Subject: Marijuana Question

I am interested in gathering a list of all current applications for marijuana retail sales, and any grow operations in the state for insurance marketing purposes. I have not been able to find any info on your website in reference to this like they offer in Washington and Colorado. Can you help me out with this or point me in the right direction?
Thanks!

Mr. Timmermans,

The Marijuana Control Board meeting in October has been publically noticed. We expect the public notice to be on our website today. The meeting is October 27-28. October 27 the board is meeting in Nome to fulfill the statutory obligation for the board to meet once per year in the 2nd judicial district. The 28th is in Anchorage.

Timing of various matters for the board will not be known until the agenda is completed. AMCO will post the agenda on our website 7-8 days before the meeting. I cannot be more specific at this time, and the MCB is not able to assign specific times to each license application because they are a new board looking at new license applications for a new industry and staff is unable to predict at this time how much time the board needs to look at each application.

Sorry I cannot be more specific today,

Cynthia Franklin, Director
Alcohol & Marijuana Control Office
907-269-0351

I am the attorney representing Kings Row Shoppes Condominium Association ("the Association"). The Association previously objected to the application of Alaska Green Glacier Gardens LLC ("AGGG") for a marijuana establishment license. Attached hereto is a copy of a letter dated April 8, 2016 to the State Alcohol and Marijuana Control Office concerning the Association's objection.

It is my understanding that there will be a hearing concerning AGGG's application this month. I would like to attend this hearing on behalf of the Association concerning my clients objection to AGGG's license application. Please advise me as soon as possible when this hearing will be taking place so that I may plan to attend.

If you have questions please feel free to contact me. Thank you in advance for your cooperation.

Subject: Yummy Bakery - Cannabis

Hello,

my client is in the process of developing a combined marijuana retail, edibles, extraction facility at the attached location. Beyond the expected requirements of a marijuana retail and food service what other issues can we expect to encounter?

Alaska Sense, is currently in the process of licensing 3 other locations and is becoming more familiar with the state process and fully intends to develop this location. I personally have worked on the retails and cultivation but have not yet dealt with extractions.

- do these facilities need to be segregated?
- does the extraction need to take place in a 2-hour rated sealed room, are there guidelines for the facilities?
- What are typical expected problems you are encountering with applications to these facilities?

I am emailing both the control board and dhhs in the hopes that both will respond with one or two items and possibly a pamphlet of information.

Good morning Mr. Hoelscher,
I appreciate your interest in this matter, and I'd like to reemphasize my interest in maintaining a sense of professionalism in this new industry in our State. The Course Provider I chose was

Handle Alaska, which I decided upon after reviewing all of the State approved courses listed on the AMCO website. I chose Handle Alaska because the provider was (is) a teacher; I concluded that surely this would be the best option for a well delivered course. The course itself was adequate for the material involved, and I have no complaint in that regard. The rub is with the certificate; in the manner it was delivered and the apprehension it generated. I am including copies of the E-mails and the pdf file I have from the course provider. The E-mails are copied & pasted to word documents; I can forward the originals if you prefer. Additionally, I intend to hand deliver my application package to the AMCO, this coming Wednesday, if you'd like to speak with me directly.

Thank you again for your interest,
John Ward

All,

I received a complaint regarding these print yourself certificates. They can easily be changed and reused over and over again. I think it is important that the course provider sign an original certificate. If they are pressed for time, they can take the course earlier or adjust their schedule.

As you can see, I changed names, dates and score on the sheet she submitted for approval.

I wouldn't approve of this and I think all classes that do this need to print and sign original certificates, if it something the MCB need to rule on, I am good with explaining why.

Greetings,

Dollynda Phelps Here with Alaska Green Resources. I have previously submitted a copy of the handwritten certificate of completion, but I am hoping you will permit me to allow the recipient to print off their certificate when taking the online course. Many people are struggling with time, and mailing certificates has made things go much slower.

I have attached a sample of the certificate which can only be printed after the course has been passed successfully. Please let me know if this is acceptable.

Thank you!

Subject: Yummy Bakery - Cannabis

Hello,

my client is in the process of developing a combined marijuana retail, edibles, extraction facility at the attached location. Beyond the expected requirements of a marijuana retail and food service what other issues can we expect to encounter?

