A Note for Mat-Su Applicants

In the Mat-Su?

Please note that unless you have already been before the board and your application was tabled, we cannot guarantee that your license will be on the October 27-28 agenda if the vote opts the Matanuska-Susitna Borough back in.

We cannot accept payment or application materials before the vote. If the vote puts Mat-Su back in, we will only have 4 business days until the agenda deadline of October 10.

Our experience is that it would be difficult to impossible to get all pieces of an application filed, reviewed and completed in this short of a time period. Additionally, our staff already has incomplete applications that they are waiting for completion on.

We are sorry that we cannot promise you that we will process all Mat-Su cultivation licenses in these four days. There will be another board meeting in December, and it is much more likely that if an applicant works diligently beginning October 5, they could get their application complete in time to be on that meeting's agenda.

—Cynthia Franklin, Director
