Subject: Requesting May Meeting

Hello,

We would like to request AMCO hold a May meeting for marijuana license review and approval. The state has been trying to keep things on track but to delay the next meeting for 70 days after the April meetings is problematic for the industry as a whole. Many Alaskans have spent their life savings to try and be a part of this new industry that will create a great revenue stream from the tax revenue.

Without the May meeting, the July meeting will be either too full of licenses to review, meaning some licenses will get bumped even farther out than July (which is something no business owner could have planned for given the internal employee/director attrition rate within the department) some businesses might fail due to costs going out and no money coming in – and all outdoor growers will be specifically impacted by failure to even have a chance at harvesting this summer – which will also negatively impact manufacturers.

Tourist season is prime time for the industry people and to slow this process down will bankrupt and ruin these hard working Alaskans. Please hold a May meeting.

Thank you,

Karen Bloom

Subject: Landlord/tenant

I am currently disabled and have been living in my apartment for 10 years. Recently the apartment managers rented the apartment below me to marijuana smokers.

Every two hours my apartment becomes completely engulfed in a very strong, overwhelming smell of marijuana. This has triggered asthma attacks. The quality of air is extremely poor - my eyes burn, it's difficult to breathe and I get sick to my stomach. Given my health conditions, second hand smoke of this intensity can cause a decline in my P.A.D, and C.O.P.D.

I am unable to move out in my current condition and financial status. I have addressed this with the new neighbors twice and the management office 3 times to no avail. My clothing (and foster childrens/I am a State licensed foster home) smell like marijuana, my furniture smells just as bad.

I run an air purifier and exhaust fans 24/7 but this does not help at all, because its so strong and frequent (every two hours yhey smoke).

What are the tenents rights to quality of clean air? Our furniture and clothes not smelling. Our health and jobs being compromised?

Lanlords that allow smoking of marijuana, should also have some accountability to make sure ALL tenants rights to fresh air happens. That it does not promote health risks to those already living there with health issues.

What about young children that live with parents that smoke heavily? They have a 4 year old breathing marijuana 24/7.

Please not only allow personal use of marijuana but, put into place regulations that support tenants, children, diabled and unhealthy people whom should also have right's.

Thank you,
Ms. S Shannon

Dear Sirs and Madam:

I will be sending one request at a time from this email for people in Talkeetna that want to pre-register to speak at the April 4 teleconference and do not have computer access at this time. There will be over a dozen email pre-registration requests that follow this email. I wanted to let you know that it is okay to confirm each one with me at this address, I will hand deliver a paper copy of the confirmation and phone number, code and time to each person to join the teleconference.

All of the following community members and I are specifically objecting to the following application:

License #10901

License Type: Individual

Name: Joseph McAneney

JMDN Enterprises, LLC

Business License: 1038709

Physical Address:

[13465 E. Main St](#)

[Talkeetna, AK 99676](#)

Joe McAneney Joe@thehighexpeditions.com and Dan Nelson Dan@thehighexpeditions.com

In addition to the emails that follow I would like to pre-register myself, Holly Sheldon Lee to speak at the April 4 teleconference.

Thank you for your time.

Holly Sheldon Lee

To: Alaska Marijuana Control Board, Alcohol and Marijuana
Licensing
Board

From: Eric Rutger
cell 434-203-8365
kodiakbearpaws@[yahoo.com](mailto:kodiakbearpaws@yahoo.com)

Date: March 23, 2017

Objection: to specific Marijuana retail establishment license,
Jmdn Enterprises, LLC, Joe McAneney and Dan Nelson and or
DBA The High Expedition Company
Physical Address: 13465 E. Main Street, Talkeetna, AK 99676,
Mailing Address: P.O. Box 1127, Talkeetna, AK 99676

Current License Application #10901
Previous License Application #10641

Dear Marijuana Licensing Board,

I will outline my main objections to having a retail marijuana shop in our Special Use District of Main Street Talkeetna.

I would like to point out in this particular objection, that people who have applied for these 2 separate licenses have brought nothing but mayhem to this small hamlet.