Alaska Sense, is currently in the process of licensing 3 other locations and is becoming more familiar with the state process and fully intends to develop this location. I personally have

worked on the retails and cultivation but have not yet dealt with extractions.

- do these facilities need to be segregated?
- does the extraction need to take place in a 2-hour rated sealed room, are there guidelines for the facilities?
- What are typical expected problems you are encountering with applications to these facilities?

I am emailing both the control board and dhhs in the hopes that both will respond with one or two items and possibly a pamphlet of information.

Hi,

I posted comments regarding the marijuana handler's legislation that was before the committee last week. Is there any where I can look to see if the Board considered the comments about granting forgiveness to servers who sold alcohol to minors after a number of years, just as they have forgiveness for felons? I haven't read anywhere what happened to those regulations.

Thanks,
Kristine Harder

Date: Monday, October 03, 2016 11:28:56 AM

J.R. Tuel:

Sixteen retail store licenses have been approved at the state level by the Marijuana Control Board so far, and all but one of them are awaiting their local governments approval. They also have to have some legally grown, taxed and tested marijuana and marijuana products to put on their shelves. Some of the cultivators are becoming ready with their first crops, but the first testing facility is waiting for local government approval and cannot operate yet.

The MCB is working diligently to be the first state which will stand up a marijuana industry from scratch with no preexisting stores.

Thanks for your inquiry.

Subject: Marijuana Retail Stores: Earned Income and FUTA

Good afternoon,

It is my understanding that Alaska's first marijuana retail dispensary will open sometime in November. I have a couple of questions I was hoping you could help with.

1. Can you tell me if any banks in Alaska have committed to accepting monetary deposits into their federally-regulated institutions for the revenue generated by marijuana sales?
2. I see that excise tax regulations are in place for the revenue generated from marijuana sales. Has there been a state coordinated effort to ensure regulations are in place for other Alaska employer and employee taxes such as FUTA? If so, can you direct me to the right person?

Thank you,

Subject: RE: The Medical Cannabis Institute
Date: Monday, October 03, 2016 10:53:42 AM

Hi Laura,

Alaska does not have a medical marijuana program. Medical cardholders in Alaska have only two privileges not afforded to all Alaskans 21 and over: an affirmative defense at trial and the ability to proxy their home grow to one other person.

Ballot Measure 2, effective 2/24/15, did not provide for governance of medical marijuana regulations. In fact, it states that the board is not authorized to change anything about the medical cardholder statute.

In Alaska, marijuana is for all adults, as it has been since 1975 when the Supreme Court stated that our right of privacy in the AK constitution affords Alaskans the privacy to grow and possess a small amount of marijuana in their homes.

Ballot measure 2 codified the Supreme Court decision regarding personal use and specified that marijuana would be grown, tested, turned into products, and sold at marijuana retail stores. The Marijuana Control Board governs the licensing process for the commercial marijuana establishments set out in the ballot measure.

Thanks,

Good Afternoon Cynthia,

I had tried to contact you today via phone and was told to send you an email. The reason for my call is to ask if you all are requiring physicians to go medical training to participate in your medical marijuana program? As you are aware, other states like New York are requiring their medical providers do so or going in that direction. We were just newly approved as an education provider for the state of New York.

TMCI Global (TMCI) provides online medical education for healthcare professionals who want to learn about medical cannabis and its potential clinical application. Our science-based, accredited courses help professionals deliver quality care and address patient questions.

TMCI Global offers science-based curricula for nurses and physicians, as well as individual courses by topic, such as pain management, cancer and neuromuscular disorders. Our online medical cannabis

education covers everything from the basics of the endocannabinoid system and patient education to pharmacology, delivery and dosage and specific medical cannabis treatments for pain, cancer and other diseases. Medical courses and the nursing curriculum are certified for CME credits and CNE contact hours, respectively.

Please feel free to view our course offerings here <https://themedicalcannabisinstitute.org/>.

My contact information is listed below, feel free to contact me if there's an opportunity to explore a partnership utilizing our education in the future.

