building was built in 1919. In 1950, a square, one story addition was added to the northwest elevation. Historically, the Galley fed the white crew, the superintendent, and the fishermen. At the peak of the season, the galley served up to 120 people their morning coffee and six daily meals: breakfast, lunch, dinner, morning and afternoon mug-ups, and a final meal around midnight.

Today, the galley is still used to serve the crew of Snug Harbor Outpost as well as their guests. Meals are prepared around the same kitchen island and enjoyed at the original tables. The original appliances have been maintained and put out on display in the dining area.

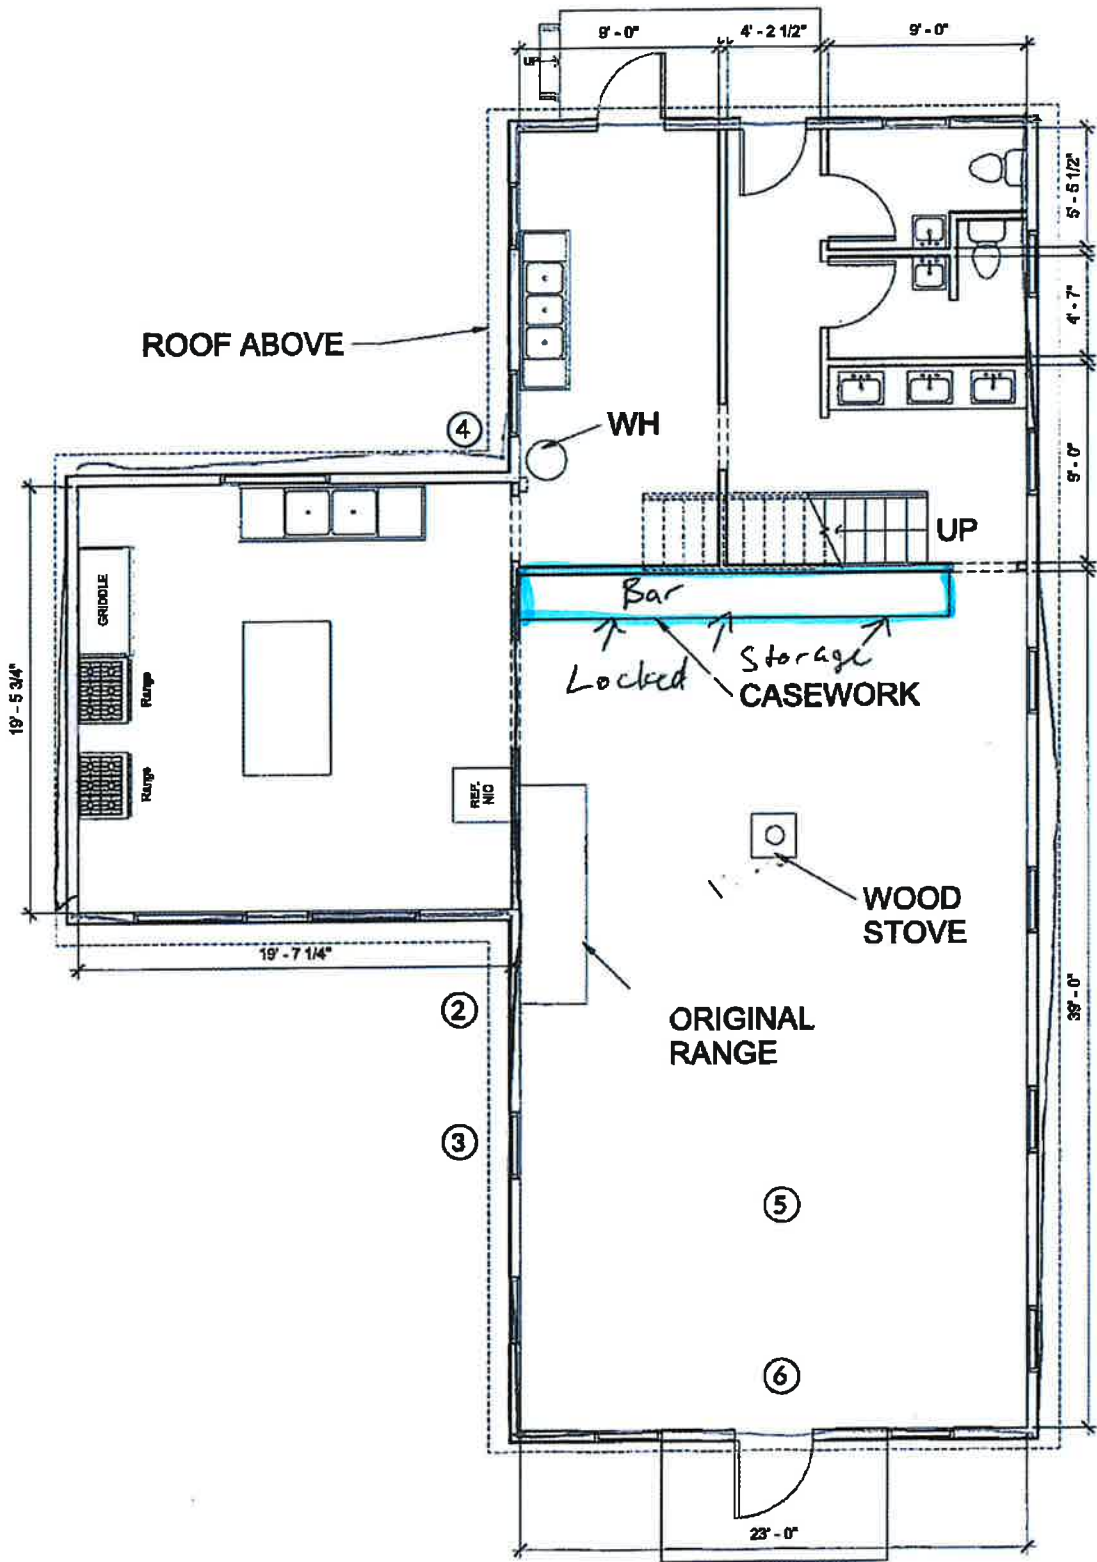

The Galley is two stories, front gabled, on a pier foundation. The original, rectangular portion measures approximately 59' by 23' and the northwest addition measures approximately 19.5' by 19.5' on the interior. In line with rest of the cannery complex, the original building is clad in corrugated tin siding; the addition is clad in corrugated aluminum. Similar to the Fishermen's Bunkhouse, the addition's windows have white trim and lack muntins whereas the original, single pane, double hung windows have red trim and muntins.

Thanks to the Porter's intervention in replacing the chimney and repairing the pier foundation, the Galley is in sound condition. The siding has begun to deteriorate around seams and window sills especially, but is of no immediate concern.

## THE STORE

The Snug Harbor Cannery Store acted as the storefront for food and gear. It served not just the cannery complex but also the fishermen and fish camp owners all along the west coast of the Cook Inlet. Also in the store were the administrative offices and radio room. Upstairs, the cannery store and bookkeeper stayed. Attached to the northeast elevation is a cold storage cellar.

The store is currently used to sell merchandise and the second floor provides guest accommodations. Inside is a collection of the original radios and the library, grown from the trading system used by the fishermen.