It is now known that the FBI and Homeland Security are now investigating the happenings here in Talkeetna. This is because Holly Sheldon Lee's business (Sheldon Air Service) was subject to attacks which is located on the Talkeetna Airport property, it has now elevated this to a Federal level. Before the said proprietors arrived here in town, that being Joe McAneney and Dan Nelson and or DBA The High Expedition Company, we never experienced the strong arm tactics that are being used on our local towns people because they objected, Holly Sheldon Lee and Connie Twigg have been subjected to numerous threats and strong arm tactics, so much that State Troopers have been called in as well and reports filed. This is not what Talkeetna needs or wants. Too verbally attack towns people, to vandalize for the sake of a pot shop. I think that the Board needs to be aware of these things happening in our little town. This is not how businessmen operate, this is how thugs and organized crime operate. We ask that you take these matters into careful consideration, when ruling on permitting the licenses to operate within the town limits of Talkeetna or any other protected area set within the town charters. Also Joe did not post his intentions as required for 30 days, it was only posted 2 days that we know of and not posted in the Post Office or other public bulletin board.

There are multiple different parks located in downtown area, the river park that is our overnight campground (66 feet from proposed license), since the 1960's, the main park directly across from Nagley's Trading Post and the ball park. We also have children's programs run out of the Don Sheldon Hangar, sponsored by Denali Arts Council, most of these programs have kids present everyday during the summer months whether it be Circus practice, drama or musicians. We also have the main south side Denali National Park

Service running kids programs that walk down to the river frequently. The Susitna Salmon Center also operates a children's program once a week in the summer. I mention this because the National Park Service building hosts about 25,000 to 30,000 visitors every summer, they are located approximately 120 feet from this purposed cannabis store. Its also a felony to have marijuana within 500 feet of a National Park. This makes our town unable to have a state-lawful cannabis store.

When the vote was taken at our borough assembly, unbeknownst to the community because there were no postings or notifications, or was proper borough procedure followed that "parks" were being redefined by the Matanuska Susitna Borough Assembly. This was done so a pot shop could apply to the borough for a Conditional Use Permit and be on Main Street Talkeetna. Furthermore, a CUP was found not necessary in our borough SPUD areas in October. The borough has recently rectified that mistake but in the meantime they grandfathered the High Expedition store unto Main Street of Talkeetna. This is all before Joe McAneney, representing the High Expedition did not even qualify for an Alaska State marijuana selling license. He was not eligible because of length of time spent in the state of Alaska or had your board approved his application or had it even been reviewed. We are crying fowl play by our assembly people. We don't understand how these two things can be lawful, one changing the state recommendation to parks and children programs, and moreover, grandfathering in a business without a license. It seem to us someone has their hand in benefiting by this business.

Talkeetna is a very unique, quaint little village. The main street area of 2 blocks is recognized as a Historical District. This is a federally recognized under a national registry, the marijuana shop will threaten our registry. We also are in a SPUD, this main street area has it's own regulations and it's own set of specifications. Our town sees around 300,000 tourists in the summer months. We have many tour companies that supply these visitors to us and they have a zero tolerance policy of marijuana at all of their hotels close by and especially on their ships and buses (the very transportation to their hotel from Talkeetna). It is very out of character for these tourist to be doing drugs. They are in general, retired and on a fixed income. Approximately 20 businesses border our main street, for one of these to be a marijuana retail store will change the face of our postage stamp town.

Another objection is that the Alaska State Troopers no longer have a base in our area. The station is now 70 miles away. It takes 2-24 hours for a trooper to arrive to the scene of a crime or an emergency. We have very little law enforcement in our area anymore. This area they patrol is one of the largest areas in the state and it reaches from Houston, Willow, Hatcher's Pass, Trapper Creek, Petersville, Talkeetna, Chase and the railroad and highway systems up to Hurricane bridge on the Parks highway. It's enormous, which is very scary to us because of all the alcohol abuse in the summertime business owners can be assured they will be broken into at least once in the summer months already and if we add legalized marijuana to the list of substance abuse in the area we are overtaxing our emergency responders and troopers.