Kind Regards,

--

Hi is it accurate to say no retail businesses are yet selling pot in the state as of 9/28/16?
Also besides Petersburg and the Mat-Su borough do you know of any other communities
voting on local option this fall?

Subject: Marijuana Retail Stores: Earned Income and FUTA
Date: Tuesday, September 27, 2016 3:38:56 PM
Attachments: [image005.png](#)

Good afternoon,

It is my understanding that Alaska's first marijuana retail dispensary will open sometime in November. I have a couple of questions I was hoping you could help with.

1. Can you tell me if any banks in Alaska have committed to accepting monetary deposits into their federally-regulated institutions for the revenue generated by marijuana sales?
2. I see that excise tax regulations are in place for the revenue generated from marijuana sales. Has there been a state coordinated effort to ensure regulations are in place for other Alaska employer and employee taxes such as FUTA? If so, can you direct me to the right person?

Thank you,

Sandra Burgess

HI

We appeared before the AMCO Board, September 8, 2016 and were approved for our Retail Marijuana Store License for THE FROST FARMS, LLC... we have not yet received a letter stating we were approved, as we did for our other license (cultivation grow) for THE FROST FRONTIER...perhaps there has been a procedural change and you are no longer issuing them.

Please indicate if they're still being produced as my Special Land Use Permit Application is asking for one.

Thank you for your time.

Subject: questions prior to submission
Date: Monday, September 26, 2016 12:34:01 PM

Hello,

I have a couple of questions regarding the application requirements. I am considering applying for a limited grow in Ketchikan. I am the owner of my property and have visited and confirmed with local government that my location is legitimate.

First, is there a height requirement or any requirement for the fencing. My property is abutted on one side by a 40' cliff. On the opposite side is a sawmill and pellet mill. The cliff will make one side of the fence as a natural buffer. (I am below the cliff) The remainder of the property can be enclosed but if I grow in high tunnels outside can I enclose only the high tunnels? Does the fence have to follow the property line? A fence definition is requested.

Second, how can I contact the tracking system provider? Will that information be sent to me upon successful application for the license?

Thank you.

Sincerely yours,

Christopher Wilhelm

We are looking for the media contact to ask a couple of questions.

We want to compare how Colorado tracks marijuana compared to other states....

Would Alaska share the tracking system or seed to sale system used to track marijuana?

What are the fields the state tracks in its system? Would you provide an example?

Thank you!

Carisa

Hi,

I posted comments regarding the marijuana handler's legislation that was before the committee last week. Is there any where I can look to see if the Board considered the comments about granting forgiveness to servers who sold alcohol to minors after a number of years, just as they have forgiveness for felons? I haven't read anywhere what happened to those regulations.

Thanks,

Kristine Harder

Comment:

Is there a process in place to check to make sure felons are not working for these pot businesses? I thought the law was clear that no felon could be employed by a business licensed by the MCB. I know that Cheeky Monkey has a known felon that they collaborate with on a regular basis and this person also competes at events at Pot Luck Events using the Cheeky Money name. I am a concerned business owner and I do not want one bad company to ruin this industry for all of us.

Mr. Adams,

I am assuming you are asking if flying with marijuana is illegal at the federal level. All activities relating to marijuana are illegal at the federal level. It is illegal federally to cultivate, to make marijuana products, to sell marijuana, to test marijuana, and to distribute or transport marijuana using any means.

The federal government is allowing states with marijuana initiatives to engage in those illegal federal activities under a memorandum of prosecution priority called the Cole memo. The Cole memo essentially says that if a licensed, regulated marijuana business is strictly complying with robust state regulations, it can conduct activities relating to marijuana that are otherwise illegal at the federal level. We believe this includes transportation. Therefore, if a licensed, regulated establishment transports marijuana or has it transported to another licensed, regulated establishment, that transportation should not be prosecuted at the federal level. As state regulators, we cannot control the federal government, but federal courts have reiterated that we are entitled to rely on the Cole memo.

As long as the transportation is in compliance with 3 AAC 306 and the rules therein, the transportation should be permitted by the federal government.

Good afternoon!