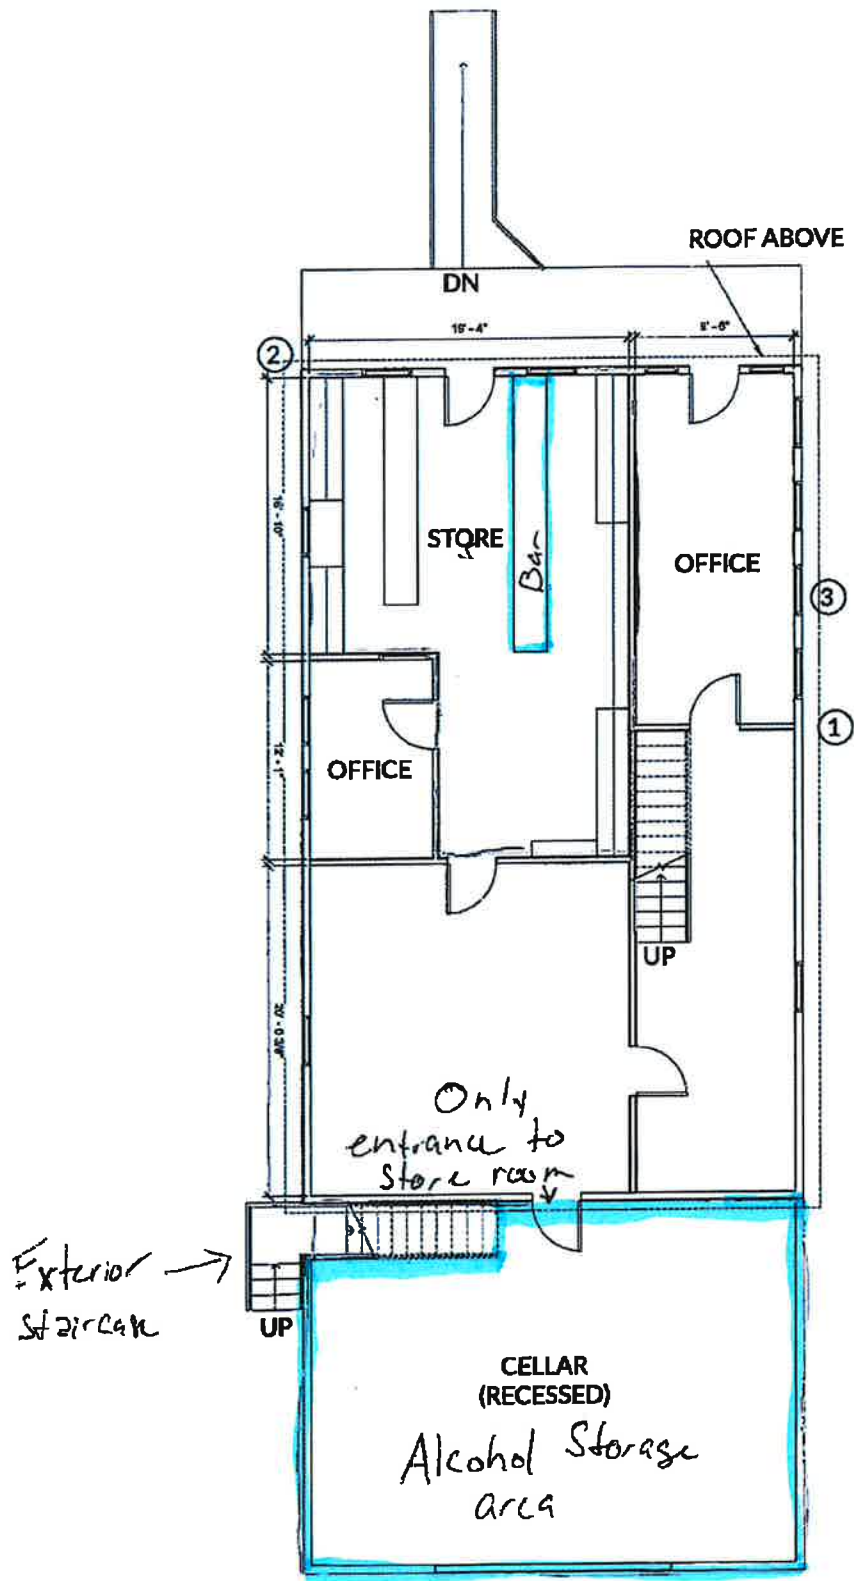

The store was built in 1919; the cellar was dismantled and reconstructed in the 1950s. With a front gabled, salt-box style roof, the first floor measures approximately 29' wide by 50' long on the interior. The attached cellar is about 24' by 28'. It sits on a pier foundation and is clad in corrugated tin siding. The windows are single pane with a mixture of fixed and double hung; all but those on the southeast elevation have painted red trim. An interior staircase leads up to the second floor via the attic space. There is additional second floor access on the northeast elevation. A large porch and ramp makes up the southwest elevation.