Beautiful downtown Talkeetna is a family friendly area. Just the unsightly presence of the shop with the extra security, like steel doors, bars on the windows, warning signs is not appealing for the character of our downtown area. This business would border where kids walk freely, parades are held, children's groups frequent, families camping, the only path to the riverfront, and tourists are mingling. We like this culture, we treasure that it is still a safe place for children to walk about freely. A marijuana retail shop just doesn't fit what we have worked for, for so many years. Seriously, there is a public restroom 66 feet away, I'm sure that the restroom will be used for intaking the product customers have just bought. Another issue I foresee is there isn't any parking. The business owners themselves will have to park on the street, there is no land for customer parking.

We have a serious drug problem in our town already. We have a task force working with Sunshine Community Health Center on what to do about it. We have heroin needles blocking our sewage, we are known as the meth capital of Alaska, you tell me why this is good business to open a cannabis store in downtown Talkeetna. We do know that the revenue raised, (which I don't even think there will be revenue for our borough from the High Expedition, because of not having to have a CUP with our borough) is it worth wrecking more lives and having more people addicted to this gateway drug, that could lead to other way more harmful drugs. The treatment and addiction programs that our state will have to pay for in the future, and the lives that will be wrecked, far outweighs the benefits of having this store.

We appreciate your consideration, many people in our town have petitioned our borough assembly, testified, and wrote letters. I challenge you to read every email sent in opposition, look at all the signatures that object to a main street marijuana shop in Talkeetna. Call them and talk to them, this issue is near and dear to the culture of our town, please take heed and research what our borough has illegally done to make this shop happen. For one business man to move to our town and decide that this is the business for him and his partner, that will change Talkeetna forever is not fair to the long term residents that were born and raised there. It's not fair to our Historical District, our parks and rec. areas, our residents, our visitors, and our children.

Thank you for considering my objection.

Sincerely, Eric Rutger

I would like to speak via phone conference at license hearing on April 6, 2017

Reasons against Retail Marijuana Store:

Retail Marijuana Store

Within Aprox 66 ft of a 60 yr old park/campground and public toilets.

Within Aprox 120 ft of Federal Ranger Station Within Aprox 500 ft of Talkeetna Historic District, Church, Fish

Hatchery Exhibit All above are violations of Alaska Marijuana Laws.

Talkeetna is unincorporated and has no law enforcement.

MCB is understaffed and can not enforce nor cover their own jurisdictions.

Talkeetna has a severe opiate problem where public toilet filters are clogged with needles.

The retail marijuana store would further attract drug users.

The cruise lines have banned marijuana on their properties of which Talkeetna plays host to two large cruise line lodges and 300,000 visitors a year.

A retail marijuana store in Talkeetna would further add law enforcement problems to visitors to Alaska and marijuana law enforcement in Talkeetna.

Subject: marijuana dui

Categories: Enforcement

What's going on with marijuana dui laws, before I moved to anchorage I was living in wasilla and commuting back and forth. I woke up late for work took one hit of weed to ease the nerves and stress of the day and to get an appetite, I got pulled over for speeding they smelled weed I told them I took one hit before I left I was honest, if I would have lied I would have gotten away with it that's crazy you can't even be honest anymore without getting in trouble. So anyways they arrested me and I ask if my dad could drive my truck to mat-su pretrial so when they were done booking me in and letting me out on my own recognicece if I could drive my truck and they didn't care. They let me drive pretty much right after got the marijuana dui blood came back at 3.7 ngs so now there dropping it to reckless driving and that's mandatory license suspension for 30 days. So now I can't drive my truck to work to pay my bills and child support I can't get food and I will end up homeless, and I didn't even do anything wrong besides speed a little to hurry and get to work. I didn't Rob rape or kill anyone I don't touch little boys and girls I don't sell drugs. Im just struggling to make it to work to pay my taxes and child support and surrive and now tomorrow is court and I have to take the deal for reckless cause I'm to scared of trial. And getting a dui on my record. Is there a way this can be fixed so the next guy doesnt end up homeless and struggling like I'm going to go through...please help on some advice