I was wondering if AK Alcohol and Marijuana Control Office currently has a professional mystery shopper program in place to monitor compliance and evaluate customer satisfaction and quality assurance? Could we provide you with the opportunity to effectively utilize the information provided to you by your customers through mystery shops or guest surveys?

I would like to connect with someone from your team to discuss our services (www.customerprophet.com/services) and how mystery shops and guest surveys can help you attract new customers, improve your level of quality and service, and even increase your profits. We also have a mobile field audit program which managers can use to help them save both time and energy while conducting inspections.

Do you know who I could speak to about this?

Thank you very much! I look forward to hearing from you!

Subject: Question
Date: Tuesday, September 13, 2016 1:27:03 PM

Hi,

Can a person that grows at home for home use as per the new law ie:
6 plants allowed, 3 in Flower and 3 in Veg. take/send some of the final finished Flower to a Licensed testing facility, such as
Ak Green Labs or Canna-Test for testing of their personal home use Product?

Subject: Questions
Date: Monday, September 12, 2016 12:04:00 PM

Hi, a simple question. If I have a I-1 zoned location with a residence already established in said building, would I be able to have a retail store and a limited grow on floor 1?

In other words,

Am I allowed to live above, on the second floor of a first floor retail store / limited cultivation grow?

Thanx,
Mark Oppegaard

Subject: Transportation regulations
Date: Monday, September 12, 2016 11:30:20 AM

I am looking to clarify a few questions that I have about the transportation of Marijuana from a grow to a retail store. Both sites would be licensed and legal sites.

Lets say I owned a state approved legal grow and I have a retailer that would like to purchase product from our grow, can we use private currier service to deliver product? We can travel the state Highways of course, can we also use a plane to transport our products?

I realize you can't mail and you can't use fedex or any other postal service. Looking for an answer to service some of the potential areas that may be hard to get to. We do have ant attorney and they tend to just like to find arguments and bill for the hours they argue, I thought the easiest way is to ask directly. We always want to be above board and follow all rules.

Subject: Clean Green Certification
Date: Monday, September 12, 2016 10:34:05 AM

Hello - I've got a really quick question/clarification I'm hoping you can help with. I left you a voicemail also.

Can cannabis farms in Alaska use independent certification services, such as Clean Green Certification, to verify that crops are grown with a certain standard of sustainable, environmentally friendly practices, etc?

(I understand that they're not allowed to use the word "organic" but this would be an alternative to that nomenclature.)

I've tried connecting with Cindy Franklin to clarify this, but have yet to hear any response. Feel free to respond by email or phone (425-281-1348 is my cell; 425-656-3621 is my office) – whichever is easiest.

Thanks so much.

Subject: On-site Consumption Comments
Date: Saturday, September 10, 2016 9:59:02 AM

Dear Chairman Mlynarik and MCB Members,

My name is Mark Woodward, and I would like to comment regarding on-site consumption.

I live in Ketchikan, and believe that the on-site consumption rule is crucial for our city to properly regulate the sale and consumption of cannabis. In fact, I believe it is very crucial for the state as a whole. Why? I believe that if the MCB does not offer on-site consumption then you will have cities, towns, and villages throughout the state scrambling to control the vast amount of tourists and state citizens who will attempt to consume cannabis in any area they choose. This will be particularly important in Ketchikan and the other Southeast cruise ship stops, as our research has shown that there is a very large demand for cannabis from cruise ship tourists right now. We have talked to dock workers, charter captains, wait staff, and other tourist industry workers here in Ketchikan, and all have commented on how they are bombarded daily by cruise ship tourists who are begging for cannabis. So if there is no place to legally consume, then you will see three things happen:

1. The consumption of cannabis in non-controlled areas, such as cabs and unregulated private vehicles who will offer "smoking tours". As the parent of two small children, I do not want the roads of Ketchikan packed with cars driven by impaired drivers. I am positive residents in Fairbanks, Anchorage, and throughout Southeast Alaska feel the same.
2. If the MCB does not offer on-site consumption, tourists will also be consuming cannabis in alleyways, trails, and other public areas in violation of Alaskan law. Additionally, if the MCB does not offer a legal on-site area, you will have unregulated, private residences spring up that offer a "safe" area to consume. What if these residences are near schools, churches, or day care centers? Will state and city law enforcement be able to control this? What about over consumption in an unregulated area? Additionally, if there is no on-site consumption regulation then what affect will that have on tourists trying to sneak cannabis back on board cruise ships, thus violating federal laws and severely impacting the cruise ship industry in Alaska.
3. If the MCB denies the on-site consumption rule, and #1 and #2 begin to occur, the state of Alaska and it's cities/towns/villages will create a black market for consumption with no regulation, no safety parameters, and no way to obtain revenue. This does not benefit anyone.