There is moderate concern for the condition of the pier foundation. Repairs have been made, but there still appears to be rot throughout the piers. Prompt analysis from a structural engineer is recommended.

## Alcohol Service Security Plan

### Purpose

The purpose of this security plan is to prevent unauthorized access to alcohol, restrict alcohol service to guests 21 years of age and older, and ensure that alcohol is served and consumed responsibly within the licensed premises. This plan reflects the unique nature of Snug Harbor Outpost as a remote, off-the-road-system lodge with limited guest capacity, extended guest stays, and a high staff-to-guest ratio.

Snug Harbor Outpost operates in a controlled, private setting with no public access, no transient foot traffic, and a predominantly reservation-based guest population. Alcohol service is provided as a secondary amenity to overnight guests and is not the primary focus of the operation.

### Premises Control and Guest Access

- Snug Harbor Outpost is accessible only by boat or aircraft; there is no road access or public walk-in traffic.
- All guests are registered and known to staff, typically staying multiple nights.
- The lodge maintains an approximate ratio of **one staff member for every two guests**, allowing for continuous monitoring of guest activity across the licensed premises.
- Licensed areas include interior common spaces and designated outdoor guest grounds, which are clearly identified and monitored by staff.

### Personnel and Training

- All employees involved in the service or monitoring of alcohol are trained in responsible alcohol service and age verification.
- Staff are trained to recognize signs of intoxication, identify fake or invalid identification, and intervene appropriately.
- Staff are empowered to refuse service, deny access to alcohol, or escalate concerns immediately to lodge management.
- Lodge management is on site and accessible at all times during alcohol service hours.
- Responsible alcohol service practices remain an ongoing component of staff training.

# **Snug Harbor Outpost**

## **Alcohol Service Security Plan**

### **Identification and Age Verification**

- Alcohol is served only to guests **21 years of age or older**.
- All guests ordering alcohol are required to present valid government-issued identification.
- New guests and any guest whose age is uncertain are carded upon ordering alcohol.
- Staff closely monitor alcohol service to ensure beverages are only consumed by guests who have been verified as 21 or older.

### **Minors on the Premises**

- Minors are permitted on the premises as part of family groups.
- All minors must be accompanied by a parent or legal guardian when present in areas when alcohol is being served.
- Underage guests are actively monitored by staff to ensure no access to alcohol.
- The transfer of alcoholic beverages to minors or to any unauthorized person is strictly prohibited and actively monitored by staff at all times.
- Clear signage is posted indicating alcohol service rules and age restrictions.

### **Alcohol Storage and Control**

- All alcohol is stored in a secured cellar located in Building 16.
- The cellar has a single access point secured with a padlock.
- Only authorized employees over the age of 21 have access to the cellar.
- All alcohol within the cellar is stored in locked cases when not in use.
- Alcohol inventory is monitored and controlled by management.

### **Monitoring and Service Practices**

- Alcohol service is limited to designated service times.

## **Snug Harbor Outpost**

### **Alcohol Service Security Plan**

- Servers remain present and actively monitor guest consumption in both indoor and outdoor licensed area.
- Staff ensure alcohol remains within the licensed premises at all times.
- Proper egress routes remain unobstructed and clearly marked.
- ABC-mandated signage and posters are displayed as required by law.

### **Incident Response**

Any incident involving alcohol service, intoxication, or attempted access by minors will be addressed immediately by staff and management, documented internally, and handled in accordance with Alaska alcohol regulations. Staff are trained to respond promptly and appropriately to ensure guest safety and regulatory compliance.

### **Commitment to Safety**

Providing a safe, responsible, and family-appropriate environment is a top priority at Snug Harbor Outpost. Alcohol service is managed conservatively and intentionally within the context of a remote lodge environment, with constant staff presence and oversight. All existing safety practices for alcohol service apply equally across the licensed premises and will continue to be enforced.