Subject: Attn: Joe Bankowski re: License # 12470 Alaska Wild Coyote, Inc., DBA: AMG Frosty Farms

Categories: Forwarded to MJ Licensing

Hi Joe, I came to the office Tuesday, March 16th with my son Armando Gonzalez, to submit a Standard Marijuana Cultivation License #12125. We then decided to apply for 2 additional licenses, but I put the wrong name on one of the business licenses, and when I went online at My Alaska, it automatically put that business license name on my State application #12470. It is listed as DBA: AMG Frosty Farms, but was supposed to be **dba: AMG Frost Factory**. I'm so sorry, but now that I've made that mistake, how can I change it??? Is it possible to change the name, or do I just need to initiate a new license application, and if I have to do that, what happens to the one I just initiated yesterday?

I'm sorry to bother you with this as I know you are very busy, but it is very important, and I need what to do before proceeding any further.

Thank you very, very much, Carol Hartman

Subject: Marijuana Prohibition

Hello,

I work for the native village of Gulkana. We are a dry village. Our council would like marijuana use, possession, and sales to be prohibited in our village. However, we were informed that while a village can prohibit marijuana sales, it cannot prohibit personal use or possession.

I am writing to see if this information is accurate. If so, what is the first step to changing the marijuana regulations so that villages CAN prohibit marijuana use and possession? It would make no sense to be able to ban alcohol but not be able to ban marijuana!

Thank you kindly for your time.

Subject: Cost of Start Up

Hello

I am based in Maine and we are trying to determine the cost of regulating the adult use market here.

How much money did Alaska initially allocate for setting up the marijuana arm of the control board? What was the initial amount allocated meant to cover? What is the current staff number devoted to implementing the marijuana program in Alaska?

Thank you.

Sincerely,

Thomas Falby

Subject: Marijuana Grow Operation

Categories: Forwarded to MJ Licensing

To Whom this May Concern:

I represent a client, Alaska Snow and Ice Management who recently bought a property at 856 Bonanza Ave and has a concern about a potential grow operation next door.

Can you advise if any public notices have gone out regarding this operation? My client has not received any notices and has been dealing with property disturbances.

Is there a resource to understand what kind of regulations there are for grow operations as it relates to neighboring property owners?

Your help is very much appreciated!

Thank you,
Ryan

From: Loan Forgiveness Program <ibrprogram@aol.com>
Sent: Saturday, March 11, 2017 5:24 AM
Subject: Fwd: Alaska Government employees qualify for Federal Student Loan Forgiveness

Hello. We specialize in helping nonprofit, public school & government employees to qualify for the Public Service Loan Forgiveness Program. We also help to lower payments, and get people out of default..

What is the Public Service Loan Forgiveness Program?

Through the College Cost Reduction and Access Act of 2007, Congress created the Public Service Loan Forgiveness Program to encourage individuals to enter and continue to work full-time in public service jobs. Under this program, borrowers may qualify for forgiveness of the remaining balance due on their eligible federal student loans after they have made 120 payments on those loans while employed full time as public service employees... under certain repayment plans.

New Program Allows for easier qualification, and lower payments

As of December 17, 2015, government programs have been improved to allow borrowers to get lower payments, without any restrictions on when thens were taken out. **Public service workers who are currently on the Public Service Loan Forgiveness program may now be eligible to lower their payments, by switching programs.**

We have helped employees of: *Big Brothers & Big Sisters, Boys & Girls Club, Broward County Schools, YMCA, Goodwill, Make-A Wish Foundation, Miami Government Center, Los Angeles Public Defenders Office, The US Dept. of Commerce/Education/Labor and Defense.*

We would be happy to research your loan status. We do not charge a fee to help you determine your best repayment options. Please pass along this message to anyone who we may be able to assist.

