APRIL 27<sup>TH</sup>, 2017

Director Erika McConnell  
Alcohol & Marijuana Control Office  
550 W 7<sup>th</sup>, Suite 1600  
Anchorage, AK 99501

Good Afternoon Director McConnell,

I am writing to formally request a waiver for failed harvest batch number MS20170408 consisting of approximately 355 grams of flower and maybe 28 grams of trim which failed the microbial portion of testing with CannTest on 4/17/2017 for aspergillus fumigatus. We believe the contamination occurred by means of cross-contamination during the curing process for this particular harvest batch, as two subsequent harvest batches passed their respective microbial tests.

We understand that if approved we can sell this product to a manufacturer for solvent based extraction, such as Einstein Labs instead of having to completely waste it. I am respectfully asking for permission to transfer this product to the manufacturer. If you have any questions please contact me at 907-440-4415.

Kind Regards,

Shannon Lowry