My business partner and I have applied for a retail cannabis shop in Ketchikan, and the key to its success is on-site consumption. We believe in our business plan because it's based on regulation, controlled consumption, and safety. We do NOT want the cruise ship passengers bringing cannabis back on board, so we have a plan to avoid that completely. Our city council believes in us and our plan; we even have the backing of the local ER doctor in our ability to provide cannabis in a safe, legal way with on-site consumption.

I would be open for any discussion regarding this matter, either by phone, email, or even in person.

-Mark Woodward

Subject: rescinding marijuana application
Date: Tuesday, September 06, 2016 5:18:22 PM

Hello,

My name is Mitch Knottingham. My wife, Rochele, and I had initiated an application for a Marijuana Testing Facility, named Glacier Analytics LLC (mj license # 10651, business license #1038434). Unfortunately we now need to rescind the application, as we are no longer moving forward with the business. If you have any questions please let me know. I could not find a way to do this through the "my alaska" account.

Best.
Mitch

Hi,

I'm writing a piece on the upcoming Marijuana Control Board meeting on Sept. 7. Is it possible new store licenses will be approved tomorrow afternoon?

Subject: What is a designated agent?
Date: Monday, September 05, 2016 11:04:56 AM

In the regulations it mentions that an agent is:

(A) means a representative who is authorized to act for a licensee, the board, or the director;

(B) includes a contractor or subcontractor;

Do the contractors or subcontractors have to be licensees or are they treated more as if they were an employee or outside service?

Warm Regards,

Jeremiah

Subject: Cannabis License Transactions
Date: Friday, September 02, 2016 11:03:48 AM

We would like to discuss your recent payment issues as it pertains to licensing in the Cannabis space. CC and pin debit processing is prohibited by Visa and MC which is why US Bank terminated that ability. Our transaction platform has been built specifically for this industry. Additionally, the gentleman that wrote The Cole Memorandum is our Executive Vice President and General Counsel. He is an added resource that may be beneficial to you.

Please let me know when you would be available to discuss.

Respectfully,
Tyler

Subject: FYI - Gun Sales To Medical Marijuana Users Ruled "Unlawful"
Date: Wednesday, August 31, 2016 8:08:37 PM

Hello Everyone

News comes fast and furious today (08-31-16) and it has been hard to keep up with. He is another "News Article" that just appeared which should be of interest to the Members of the Alaska State Legislature, City and Borough Governments, and the Marijuana Control Board. As government officials, how does it feel to being playing "Russian Roulette"?

Must be connected to the Internet for the hyperlinks to work.

Thank you. Hope all is well?

When will we find out the date and time for the licenses going b/4 AMCO board in Sept?

I see its at UAA and dates and times to start but no times for applicants licenses times as of yet.

Thx, Lance

Subject: Packaging questions for Alaska Marijuana
Date: Thursday, August 25, 2016 2:49:09 PM

Hi,

We are a cannabis package company in Seattle and I have a few regulatory questions on your Marijuana packaging laws in Alaska.

The 2 major take aways I got from reading the rules are all packaging needs to be opaque and child resistant.

Does a mylar bag that is opaque on one side and clear on the other qualify or does the bag have to be opaque on both sides?

Do you require ASTM or CPSC certificates on child resistant packaging?

If the dispensary uses a opaque child resistant exit bag for customers to walk out of the store with does the inner package still need to be child resistant?

We are a large cannabis packaging supplier and we are coming to Anchorage in a few weeks for the cannabis trade show. We want to make sure we fully understand your packaging laws before we come up for the show.

Thanks,

Jason Lammers