David Wenke - Student Loan Advisor

*Independent Enrollment Counselor for the
Public Service Loan Forgiveness Program*

Subject: Adopt a solution for tourists and local communities

Private property owners, including those who run businesses, are clearly allowed to control cannabis-related activity by adults on their property. The board recognized this and made it clear that some may also wish to allow on-site consumption. This was a sensible rule, particularly because so many outsiders will visit Alaska's cities this year, and many of them will purchase marijuana. Clearly, they will also consume it.

Until the board adopts a rule, those adults will be consuming unlawfully. It makes no sense that we would set up all those people for legal trouble. It makes no sense that the board would deny local communities a chance to decide where these individuals could go.

I understand there are questions about the new administration in Washington, D.C. But the solution isn't to leave our tourists at risk or our towns without answers. The federal government stated it wants government to regulate marijuana-related activity, and there are serious health and safety issues at hand. Please do not abandon your plans to adopt a solution or leave our visitors at risk. Please adopt Mark Springer's proposed rules for on-site consumption and let's get a solution in place.

Thank you.

Subject: Regulate marijuana consumption

I was disappointed to read that board members failed last month to pass reasonable rules for communities that allow on-site consumption. It missed an opportunity to put into place a set of rules that would ensure the thousands of state visitors we host annually will have a regulated place to consume cannabis.

I understand that some board members are fearful of what a new administration might think. There are unknowns. But, the federal government has been very clear: states that allow marijuana-related activity must regulate it. The Department of Justice just confirmed its most recent policy statement is still current policy. There is no reason to think that fewer regulations – particularly over where people can consume – are a better solution.

Keep in mind that it wasn't the board that allowed on-site consumption, but rather the voters. The board should adopt sensible rules, and not simply leave adult visitors to Alaska with no guidance. That furthers neither Alaska's nor the federal government's goals. Please reconsider, and adopt Mark Springer's proposed rules.

Thank you.

Subject: Retail Pick up

Categories: Enforcement

Joe (AMCO),

What is the current "stance" regarding Retail Establishment wholesale pickup from manufactures? We need to pick up some concentrate that Babylon made up for us, I wanted to make sure of the best way of doing the transfer. We can have either the retail establishment or cultivation entity do the transfer. Again, I just wanted to make POSITIVE sure.

Hope you guys are staying sane.

Subject: MJ Handler

Good Afternoon-

Depending on when we get the all the paperwork needed to issue the handler permit it should not take more than a week if you mail them in. It looks like you started your application 03/02/2017, once you get your course certificate, you can send your payment, passport size photo, standard cover page and course certificate to our Anchorage Office and we will print your card and mail it back to you.

Subject: Adopt a solution for tourists and local communities

Private property owners, including those who run businesses, are clearly allowed to control cannabis-related activity by adults on their property. The board recognized this and made it clear that some may also wish to allow on-site consumption. This was a sensible rule, particularly because so many outsiders will visit Alaska's cities this year, and many of them will purchase marijuana. Clearly, they will also consume it.

Until the board adopts a rule, those adults will be consuming unlawfully. It makes no sense that we would set up all those people for legal trouble. It makes no sense that the board would deny local communities a chance to decide where these individuals could go.

I understand there are questions about the new administration in Washington, D.C. But the solution isn't to leave our tourists at risk or our towns without answers. The federal government stated it wants government to regulate marijuana-related activity, and there are serious health and safety issues at hand. Please do not abandon your plans to adopt a solution or leave our visitors at risk. Please adopt Mark Springer's proposed rules for on-site consumption and let's get a solution in place.

Thank you.

Subject: Safe Public Places to Consume Cannabis

I believe that the Alaska Marijuana Control board should reconsider their decision to not allow "cannabis cafes" - safe, public, places for responsible adults to consume legally acquired marijuana.

As with alcohol, which can be legally consumed responsibly in designated public spaces, marijuana deserves the same treatment, so that it can be consumed legally by locals and tourists alike. Specifically, regulating public spaces to consume cannabis provides safe methods for Alaskan tourists to legally and responsibly consume, seeing as though it would be difficult for visitors to find public residences to go to, to legally consume marijuana. We want to safe-guard and protect those who choose to engage in this now legal activity, when they visit Alaska.

Without safe public spaces to consume marijuana, we are just creating more potential criminal activity, by allowing people to legally purchase marijuana, but not allowing them a safe space to consume it (outside of private residences). Those who supported the legalization of marijuana, want to see it be treated equally alongside the standards our state upholds for alcohol consumption, therefore, supporters want a safe place to socially consume.

Thank you.

Subject: Please adopt a solution, not delay even further

Adult consumers should have a regulated place to go to consume marijuana. Consumption should not take place on sidewalks, alleys, or public parks. Alaska's proposed rules to regulate cannabis cafés offer a sensible solution. Please don't abandon visitors who would like to purchase products from licensed stores.

Law enforcement should focus attention on serious crime. They should not spend any time chasing adults who simply want a place to consume cannabis. Having a regulated location where consumers can go is an asset both to the community and to law enforcement. Cities should not be denied the ability to put that solution in place.

Please support adoption of the rules presented by Mark Springer last summer. If you don't adopt them now, the problem will persist in the communities, and this board will simply have a bigger problem to address later.

Subject: Regulate marijuana consumption

I was disappointed to read that board members failed last month to pass reasonable rules for communities that allow on-site consumption. It missed an opportunity to put into place a set of rules that would ensure the thousands of state visitors we host annually will have a regulated place to consume cannabis.

I understand that some board members are fearful of what a new administration might think. There are unknowns. But, the federal government has been very clear: states that allow marijuana-related activity must regulate it. The Department of Justice just confirmed its most recent policy statement is still current policy. There is no reason to think that fewer regulations – particularly over where people can consume – are a better solution.

Keep in mind that it wasn't the board that allowed on-site consumption, but rather the voters. The board should adopt sensible rules, and not simply leave adult visitors to Alaska with no guidance. That furthers neither Alaska's nor the federal government's goals. Please reconsider, and adopt Mark Springer's proposed rules.

Thank you.

Subject: Please adopt guidelines for on-site, public consumption

I've lived in Fairbanks for more than two thirds of a century. I don't use marijuana or any other drugs but I strongly support the rights of others to consume them. When I voted for the legalization of marijuana I very much intended that the drug would be regulated similar to alcohol. Some communities in Alaska are dry. Some are damp. And some are wet. But all of them have the option to be wet if the community chooses that route.

It is time to establish similar guidelines for marijuana at the state level. There should be legal places to buy marijuana just as you would a bottle of wine. There should be legal places to consume marijuana just as restaurants and bars can sell a customer a beer or a mixed drink.

It is up to you as a board to set the rules and regulations in place so that the growth, sale, and consumption of marijuana is legal in this state.

It is then up to individual communities to decide if marijuana will be 'dry', 'damp', or 'wet' in their community.

Please carry out the will of the electorate who voted to make marijuana legal in this state.

Thank you.

Subject: Please adopt a solution, not delay even further

Adult consumers should have a regulated place to go to consume marijuana. Consumption should not take place on sidewalks, alleys, or public parks. Alaska's proposed rules to regulate cannabis cafés offer a sensible solution. Please don't abandon visitors who would like to purchase products from licensed stores.

Law enforcement should focus attention on serious crime. They should not spend any time chasing adults who simply want a place to consume cannabis. Having a regulated location where consumers can go is an asset both to the community and to law enforcement. Cities should not be denied the ability to put that solution in place.

Please support adoption of the rules presented by Mark Springer last summer. If you don't adopt them now, the problem will persist in the communities, and this board will simply have a bigger problem to address later.

Subject: Adopt a solution for tourists and local communities

Private property owners, including those who run businesses, are clearly allowed to control cannabis-related activity by adults on their property. The board recognized this and made it clear that some may also wish to allow on-site consumption. This was a sensible rule, particularly because so many outsiders will visit Alaska's cities this year, and many of them will purchase marijuana. Clearly, they will also consume it.

Until the board adopts a rule, those adults will be consuming unlawfully. It makes no sense that we would set up all those people for legal trouble. It makes no sense that the board would deny local communities a chance to decide where these individuals could go.

I understand there are questions about the new administration in Washington, D.C. But the solution isn't to leave our tourists at risk or our towns without answers. The federal government stated it wants government to regulate marijuana-related activity, and there are serious health and safety issues at hand. Please do not abandon your plans to adopt a solution or leave our visitors at risk. Please adopt Mark Springer's proposed rules for on-site consumption and let's get a solution in place.

Thank you.

Subject: Regulate marijuana consumption

I was disappointed to read that board members failed last month to pass reasonable rules for communities that allow on-site consumption. It missed an opportunity to put into place a set of rules that would ensure the thousands of state visitors we host annually will have a regulated place to consume cannabis.

I understand that some board members are fearful of what a new administration might think. There are unknowns. But, the federal government has been very clear: states that allow marijuana-related activity must regulate it. The Department of Justice just confirmed its most recent policy statement is still current policy. There is no reason to think that fewer regulations – particularly over where people can consume – are a better solution.

Keep in mind that it wasn't the board that allowed on-site consumption, but rather the voters. The board should adopt sensible rules, and not simply leave adult visitors to Alaska with no guidance. That furthers neither Alaska's nor the federal government's goals. Please reconsider, and adopt Mark Springer's proposed rules.

Thank you.

Hello,

We have been speaking with several businesses here in Juneau about advertising their business. No one is exactly sure the regulations on advertising. Can you provide any feedback on this? We have 5 radio stations as well as several webpages and Facebook pages for those radio stations.

I appreciate your time and assistance.

Thank you,

Personal note: I completely agree, there should definitely be safe places for the use of legal marijuana. We've passed the access to it but if we're really expecting the state to make money in the situation you've gotta think of the next step in the subject.

Subject: Regulate marijuana consumption

I was disappointed to read that board members failed last month to pass reasonable rules for communities that allow on-site consumption. It missed an opportunity to put into place a set of rules that would ensure the thousands of state visitors we host annually will have a regulated place to consume cannabis.

I understand that some board members are fearful of what a new administration might think. There are unknowns. But, the federal government has been very clear: states that allow marijuana-related activity must regulate it. The Department of Justice just confirmed its most recent policy statement is still current policy. There is no reason to think that fewer regulations – particularly over where people can consume – are a better solution.

Keep in mind that it wasn't the board that allowed on-site consumption, but rather the voters. The board should adopt sensible rules, and not simply leave adult visitors to Alaska with no guidance. That furthers neither Alaska's nor the federal government's goals. Please reconsider, and adopt Mark Springer's proposed rules.

Thank you.

Subject: Please adopt a solution, not delay even further

Adult consumers should have a regulated place to go to consume marijuana. Consumption should not take place on sidewalks, alleys, or public parks. Alaska's proposed rules to regulate cannabis cafés offer a sensible solution. Please don't abandon visitors who would like to purchase products from licensed stores.

Law enforcement should focus attention on serious crime. They should not spend any time chasing adults who simply want a place to consume cannabis. Having a regulated location where consumers can go is an asset both to the community and to law enforcement. Cities should not be denied the ability to put that solution in place.

Please support adoption of the rules presented by Mark Springer last summer. If you don't adopt them now, the problem will persist in the communities, and this board will simply have a bigger problem to address later.

To Whom It May Concern:

I am resending my original letter of objection regarding a limited marijuana cultivation facility application to be in my neighbor's garage because my concern is that the state is more concerned with income rather than the concerns of private citizens.

My worry is that this insidious law allows for the rights of private homeowners to be completely ignored. The state wouldn't allow a liquor store to be opened in a residential neighborhood, but yet these grow operations are. The growing crime - murder and theft - epidemic in the state has one common denominator and that is drugs. So, now the state has allowed an invitation into residential neighborhoods for this epidemic to spread.

We have worked hard and invested in our neighborhood. Now we feel that this is being taken from us because our neighbor wants to add this "business" directly in our backyard. Our property value will drop (but the taxes won't), and the neighborhood will get attention we didn't ask for from the underbelly of society. It's naive to think that this won't happen given the circumstances of what is happening with the increase in crime.

I am respectfully asking that the concerns of the home owner be considered with the highest priority over the applicants who want to have a so-called business in their garage.

MARIJUANA LICENSE APPLICATION LETTER OF OBJECTION

January 11, 2017

LICENSE NUMBER: 11804

DOING BUSINESS AS: ALASKA HOME TOWN PRODUCTS

FROM: JAMES AND LORI BOLTZ

jimboltz@mtaonline.net

RE: (Applicant) ANDREW C MURR

murr@mtaonline.net (applicant has been served with copy of this email)

PO Box 520143

Big Lake, AK 99652-0143

[907-232-4807](tel:907-232-4807)

Business License Number: 1046590

Latitude, Longitude: 610536250, -149.835800

Physical Address: 3907 S. Lakeview Loop

Big Lake, Alaska 99652-0143

To Whom It May Concern:

This letter is being written to object to the application of a limited marijuana cultivation facility to be located in our subdivision. This proposed facility is quite literally in our backyard.

Under Chapter 306 in The Regulation of Marijuana Industry of the State of Alaska's regulations 3 AAC 306.010 under Article 1 regarding license restrictions – we are urging our local government to protest an application under 3 AAC 306.060 on the grounds that the applicant's proposed licensed premises are located in a place within the local government where a local zoning ordinance prohibits the marijuana establishment, unless the local government has approved a variance from the local ordinance. Further, we would like proof that under 3AAC 306.010 (Article 1) paragraph (d) and under AS 17.38.200(i) the applicant has been fully vetted and the applicant(s) are not in violation of those restrictions.

Regarding 3AAC 306.080 (Article 1) item 6: "the license would not be in the best interest of the public" – this argument alone should warrant the application to be denied. It is undeniable that with the expansion of the marijuana industry in all forms, criminality follows. To have this element added to our residential neighborhood that is zoned residential would have devastating effects on our way of life, safety and devaluation of our property. The community of Big Lake, and the Mat-Su Borough at large are already impaired.

Should Andrew Murr's application be denied or approved, I urge that all concerned parties be informed of these actions so we may take necessary precautions or actions to protect our rights as landowners and citizens of Big Lake and the State of Alaska.

I am urging our local government to prohibit the operation of a marijuana cultivation manufacturing facility as listed in 3AAC306.200 under Article 2 Local Options. I am also requesting that all residents of the affected subdivision be made aware by Andrew Murr that each and all criteria listed in 3 ACC 306.420, as well as 3 ACC 306.425 and 306.430 under Article 4 (Marijuana Cultivation Facilities) are met.

Under the Conditional Use Permit for Marijuana Related Facilities (MSB 17.60) put forth by the Matanuska-Susitna Borough, the question "Is the conditional use compatible with and will it preserve or not materially detract from the value, character and integrity of the surrounding area?" The answer is NO! It will NOT preserve and it WILL materially detract from the value, character and integrity of our neighborhood. It will also put our neighbors, our possessions, and us at risk with the increased traffic and attraction of criminal elements.

Please deny the license and conditional use permit to Andrew and Kandee Murr.

Respectfully submitted,
James and Lori Boltz

Comment:

I am somewhat pleased with the new referendum and the AMCO Marijuana Control Board. I saw a product online, a Bakers Ounce by Craft, smallest sugar and pin leaves from big buds. I have done research and development of other cannabis hemp health food and medicine solutions to the existing needs. There are more medical uses and need in Alaska and the nation. I want to start a new product line and store front if need be. More on that later. I have been reading up on the licencing requirements and feel I have over thought the whole thing and overly complicated things myself. I need a vacation... I would love to be at that meeting, perhaps the e-mail will suffice. Rod.R.
